Over 30 days of Zionist massacre in Gaza and all of occupied Palestine

Let's open the fronts throughout Palestine and the Middle East! For the destruction of the Zionist-fascist state of Israel!

For a day of rage and general strike of the world working class!

Zionist attack on Al-Shati refugee camp, west of Gaza

Under the command of bloodthirsty Biden, the fascist forces of Zionism enter Gaza. The fight is already house to house

It has been over a month since a brutal Zionist massacre on Gaza started, which has already left almost 11 thousand dead, hundreds of thousands of internally displaced and a total massacre where Zionism bombed schools, hospitals, homes and demolished refugee camps and full neighborhoods. Now, its fascist troops have entered the north of the strip and are already fighting house to house. A new Nakba is underway in Palestine, as in 1947/48. Zionism seeks to carry out an ethnic cleansing and to occupy under its military control northern Gaza, or the entire strip.

The massacre is not only in Gaza. In the West Bank, Zionism has been carrying out raids, assassinations and arrests of Palestinian fighters. At the time of writing, military clashes are taking place in Nablus, Hebron and Jenin, where the Palestinian masses are confronting the Zionist-fascist state of Israel, left to their fate by the Palestine Liberation Organization (PLO). In the Jenin camps, the Zionist army has already entered with its bulldozers to demolish them. The US and their agent, Zionism, are going for the entire Palestine.

This Zionist offensive is deepening with the open complicity of the Palestinian Authority, which negotiates with its hands full of blood of its people with the bloodthirsty Biden and the fascist Netanyahu. Thus, the bourgeoisie of the West Bank is getting ready to be the administrator of the concentration camps.

International Workers'
Organizer "IWO"

Heroic combats and resistance of the Palestinian masses in Gaza, and in Jenin and Nablus in the West Bank. The masses of the Middle East and the world take to the streets

The fighting in northern Gaza is already house to house, face to face. It has become a battle of the entire international working class. Zionism will be defeated with the workers of the whole world on war footing against Zionism and the imperialism that sustains it.

The struggle of the working class of the US and Europe to stop the genocide has begun. The ports have already been occupied stopping the shipment of arms for Zionism on the Pacific coast of the US, in Belgium and Barcelona. Weapons factories in England were stopped.

It is not the might of the Zionist army that allows it to advance militarily and is already encircling the north of the Gaza Strip, but it is the betrayal of the national liberation struggle of the Palestinian nation by the Palestinian and Arab bourgeoisies of the entire Maghreb and Middle East.

The masses want to fight. They are eager to enter the combat in the West Bank and to break the limits imposed on them by the Palestinian Authority, and also by Hezbollah in southern Lebanon and by King Abdullah II in Jordan.

The Yemeni masses are in a state of revolt in support of their Palestinian siblings. Millions have taken to the streets in Iraq, reminding the murderous US that they will have to flee, as the did in Baghdad. In the liberated territories of rebel Syria, the masses have also taken to the streets, despite the bombings of the fascist Al Assad and Putin, who take good care of the Golan Heights for Zionism.

The international working class is already standing in this enormous gesture of the Palestinian masses against the massacre and their unheard-of sufferings.

The Palestinian trade unions have called on the world working class to boycott the Histadrut. This call was taken up by dozens of workers' organizations in the world. This is the way! To expel this fascist trade union centre of the arch-reactionary Zionist working class, whose fate and privileges have long been tied to the victory of the state of Israel and the crush-

Gaza: The Exile of the Palestinian Nation

Zionism is fascism, and it is financed by the US

The Arab bourgeoisies look the other way. They have the dollars of the oil income, which were given to them by the transnationals, placed in the banks of Wall Street... How miserable!

Thousands of displaced people are moving from the north towards the south of the Gaza Strip, along Salah al-Din Street

ing of the Palestinian working class, real outcasts in their own land and slave labourers of capital in the whole region. On this, we call the reader to look at the appeal of the Palestinian trade unions to the international working class.

The cowardice and servility of the Arab bourgeoisies and the Iranian theocracy before imperialism and the Zionist occupier

Imperialism needs to reposition Zionism with firepower to act again as a gendarme for the imperialist oil companies and all their business in the region.

The massacre of the Palestinian people is a decisive step on this road, which, if successful, will allow imperialism to strike a blow from the right against all the Arab masses in the opposite direction to that struck by the exploited in successive revolutionary waves in 2008 (after the US defeat in Iraq) and in 2011 in the whole of the Maghreb and the Middle East. We give an account of this in an article of this International Workers' Organizer entitled *"The attack on Gaza and the Palestinian nation: Imperialism seeks to strike strategic blows to recompose its hegemony in the world economy and politics."*

The Palestinian bourgeoisie of Hamas, which controls Gaza, beyond the heroism of

its fighters, is only now calling for the fighters of the camps in the West Bank, which are already being massacred by Zionism, to enter the struggle in an unsynchronized way. Meanwhile, its leadership is meeting in Egypt with the Al Sisi dictatorship, perhaps getting a place to locate the new diaspora in that country after Zionism's massacre in Gaza. It is not the time for withdrawal but to prepare a new mass counter-offensive, opening the fronts in all the territories of occupied Palestine and the Middle East.

The Jordanian bourgeoisie is the slaver of the Palestinian people par excellence, who are used as slave labour in the whole region. Hezbollah controls the Palestinian children and grandchildren massacred in Sabra and Shatila so that they do not enter the combat against the state of Israel as they did in 2006.

The Palestinian bourgeoisie, the Iranian theocracy and Hezbollah in Lebanon know perfectly well that if the fronts are opened and all the Palestinian masses from Jordan and the West Bank, from Lebanon, Gaza, Egypt and Jerusalem enter the combat, this would mean the beginning of a new revolutionary offensive of the Palestinian masses. This would quickly act as an electric shock throughout the Middle East to raise the masses in revolts greater than those that took place 11 or 12 years ago, against imperialism and its murderous regimes such as Iraq, Syria (seated on the bayonets of Putin and Al Assad), Sudan, Saudi Arabia, Egypt... All junior partners of imperialism in the region.

The Arab bourgeoisies get slice of the oil revenue and a large part of this surplus of their exports they invest in the cities of London, Europe and Wall Street. They have their profits tied to imperialism and will never break with it or confront it. What they fear is the revolted masses.

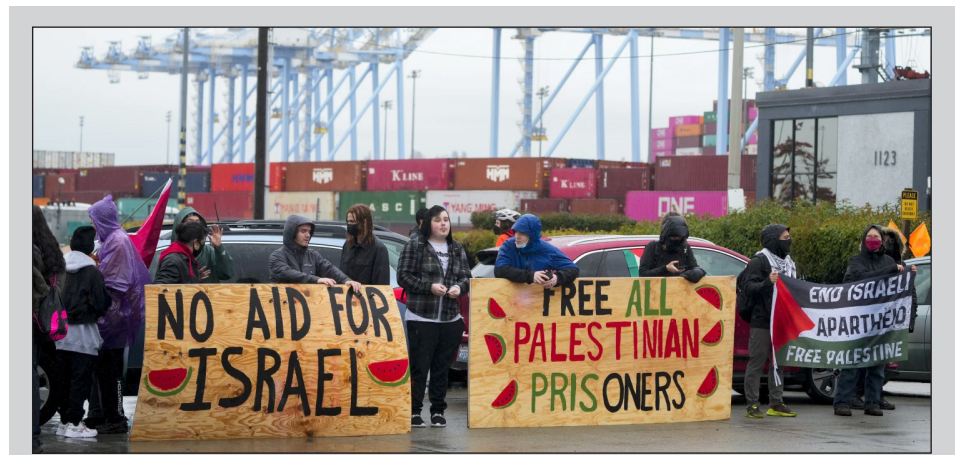

The task of the revolutionary socialists: to be in the front line of the Palestinian national liberation war against the Zionist occupants, what does not mean giving political support to the bourgeoisie

We do not put an equal sign between the heroic Palestinian resistance fighters and their organisations, and the Zionist invaders of their nation, as the whole reformist left and the traitors to revolutionary Marxism have done so, sending condolences to fascist settlers armed to the teeth occupying Palestinian land.

Politically, we affirm that the war of national liberation, the conquest of a free, secular and democratic Palestine from the Jordan River to the sea, can only be fully guaranteed by the Palestinian working and peasant masses, supported by the working class in the region and internationally.

However, one has to be blind and a lackey of Zionism not to see that it is Hamas and the partisan organisations that are entering the fray throughout Palestine on a daily basis that are leading this just war of national liberation. It is the duty of the revolutionaries to be in the front line of this combat, to clearly define their trench, **to fight for the recognition of all the organisations that defend the Palestinian nation against the Zionist-fascist beast that occupies it under the US command as a belligerent army.** Only in this way will the revolutionaries be able to fight and convince to take the political leadership of the war, maintaining their political and organisational independence.

The new social-imperialism, which has emerged from the entrails of the renegades of Trotskyism, falsifies the Marxist position on the war of national oppression. They use the "imperative need to maintain political and organizational independence from the bourgeoisie in the war" to hide the fact that they shy away from combat, since maintaining political and organisational indepen-

US: blockade of a ship with weapons for Zionism in the port of Tacoma

dence must be done by positioning oneself in the combat of a just national war, whoever leads it in the beginning.

This was the revolutionary programme of Marxism in the 19th and 20th centuries. In contrast, the new social-imperialism plays hide-and-seek in a pool of blood of the exploited masses. They do so because in reality they act as the left wing of the occupying troops, which places them as pacifists, closely linked to the Arab bourgeoisies who deny any military aid to the heroic struggle of the masses, while the US and imperialist Europe fill the war arsenals of the fascists and Zionism with weapons.

If the world proletariat has stood up to paralyse the imperialist and Zionist war machine, our war cry is "Disarm Zionism!" "Arms for Palestine!"

This we developed in the statement we issued on October 8, the day after the Zionist invasion of Gaza.

In this International Workers' Organizer, in its various articles, we give an account of the Marxist position on the Palestinian question. We respond in them to the cynical policy of "condolences" that the reformist left has been giving to the murderers of the Palestinian people, as if that nation were occupied by "peaceful settlers" and not by fascist gangs that remove the Palestinian people from their lands and their cities with their bulldozers and at gunpoint.

What the FIT-U of Argentina and all the so-called "anti-capitalist" currents of the left have done with their "condolences" to the "civilian victims" is to enter into an "anti-terrorist front" with which imperialism justifies, under the excuse of "defeating the terrorism of Hamasm," invading Gaza and expelling the Palestinian people by ethnic cleansing in the region. As we have already said, the second Nakba has begun, and as in

1947/48, the traitors of the reformist left are with imperialism and Zionism.

That is what the pact of Stalin and the CPs with the US and world imperialism was all about, legalizing the existence of a state of Israel over the ruin, massacre and expulsion of the Palestinian nation. Back then and now, they talked about "peaceful settlers" who organize "collective farms," "socialist kibbutz," covering up the biggest colonizers of the Palestinian nation. Today, as yesterday, they call for "unity with the Jewish working class," when the latter, as we have already said, has its privileges tied to the fate of the existence of Zionism...

We explained this question at length in this International Workers' Organizer in an article entitled "The Palestinian current Al-Yudur is right," about a polemic carried out by this movement against the reformist left of the Spanish State.

A revolutionary program must be conquered so that the Palestinian people, together with the international working class, can defeat the Zionist-fascist state of Israel and the imperialism that sustains it

LET'S OPEN THE FRONTS OF THE TORMENTED PALESTINE!

This would be a decisive step towards the uprising of all the masses in Iraq, Syria, Iran and the whole Middle East...

From the refugee camps and trade unions, from the Palestinian militias, universities and schools, a **Palestinian National Assembly of the occupied territories and the diaspora in the neighbouring countries must be set up immediately,**

with one representative every 10.000 inhabitants, which will take in its hands the political and military struggle of expelling expulsion of the Zionist occupier and which will conquer a free, secular, democratic and non-racist Palestine; declaring the occupied homes and territories as people's property; expelling transnationals and Zionist capital associated with the US, and expropriating it without payment under the control of the workers and the poor people.

For the nationalization without compensation and under workers' control of the gas and its reserves just a few miles off the coast of Gaza, currently plundered by the Biden-Netanyahu gang!

This anti-imperialist fight for the great gas reserves of Palestine is an inseparable part of the fight of the entire working class of the Maghreb and Middle East for the expropriation of the imperialist oil majors without compensation, which plunder the wealth of the oppressed peoples of the whole region and plunge them into hunger, misery, under counter-revolutionary governments and regimes and occupying troops.

Only a provisional revolutionary workers and peasants' revolutionary government, supported by the armed Palestinian masses and the uprising of the international working class, will be able to carry this struggle to victory.

It is high time that the subjugation of the working class of the Middle East to the Arab and theocratic bourgeoisies who are handing over the martyred Palestinian people of Gaza for pennies was put to an end!

Open the road for the workers and peasants of the whole Middle East and the whole world!

For a day of rage all over the world!

For an international general strike hitting capitalists and imperialism where it hurts, their profits!

Let's stop the martyrdom of Gaza and the whole of Palestine now!

MAY THE WORLD STOP!

As the Palestinian trade unions de-

mand, stop the ports, the planes, the factories, the schools, the universities, the public buildings!

Stop the harvesting of dates and olives!

LET'S STOP THE OIL AND GAS PIPELINES!

LET'S STOP THE OIL WELLS!

NOW, MAY THEIRS FALL, THE ZIONISTS AND THEIR BOSSES, THE US AND THE MURDERER BIDEN AND THE PARTNER MACRON AND THEIR PIRATE GANGS!

