Representative of 7000 political prisoners of the Palestinian resistance

TAKE IN THEIR HANDS THE STRUGGLE FOR SETTING UP OF THE INTERNATIONAL NETWORK

April 17 is the day of the Palestinian prisoners... Every day is April 17!

Dear comrades,

Thank you for your letter, I hope you are well, our meeting was very important and I am glad to welcome you in Palestine. We appreciate your efforts for supporting the issue of Palestinian political prisoners in the Israeli prisons as well as we support the rights of the political prisoners in the world to get their freedom.

Nowadays, more than 7000 Palestinian prisoners are in the Israeli jails, suffering from the policy of Israeli occupation. According to our talk we think more efforts should be done to raise the voice

of the freedom prisoners in the world, so establishing an International Network for the freedom of the world prisoners is the net which can affect and create an international movement to support the rights of the prisoners to be released.

According to 17 April the day of the Palestinian prisoners we hold many activities in Palestine and some in Arab countries and abroad supporting the freedom of Palestinian and world prisoners. It is not just a day, it is a month of activities. So I

suggest to arrange a program of activities this year on the cooperation with you and if we can establish the international network it will be our ship for doing all the activities in different countries with local community and NGOs who support us.

We can do a big demonstration in front of the Israeli embassies in the world to ask for freedom of the prisoners.

And we can arrange a Speaking Tour to explain about the situations of the prisoners in the Israeli jail.

Tell me what your suggestions.

I hope all of you are well.

Best wishes

CALL TO FIGHT FOR THE SYRIAN REFUGEES

Comrades. I hope you are all fine the time, thank you for your efforts and work for the freedom of all the political prisoners in the world, we believe that the freedom of them will be a reality because they are refused to live under occupation and they struggle for dignity and humanity. I hope that we can together raise the voice of freedom of all the prisoners.

We will continue our work against the enemies of peace and freedom for refugees. Also as you know half of the

Palestinians are refugees in Palestine and abroad, in SYRIA, LEBANON JORDAN AND OTHER COUNTRIES AND nowadays the refugees of Syria are suffering too much from the terrible war.

Best wishes

"We have to make a strong campaign and international actions for the freedom of all political prisoners"

"There has to be an International Network of solidarity to coordinate demonstrations and actions the same day all over the world"

On December 31st there will be an event for the freedom of political prisoners. It will be at the gates of Korydallos jail, in the outskirts of Athens, where Nikos Romanos and most of the 52 political prisoners are. Facing this event, as correspondent I met Giorgios Romanos –Nikos' father- where he gave more information about this event, his points of view and messages towards it. First of all he told that this is annual event that relatives have been doing for several years, since 2008 in his case which was the year Nikos was imprisoned. This is how they welcomed the New Year with their relatives and friends.

This event grew year after year. Thousands had met at the gates of the prison. This is important, said Giorgio, because it

is about fighting for Nikos' freedom and the freedom of all political prisoners of the Greece, Europe and the world.

And in order to achieve that freedom, Giorgios says *"we do not have to fall in political and theoretical divisions; that one is an Anarchists, the other is a Communist, the other leftists... Because if Anarchists organize their events and then leftists do not participate, or every collective or group organizes its own agenda, they divide the actions and let aside the most important issue: which is making strong united movement for the freedom of the prisoners. Here we're not discussing which the best theory to change society is. We're fighting for the freedom of political prisoners, which is*

Nikos Romanos being arrested by the police forces

above all these differences... and is something we all have in common".

That is why Giorgios thinks that "the movement for the freedom of political prisoners doesn't have a political banner or ideology. One can be communist, the other anarchist, or leftist and they have to unify... we have to make a strong campaign and international actions for the

freedom of all political prisoners. There has to be an international network of solidarity to coordinate demonstrations and actions the same day all over the world".

This is why December 31st must be important, as well as all the steps forward to strengthen this fight.

