# The second Syrian revolution is the best ally of the Palestinian resistance martyred by Zionism

**After the fall of al-Assad, the State of Israel invades Syria as a last guarantee for the masses to disarm before the HTS government... If the latter fails, the Zionists would crush the exploited.**

In this issue of "The International Workers Organizer" No. 46 we publish the statements, notes and correspondence that our current has elaborated on the second Syrian revolution that has risen.

In an independent revolutionary action, the masses reached Damascus and overthrew the fascist government of al-Assad, leaving in a serious crisis the regime of the protectorate of the US, Russia, Turkey and the cowardly Middle East bourgeoisies — of Iran and Lebanon— that occupied and divided Syria.

The reader will see that our statements not only reflect the beginning of the second Syrian revolution moment by moment, but also the current situation.

Today, while workers and oppressed continue to mourn their dead, searching for missing relatives, and executing Assadist officials and generals who murdered and tortured the Syrian people, the bourgeoisie is conspiring to establish a "transitional government" between HTS and Assad's politicians that will disarm the masses in order to establish a caste of

**officers for a single army.** In other words, they are seeking to reconstitute the bourgeois state, which is the band of armed men that guards private property.

Part of this plan is the amnesty that the new government has declared for all soldiers and officers of al-Assad's army, where they are absolved of all their war crimes if they hand over their weapons and join the new army of the new Syrian state that they are seeking to reconstitute.

In turn, **Zionism bombs Syria, after al-Assad, prior to fleeing gave them the coordinates of the arsenals and depots of heavy weapons, aviation and navy premises so that they could be destroyed, preventing them from falling into the hands of the masses.** In this way, **al-Assad withdrew from Syria doing what he always did there: protecting the borders of Zionism.**

It is precisely because this guard dog is no longer there to keep these borders safe from the Syrian masses that Zionism has to enter directly, which is why it has already invaded and oc-

cupied Syrian territory, taking towns in the provinces of Quneitra and Daraa, clashing there with the rebellious Syrian people. This is happening after Iran withdrew almost without firing a shot and surrendered to the US, and after Hezbollah signed an armistice with the State of Israel, handing over control of the Lebanese border to the fascist army of Beirut of the Maronite bourgeoisie, at a time when the Palestinian and Lebanese masses in the south of that country were defeating the invading troops of Zionism.

Thus, while HTS is deceiving the masses and trying to set up a “transitional government” with Assadist ministers and officials, **Zionism is joining the table of the powers that invade and partition Syria, to be the last guarantee for the masses to be disarmed or crushed.** They act as a real “gun to the head” of the masses to get them to accept this plan of the bourgeoisie. Likewise, by invading Syria, this gendarme of imperialism is seeking to establish itself once again as the great counter-revolutionary guarantor of imperialism’s oil routes.

The boards of HTS-Turkey, Zionism and the US that commands the Kurdish bourgeoisie in northern Syria, are today the true protectorate regime that governs Syria against the masses that overthrew al-Assad.

**The cowardly Middle East bourgeoisies have already sealed their deals with imperialism,** despite the occasional friction that one or another may have with it. Whether Shiites like Iran or Hezbollah, or Sunnis like HTS, Turkey, Qatar, etc., they have all agreed to be agents of the disarmament of the Syrian masses and the defeat of their revolution, as well as of the siege of Gaza, trying to subdue the heroic Palestinian resistance. Not to mention the PLO, which is currently murdering the Palestinian resistance in the West Bank, as in the Jenin camp.

Putin has proven to be the gendarme of imperialism’s business in Eurasia and the Middle East, and particularly in Syria, where until yesterday he played the same role as Zionism.

In Iran we have seen that for years the workers and the people have been waging enormous struggles against the murderous theocracy, which responded with repression, murder, mass imprisonment and executions after summary trials and death sentences. It is not the Iranian masses who have surrendered to imperialism but the lackeys of the Shiite clerics.

*December 21, Aleppo: al-Jolani has political prisoners in its jails. Women and relatives demand their freedom*

As we have already said, the multi-millionaire bourgeoisie of Hezbollah has just made a pact with Zionism to surround Gaza while the masses of southern Lebanon were fighting and inflicted defeats on the invading Israeli troops.

Al-Assad had relied on these counter-revolutionary forces to drown the Syrian revolution in 2011 in blood, massacred the masses for years and guard the borders of the Golan Heights for Zionism, against which he never fired a single shot.

Meanwhile, the Kurdish bourgeoisie of the Syrian Democratic Forces, which had made a pact with al-Assad, is now calling for the creation of a single government and army for all of Syria. In this way, it is positioning itself as a direct representative of the US, just as they did in Iraq, handing over the Kurdish people to be disarmed and crushed.

According to the Trotskyist theory and program of Permanent Revolution, the national bourgeoisies are incapable of carrying out all the way the struggle against imperialism, of which they are junior partners, and make pacts with it to crush the masses. They know very well that the revolutionary struggle of the working class and the exploited endangers their property, and the victory of the masses would also be the end of the native bourgeoisies.