It's time for civil war! Let's open the fronts!

Workers make the weapons; they transport and use them in the armies to die for their masters. The masses, when they are aware of it, know how to reach the arms and disarm Zionism as the dock workers of Europe do.

From the West Bank to Haman, from Beirut to Tahrir Square, arms to the Palestinian people!

Revolutionary strike in the world!

Brigades and arms to fight and break the siege of Gaza!

The workers of the US must encircle the 8 blocks of Wall Street and not let in or out any CEO, manager or shareholder of that rotten and murderous financial oligarchy that organizes the massacres in Palestine today, as yesterday in Syria.

Against the siege of Gaza, let's occupy Wall Street like in 2011!

BLACK LIVES MATTER! THE LIVES OF THE PALESTINIAN MASSES MATTER TOO!

THE WORKING CLASS IN THE US AND EUROPE HAVE THE CHANCE OF STOPPING THE ONGOING MASSACRE IN PALESTINE AND THE WHOLE MIDDLE EAST IN THEIR HANDS!

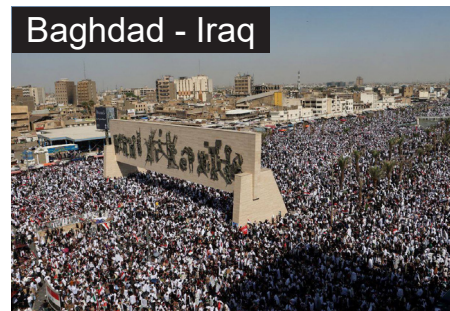

As in Iraq or Vietnam yesterday...

Before it is too late and Wall Street goes for a Nakba against the workers of the US and the whole world.

In Idlib, despite al-Assad and Putin's bombings, the masses take to the streets against the massacre

Thousands take to the streets in the capital

Imperialism concentrates its forces to crush the Palestinian nation and rearm its counterrevolutionary device in the Middle East

Presentation of the Internationalist Action Day of "The International Workers Organizer", organ of the FLTI, in solidarity with the Palestinian people and in the face of the electoral trap in Argentina, held on October 14, 2023

Extracts from Carlos Munzer's intervention

To begin with, I wanted to tell you that we were preparing this conference on the electoral trap, the ferocious attack of the capitalists and the brutal economic, political and social crisis that is going on in Argentina. And while we were in this job, we suddenly found ourselves in front of an action of the Palestinian resistance of an enormous magnitude, which hit the settlers who, armed to the teeth, have expropriated and robbed the Palestinian people of the lands surrounding Gaza. In response, today we are witnessing a Zionist counter-offensive that threatens to sweep Gaza, an open-air concentration camp where more than two and a half million Palestinians are imprisoned, out of this world.

The bourgeois leadership of Hamas had been responding to the attacks of the Zionist occupation forces with military actions, which then allowed it to negotiate a status quo where Gaza always remained a real ghetto, not unlike the Apartheid's Bantustans.

But this time, none of this worked. The fact is that **the Zionist response is the beginning of a real counter-offensive by the US imperialism, which seeks to place the State of Israel as their military spearhead in the Middle East, so that it can once again use its firepower to maintain order in the region.** It is clear that the counterrevolutionary forces of the State of Israel had been unable to use their firepower on behalf of imperialism in years of revolutionary mass uprisings throughout the Middle East that began back in 2011.

After its defeat in Iraq in 2008 and its bogging down in Afghanistan, with an American people in revolt against the imperialist wars, the U.S. was very careful not to make Zionism its shock force against

Butchers Biden and Netanyahu

the uprisings in Tunisia, Egypt, Syria, Bahrain, Iraq, Algeria, Yemen, etc.... This would have meant uniting all these uprisings to crush the State of Israel. It amounted to adding fuel to the fire of the revolutionary processes that were underway.

Imperialism then left this role to the cowardly and murderous Arab bourgeoisies, both Sunni and Shiite, to massacre, deceive and divide the uprising of the Arab and Muslim masses. It spared no effort to bring the murderous Putin to massacre the Syrian revolution, together with the butcher al-Assad, before it reached from Tunis, passing through Damascus, to Jerusalem. Turkey went on to play a central role collaborating with al-Assad, Putin and the US imperialism in the partition of Syria, or intervening directly in Libya in permanent war.

Imperialism is then preparing a new counter-offensive against the world working class, and the attack that is underway in Palestine, at the hands of Zionism, is part of it.

To understand the events that are be-

ginning to accelerate in Argentina, every conscious worker must gain a strategic vision of the current actions of imperialism at world level. We are in a country in bankruptcy, with contained hyperinflation, indebted to the marrow, with 60% under poverty line and millions of slaves flexibilized by the capitalists. A real crisis of the regime of domination and bankruptcy of the parties and all the institutions of the bourgeoisie has opened up, where the working class has been tied up and divided by the perfidious role of the traitorous trade union bureaucracy.

These international conditions will allow us to shed light on how the ruling elites and their parties act in Argentina which, in their different variants, are intervening today in the electoral trap orchestrated by the US Embassy.

Here imperialism is also preparing to strike a strategic blow to change the historical relationship of forces imposed by the working class with the revolutionary processes of 2001. We insist, a strategic

counterrevolutionary response is what the regime and imperialism are preparing.

As we could see in the last primary elections (PASO), the disbelief of the masses in the regime is enormous. This was expressed in a massive abstention and blank vote, and the emergence of the "Milei phenomenon" on the right, which drags along broad layers of the desperate dispossessed masses and the upper middle class. This time it is the bourgeoisie that seeks to give a strategic response to the crisis of the regime as a whole, which is nothing more than the expression of the end of a mode of capitalist accumulation based on indebtedness, plundering, the flight abroad of foreign currency and national income, such as agrarian, oil, etc.

As we will see later, imperialism is coming for the country's sources of raw materials. It has decided that the time of flirting with the people is over and has already brought out the whip of proto-fascist movements like that of Milei, of gendarmes like Juntos por el Cambio or that of Peronism with the social pact of the trade union bureaucracy, a real police inside the workers' organizations.

The big bourgeoisie sees that it already has 60% of the labor force flexibilized, with the traitors of the union bureaucracy tying the hands of the proletariat and surrendering each one of its struggles these years, with a parliamentary left that has disorganized and refused to regroup the left wing of the working class that led a thousand and one battles. The ruling classes have already taken note that there are millions of unemployed, self-employed, underemployed workers without any kind of collective bargaining agreement who are desperate masses who have nothing to eat the next day; an enormous industrial reserve army that the capitalists can put back into the productive process for a dime, and already flexibilized.

The order has already come from the US Embassy and the big economic groups: **the Argentine proletariat must be strategically defeated, its conquests, taken away from it and the nation wholly plundered.** This decisive attack is and will continue to be a link of a strategic imperialist counter-offensive on its Latin America "backyard", where enormous mass combats have been waged since 2019 and at the exit of the pandemic.

No one can be fooled here. The enormous monetary emission, the flight of foreign currency and the payment to imperial-

Japan. Workers and Zengakuren youth march in Tokyo against the massacre in Gaza

ism can only be solved by the bourgeoisie if it takes from the working class as a whole

***"U.S. imperialism (...)
once again it is returning
to the planet by waging
counterrevolutionary
offensives and wars to
retake control of the
world market"***

a new mass of surplus value. The rows developing among their different sectors are about what is the best way to do it. Some think that the trade union bureaucracy is the best tool to give in the collective bargaining agreements; others think that liquidating the unions is the best decision.

As we can see, Argentina and the Middle East are an example of how imperialism reacts to the world crisis that since 2008 has hit the US, and to the rise and revolutionary struggles that have swept different sectors of the planet, although in a desynchronized way.

Only from here can we understand the regional wars that are developing today, as in Ukraine, or those that were recently having an outbreak, as in Armenia and Azerbaijan in the Caucasus.

The US has entered into a crisis in its

control of the world economy and politics, which is disputed at every step by competing powers, whether imperialist or big commercial bourgeoisies like China or Russia, which renegotiate their conditions in the world market. This and its own crisis call into question its hegemony. **The political, economic and military balances of the planet have been broken and cannot be restored.** The short cycles of capitalist growth are only short breaths.

U.S. imperialism must break this impasse if it wants not to enter an open phase of decadence. **And once again it is returning to the planet by waging counterrevolutionary offensives and wars to retake control of the world market,** its sources of raw materials and branches of production and, as we have been insisting from the FLT, to take over definitively and directly the internal Chinese market and the sources of raw materials of "Great Russia"...

U.S. imperialism is then responding to this situation by concentrating its forces in hot spots of revolution, counter-revolution and wars in key sectors of the planet, where it intends to exemplify and discipline its competitors. We have already seen this in Europe. In recent decades, the European Union, organized around the Franco-German axis, had reconstituted its "living space" from Portugal to the Russian steppes. This was done under the aegis of Germany; however it had been that imperialist power that lost the Second World War. A real anomaly.

As we have already seen when considering the Ukrainian question, the US threw Ukraine as a pawn for Putin to split

it, exhaust it and push it more and more towards its colonization, but wearing itself and "Great Russia" out in the attempt... US imperialism brought to bear the full weight of NATO to subdue the Franco-German axis. That is to say, imperialism struck a strategic blow in Ukraine, what places itself directly on the borders of Russia, not only those of Europe but also those of Asia. For this purpose, it counted on and used the appetite for oppression and banditry of the butcher Putin to invade, divide and bleed a punished and plundered oppressed nation like Ukraine, even with the Moscow gang stealing a part of it like Crimea and the Donbass.

This coup of Anglo-US imperialism in Ukraine will also be a lesson for all the former Soviet republics. This is what Azerbaijan's attack is all about, expelling the Armenian population of Nagorno Karabakh, and preparing a war also of extermination of the Armenian people, to control with BP and Turkey as a junior partner, the oil routes of the Caucasus.

We insist that **US imperialism seeks to deliver strategic blows to restore its hegemony in politics and the world economy.** This was done yesterday with the Geneva Pacts. It carried out a counter-revolutionary blow in Syria, where al-Assad did "the dirty work" of crushing a revolution with the largest genocide of the 21st century. He had the invaluable collaboration of Putin and the Iranian ayatollahs, with whom he never broke political and economic relations. Syria was left divided, with US keeping all the oil, and with its defeat the revolutionary processes that began in Tunisia in 2011 were contained. This blocked the way for the entire revolutionary tide that threatened to reach Jerusalem.

Stalinism, together with the Arab bourgeoisies and the vertex same Palestinian bourgeoisie, kept the world working class and in particular the Palestinian people "neutral" in the face of the massacre of the Syrian people. And now, the Palestinian people are suffering the same destruction of their homes, cities and villages as the Syrian masses had yesterday.

World imperialism is in crisis and bankruptcy. The Wall Street crash of 2008, the stock market explosions of 2017 and 2019, the bankruptcy of commercial banks this year, are the expression that capitalism accumulates values and distributes profits that human work has not yet produced.

Bolivia: rank-and-file workers of Empresa Minera Huanuni stand in solidarity with the Palestinian people

In the electrical workshop section, the miners carry a banner: *"Let's defeat the genocide in Gaza. Destruction of the fascist Zionist state of Israel! Free, secular, democratic and non-racist Palestine with capital in Jerusalem!"*

There are too many imperialist powers. One or more of these have to pay for

"Today imperialism steps into the Middle East with Zionism (...) The masses are threatening to return for their revolution. Therefore, for imperialism 'it is now or never' and that is the war cry of Netanyahu and Biden"

the crisis. The imperialist power that gets Moscow's sources of raw materials, the Chinese internal market, the control of the oil routes of the Maghreb and the Middle East, the uranium, coltan, copper, diamonds and gold from martyred Africa, and the large lithium expanses of Argentina, Bolivia, Chile and Peru, will be the winning one, which will have cheap raw materials and new markets at their disposal, over the ruin of the others. If they achieve this, they will have defeated the international proletariat, something that they are still far, very far from achieving.

Today imperialism steps into the Middle East with Zionism and it is the first time since the Iraq war that intervenes with this protective shield in the region. And it is forced to act this way. Iraq is in an open revolutionary situation, with a state in a phase of disintegration, with the masses entering and leaving the government house. The Ye-

meni masses have not given up. The murderous regime of the ayatollahs has been jeopardized by a great rise of the proletariat and the exploited that threatens to leave it in crisis. There is a situation of mass rise in Lebanon that has put in crisis Hezbollah's control. The workers of Egypt are preparing to return to combat. That is, the masses are threatening to return for their revolution. Therefore, for imperialism "it is now or never" and that is the war cry of Netanyahu and Biden.

"It is now or never," the Argentine bourgeoisie also shouts to deal a strategic blow to the Argentine labor movement, and be able to loot lithium, hydrocarbons, minerals, food, etc.

"It's now or never," shout BP and Turkey to conquer the oil routes in the Caucasus.

In Palestine we are therefore not facing a tactical clash between Hamas and the fascist State of Israel. We insist, the US is going for everything in the region. United States Department of State magazine, Foreign Affairs, warns that the Zionists will not be able to impose this intended offensive, even with the collaboration they will receive from the Palestinian Authority in the West Bank and from Iran itself to contain the Palestinians in Lebanon. This magazine issues a warning saying that the US cannot accompany Zionism to the cemetery, since it will not only awaken all the Palestinian masses, but also those of Lebanon, Jordan, Egypt, the entire Maghreb and the Middle East and even Europe and the same USA.

Biden and the party of "progressive" Democrats (as Stalinism has dressed it) have proven to be most warmongering.