Letter from "Human Right Defender" to the Greek youth in jail

"We share with you this struggle for freedom and dignity, and resistance of political imprisonment regardless of the pretext or the accusation"

Fellow activists and political prisoners of Greece

We, your brothers, in the international struggle for the sake of justice and freedom, share with you this struggle for freedom and dignity, and resistance of political imprisonment regardless of the pretext or the accu-

sation. We consider that our freedom is not as the freedom of others. We remain prisoners, deprived of freedom. Just as many have been imprisoned in Greece, so too is the condition of thousands of prisoners for the sake of Palestinian freedom.

We at Human Rights Defenders, as one of the organizations cooperating with the Argentinean organizations for

International Prisoners' Day, stand by your side in your struggle for the sake of opposing political arrest just as I now am initiating an international campaign for Shuhada Street in February, 2016. And we ask you please to join all your honoured hands in the world to support this day.

BADEA
COORDINATOR OF HUMAN RIGHT DEFENDER

The political prisoners of the Greek youth claim:

“It is important to set up an International Network to coordinate the fight for the freedom of all the world political prisoners”

Panagiotis Argirou: “I have been insisting in all the organizations with my message. That is, despite the political differences, we have to get unified to carry out a single unified struggle for the freedom of all the world political prisoners. We have to launch a strong fight, and this is done by getting unified. The struggle for the freedom of all the prisoners and against the oppressors’ state is a question that belongs to all the oppressed”.

“I want to tell all the organizations and comrades that will be with us in different parts of the world that they can spread these activities they will carry on as part of the Black December called by me and Nikos

Romanos (another Greek rebel young political prisoner) from the jail. The idea is to integrate everything”. Panagiotis said.

Giorgios Karagiannidis: “It is important that all the organizations that will take part of this international day on 31/12 and have already done it on 12/12 to stand up in an international net to coordinate the fight for the freedom of all the political prisoners all across the world. As anarchist I am against to set up an organization but I do believe that the international coordination is important, and for that it is the setting up of such net, that has to be of solidarity and fight. Since it is not only about the 31/12 day, but every day

December 31th, rally at the door of the jail

the fight must continue, for the freedom of all, to stop the genocide in Syria, and to defeat this unfair system that creates these prisons and massacres”

Dimitris Politis: “The Syrian masses are the ones on the front. They are dying. We must support them. We support them from the jails”

Giorgios Nikolopoulos: “I expect a big support for the Syrian masses. They are at war. As I always say, when someone is at war or confronting the oppressors’ State, we have to look what unifies us to carry out a stronger unified fight. This is why I also expect a movement of solidarity and international fight”

Letter to comrade Jock, political prisoner in Bulgaria

From Leandro Hofstadter, correspondence of Socialist Publishing House Rudolph Klement and Emanuel, organizer of the International Network for the freedom of the political prisoners of the world

Hello comrade Jock,

We are Leandro and Emanuel. We've met comrade Panagiotis in Athens, where the oppressor Greek state has him deprived of this freedom for the sole fact of fighting for a more fair equal society, and he gave us your contact. He told us that you, just like his case, were imprisoned by the fucking Bulgarian state because you defended gipsy youth from fascists. This is what this terrorist system does to defend the ideals and the properties of the powerful, kills the oppressed and the innocent, and when we want to defend ourselves from these attacks, the system locks us up and accuses us using the word "terrorist", "violent", when the powerful of the system are the true terrorists, murderers and violent. You have our support and we will promote the fight for your freedom in every place where we can.

As surely Panagiotis told you, we are writing you in representation of the comrades of the Syrian resistance, who stood up in 2011 in a huge revolution (which was not only Syria but in the whole Middle East) and today are being slaughtered in a genocide that has taken the lives of more than half a million people, and caused half of the population of the country

to live as refugees. They, from the resistance, have given their solidarity with the comrades imprisoned in Greece and they've recognized that it is a same fight internationally against genocide, the massacres, the repression and the jails we suffer every time we want to come out and fight in any place of the world. You have their full support also.

We have been making international campaign for the freedom of all the political prisoners against the massacres and the genocide in Syria. We believe this is a matter of principles and there are no different political opinions that can separate us from this struggle. We have to be together and discuss our differences (if they exist) within the framework of this joint fight.

