

Elections in Buenos Aires and other provinces: a huge deceit to strengthen the government and the bosses' politicians who support it

Out with Milei's autocracy, which is under the tutelage of the butcher Trump, the big bosses of AEA, and the Wall Street bandits!

The PJ and other IMF's parties in Congress gave the government full powers to attack the working class without restraint and surrender the nation to imperialism.

The Peronista union bureaucracy supports Milei, dividing the struggles, surrendering the collective bargains and guaranteeing labor flexibility.

We can only defeat this government through fighting in the streets:

With strikes, pickets, assemblies, and by kicking out the union bureaucracy!

Millions no longer believe them and will not vote or will spoil their vote
Their hatred against the bosses' politicians, and their decision are fair

To defeat the war declared on us by those above:
We have to fight like in the Cordobazo and 2001!

Down with the police regime, its Videlista judges and its genocidal military!

Dissolution of the repressive forces!
The people have a right to self-defense!!

LET THEM ALL GO AWAY, AND NOT A SINGLE ONE REMAIN!

Let the FIT-U break its pacts with the Peronist bosses in Congress and put its electoral campaign at the service of coordinating struggles and uniting demands!

Contracted metalworkers' strike at Ternium-formerly Siderar

Garrahan Hospital workers on strike

National Struggle Committee!

GENERAL STRIKE!

Imperialism must be expelled and the expropriators of the people expropriated!

Provisional revolutionary workers' and popular government!

MAKE WAY TO INTERNATIONALISM AND THE ANTI-IMPERIALIST STRUGGLE OF THE ARGENTINE WORKING CLASS!

The revolutionary socialists of Democracia Obrera (*Workers' Democracy*) call on workers to join our struggle alongside our true allies who are facing the same enemy, imperialism and the capitalists:

Stand alongside the millions of Hispano workers confronting Trump in the Battle of Los Angeles!

Stand alongside the Palestinian masses massacred by Netanyahu and the USA, bosses of Milei, who is complicit in the genocide!

USA is coming to recolonize Latin America. Its warships are already in the Caribbean and its military bases are in Colombia, Chile and Argentina, with NATO in Malvinas.

Out USA of Malvinas and all of Argentina!

Out with imperialism from the whole Latin America!

For the working class to live, imperialism must die!

Argentina will be socialist or a Wall Street colony