They already have a sea fleet in the Zionist state and are sending another war fleet to the Mediterranean shores. Let's remember that the bourgeoisie is also a social force that seeks to change the relationship of forces in its favor, because it knows that either it does it or loses. In the case of US imperialism, it may lose its control of the world economy and start its decline. If that happens, it will not be able to contain the revolutionary energies that the masses still retain despite and against the traitorous leaderships such as the Stalinist crap and the liquidator currents of the Fourth International.

The latter dissolved our world party and imposed parties and united fronts with Stalinism. In many countries they openly entered the fronts of class collaboration or called to support them politically. It is clear that the bourgeoisie and its regimes have resorted, in order to divert and contain the revolutionary processes, to the old policy of class collaboration, which ties the workers' organizations to the bourgeoisies that pose as "progressive" but only dampen the gunpowder and seek, with sweet phrases, to get the masses off the revolutionary path.

The US American left also did this by supporting Sanders, and then Biden "against Trump", and the governments that diverted the revolutionary processes of recent years in Latin America, as we have already seen.

In other parts of the planet, with nationalist preventive coups the officer castes of the armies anticipated the anti-imperialist revolutionary irruption of the masses to control it. This is happening throughout the Sahel.

The union bureaucracies in Europe, such as the Stalinist ones in France, Greece or the Spanish State, or the social democratic ones in England, contain the struggle of the working class, which at every step resist hard attacks in the metropolises.

In Africa, the renegades of Trotskyism have entered the Stalinist parties directly as fractions of them, as in South Africa, Congo, Nigeria, etc.

They are continuing the work of the already decaying World Social Forum, which was in charge, with the native bourgeoisies, Castroism, and Stalinism at the head, of containing the revolutionary processes of the world proletariat at the beginning of the 21st century. They all promised "Socialism of the 21st century" like Chavez with its "Bolivarian Revolution" scam. They also preached "market socialism", while supporting the slavery and apartheid regime of the Chinese Stalinist bourgeoisie. They

"The time for an international struggle of the exploited masses has arrived. Today is for Palestine, and tomorrow should be to unite and coordinate the fight of the working class against their executioners..."

finished handing over Cuba to imperialism and a voracious capitalist restoration. And what is more serious, they set up the so-

called "Global War on Terrorism" that allowed al-Assad and Putin to massacre the Syrian revolution.

This front of recycled Stalinists needed a dissolved Fourth International to legitimize it.

Sooner or later in Palestine they will try to set up the "Global War on Terrorism". They are already trying to do it. But the problem they have is that the Palestinian masses have been adopted by the world working class. And the millions who are today demonstrating in support of the Palestinian people have already left behind the limits and barriers that these new reformist leaderships had imposed to prevent an international mass combat.

Millions are winning the streets throughout the Middle East, Europe and on the five continents. Imperialism seeks to align itself with Zionism. But the workers of the world, despite and against their leaderships, rise up alongside the Palestinian masses.

The class war has not stopped. It only gets deeper. The traitorous and reformist leaderships lull the masses to sleep. They undo what the masses conquer in their combat. They desynchronize their struggles country by country.

But with the Palestinian question you can no longer play hide and seek. The exploited of the world have identified their enemy: Zionism and the imperialism that sustains it. The veil concealing the genocidal al-Assad and his partner Putin are falling... the Syrian masses of the liberated areas are rising up against Zionism, while al-Assad, Putin and the US imperialists prevent these marches in the areas they control of divided Syria.

The time for an international struggle of the exploited masses has arrived. Today is for Palestine, and tomorrow should be to unite and coordinate the fight of the working class against their executioners: imperialism, the capitalists and their regimes.

The time for militant internationalism has arrived as a life and death necessity for the global working class. The only party that has fought ceaselessly for this has been and continue to be the Fourth International and all the currents that remain firmly under its flags. The proletariat needs the Fourth International to live up to this period of crisis, wars and revolutions that is only deepening. •

Argentina: mobilization to the Zionist embassy against the genocide in Gaza

October 7: Palestinian resistance offensive. Zionism's counterrevolutionary blow on Gaza begins

Statement of the "International Workers Organizer" and "The Truth of the Oppressed"
on the Palestinian people's insurgence against the Zionist occupant

October 8, 2023

More than 2,700,000 Palestinians crammed into an open-air concentration camp in the Gaza ghetto have faced the Zionist occupation forces in the Palestinian nation...

The insurgent Palestinian slaves have entered the combat and are shouting:

**Either we die of hunger or we die fighting!
Enough is Enough!**

Long live the uprising of the Palestinian slaves in Gaza!

Palestinian masses take over Zionist tanks

An American naval fleet is marching to the coast of Gaza. They are going to strengthen the Zionist State, the gendarme of the oil companies in the region. It is a true military fortress that occupies the Palestinian nation, has only 5 million inhabitants and is one of the most powerful armies in the world, with nuclear warheads included.

US Imperialism, with the massacre it is preparing in Gaza and throughout the Palestinian nation, seeks to restore its reliable gendarme in the Middle East: Zionism, to take care of US interests and US businesses.

The native bourgeoisies of the Maghreb and the Middle East are strangling and massacring mass uprisings. Here and there, they make pacts with Zionism and the Gringos.

Enough already! Down with the counterrevolutionary pacts of imperialism and its puppet regimes! Let's get rid of the US military bases in the entire region!

Revolted Palestinian people

From the heroic Syrian resistance to Tunisia and Egypt, from Iran to Iraq, from Sudan to Yemen... The same intifada, the same enemy: Zionism and its bosses, the US imperialists and the imperialist oil companies!

**For a Federation of Worker and Peasant Republics
of the Maghreb and the Middle East!**

**For the destruction of the
Zionist-fascist State of Israel!**

**For a free, secular, democratic and non-racist Palestine from
the Jordan River to the sea, with its capital in Jerusalem!**

For a Palestinian National Assembly, with delegates from all the concentration camps of the occupied nation to organize the counteroffensive and expel the invader!

Down with the peace pacts of the cemeteries signed by the
 Palestinian Authority with Zionism behind the people's backs!
 Generalized arming of the people!
 Workers and peasants' government!

The slave uprising is not a crime, it is justice

**An enormous international solidarity is
 beginning to stand up... That is the way!**

The Syrian masses are returning to battle again to confront
 the hitmen al-Assad and Putin, who protect the Golan borders for
 Zionism and give out the oil to the US imperialists. The oppressed
 of Syria are already taking to the streets in support of their siblings
 in Palestine and against the Zionist State and the dog Bashar, lac-
 key of Zionism, brave to kill his own people and so cowardly to
 confront the Zionist troops that occupy the Palestinian nation.

Out with the murderer al-Assad! Out with the invading troops of
 Turkey, Russia and the US from the Syrian nation!

In New York, the North American working class takes to the
 streets, the same ones who had paralyzed the war machine of its
 own imperialism when it invaded Iraq...

*From all labor, human rights, combative organizations, etc. of the
 planet...*

**Let's take to the streets of all the capitals
 of the world in support of the insurgency
 of the Palestinian people!**

Zionist bombings on Gaza have begun

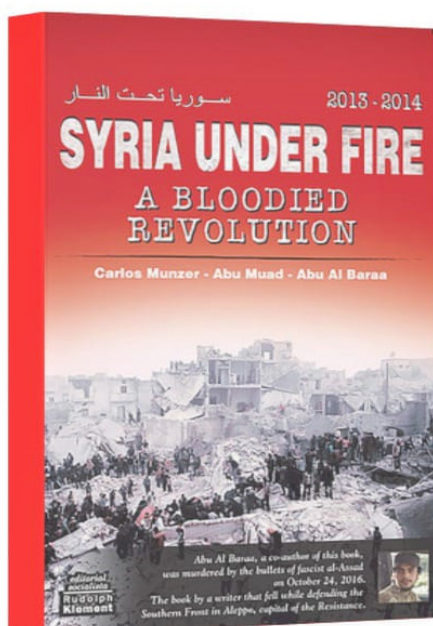

**Let's stop the massacre that US imperialism is preparing
 together with Zionism against the Palestinian nation, as
 yesterday they planned with Putin and al-Assad the massacre
 of Syria, and from the UN the invasion of Iraq and Afghanistan!**

**Immediate recognition as legitimate belligerent forces of all
 Palestinian forces fighting for the liberation and recovery of
 their Zionist-occupied nation!
 Arms for the Palestinian nation!**

URGENT CALL FROM PALESTINIAN TRADE UNIONS

Stop Arming Israel! End all Complicity!

October 16, 2023

CALL TO ACTION

Israel has demanded that 1.1 million Palestinians evacuate the northern half of Gaza, whilst subjecting them to constant bombardment. This ruthless move is part of Israel's plan, backed by unwavering support and active participation from the US and majority of European states, to carry out unprecedented and heinous massacres against 2.3 million Palestinians in Gaza and to ethnically cleanse it altogether. Since Saturday Israel has indiscriminately and intensively bombarded Gaza, and cut off fuel, electricity, water, food, and medical supplies. Israel has killed more than 2,600 Palestinians – including 724 children – leveling whole neighbourhoods, wiping out entire families and injuring more than 10,000 people. Some international law experts have begun warning of Israel's genocidal acts.

Elsewhere, Israel's far-right government has distributed more than 10,000 rifles to extremist settlers in '48 Palestine and the occupied West Bank to facilitate their escalating attacks and pogroms against Palestinians. Israel's actions, massacres, and rhetoric point to its intention to implement its long promised second Nakba, expelling as many Palestinians as possible and creating a 'New Middle East' in which Palestinians live in perpetual subjugation.

The response by Western states has been one of complete and total support for the State of Israel, without even a cursory nod towards international law. This has amplified Israel impunity, giving it carte

estinian lives hang in the balance.

This urgent, genocidal situation can only be prevented by a mass increase of global solidarity with the people of Palestine and that can restrain the Israeli war machine. We need you to take immediate action – wherever you are in the world – to prevent the arming of the Israeli state and the companies involved in the infrastructure of the blockade. We take inspiration from previous mobilisations by trade unions in Italy, South Africa and the United States, and similar international mobilisations against the Italian invasion of Ethiopia in the 1930s, the fascist dictatorship in Chile in the 1970s and elsewhere where global solidarity limited the extent of colonial brutality.

We are calling on trade unions in relevant industries:

1. To refuse to build weapons destined for Israel.
2. To refuse to transport weapons to Israel.
3. To pass motions in their trade union to this effect.
4. To take action against complicit companies involved in implementing Israel's brutal and illegal siege, especially if they have contracts with your institution.
5. Pressure governments to stop all military trade with Israel, and in the case of the US, funding to it.

نداء طارئ من النقابات العمالية الفلسطينية: ضعدوا حثًا للتواطؤ! أوقفوا إمداد إسرائيل بالأسلحة

16 تشرين الأول 2023

طلبت إسرائيل من 1.1 مليون فلسطيني إخلاء النصف الشمالي من قطاع غزة تحت وابل القذائف المستمرة. إن هذه الخطوة الوحشية هي جزء من الخطة الإسرائيلية التي تحظى بدعم غير مشروط ومشاركة من الولايات المتحدة ومعظم الدول الأوروبية، وترمي هذه الخطة إلى ارتكاب مجازر وحشية وغير مسبوقة بحق 2.3 مليون فلسطيني في قطاع غزة لتهديم التطهير القاطع عرقاً بشكل كامل. منذ يوم السبت الموافق 7 تشرين الأول، تقصف إسرائيل قطاع غزة بدون تمييز وبتكافة غير مسبوقة، مدبرة أحياء بأكملها، وتطعن من القطاع الوقود والسيارات والماء والكهرباء والإمدادات الطبية. حتى اللحظة، قتلت إسرائيل أكثر من 2,600 فلسطيني، من بينهم أكثر من 724 طفلاً، حيث أبادت عشرات العائلات بأكملها، بالإضافة لإصابة أكثر من 10,000 فلسطيني. وقد بدأ بعض خبراء القانون الدولي التحذير من أعمال الإبادة الجماعية التي ترتكبها إسرائيل.

ومن جهة أخرى، وزعت الحكومة الإسرائيلية المبتدعة أكثر من 10 آلاف بندقية حربية على المستوطنين المتطرفين في الأراضي المحتلة عام 1948 وفي الضفة الغربية المحتلة لتسهيل الهجمات والمذابح الممنوعة التي يرتكبونها ضد الفلسطينيين. وتدل تصرفات ومجازر وحشية إسرائيل على نواياها بارتكاب نكبة ثانية بحق الشعب الفلسطيني، وطرد أكبر عدد من الفلسطينيين، وإنشاء «شرق أوسط جديد» يخضع فيه الفلسطينيون للتدليل والظفر الأبديين.

ولم يأتى رد الدول الغربية إلا بالدعم الكامل والحيثية الإسرائيلية، من دون أدنى اعتبار للقانون الدولي، معززة شعور إسرائيل بالحصانة، وبتجاهل الضغوط الأخيرة لإيجاد الشعب الفلسطيني من دون أي رادع إضافة إلى الدعم الديبلوماسي لردود الدول الغربية لإسرائيل بالسلح والأسلحة، عمل شركات تصنيع السلاح الإسرائيلية على أراضيتها.

ومع تصعيد إسرائيل لولادة وحدة عدوانها العسكري الفاضل، ندعو النقابات العمالية الفلسطينية نظيراتها من النقابات العمالية على المستوى الدولي وجميع أصحاب الصناعات الحية إلى وضع حد لكافة أشكال التواطؤ في جرائم إسرائيل، وبشكل عاجل. وقد نجرت الأزمة المسلحة مع إسرائيل وجميع أشكال التطوير والأبحاث العسكرية. فلا بد من اتخاذ الآن قرارات حاسمة لإنقاذ حياة الفلسطينيين.