The governments, the police, the armies do not ask, us which is our ideology when we are bombed, enjailed or repressed. They just attack us all, and we all have to be united to defend ourselves from them. And the political prisoners such as you, comrade Panagiotis or the rest of the Greek youth, for us, are hostages in the hands of the state, the powerful, imperialism, Troika... which we fight to get them free and out of the jails around the world.

(...) We hope we can know more about you, about your case and your ideas about this call to the international network and to unify the fight for the freedom of all the political prisoners of the world. Of course, we hope we can have also the chance of getting to know each other personally. We think it would be important for the fight for

your freedom to tell about you to all the militant rebel organizations of the world, from Greece where we are now and all those that we can get from this international network, calling them to take the fight for your freedom in their hands.

As the workers of Las Heras would say... Never again we'll be alone! And you are not alone, comrade. Know that we are fighting for your freedom in the world!

As the Greek youth say... The passion for freedom is stronger than every prison cell!

We send you a warm hug and international support, in the fight for your freedom and that of all the imprisoned comrades.

MESSAGE FROM "PLATAFORMA POR LA LIBERTAD DE ALFON"

"We consider solidarity as mutual support: the ones where all workers' fights are not alone. Unity and solidarity are worker's strength."

Dear comrades:

First of all we appreciate your solidarity with the ones attacked by the Spanish State for defending workers' dignity, their freedoms, rights, social improvements and social justice... because when we demand Alfon's freedom, we demand freedom to all those who suffer similar injustices and abuses by the authority under the slogan of: "an injury to one is an injury to all!"

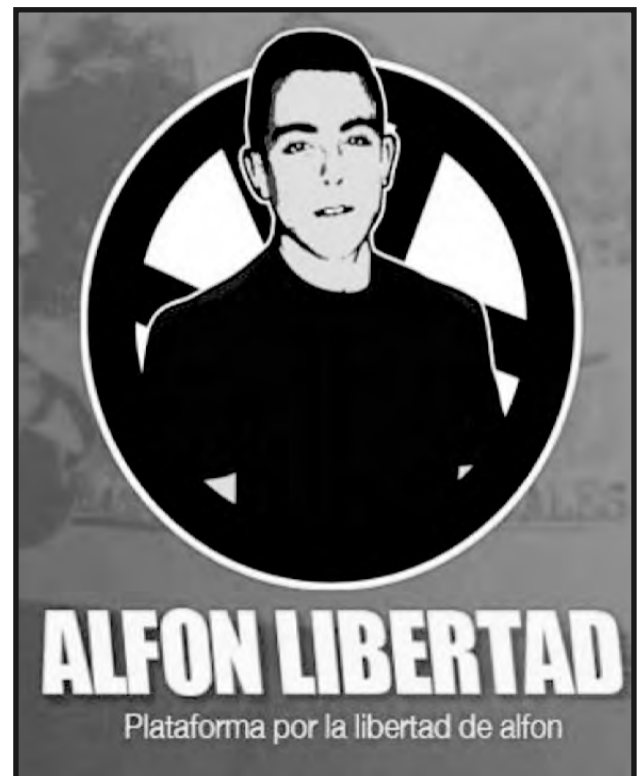

I assure you that one way or another we will give your touching words to comrade Alfon (as well as his family, friends, comrades, neighbours...). What I cannot guarantee is that Alfon personally will answer you, at least in the short term, since he is -against any law- in a FIES regime; this means he is under a special regime and followed closely and among many measures his communication with the outside world is very limited and is under heavy surveillance (INCLUDING HIS FAM-

ILY). Anyway we are going to try. For the time being you can use this intermediary as you consider necessary.

When the events took place, during the European general strike, his detention went to a full silence, or worst to the lies and fallacies to the service of the polite and capital. Only solidarity of neighbours first and workers from all over later, make possible that we raised our voice, our truth, our denounce under the powerful speaker called solidarity.

We consider solidarity as mutual support: the ones where all workers' fights are not alone. The unity and solidarity are worker's strength.

Unfortunately I must tell you that in general we did not know about the so bleeding story and the thirst of revenge of the Argentinean government, but now that we know, we make the commitment of being your spokespeople (as much as we can)

everywhere we can.