But the class struggle does not give any relief. The driving force behind it is that the masses can no more bear the unprecedented hardships nor the lackey regimes of imperialism that prevent them from winning bread, land and national independence.

We are not facing “wars between armies” or “geostrategic games”, as the in-

ternational reformist left likes to claim, but rather the class struggle.

In Syria, there is a revolution for bread. The workers and exploited opened the fronts of struggle and reached Damascus and overthrew al-Assad, despite and against HTS, as we have shown in the various statements published in this edition of “The International Workers’ Organizer”.

Similarly, it is not the Palestinian bourgeoisie –sold out to Zionism for two cents, which is fighting in Gaza and the West Bank, but the masses in a heroic resistance using the methods of class civil war.

Now the Egyptian workers and exploited have returned to the streets of Cairo, taking up the path of 2011 with the cry of “The people want the fall of the regime.”

A Marxist who does not distinguish their class, especially in the face of acute processes of war, revolution and counter-revolution, is not a Marxist but a vile traitor.

***In Syria, Palestine and the entire Middle East two trenches are confronting each other:***

***On one side, Stalinism subjected to the Arab bourgeoisies, agents of imperialism...***

***On the other, Trotskyism fighting for the triumph of the Syrian revolution and the Palestinian resistance...***

***In the middle, a river of blood***

So, we present here this International Workers’ Organizer which shows that in the Middle East two theories and two programs are once again confronting each

other, which clearly mark two trenches in the class struggle.

On one side, the Stalinists and the renegades of Trotskyism who are at the feet of the national bourgeoisies, lackeys of imperialism and counterrevolutionary agents that massacre and surrender their own peoples.

On the other side, the Trotskyists together with the Syrian revolutionary masses and the heroic Palestinian resistance fighting with the methods of the proletarian revolution, putting forward a program for victory.

We call to **disown the illegitimate government of HTS and the Assadist politicians** -that nobody recognizes and nobody voted for- so that the bourgeoisie and imperialism do not expropriate this revolution that the masses are leading. We call to set up the **workers, poor peasants and armed militiamen's committees that coordinate at the local, regional and national levels, and that these organizations be the ones to take power** against this puppet government that has come to disarm the masses and gives amnesty to the war criminals.

**For workers' and popular tribunals that will bring justice to the genocidal murderers of the Syrian people! For a revolutionary provisional government of workers, peasants and armed militia!**

On the other side, the reformist currents, which "only for holidays" speak about Socialism, or say it is something "for the future", refuse to fight in revolutionary Syria to set up the dual power organizations of the masses for their revolution to succeed.

Some of these currents have given condolences to the Zionist settlers on October 7 last year and condemned the self-defense

*Thousands of bodies have already been found in al-Assad's mass graves*

action of the Palestinian resistance against the advance of the fascist occupation, refusing to recognize the right of an occupied nation, like Palestine, to defend itself and expel the invader and occupant.

Today, these currents are marching together with the PLO fifth column that yesterday supported al-Assad and today is shooting the Palestinian resistance in Jenin in the back when the latter seeks to confront Zionism together with its siblings in Gaza. They seek to divide the Palestinian people from the revolted Syrian masses, while we, on the contrary, stand firm with the Palestinian resistance that has embraced the Syrian revolution, and both of us raise high together the flags of the uprising Syrian masses and of free Palestine from the river to the sea.

Yesterday, all these currents sought to pass off the Syrian masses as "terrorists" before the world proletariat, and al-Assad and Putin as "anti-imperialists", when they two did the "dirty work" for the sake of all the imperialist powers of drowning in blood

the Syrian masses in revolt since 2011. This comes to light not only by the brutal massacre of 600,000 dead, devastated cities and millions of refugees, but by the hundreds of thousands of political prisoners who were tortured to death in the tomb-prisons of al-Assad and Putin and buried in mass graves that are discovered today.

**These same currents today claim that Zionism invades Syria because al-Assad is no longer there to stop them, when it is exactly the other way around. Precisely, Zionism invades because the masses overthrew the dog Bashar government that crushed them and guarded the border for the fascist and genocidal state of Israel. Zionism today can attack because, thanks to al-Assad, Putin and the Iranian ayatollahs massacring the first Syrian revolution, it has regained the firepower it did not have in 2011.** As we said, before fleeing Damascus in the face of the mass uprising like a rat, al-Assad himself gave Zionism the coordinates of the arsenals of heavy weapons so that it would bomb them and they would not fall into the hands of the revolutionary exploited.

The trenches have been clearly established. There are two theories and two programs confronting each other: this of Trotskyism fighting for the triumph of the socialist revolution, and that of Stalinism and its former Trotskyist servants, all of them subjugated to the lackey Arab bourgeoisies and counter-revolutionary agents of imperialism... In the middle, a river of blood.

## SYRIA / BREAKING NEWS

December 27, 2024

Following the fall of al-Assad, the watchdog protecting Zionism  
The State of Israel invades and occupies Syrian territory

## Out of Syria Zionism, USA, Turkey and all invading troops!

Today, the people of the Houran region (southern Syria) took to the streets against the incursion and occupation carried out by the fascist Zionist state of Israel, which has already taken 500km<sup>2</sup> of that region and carried out arrests and destroyed homes. The inhabitants of that area organized rallies and marched to the Zionist headquarters to expel the invader, who responded with gunfire, leaving dozens wounded.