فلا يمكن وقف هذه الإبادة الجماعية إلا عبر زيادة وتعزيز التضامن العالمي مع الشعب الفلسطيني، فهذا التضامن قادر على إجماع الحرب الإسرائيلية. لا تقفوا مكتوفي الأيدي، وبادروا فوراً لاتخاذ أيديا كنتم في العالم لمنع تسليح إسرائيل ووقف ومعاينة الشركات الضالعة في أعمال البنية التحتية للحصار. وفي هذا المجال، نستعين ببنادق التحركات السابقة للنقابات العمالية في إيطاليا وجنوب أفريقيا والولايات المتحدة والتحركات

blanche to carry out its genocidal war without limit. Beyond diplomatic support, Western states are supplying Israel with armament, sanctioning the operation of Israeli weapons companies within their borders.

As Israel escalates its military campaign, **Palestinian trade unions call on our counterparts internationally and all people of conscience to end all forms of complicity with Israel's crimes – most urgently halting the arms trade with Israel, as well as all funding and military research.** The time for action is now – Pal-

We make this call as we see attempts to ban and silence all forms of solidarity with the Palestinian people. We ask you to speak out and take action in the face of injustice as trade unions have done historically. We make this call in the belief that the struggle for Palestinian justice and liberation is not only a regionally and globally determined struggle. It is a lever for the liberation of all dispossessed and exploited people of the world.

Statement of the “*International Workers Organizer*”, speaker of the FLTI and “*The Truth of the Oppressed*”, paper of the socialists of Syria and Maghreb and Middle East

In a debate with the islamophobic and social democrat position of the left parties that condemn the legitimate right of an occupied nation as Palestine to military action against the Zionist occupant...

The Palestinian organization Al-Yudur is right

Within the Spanish youth movement there is an increasing feeling and predisposition to fight with the Palestinian people and Gaza in particular against the State of Israel. Many students have taken to the streets calling for a national students strike. A new generation of students rises up against the Zionist-fascist state of Israel. Their struggle reminds us of the latest Chilean uprising in Santiago against the Pinochetist regime, in which the youth played a central role in the fight against private education.

This time, hundreds of thousands of students in the Spanish State, fighting for Palestine, anticipate that the spark of a possible worker uprising against the infamous regime of the monarchy and NATO that, together with the EU, sponsor the Zionist state, occupant of Palestine.

During the preparation of these actions of struggle at the Complutense University in Madrid, left parties such as the PTS (and its groups Contracorriente and Pan y Rosas) and Izquierda Revolucionaria - El Militante (Revolutionary Left - The Militant) have opened a crisis within the movement supporting the Palestinian people.

The group Complu ELAI (Space free of Israeli Apartheid), the solidarity network for Palestinian prisoners Samidoun (Steakfast), Palestinian youth Al-Yudur (Roots) and the Palestinian women movement Alkarama (Dignity) denounce that, when a 300 students rally supporting the Palestinian cause was coming to an end, a minority led by Contracorriente, Pan y Rosas and Izquierda Revolucionaria - El Militante self-proclaimed an assembly and called for a general strike for October

Spanish State. Massive mobilization in Madrid on October 29th in support of the Palestinian resistance

26th without the support of the Palestinian organizations that were leading the solidarity with the Palestinian people at that university. These organizations are calling for an assembly for October 25th to decide the following steps in their struggle.

With this ultimatum policy, left parties have fractured the solidarity with the Palestinian people. This cannot happen. Every ultimatum policy trying to take over global mass actions “from above” ends up curbing their development and radicalization.

Even though these left parties may have differences with the Palestinian organizations leading the solidarity with their people at that University, they can't take over the spaces to fight and unite actions against Zionism, which they do, as we will demonstrate, in order to impose their program. This is beyond the fact that they have the right to express their program as so do we, who disagree with their

position as we consider it to be “left-wing” Zionism.

The real discussion on the Palestinian question that underlies the organizational maneuvers of the reformist left

To tell the truth, this split in the unity of action is nothing more than the expression of a programmatic position raised by the PTS, as different Stalinist currents of the European and world left are trying to do, in order to condemn the action of Hamas and give condolences to the “civilian” dead on October 7.

As we have been stating from our paper “The Truth of the Oppressed”, we are not willing to give any condolences to fascist Zionist settlers armed to the teeth who occupy the Palestinian nation. We don't call to condemn the military self-defense of the Palestinian people and their organi-

zations, which are defending themselves against a genocide that has already been taking place for 75 years.

And we say this beyond the political and military differences we have with these organizations. We debate this issue, but from the trenches of the Palestinian nation at war and on a unity front of military action against Zionism with the organizations that defend it.

This debate was underlying the open crisis in the student movement of solidarity with the Palestinian people at the Complutense University in Madrid.

The student group Contracorriente and Pan y Rosas, and their allies from Izquierda Revolucionaria - El Militante, with their divisive policy of condemning the legitimate right of Hamas to confront the occupation forces of their nation, have not even stopped to think that a student strike is not the same if it is carried out and promoted by the Palestinian student struggle organizations at the head that without them. It is not only about preparing a strike by the student movement, but also that, supported by it, the student body can act as a spark that ignites the prairie and goes to look for the working class of the Spanish State to conquer a general strike to confront the Borbon monarchy, which with NATO and the US, supports the Zionist-fascist state of Israel.

The Palestinian organizations of the Spanish State not only issued a statement against the divisive policy of the PTS followers in Madrid, but the Palestinian youth Al-Yudur has been responding with strong arguments against the total capitulation to the State of Israel of the currents of the pro-Zionist reformist left that exist internationally, and in particular of the collaterals of the PTS in Madrid.

From the paper "The Truth of the Oppressed" of Syria, a member of the Collective for the Re-Foundation of the 4th International/FLTI, we strongly condemn the divisive policy of these currents and call to recompose the unity of action around unconditional solidarity with the Palestinian people, for the destruction of the Zionist-fascist State of Israel, for the expulsion of the occupier of the Palestinian nation and its settlers supported by billions and billions of dollars from the US so that they can occupy the Palestinian

Zionist massacre in Gaza

land. We unconditionally recognize the right to generalized arming of the oppressed and occupied nation. We promote the general disarmament of the 800,000 Zionists, aged from 18 to 45, who, armed to the teeth, expel the Palestinian peasant from the land, surround the oppressed people in true ghettos like that of Warsaw, and who, with their union centre, the Histadrut, act as a fascist force of control and death of the Palestinian workers.

We demand that all armed organizations of the Palestinian people to be declared belligerent armies, since this is what they are.

To condemn any of the Palestinian resistance organizations, in moments of military clashes, when they are attacked by all imperialism worldwide, regardless of the differences that you may had with their policy or their program, is to call for open proscription to these organizations of the Palestinian people and end up accusing them, in fact, of "terrorists." This is the argument used by the Macron, Biden and Netanyahu front, who have declared war in Gaza against an occupied people, massacring them, demolishing their cities.

Weapons for Hamas! Weapons for the PLO! Arms for the Palestinian people!

May the Palestinians stripped of their lands in Lebanon and Jordan, breaking the control of the coward Arab bourgeoisies, enter the fight with their brothers in Gaza!

Enough of pacts and collaboration of the Palestinian Authority and the PLO with the occupier! Weapons, for the workers and the poor people of the West Bank! If genocide and military defeat are imposed in Gaza, tomorrow we will witness the tra-

gedy of the demolition to rubbles of Nablus, Ramallah and the entire West Bank.

To give condolences for the death of Zionist "civilians" and condemning the legitimate military action of stopping the bandits who steal the land of the Palestinian people at gunpoint, is to cover up the Zionist State of Israel for what it is: a US fortress and the imperialist oil companies to take care of the oil routes from where they loot all the peoples of the Maghreb and the Middle East.

The PTS and its collaterals treat counterrevolutionary settlers, armed to the teeth, as "civilian population" and take away the right to self-defense from the Palestinian people however they decide. A shame

The politics of the PTS followers in Madrid of Contracorriente and Pan y Rosas is nothing new. It was explicit before millions of workers and young people in the electoral campaign in Argentina. When the presidential candidates debated in the elections in Argentina, where everyone condemned Hamas as a "terrorist," the candidate for the Left Front and leader of the PTS, Myriam Bregman, sent condolences to the Zionist "civilians" killed by the action of Hamas. This is a complete capitulation to Zionism by an Islamophobic left, which goes in favour of the "anti-terrorist front" policy with which they were massacred yesterday in Syria (with the excuse of ISIS) and are massacring and demolishing the whole of Gaza to rubble today. And she did this before

millions and millions of young people and workers in Argentina.

From the paper *The Truth of the Oppressed of the Syrian socialists* we affirm that in Israel there are no "civilian" Zionists. **They are settlers who are occupying a land that is not theirs, at gunpoint, armed to the teeth from the ages of 18 to 45, with salaries of USD 4,000 a month paid by the US. The Zionist who goes to Israel knows that he/she is going to kill a Palestinian to steal his land.**

The social-imperialist left does not want to recognize the character of a belligerent force that Hamas has, as well as that of every Palestinian resistance organization that faces, with weapons in hand, the Zionist occupation, supported by the US and imperialist Europe. This is even what the Geneva Convention establishes when people fights against an occupation that invades their nation.

The social-imperialist left, while condemning Hamas, paints those who work the stolen land at gunpoint and with massacres of the Palestinian people as "pacifists" and "civilian peasants."

The lie of the progressive character of a "Jewish working class" organized in the fascist worker-bourgeois union centre, the Histadrut

Lately, to support Zionism and its state of occupation on the left, this left procclaims the existence of a "Jewish working class." This is another lie. The "Jewish working class" is nothing more than an arrogant labour aristocracy with wages of thousands of dollars, associated in the

Genocide in Syria at the hands of the fascist al-Assad and the butcher Putin

Histadrut with murderous bosses closely linked to Wall Street bankers.

Do they claim that the "Jewish working class" would unite with Palestinian workers in the same fighting organizations, when they have no common interest? But if the Palestinian working class is in concentration camps, in ghettos, they earn less than USD 200 and need work permits to pass through the Zionist checkpoints to go to work every day, a permit for which the Histadrut charges them 10% of their wage. The "Jewish working class" has its fate and privileges tied to the Zionist-fascist State of Israel, and that is why it defends it with weapons in hand, and is the mortal enemy of the absolute majority of the Palestinian working class.

We fight for the unity of workers of all religions in occupied Palestine, but **what every Jewish worker with class consciousness has to do is join the Palestinian unions and must hand over the rifles that are given to them since they are 18 years old to the Palestinian armed self-defense organizations.** In occupied Palestine, you are either an armed

settler stealing land, or you are a heroic partisan fighting for a free Palestine from the Jordan River to the sea, with its capital in Jerusalem.

This is what Trotsky defined about the white labor aristocracy in the Apartheid regime of South Africa colonized by England in the last century, an occupation regime with which the black nation was oppressed and occupied and the workers of the region were super-exploited. Trotsky's position was clear: *"In any case, the worst crime on the part of the revolutionists would be to give the smallest concessions to the privileges and prejudices of the whites. Whoever gives his little finger to the devil of chauvinism is lost."*

The revolutionary Party must put before every white worker the following alternative: either with British Imperialism and with the white bourgeoisie of South Africa, or, with the black workers and peasants against the white feudalists and slave-owners and their agents in the ranks of the working class itself." (Leon Trotsky, Remarks on the Draft Theses of The Workers Party of South Africa, 1935)

This is what we propose in Palestine, as in South Africa occupied by England in the last century, where the fate of white workers and their privileges was linked to the domination of British imperialism and the white bourgeoisie. The same as with the "Zionist working class". It is only in this way that they will retain their privileges. Making the slightest concession to a tiny minority of rich workers, associated with the Zionist capitalists who subjugate and enslave the Palestinian workers, would be the greatest crime on the part of the revolutionists. This is what the majority of the reformist left does internationally. No

Massacre in Jabalya refugee camp, Gaza

concessions to the "Jewish working class" and its worker-bourgeois union center! No submission to the State of occupation of the Palestinian nation!

For our part, we say to the "Jewish worker": "Either with the murderous Zionist-fascist State of Israel, or with the Palestinian workers and their fighting organizations." There is no other alternative for a "Zionist working class" that supports the State of Israel.

This is a question of basic principles, and is based on our recognition that Palestine is an occupied nation and will only be liberated by destroying the Zionist-fascist State of Israel.

Of course we have political differences with the Palestinian bourgeoisie and with the military strategy of Hamas. But we have these differences and we maintain them within the trench of the Palestinian nation, at a military front confronting the invader. We disagree with the policy with which Hamas tries to break the siege on Gaza, of small military blows to open negotiations and obtain supplies, food, etc.

We believe that the way forward is to make an appeal, putting to good use the mass influence that Hamas has, to the Palestinian people in Lebanon, Jordan and the West Bank (where it also won the elections in 2006 against the PLO), to unite the nation that was deprived from their lands and live in concentration camps and ghettos, to set up a political and military board to expel the State of Israel and conquer a **Palestinian National Assembly, which would declare a free, secular, democratic and non-racist Palestinian nation.** Such an action would be an electric shock for millions of exploited in the Middle East who, overpassing the coward Arab bourgeoisies, would enter the fight alongside their brothers and sisters from martyred Gaza.

But this is our opinion on what the path to success is. We raise it while unconditionally supporting the right of Hamas to carry out military actions against settlers armed to the teeth, supported by one of the most powerful armies in the world and by the United States, whose navy fleets are already in the Mediterranean Sea.