Finally please give to all the workers affected in the conflict, their families and friends, our solidarity.

**LONG LIVE THE FIGHT
OF THE WORKING
CLASS!**

A strong hug for the unity of the workers of the world, I say goodbye.

Rafael Flores member of PLATAFORMA ALFON LIBERTAD

PD: I send you bellow the next call for the freedom of Alfon. As well as the next anti-repressive meeting in the spanish state where i personally commite t oread your letter.

“The fight for your freedom is present in each action that we take ahead”

Dear comrade Alfon,

From Argentina we want to give you a warm hug on behalf of all the comrades and let you know that though we do not know each other we are fighting for your freedom together with dozens of workers and human right organizations of the world.

We are oil workers that for fighting against the income tax and against the labour outsourcing we were in jailed for 3 years and half and then they condemned us to life sentence –to four of us- and to jail to 6 of us. (...)

We know what you are living today because we have suffered it though we are free, every day we are thinking that this can be our last day with our families as in any day the sentence can become effective and sent to prison.

We insist you, the fight for your freedom is present in each action that we take ahead, and as you can see in different statements and photos that we sent you.

We think the need to set up an International Network is the path to deep the fight for the freedom, because we

The fighting banner for the “Acquittal of the oil workers of Las Heras” was put where it must be : the huge demonstration of the oil workers from Santa Cruz and Chubut

need to unify and show to our executioners that we are not alone. If our enemies keep us in jail, it is because we have not unified enough our forces in the world.

The fight for the net is moving forward. The Palestinian Prisoner Society which represents the 7000 prisoners in the jails of Zionism has joined in the struggle for setting up this international Network, they think

it is very important to create an international movement in support the political prisoners.

Never again alone!

The rebellion of the slaves is not a crime, it is justice!

A Telecommunication took place with the comrades of Human Right Defenders from Hebrón who denounced that minutes before it, the Zionist occupant forces broke into their house to terrorize them. It was read the endorsement of Claudia Pailaguala, wife of Jorge Armoa who was imprisoned for over three months with Oñate, Vivares, Cisterna, and Soria for fighting in defense of BaccSA Oil workers, as well as the greetings from the comrades from Corral de Bustos, Córdoba, who were put on probation and for that reason, they are prevented by the boss to fight and express themselves.

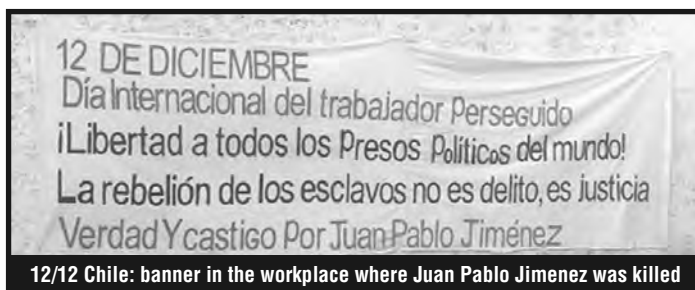

Different comrades have intervened and made feel their demands. One of the

speaker was Lourdes Hidalgo. Survivor of the massacre of Viale (clandestine workshop). The atmosphere was totally fraternal and unitary. Thus, this public meeting was a leap forward in the struggle to unify all the political prisoners and persecuted where it was discussed the need to set up a

Permanent Committee for the Political Prisoners, the Persecuted and Refugees all across the world as well as to extend a National Meeting for the Freedom and drop the charges against all Fighters and against the "happy trigger" and assassination of workers.

Letter from Panagiotis (Greek political prisoner)

“I am happy that in Brazil there was something that brought into light the situation in Syria”

Hello dear comrade

I am happy that in Brazil there was something that brought into light the situation in Syria.

I think that the struggle for the Syrian revolution to be recognized from the lefts all over the world is very difficult. Now there was translated in Greek by other comrades the text that you gave me and I hope that more people here learn about what is really happening here.

Send to all your friends that fight there that they are in my thought. The war in Syria is a part of the total war against power everywhere. Every day that the rebels lose ground is a bad day for every revolutionary wherever he is.

A comradely hug

Panagiotis