In the same way, we disagree with the Hamas leadership that looked the other way, as the PLO did, while al-Assad and

Putin we're massacring the heroic Syrian revolution on behalf of imperialism. Today, life gives its verdict: millions are taking to the streets in support of the Palestinian people in the liberated north, while in the areas of fascist al-Assad every demonstration against Zionism is forbidden, mostly when they call to break the borders of the Golan, which The Assads have been defending for decades.

We disagree with the Palestinian Authority of the West Bank precisely because it refuses to arm the people for setting up partisan brigades and militias that openly enter combat. Instead, it represses the Palestinian people who seek to revolt, as we have seen in Hebron, Nablus, Ramallah.

For this reason we denounce the Palestinian Authority that has just received Macron -who calls for an army to invade Lebanon- and is begging Biden to "rebuild peace and to respect the 'two states'"... They are the collaborationist forces with the occupier. Their cynicism reminds us of the French imperialist bourgeoisie associated with the butchers of Berlin in the France of the Vichy Republic.

We unconditionally support the entry of the entire Palestinian working class into battle and the call of their unions to the workers of the entire world to break the siege on Gaza, not to load any kind of transport or ships with war supplies for the State of Israel, a task that the American working class and the Spanish State are already beginning to make their own.

We affirm that with the independence of poor workers and peasants of the Palestinian nation and its diaspora, together with the oppressed of the entire Middle East, and supported by the international fight of the working class, the Zionist beast, supported by the US navy, will be defeated and the longed-for justice and peace will come. Both of them will only be conquered with a victorious worker and peasant revolution.

Al-Juzour/Al-Yudur - Movement of Palestinian Youth in Spain

Al-Juzour is an organization of Palestinian youth in Spain that works to strengthen our roots in and connections to Palestine and our aspirations for ending Zionist colonialism and achieving justice, liberation and return. These urgent concerns drive us to take on an active role as a young generation in the struggle for the liberation of our land and our people.

We view ourselves as an organization with orientations and goals that are democratic, secular, feminist, anti-racist, anti-imperialist and anti-colonial. We are a civil society movement, independent of any Palestinian, Arab or international political party. Al-Juzour brings together young people of Palestinian origin from diverse political, social and cultural backgrounds.

As Palestinian youth, we know our rights and uphold our responsibilities to defend our people and our land, and organize to take action wherever we are. We, Palestinian youth in exile, call upon our people and our allies in Spain and everywhere to join us to defend our land, provide full support for the resistance of our people in occupied Palestine, denounce Zionist crimes and fight against colonialism and imperialism everywhere in the world, as well as supporting the Israeli boycott campaign until the end of the occupation, the end of apartheid and the return of refugees to their homes from which they were forcibly displaced.

Palestine has confronted a process of Zionist colonization and ethnic cleansing for over a century, and we believe that under the framework of the "Oslo Accords," there is no potential to lead the Palestinian national liberation project. These agreements were concluded within the framework of "limited self-rule" on behalf of the Zionist occupation and the so-called "two-state solution." These have led only to the recognition of Israel, the consecration of its project as a useful mechanism to deepen and expand imperialist hegemony over the region and the perpetuation and intensification of the settler-military occupation throughout all of Palestine.

The core of the Palestinian struggle remains the achievement of justice for the Palestinian people, facing a colonial and racist project that must be resisted in all its manifestations. Taking into account that over half of the Palestinian people live in exile and that a large portion of the population are young people born after the disaster of the 1991 Madrid Conference and the 1993 Oslo accords, we declare that we cannot and will not concede an inch of our land, from the river to the sea. We do not recognize the legitimacy of any institution that undermines the territorial integrity of Palestine and the right of its people to return to their homes, restore their rights and property and exercise their natural right to self-determination on their land.

PALESTINE WILL BE FREE, FROM THE RIVER TO THE SEA!

*Facsimile of the statement of the Al-Yudur current,
Palestinian youth of the Spanish State*

As we see, standing with massacred Palestine means not giving any rights (contrariwise to what the pro-Zionist left does) to those who occupy it. From our revolutionary current in the Middle East, we call to organize and carry supplies, solidarity, and go to fight together with the Palestinian resistance.

We have already experienced a genocide in Syria. This should not happen or be imposed in Palestine. Otherwise, a black night will invade the entire region and all the oppressed in the world.

In the discussion with the pro-Zionist left, Al-Yudur is right

In the movement of solidarity with the Palestinian people there must be a clear cleavage. **On the one hand, the ones who are for unity with the Zionist occupier and colonizer. Those, as we are, who fight for the expulsion of the Zionist occupier and for the widespread arming of the Palestinian people to recover their nation, on the other hand.**

On the one hand, those who support the institutions of the State of Israel and its fascist unions and settlers. On the other

hand, those as we do, who affirm that the Jewish youth or worker can only be considered a democrat and anti-colonialist if he/she joins the Palestinian unions and gives his/her rifle to the Palestinian resistance.

We condemn these currents and their small groups that, with pompous “socialist” programs they only hold on holidays, want to manipulate the enormous solidarity of millions that is already traveling around the world, in order to impose their policies. This objectively weakens the international solidarity, since they consider the military forces that are confronting the occupation and genocide in Gaza as vulgar “terrorists.”

The currents that disrupt the unity of action of the students of Madrid are those that ultimately, support critically Zionism. In turn, Zionism also has its “left” agents, who proclaim the existence of “socialist” Kibbutzim and “collective farms” to cover up the theft of land from the Palestinian nation.

“Contracorriente” and “Pan y Rosas” do not hesitate to break the unity of action with the Palestinian youth who lead the struggle and the solidarity of the student movement of the Spanish State with its people, just as they did not hesitate to attack, even with physical threats, the revolutionaries who, as in Bolivia, denounced the policy of this current of giving “condolences” to the Zionists.

These people break the unity of the struggle and seek to attack those of us who consistently fight for the destruction

Assembly of solidarity with Palestine of the students of the Complutense University of Madrid

of the State of Israel and for a liberated Palestine, while they salute and send condolences to the fascist settlers who are occupying the Palestinian nation.

We are not forging their positions, which are and have been always public, although now they are trying to hide or disguise them. That is their true position. It became very clear and was recorded in the debate of their presidential candidate in Argentina and in the public statements of the PTS in the Spanish State such as the one published on October 17th in La Izquierda Diario, where they affirm: *“We do not share either the Hamas’ methods or strategy and we reject its attacks on the civilian population. In this way it is impossible to achieve the necessary unity between the Palestinian Arab population and the Israeli Arab population, as well as with the sectors of Jewish workers who*

want to confront the State of Israel, breaking with Zionism and the apartheid that it imposes against the Palestinian people.”

This is the classic position of the former Stalinist Communist Parties and the bureaucracy of the former USSR that founded, from the UN, together with the US, the State of Israel in 1948. The new generation that enters the fight in support of the Palestinian nation must know that Stalinism is the co-founder of the State of Israel.

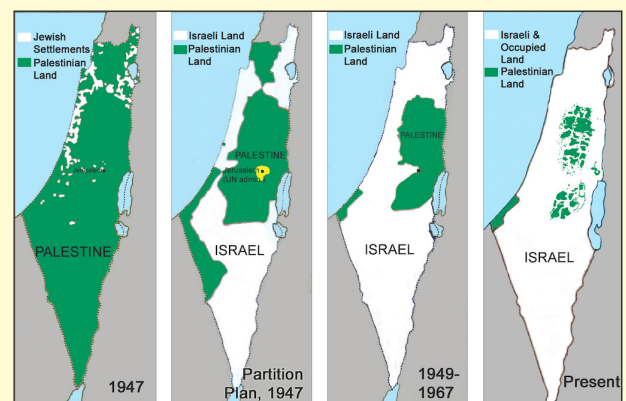

Their arguments were not so different from what this current puts forward today from Buenos Aires and Madrid. The CP passed off the Kibbutzim as “socialist collective farms” and joined the Histadrut, a workers-bourgeois union center, whose terrorist militia, called Haganah, was the vanguard in the expropriation of the land of the Palestinian people. Nothing new under the sun.

Trotskyism and the Palestinian question

Historical articles elaborated by our current on the Palestinian question, which has once again become red hot

- The Palestinian people, outcasts in their own land
- The Histadrut, a bosses’ and arrogant workers’ aristocracy central, spearhead of the Zionist-Fascist occupation
- About the so-called “Jewish working class”

See articles on the page www.fti-ci.org

That is why we affirm that in this debate, the Palestinian organization Al-Yudur is right and we salute their courageous response to the pro-Zionist left that claims to support the Palestinian people, but is opposed to raise the slogan of "destruction of the State of Israel" for Palestine to be free.

The Al-Yudur current of Madrid responds:

"There are no civilians in Israeli society. They are all occupiers, settlers and invaders on a land that is not theirs. The role that the settler plays in maintaining the regime, through their mere existence, is the key piece of all this. There are no anti-colonial settlers."

"Resistance is a right recognized by international legislation to peoples who are under colonial domination, by all means at their disposal, including armed struggle. You are condemning our legitimate self-defense."

"Palestine has the right to defend itself from colonialism. Armed struggle is the right of all peoples subject to the colonial yoke, as international law says. Israel does not have the right to colonize. The only terrorist is the Israeli regime..."

Brave response.

Millions are already taking to the streets around the world. The student movement of Madrid has been at the forefront of this internationalist fight for the Palestinian masses.

From the partisans of the Syrian revolution, we confront the forces like those of Putin and al-Assad that defend the borders of Zionism in the Golan Heights, crushing, drowning in blood, occupying and dividing our nation, doing the "dirty

United Kingdom. Massive march in London on October 14th in solidarity with the Palestinian people

work" for imperialism, and we affirm: It is time for an international mass counteroffensive that surround the Palestinian nation with solidarity to stop the massacre that imperialism is preparing, like yesterday in Iraq and Syria, for the entire region.

The US and Zionism are the terrorists that are demolishing the martyred Gaza house by house, building by building!

The rebellion of the slaves is not a crime, it is justice!

For a day of rage, of international struggle in support of the Palestinian people!

For a National Assembly of the Palestinian people, with delegates from Lebanon, Jordan, Egypt and the entire diaspora in the world, to coordinate and centralize the fight for the destruction of the Zionist-fascist State of Israel!

We revolutionary Marxists affirm that this task can only be achieved by a workers and peasants' government, supported

by the armed revolutionary Palestinian masses.

One man, one gun! Weapons for Palestine! We must break the siege of Gaza!

Down with the pacts of the Arab bourgeoisies with Zionism and imperialism!

War to the war of Zionism and imperialism! Let's stop the massacre by al-Assad, Putin and the US against the oppressed people of Syria, and of Saudi Arabia on behalf of imperialism against the rebelled Yemen!

Let us take to all the unions and worker, student and anti-imperialist organizations in the world the call of the Palestinian unions, which is already being taken as their own in London and Catalonia.

Let the ports stop! Neither a weapon nor a supply for the US military apparatus and Zionism! Stop the weapons factories that supply the State of Israel from Tel Aviv to massacre and keep occupied Palestine in ghettos!

Make way to proletarian internationalism! European general strike!

As against the US invasion of Vietnam and Iraq, Open the way for the American working class!

Throughout the Maghreb and the Middle East, the same enemy, the same intifada. We must take Jerusalem by destroying the Zionist-fascist State of Israel!

Ukraine

November 3, 2023

After the so-called "counter-offensive" of NATO's lackey Zelensky, the only thing the Ukrainian working class and people received was more death and destruction and more and more colonization of the nation

Under the leadership of Zelensky and the Ukrainian oligarchy it is impossible to defeat the invader!

The Ukrainian working class must unify its ranks and take in its hands the leadership of the war to defeat Putin and break with the IMF!

The farce of the "counter-offensive" which, with great fanfare, Zelensky announced in June, is coming to an end and the results expose the cynicism of the Ukrainian bourgeoisie and oligarchy. The fact is that, **after long months of trench fighting in a war which can already be catalogued as "chronic", it has only brought death and destruction.**

The fighting has centered on small villages such as Avdiivka, in the north of the city of Donetsk (in the hands of the hitman Putin), which has been under attack for weeks, forcing the population to withdraw from their lands, while ten thousand Ukrainian soldiers have been stationed there to try to recover Donetsk, while receiving daily attacks from the Russian forces.

The balance sheet of the "Ukrainian counteroffensive" shows what we have stated: small gains on the southern front for Ukraine, some recovery for Russia in the north. But the losses on the Ukrainian side already amount to 400,000 dead, which

Destruction in the city of Avdiivka

has caused not only tragedy for hundreds of thousands of exploited people, but even shortage of manpower, and the already clear attempt of thousands and thousands of citizens to avoid mobilization which only

leads to death. **The Ukrainian people are suffering not only Putin's criminal attack, but the surrender of the nation at the cost of their lives, by the lackey Zelensky.**

A new counterrevolutionary pact of partition and redoubled plunder is looming over the war-stricken Ukrainian nation

The objective of the US imperialism is being exposed clearly on a daily basis: it subdued the Franco-German axis, using all the weight of NATO and **sold out Ukraine as a pawn for Moscow to massacre it, throwing it more and more into subjugation and plunder, while in a chronic war it pushes Putin to attrition. Thus, U.S. imperialism was left in unbeatable conditions at the borders of Europe and Russia.** It has been playing so that Moscow bleeds the nation and weakens itself, but without Ukraine winning the war. That is

why, despite its grandiloquent declarations "in defense of Ukraine," the only thing that imperialism grants to the attacked nation is obsolete and defensive weaponry, in dribs and drabs, so **that Ukraine does not allow Moscow to advance, but the first does not defeat the later either.** And at the same time, we see the same imperialist powers arming to the teeth, in minutes, the fascist Zionist state of Israel to massacre in a brutal offensive, the martyred Palestinian people.

Imperialism still needs Putin as its gendarme in the region, to massacre and keep

the masses of Eurasia at bay. Moreover, a victory of the Ukrainian masses over the butcher Putin would leave them with high morale to continue their fight against the puppet Zelensky who has attacked his own working class in the midst of the invasion. But even a **Ukrainian victory over "Great Russia" would be an encouragement to resume the revolutionary path for all the subjugated peoples under Putin's boot and all the republics of the former USSR,** a matter that imperialism takes very good care that it does not happen.

As if that were not enough, recently, in the face of the criminal offensive of Zionism in Gaza against the Palestinian masses, the cynical **Zelensky spoke out in favor of the fascist and occupier state of Israeli. But the occupier state of Israel has invaded the Palestinian nation, just as Putin invades the oppressed Ukraine!**

Thus, it has become crystal clear that **with the lackey Zelensky**, surrenderer of the Ukrainian nation, and supporter and accomplice of the genocide which is already a war of extermination of Zionism and imperialism against the Palestinian nation, **it is impossible to defeat the invader Putin and win the war of national liberation against the occupier, and to break with the IMF and imperialism, so that Ukraine can be truly free.** Zelensky is preparing to surrender Ukraine, in a pact with Putin and imperialism, splitting it and redoubling its oppression and exploitation.

Ukrainian trenches in Bajmut

This is why **it becomes urgent and pressing that the working class**, the only one that is not tied to any agreement, business or pact with imperialism, **leads and directs the war.** The direction of the war

cannot be left one more minute in the hands of **Zelensky, the lackey of imperialism! Under his leadership it is impossible to stop this massacre and the surrender of the nation to colonialism and plunder!**

Right now, the working class must unite its ranks and take the leadership of the war into its own hands. Its life depends on it! This is the only way to prevent this catastrophe, uniting with the European and Russian working class in a single combat

Imperialism and Putin have split the nation in order to plunder and oppress it better.

Today, the conditions are being prepared for a pact to legitimize the partition of the nation and the division of the territory: Zelensky, under US imperialism orders, will control Kiev and the whole Western region, while Putin will be given control of Donetsk, Lugansk and Crimea. With this partition, on the basis of the blood of the Ukrainian people, he will leave the nation doubly plundered and subjugated.

Therefore, the Ukrainian working class must unify its ranks from Kiev to the Donbass, in defense of the nation and the same demands for work, wages and dignified life, facing the same enemies.

It is necessary to conquer the generalized armament of the Ukrainian people to defeat the Moscow invader, and for the trade unions and mass organizations to take control of the armament of reservists and their military training.

Rank-and-file soldiers, together with workers, must set up their own committees

in every factory and in every city, and disown and disregard and expel the exploiters and their agents, the Ukrainian officialdom, lackey of NATO and always ready to sell out the nation, and elect their own bosses and commanders.

The only way to defeat the invader and conquer the liberation of Ukraine is with the working class taking the lead in the war, and carrying out the program of social revolution:

We must expropriate the expropriators! We must break with the IMF and expropriate the banks and factories to put all the wealth of the nation at the service of defending the nation and defeating the occupier! We must confiscate the black lands and expropriate Cargill and Monsanto so that the working class and the poor people can eat and live in dignity!

All the wealth, resources and goods of the nation at the service of the war of national liberation and its fighters! We must put under the control of the workers' organizations the entire industry and chain of commercialization of food and supply of the people!

*The Russian and European workers must now ally themselves with their Ukrainian siblings!
One and the same struggle and one and the same enemy from Portugal to the Russian steppes!*

The Russian workers who refuse by the thousands to go to war and face prison, repression and the consequences of a war that starves and kills the people, are the great ally of the Ukrainian working class that suffers the massacre perpetrated by Putin. **The Russian soldiers must fraternize on the front with the Ukrainian workers and go over to fight at their side to defeat the invader!**

Ukraine is a hinge nation, towards Western and Eastern Europe. **On the fate of the Ukrainian nation is also at stake the fate of the European proletariat.** A defeat of Ukraine would be a mortal blow for the European working class and a bastion of counterrevolution in Europe. The same would be true for the nations and republics of the former USSR. **There, as in Syria and Palestine, imperialism seeks to teach the world working class a lesson.**

But a victory of the Ukrainian working class would leave the butcher Putin weakened to the extreme and would untie the hands of the working class of Kazakhstan, Belarus, Russia itself and all the ex-Soviet republics, to return to combat and to the path of the revolution of the workers and soldiers councils that cul-

Putin together with the jackal al-Assad, executioners of the Syrian people

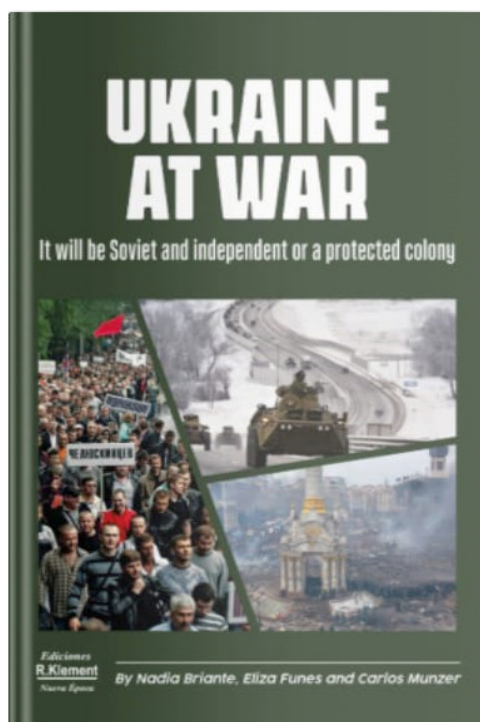

minated with the seizure of power. It would also **be a militant breath for the working class of the central countries**, like those of France or Greece that stood up a thousand times and were betrayed a thousand times.

European general strike! **Putin's war machine must be paralyzed! Weapons for Ukraine!**

A workers, soviet and independent Ukraine is the only way out to conquer

bread, land and national liberation, so that Ukraine is not a tutelary colony, plundered and oppressed by imperialism and split by the US imperialism and Putin. **Only a provisional revolutionary government of workers and peasants, allied to the European and Russian working class, will be able to guarantee the unity of the Ukrainian nation and its complete and true independence and liberation.**

Argentina - Elections 2023

The position of the Trotskyists

The electoral trap has been consummated

October 27, 2023

The bourgeoisie, in the run-off, will define with which government is going to administer its business and command a superior attack against the workers and the poor people

Massa, the candidate of the anti-worker government, lackey of the US and the IMF, of the Fernandez, that has been applying in the last years the worst attack on the masses and the rigorous payment of the fraudulent foreign debt left by Macri and company, has won.

The working class was taken out of the scene by the traitors of the bureaucracies off the workers' unions and the picketeer movement (unemployed associations)

The reformist left refused to unify the vanguard and coordinate the struggles with the Jujuy uprising to prepare the exploited for decisive battles in the face of a ferocious war launched by the capitalists against them. They had done the same during many years with waves of struggle that gave rise to embryonic movements of self-organized workers which were breaking with the Peronist government and confronting the trade union bureaucracy.

The FIT-U not only divided the ranks of the workers, but also divided the workers of the same FIT as its parties fought tooth and nail for the electoral seats, after having voted for 24 out of 26 bills to the government that only gave small handouts to the workers in order to take everything from them, as it really happened. As the election campaign aired, the FIT MPs had a parliamentary pact with Massa to vote for his so-called "progressive" laws and criticize the negative ones, so, why would millions of desperately hungry workers that lose their wages to the high inflation in the first ten days of the month because of an unbearable high cost of living and who hate the government and the bosses' parties, vote for the FIT? Precisely because of this, Milei, pretending to "confront the caste" (as he names the political establishment), got 30% of the votes, turning the situation terribly to the right, and supported by desperate masses left to their fate by the traitorous leaderships.

The parliamentary cretinism of reformism and the open betrayal of the trade union bureaucracy left the ranks of the working class paralyzed.

The bourgeoisie, in the run-off, defines with which government it is going to administer its business and command a superior attack against the workers and the poor people

Massa and Milei, the candidates of the IMF and the US Embassy

Massa with anesthesia and Milei directly with the scalpel, seek to command the attack on the working class and finish handing

Massa and Milei, candidates of the IMF and the US Embassy

over the nation to imperialism, after channeling, behind their respective arch-reactionary forces, all the exploited layers of society. A huge superstructural triumph of the regime and the ruling classes, which will now seek to impose it on the streets. That is where Argentina's future will be actually defined.

Milei, channeling desperate sectors of the ruined middle classes and the hungry lower strata of the proletariat, explores the conditions for setting up a proto-fascist movement; while Massa guarantees a government of national unity and parliamentary pacts, preserving the forms of the regime and its most Bonapartist character of recent years.

One puts the chainsaw as a symbol of what is to come and the other regroups the statified trade union bureaucracy, with millions of dollars from social security and their thugs, as a guarantee for sectors of the national upper bourgeoisie that all the workers' conquests will be handed over in this way.

The political and anti-democratic scam of the infamous regime of the 1853 Constitution

The cynicism of the bourgeois politicians in this democracy for the rich

Nothing is solved in this den of bandits of the bourgeois parliament. Everything is solved by extra-parliamentary pacts organized in the US embassy and in the meetings of the elites of Idea (a group of diverse CEOs-), the Stock Exchange, the Argentine Rural Society. There they discuss and prepare the two ends of the same rope with which they seek to strangle the proletariat and steal the wealth of the nation.

After the election, the presidential candidate of Macri and the PRO, Patricia Bullrich, called on people to vote for her "arch enemy" who was even further to the right than her, namely Milei. The fact is that behind both you can find the representatives of the big transnationals, the agrarian oligarchy and the big state contractors, from whom the Kirchners took away business for their own benefit in the last 16 years. Now, they are desperately coming back for them. And they want to do it by shielding the regime.

The Argentine bourgeoisie learned from 2001, that after the defeat of their parties and the police, the military party was not there to be used again. This bourgeois gang openly proclaims that the military must return as such and integrate itself into the regime.

The Peronists, however, also think the military should return to the stage, but in specific operations and "creating an FBI". But to put it bluntly, no serious bourgeois sector is of the opinion that this is a solid guarantee for the businesses of imperialism. Ambassador Stanley and his "boss" Richardson, commander of the US 4th Fleet, have already decided how to solve this. As in Chile and Peru, what will be installed in Argentina is the US military bases to directly take care of their businesses of Vaca Muerta, lithium, agri-food, etc.

Massa lies. He poses as a good-natured friend of the people. He is cynical! This man comes from the intimate Menemist kidney, like the Fernandezes, Cavallo and Melconian.

This man brazenly announces "fighting against the right", when he is the greatest friend of the IMF that has been repaying every penny of the foreign debt contracted by Macri, supported by the traitors of the trade union bureaucracy, who handed the working class over tied hand and foot to the most ferocious exploitation of the capitalists, to the slavery of unregistered and flexibilized labor of broad layers of the working class.

At the last minute on Sunday Massa finished counting the votes and the following Monday he himself was repaying 2.6 billion dollars to the IMF.

Massa claims to "defend democracy" against Milei's "right wing".

The CGT bureaucracy in the US embassy

But Massa acts as president, decides as president, resolves as president... he governs the country. While Fernández (the official president) has gone on holiday to Puerto Madero. Who had voted Massa president? This is what the scams of this rotten democracy for the rich are all about, where the monopolies seek to have the most authoritarian and undemocratic government to plunder the nation.

Massa announces he is "fighting against the right" and calls for a government of national unity... with Bullrich and Milei... with Macri and the anti-worker champions of the UCR. A vile deception.

As we revolutionary Marxists affirm, the chainsaw and the cudgel with which Milei threatens the workers and the people does not work without the electoral demagoguery and the sweet phrases with which Massa seeks to regain the political support of broad sectors of the working class.

They are different, but they do not function without each other. They are different dogs, but guardians of the same business. They are different, but they smell the same: they come out of the same sewer of the rotten capitalist system and the establishment and the ruling elites that manage and supervise them.

The establishment, the transnationals, the oligarchy, the bankers and imperialism are watching the working class with their hands tied by their leaderships. They test and select their general staff that will command the attack, having achieved a huge victory with the electoral trap and disorganizing the workers' ranks.

The situation of the working class is a fragile one, because, as if it were not enough, as we have already said, the adaptation of the FIT and its parties to the regime is already scandalous. They promised that the capitalist catastrophe of the nation can be overcome by putting many left MPs in parliament and fighting in it. As if it would be possible to win and achieve minimally serious demands that the masses need without defeating capitalism, and that is done with the victory of the socialist revolution. Revolution that they have very well swept under the carpet.

That is why we Marxists affirm that above all the partial demands of our class is the question of power. The FIT, in its election campaign, claims that without seizing it, the working class can improve its standard of living and existence. It's a lie. A fallacy. It is a Reformism without reforms, which only votes for laws that give alms, designed by a government that is an agent of the IMF, which put a couple of coins in one pocket of the exploited and took out, by means of the hyperinflation the whole wallet in the other, as Massa did the last few weeks.

Argentina: electoral trap

Democracia OBRERA
NUEVA ÉPOCA
EN LUCHA POR REFUNDAR LA CUARTA INTERNACIONAL

**CIRCUS WITHOUT BREAD...
JUST DECEPTION AND A FEW HANDOUTS**

From left to right: Massa, Milei and Bullrich, the candidates of the US embassy and the IMF

Capitalism and its parties have launched a ferocious war against the workers

To organize the response...

**Let the FIT-U vote for the call for a Congress of employed and unemployed workers
Open the way to the Argentinazo!**

Facsimile of the newspaper "Democracia Obrera" N° 112, with the position of the LOI-CI in front of the October elections

How to achieve the reduction of the working day, expropriate the land from the oligarchy (a question they keep quiet about), nationalize foreign trade, that is, attack the property of the capitalists, without taking power? These people... Who are they kidding to? Marxism? What do they want to invent? Everything has already been written about reformism without reform.

Argentina is at a real crossroads. As we have said, the bourgeoisie selects its institutions to go on the attack. It has its hands free to do so. It explores the conditions with all its agents to regulate its attack. The ruling classes are aware that without a new mass of surplus value extracted from the working class, the IMF will not be able to collect its usurious debt nor will capital reconstitute its rate of profit.

With the trap of the elections an attempt was made to falsely reconcile class antagonisms and stop the revolutionary struggle of the masses. For now, the bourgeoisie has succeeded. But it is cautious. It is exploring the opportunity for the chainsaw, but at the same time it is preparing to make the attack with anesthesia, with deception and a government of national unity of the bourgeois forces.

The working class has not yet surrendered. It distrusts the regime and its parties. But it does not find a way and an organization for the struggle. It is waiting for an initiative from its organizations, and this did not come. Therefore, a dangerous process is opening up that can lead to transform its anger and hatred into isolated explosions of despair when the attacks of the capitalists began.

The only instrument the leaderships of the working class have used all these years for the preparation of this ongoing struggle was the fire hose. And now they blame the masses for having doused the gunpowder. They are traitors!

The proto-fascist tendencies, which the bourgeoisie will try ever more boldly if the proletariat does not put up a fight, represent the organic product of capitalist decadence, of the same system from which Massa comes, as well as that anti-worker and pro-imperialist party which is Peronism, which here and there produces a metamorphosis always in the service of the big capitalists and imperialism.

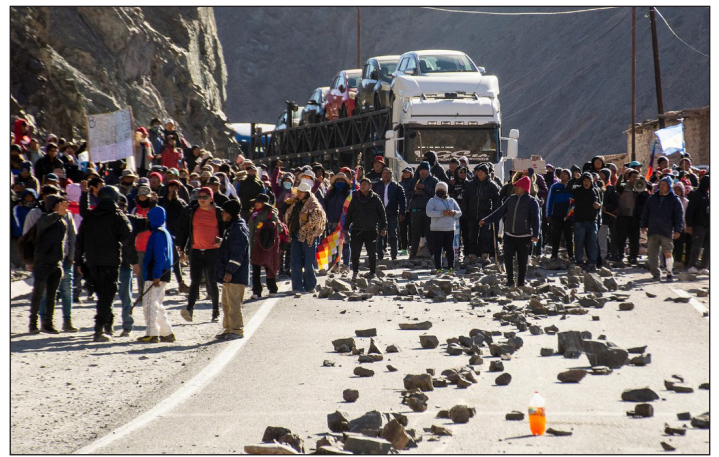

The tasks of the moment

The conditions of the battlefield and the policies of the bourgeoisie and imperialism must be patiently explained to the working class. There is no time to lose. The run-off must be faced with a program and tasks that prepare the working class for a decisive class war.

Reformists complain about the "passivity" of the working class. This is an infamy. The responsibility for the present passivity is placed on the shoulders of the working masses. As if the parties and trade unions are on the fringes of the proletariat and are not its organs of struggle.

For decades, the working class set up political and trade union organizations for the struggle. At the decisive moments, like now, when capitalist Argentina is falling on the shoulders of the exploited, these organizations have become a dead weight collapsing on their heads. This has been imposed by the trade union bureaucracy, the picketeer bureaucracy and the parliamentary cretinism of the FIT.

The working class knows that what lies ahead is a decisive struggle to get out of the present prostration. And it does not find any bold leadership that had pushed for a revolutionary campaign throughout the country, even using the election campaign. The

June 2023 - Jujeñazo: picket at Purmamarca

class was left isolated in scattered fights and partial demands, which were won one by one by the bourgeoisie.

It is a question of life and death. The attack of the capitalists is already here and will only deepen. Imperialism, worldwide, and the bankrupt US imperialism in particular, is deepening the attack on the masses in order to get out of its own crisis. The massacre in Gaza is a new chastisement that it has prepared for the masses in the Maghreb and the Middle East, and internationally.

Under the orders of the 4th Fleet of the US, the Lima Group of 11 armies of 11 Latin American states emerged under its orders, from the military bases installed in Honduras, Colombia, Chile and Peru.

Imperialism is coming for everything. The masses of Latin America and the US put up a fight and are waging a hard battle. Despite having suffered defeats, such as the counterrevolutionary coup in Peru or the diversion of their struggles by the traitors of Stalinism and trade union bureaucracies, towards pseudo-parliamentary breakthroughs which, once they have disorganized the masses, move forward so that the bourgeoisie and imperialism can deepen the plunder of our countries.

But the working class on the Americas has not given up. In the US the auto workers are leading the way, as the masses of Ecuador, Bolivia, Chile, Colombia were yesterday.

In Argentina, a decisive battle of the Latin American working class is being fought and will be fought in the immediate period.

Imperialism and the bourgeoisies have the role of the traitorous leaderships in their favor. Even the former Trotskyists, currently renegades, who called to vote and support, and even to enter the governments of class collaboration as in Brazil, as the Boric government that administers the business of the Pinochetista regime, or yesterday Castillo, or Petro and his reconciliation plan of "peace of the cemeteries" in Colombia. And what is worse, they are hiding and cleansing from the left the biggest betrayal of the Americas, which is the surrender of workers' and peasants' Cuba to imperialism. They are responsible for the "backwardness in the consciousness of the masses". They are traitors! They have put the motto "Socialism is no more" and beat the workers who revolt against the new capitalist Cuba and protect the "gusanos" of Havana, who meet with the "gusanos" of Miami to do business.

These are the conditions of the battlefield internationally and in Argentina, which the conscious and discerning workers must understand in order to orient themselves with a class and revolutionary policy.

Carlos Munzer

November 9, 2023

The parliamentary left, in the footsteps of old Stalinism, in search of the “progressive” bourgeois and the “lesser evil” ...

Either overtly or covertly... The FIT-U in Massa's field with a policy of class collaboration

While the US embassy decides whom of its three men of close confidence (Macri-Milei or Massa with his block of anti worker figures: Menemists, UCR's men, Rodríguez Larreta and company)

will manage its businesses... the FIT-U parties play hide and seek so as not to call to vote against Milei and Massa.

What is even worse, they refuse to call for re grouping the workers' ranks to re-

sist the ongoing fierce attack on the wages and conquests of the workers, which will be deepened a thousand fold as soon as the last vote of the run-off election is counted, whatever the winner.

THE FIT-U ON THE “ANTI-MILEI” FRONT

To implement the plan of the IMF and the capitalists, Massa will have to attack the workers as much as or worse than Milei.

In 2015, in the run-off between Macri and Scioli, all the parties that today make up the FIT-U called to vote blank, denouncing both employers' candidates.

Now, when a formula is Milei “goes to the government” and Macri “to power”, these parties propose voting for the “lesser evil”. A total abandonment of Trotskyism. They have already embraced the legacy of Stalinism.

Massa on the day of the vote of the Law for the repeal of the income tax, promoted by the government, and later voted for by the FIT-U and Milei

The PTS “does not vote for Milei”, does not give “any political support to Massa”... So who do they call to vote for? None or null? They call to vote for Massa without it being noticed

The PTS states “we do not support or vote for Milei, but we do not give political or electoral support to Massa”. So why don't they call openly for not voting Massa either and voting none? What does “not give political or electoral support” mean? There are elections, where it is

not defined who is supported, but rather who is voted for and who is not.

The PTS is very careful not to anger its Kirchnerist friends. They will not campaign for not voting for Massa. That is, there is no alternative to voting. Neither

boycott, nor null vote, nor none... they are in the air, in the internet cloud, of “likes” and “retweets.”

The revolutionary strategy is exactly the opposite of what the PTS and its FIT-U partners propose: the more the

bourgeoisie deceives trying to dress up as a “friend of the people,” the more we must unmask it. Therefore, while we confront Milei, more and more we call not to vote for Massa and to confront him.

Milei is a very clear enemy. Massa, on the other hand, is the worst of enemies, because he deceives the working class pretending that he is different from Milei and will be good and compassionate to the masses, just when he comes with a club under his arm. Or does anyone believe that the IMF plan, with its high fees and attacks on conquests, is imposed by means of “good manners”?

The PTS plays hide and seek with the bonapartist farce of the run-off. By not proposing “Down with the run-off! Neither Milei nor Massa, they are both from the IMF!”, by not saying neither none vote nor null vote, it is ultimately proposing “vote Massa”, but without dirtying their hands.

Bregman and Del Caño (PTS), FIT-U candidates for president and vice, respectively

The problem is that their hands are already dirty. They voted for Massa on 24 of the 26 bills that he sent to Congress. They have already told the masses that with Massa they can achieve progressive

laws. So why wouldn't they vote for him against Milei? If the PTS has already given him political support by voting for his laws.

The position of the PTS is to call to vote for Massa without it being noticed.

→

About Myriam Bregman's “likes” and the virtual class struggle of the PTS

After the electoral failure of the FIT, which was overwhelming in the big workers centers (in Jujuy, the province of the “Jujeñazo” of June, they went down from 23% in 2021 to 3.5% in these general elections; in Matanza they lost half of the votes, also in Neuquén) the leadership of the PTS seeks to come out unscathed from displaying one of the most right-wing policies of the Argentine left in an electoral process.

They can no longer lie. At this moment they are like a driver who has a flat tire on the front two wheels of a car, has it lifted with a cricket and accelerates it with the wheels in the air, without the car moving.

It is the party of the “millennials”. They talk about the “likes”, the “retweets”. They are the boys and girls of the networks. As if the proletariat and the civil wars were defined on that terrain! The campaign of “Bregman, an idol in the networks” has been designed to prevent the majority of the militants from leaving for home. Everything is valid to try to show some success in the face of a resounding failure and an impotent and reformist policy.

They have thousands of “likes” in the networks in favor of Bregman, but neither in support of the socialist revolution in Argentina, nor for the Argentinazo, or the Cordobazo, or for a call to fight in all Latin America against the IMF. There were no “likes” or “posts” or “retweets” because the former propositions did not exist.

But the most right-wing thing -which has been filmed and seen by millions-, is that they gave their condolences to the Zionist-fascist settlers who, from the land they occupy, bombed and shot the Palestinian masses in Gaza when the latter broke through the fences and walls that enclose that ghetto. They cannot deny it. Their support for the Palestinian people is puré lip service. Lest they lose votes...

The PTS is the party of the “neither”... “Massa or Milei, neither”. Gaza is divided. On one side Hamas is fighting, in a just anti-colonial war, and on the other side there are the armed counterrevolutionary forces of the occupation. In which trench is the PTS? “Neither”. Neither does it call for a consistent confrontation with the bourgeoisie, nor is it for the military defeat of the Zionist-fascist state of Israel and its destruction, nor is it for the arming of the Palestinian masses of Jordan, the West Bank and Lebanon to enter the just national war with the method of civil war and go all the way with the uprising of the world working class.

We insist, they are the party of “neither”... Neither socialist revolution, nor expropriating the capitalists to raise the standard of living of the masses, nor defeating the capitalist restoration in Cuba, nor promoting the revolutionary struggle in Latin America so that it succeeds also in the U.S. “Neither” it occurs to them to raising this program.

Izquierda Socialista and the NMAS do not mince words

They don't even take care of their words to call for voting to Massa

They say that "the lesser evil is Massa." They say they accompany the workers' experience with Massa... Rascals.

Due to betrayal by their leadership, the masses are going to the hell of another of the agents of the IMF and the very high big slavery bourgeoisie and the transnationals. Izquierda Socialista shows them the way and accompanies them, just as they did in Peru with Castillo or in Chile with Boric.

Nothing new from the NMAS or Izquierda Socialista... **they are founding back Victorio Codovilla's Communist Party**, looking for the "democratic" bourgeois against fascism, as if fascism, which is an excrescence of capitalism, could be confronted with bourgeois scoundrels who come out of the same sewer of this rotten colonial capitalist system.

Fascism is confronted with workers' militia and the methods of the working class, not with the bourgeoisie that poses as "democratic", which will be the first to call for fascism when the masses, to be able to eat, attack their property.

We Trotskyists defend democratic rights with the method of proletarian revolution, not by voting for its executioners, since from Massa's ranks police officers will come out as murderous as those who would guard a Milei government. Because they have to defeat the working class so that semi-colonial Argentinean capitalism lives and the nation continues to be plundered by imperialism.

As we can see, these parties go on screaming that "the fascist Milei is coming". But is fascism coming to kill the workers now? This would mean that the bourgeoisie has decided to launch a civil war against the workers' organizations. If this were the case, these currents, instead of calling to vote for Massa, should be calling for setting up a large congress of employed and unemployed workers, student organizations, etc., in order to set up thousands of self-defense committees of workers, youth and women to crush fascism. As Trotsky said in France in the 1930s: *"It would be absurd to shoot*

"Massa is a man of the (US) Embassy, but I am going to vote for him because I do not want Milei to win"

Rubén Sobrero, leader of Izquierda Socialista and the Unión Ferroviaria (Railway Union-Haedo Local) to radio AM 750 on 11/9/2023

"Pollo' Sobrero votes for Massa"

The "new left" of the 21st century, following in the footsteps of Stalinism and the old class-collaborationist left of the 20th century

guns over a ballot box. But it would be still more absurd to defend oneself against Fascist gangs with a ballot". ("Once Again, Whither France?" 1935).

And if Massa wins, we must also hold this large workers' congress to regroup the ranks of the exploited. In a Massa government, the soldiers, the repressive armed forces and even the union bureaucracy with the Triple A like in the '70s, will be at the order of the day to impose the brutal attack on the working class, from whom they need to take the enough mass of Surplus value to pay Macri's fraudulent foreign debt to the IMF.

Izquierda Socialista, by calling to vote for the bourgeoisie, becomes politically responsible for everything done by the government that it called to voting for.

The front with the "democratic" or "progressive" bourgeoisie means the suicide of the working class. Here 1 plus 1 do not add up to 2, but rather they are opposing, irreconcilable forces.

It is an obligation for Marxists to denounce this democracy for the rich, which is based on the arch-reactionary and Bonapartist 1853 Constitution, as a machinery that serves imperialism and the bourgeoisie to "appropriate" the sweat and blood of the workers and the poor people.

Reformists lie openly. Milei does not act alone. His whip is effective if the "pro-

gressive" bourgeois disorganizes the workers' ranks, controls them, builds a wall to obstruct the fight for their demands and imposes, as Massa does today, one of the worst attacks on the wages and workers' conquests of the last decades.

"Vote for Massa"... and you will get a cabinet full of people from Milei, from the PRO, from the UCR. Will "Pollo" Sobrero and the leadership of Izquierda Socialista enter that cabinet "to accompany the experience of the workers"? With that lie, Stalinism has surrendered the global working class for decades. They are on that path.

For this reason, the Marxist apothegm affirms that the most "generous", "charitable", deceitful and demagogue of the bourgeois gangs is the most perfidious enemy of the proletariat. It is the one that disorganizes the workers' forces, represses and crushes them so that fascism can then finish its task. This is the "old popular front policy" of Stalinism.

They haven't learned anything from Peru. The traitors of Stalinism invented a bourgeois party that, with Castillo at its head, dragged along the majority of the Peruvian working class. It disorganized their ranks. Castillo applied madures benefitting all transnational corporations and imperialism, and negotiated with them, attacking workers and peasants day after day. And when this govern-

ment was like a squeezed lemon, Dina Boluarte's coup came. And this coup was only possible because the traitors of the CGTP called for political support for Castillo, and left the working class tied to its executioner.

Let's be clear, Izquierda Socialista and its sister party in Peru also called to vote for Castillo to "accompany the people's experience." This is a whole program: "to accompany the experience of the masses" we must support the bourgeois leadership that manipulates them, but yes, of course, "critically."

The FIT-U parties have already, as we have demonstrated sufficiently, openly broken with the Fourth International, the program of revolutionary Marxism and

January 2023. Mass uprising in Peru against the coup of Dina Boluarte and the US

Trotskyism. It's already clear what's happening here.

The Cuban Stalinist left, which covers up the surrender of Cuba to imperialism

and the new capitalist "gusanos" of Havana, has put Izquierda Socialista and the majority of the vernacular left under its arm. They are incurable.

And at MST's home, how are they doing? Yes, but no... maybe... but yes

The MST thing does not surprise us, because it already voted for the anti worker Luis Juez. Encouraging the vote for Massa again from the stands is not at all unusual in the MST. In the same fan-club they have the PTS cheering for Massa's

victory. The NMAS and Izquierda Socialista entered directly to the mud to play.

The MST... always the MST... They supported Sanders, they are from the DSA international that supported the Democratic Party. They are with the

PSOL in the government in Brazil. Nothing new under the sun.

They write the same gibberish to call for support for Massa, acting like an elephant that wants to hide himself under a scarf.

The masterminds of the MST leadership say: **"Our first definition is to call on workers and young people NOT to vote for Milei and its reactionary anti-rights and denialist project which must be stopped. At the same time, on the basis that they do not conduct equal projects, we understand the democratic will of those who voted for Massa so that Milei does not win, therefore, we will not call for a blank vote or campaign in that sense".** And then they say "but nevertheless Massa blah blah blah..."

They are a little less delicate and careful than the "yes-no party" of the PTS.

2008: MST marches together with leaders of the agrarian bourgeoisie and the oligarchy

And the Partido Obrero?

We know that the PO was a loser in the FIT-U primaries. There is no doubt that not only Juntos por el Cambio has broken up, in fact, so has the FIT-U too, while they maintain a superstructural gentlemen's agreement where the seats are defended. Beyond that, nothing. The future will tell.

The impotence and bankruptcy of the FIT-U speaks of this, as they did not prepare the working class to confront the two watchdogs that, with different collars, serve the same master: the IMF, the US embassy and the slavery bosses.

Some say that they are going to impose the plan with the strikebreaker, trai-

tor union bureaucracy and their sticks, and with... the repressive forces.

Milei says the same thing, except that the sticks will be wielded by a social base desperate for the crash and the crisis of the ruined middle classes, and sectors of the lower layers of the proletariat left to their fate by the union bureaucracy. To

them the Mileites will propose that their crisis is not resolved due to the responsibility of the proletariat.

In this undemocratic trap of the run-off, where the only goal is for the next executioner to have the majority of votes in the country, the bourgeoisie defines which is the best government to manage and centralize all of its businesses. Both candidates are the two ends of the same rope with which they seek to strangle the working class. When the last vote is counted, even the blank votes that "the last PO conference voted for its militants," the attack will be fierce.

If in the middle of the electoral campaign they took the unemployed movement (the "picketeers") out of the streets and canceled the campings in front of the State buildings! If in the middle of the electoral campaign poverty and the loss of conquests have multiplied! What Massa won't do if he wins... and not to mention Milei!

Therefore, the blank vote against these Bonapartist ways that only allow for choosing between the "black or white" of the run-off, is only the starting point of a revolutionary policy. The PO has enormous influence on the picketeer movement, and within the SUTNA. They announced from the rooftops their enormous weight in the working-class neighborhoods. And they held an internal conference of their party to decide what they would do in the elections, that is, *whether they would support the bourgeoisie or not*. If a party that calls itself revolutionary has to hold a conference or congress to discuss whether they support the bourgeoisie or not, in reality what they are voting on is whether to dissolve or not.

But here you have some surprises.

Massa together with the CGT union bureaucracy

Now it is clear what the PO's blank vote is about. As Romina del Pla said in a public interview with Chiche Gelblung on Crónica TV, "the blank or null vote is for the militants." This is what their conference voted for, clarifying that they are not going to campaign for the blank or null vote.

Let's imagine the PO calling to vote for the FIT-U, but announcing that they will not campaign for it. It would be not campaigning for the FIT-U. Not campaigning for a blank or null vote amounts to washing their hands and allowing workers to enter a death trap, without fighting against the regime, the government and the system. The most left-wing of the proposals turned out to be the most deceitful of the FIT-U parties' policies in calling to vote for Massa.

The PO's blank vote is something like telling the workers "vote for Massa, we would be looking the other way." A plan that is too conscious of a left that is already openly a part of the bourgeois regime.

The PO had and still has all the possibilities to call for a great congress of the

workers' organizations of struggle in Jujuy, called by the SUTNA, the picketeer movement, the teachers, who seek to go out to fight again, and from there, to prepare the response to the class war that the bourgeoisie has launched helped by the electoral screen.

Unfortunately, this call, the PO leadership refused to make. And the workers' vanguard arrives disorganized and with its ranks divided in the face of the class combats that are coming.

That's why we affirm that the FIT has gone wholly bankrupt. And it is in question whether it will even continue to be an electoral cooperative of this arch-reactionary regime of the 1853-1994 Constitution, or a collector of Massa votes, which is what they have already voted to be. Massa celebrates. In different ways, the FIT-U parties have voted that the workers have to vote for Massa. A political crime of class collaboration by the left of the regime. This is the perfidious policy of class collaboration, of subjecting workers to the "good bosses."

We are not surprised by this political maneuver of the PO. The thing is that when they had not lost internal elections within the FIT-U, like this year, they had called to vote for "No" in the cheating Syriza plebiscite in Greece, a party which even when the "No" to the agreement with the Troika won, applied a brutal offensive against the working class of that country. The PO called to vote for Boric, the direct agent of the US imperialists and the Pinochetista regime in Chile, and for all the "progressive" bourgeois that emerged in Latin America under the scam of the "Bolivarian Revolution", like Morales or Correa.

The bankruptcy of the FIT-U

www.flti-ci.org

For a revolutionary course of action for the working class and rebellious youth...

Down with the run-off trap!

Let Everyone of them go out, not even one should remain!

Vote blank! Workers never vote for any of their executioners!

We must now regroup the ranks of the workers to face the attack of the capitalists, before it is too late. We must prepare the conditions to tell the working class that this attack that is coming must be stopped with pickets, strikes, self-defense committees, kicking out the bureaucracy of the unions, preparing the revolutionary general strike, regrouping the ranks of the working class with a program for the Argentinazo and the revolution.

We must regroup the workers' ranks to fight alongside the Palestinian unions, which called to repudiate the Histadrut, the Zionist-fascist labor-management confederation, and fight internationally against the genocide in Palestine, as workers in different parts of the world are already doing by refusing to ship weapons and supplies for the Zionist-fascist State of Israel, from Oakland to Belgium, from France to Barcelona.

The SUTNA must make that call. A brave anti-imperialist voice has to stand up in Argentina. Because, how can the IMF and Milei be defeated if the US imperialists, with their Zionist puppet, crush and fill rebellious Palestine with blood?

Imperialism has concentrated all its forces in its backyard to go for counterrevolutionary adventures around the world. Here and there in our subcontinent, and now in the United States, in support of the Palestinian masses, the workers and the oppressed have risen up and continue to rise up.

The working class needs to recover its militant internationalism to break with the IMF, to defeat the anti-worker and repressive governments of the peoples, to coordinate its struggles and demands. Everything else is neither socialist nor revolutionary. It is parliamentary talk to subsume oneself into this rotten regime of democracy for the rich.

Thousands of workers have voted for the FIT-U. They deserve a true socialist and revolutionary policy. But to do this,

2001: Revolutionary December Days

together with the acknowledgement of these cruel and hard lessons, and the fight against opportunism and revisionism in Marxism at the international level, it will be necessary to recover and refound the Fourth International, its program and its clean flags.

The fight to re found Argentine Trotskyism with the program of the founders of the Fourth International of 1938 is an unfinished task, for which entire generations have given their lives. These and thousands of combative workers in this country do not deserve this opportunistic policy of the FIT-U, which leads them to trust the largest slavers, exploiters and support the greatest traitors of the labor movement, which is the union bureaucracy.

Our small international revolutionary nucleus fights under the flags of Trotskyism and the Fourth International. We know that we are sailing against the current again. But the facts, the crude facts, will be what will convince the workers of the justice of the revolutionary program.

It is about regrouping insightful workers, even if they are 10 people, according to Lenin, and not 10 thousand stupid, without intention of insulting anyone. How right Lenin and the Bolsheviks were!

Neither Massa nor Milei, the two guard

dogs with different collars, serving the US embassy and the looting of the IMF! Vote blank! Congress of workers, picketers and rebellious youth! Let everyone of them go out, not even one should remain! For self-defense committees and worker regrouping! Let us defend our class from repression, hunger and the betrayals of the union bureaucracy! The fight is class against class.

To unite the ranks of the workers, conquer decent work for all and wages according to the basic basket, together with the working class and the peasant masses of Latin America, break with the IMF and expel imperialism, the path is the Argentinazo. Down with the infamous regime of the social pact of the slavery bosses, the bosses' politicians and the traitors of the union bureaucracy!

Stand up alongside the Palestinian unions! Boycott the Histadrut! Food, medicine and supplies for the heroic resistance of Gaza and all of martyred Palestine! For the destruction of the Zionist-fascist State of Israel!

For the working class to live, imperialism must die!

Editorial Committee of the newspaper
Democracia Obrera of Argentina

Argentina - Elections 2023

The position of the Trotskyists

The run-off, an anti-democratic trap against the working class and the people...

Neither Massa, nor Milei

The candidates to managers of the business of the IMF, the bankers and the big capitalists

Workers do not vote for bosses politicians!
Vote blank

Those at the top are coming for everything

Massa, with the traitors of the trade union bureaucracy and the slave-owning bosses, or Milei without intermediaries, come to impose labor flexibilization and to finish sinking wages in order to repay the IMF... Two guardians, with different collars, of Stanley and the US embassy.

Whether with a government of national unity or with parliamentary pacts, they will all attack the working class together.

It is necessary to prepare a decisive struggle...

National congress of employed and unemployed workers...

To organize the struggle against the union bureaucracy and resume the road to worker and popular self-organization and rebellion, as yesterday in Jujuy and Chubut...

To confront the capitalists and their government and reopen the road to the general strike...

To set up workers' self-defense committees against the repressive official and paramilitary forces...

Let everyone of them out, not even one should remain!
Give way to Argentinazo

Only a **worker and popular government based on the revolutionary mobilization of the masses** will be able to expropriate imperialism and the agrarian oligarchy so that the poor people can eat.

For the unity of the working class and poor peasants of Latin America, to stop the attack of the IMF and the Wall Street bankers.

Out with the new Castroist bourgeoisie of Havana.

Bring back the workers' and peasants' revolution in Cuba and all of Latin America.

Stand with the Palestinian working class to defeat the fascist forces of Zionism commanded by Biden and Netanyahu.

Argentina will be socialist or a colony of Wall Street