Today Zionism can intervene in Syria because Hezbollah signed a ceasefire agreement, in which the Lebanese front against Zionism was closed and put under the protection of the fascist army of Beirut of the Maronite bourgeoisie, murderers of the Palestinians in Sabra and Shatila. This agreement also includes the delivery of weapons from Hezbollah to Zionism, which images are already coming to light.

On the other hand, Iran, which threatened to launch the "mother of all battles", retreated almost without firing a shot and surrendered to the USA. **This Shiite bourgeoisie, as well as the Sunni bourgeoisie (seeing al-Sisi and the Jordanian king guarding the borders of Zionism, or the Qatari bourgeoisie meeting with Hamas so that it accepts the surrender) are besieging Gaza for it to surrender and be defeated. It is the cowardly Arab bourgeoisies**

*Uprising in Quneitra (Syria)  
against the Zionist invasion*

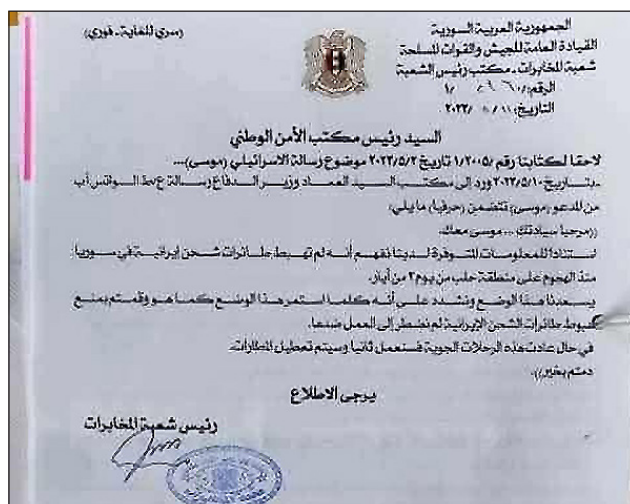

**who allowed Zionism to intervene and attack the Syrian revolution.**

The State of Israel has to send its forces to bomb and occupy Syria since al-Assad is not there, the one who gave it security that the Syrian masses would not open the Golan front. Therefore, before falling into the hands of the revolutionary masses, **al-Assad rendered the coordinates of the heavy weapons arsenals to the Zionists** so that they could destroy them.

This is no coincidence: the dog Bashar for years maintained secret relations with Zionist Mossad passing on information for its defense, especially where the arms shipments that were passing through Syria were so that they could be bombed and not reach Hezbollah, as has already been demonstrated in all the documents that were discovered by the masses upon their entry into Damascus and have now come to light.

Assad's Syria was never, as all reformist currents claim, a supply centre for the Palestinian resistance, but rather an interception centre for all weapons that could be used in any way against Zionism.

The global reformist left always wanted to portray al-Assad as an ally of the Palestinian masses. A vile deception. **Bashar al-Assad has been the best agent**

*Classified files reveal direct communication, reports  
and coordinates that the al-Assad regime gave  
to Zionism to protect its borders*

**of Zionism in the Middle East.** It was his father Hafez who opened the gates for the massacre of Palestinians in Sabra and Shatila, and then handed over the Golan Heights.

It was Bashar al-Assad who looked after imperialism's interests and the security of its Zionist gendarme in the face of the revolutionary processes of 2011. This was even recognized by Andrew Exum, the former US Deputy Assistant Secretary of Defense for the Middle East, in his statement on May 9 2019 before the Committee on Foreign Affairs of the House of Representatives of the US Congress: *"we worried that the Assad Regime might finally collapse – and do so quickly, in a way that would endanger U.S. interests, to include the security of the state of Israel"...*

That is why al-Assad, together with Putin and the armed guards of the Shiite clerics, drowned the first Syrian revolution in blood, and the more they did so, the more firepower Zionism regained.

Stop passing off the enemies of the Palestinian masses as their allies! The Assads have always been servants and lackeys of Zionism!

**Today, those facing the Zionist invasion in Syria are the rebellious masses, while the HTS government with the Assadist politicians looks the other way,** since it knows that Zionism is there to forcibly disarm the militias that al-Jolani cannot disarm.

We must direct our weapons to expel the occupier of Syria! Let us open the fronts to destroy the State of Israel!

Out with the USA, Turkey, Zionism and all invading troops! Let the Kurdish people rise up against

*Arsenal and planes destroyed by Zionism in Syria*

the US bases and their oil companies that are plundering the black gold, to weld the unity of the workers of all Syria!

The oil and banks must be expropriated without compensation and the wealth must be recovered for the Syrian people! The funds are there to rebuild the homes of the refugees, so that there is bread and decent work for all.

Let's take back the Syrian nation! For a Syrian National Assembly with one delegate for every 100,000 inhabitants from all regions of Syria, recallable at any time by their electors, who should not earn more than the average wage of a worker.

The masses must remain armed to ensure that this assembly is truly free and sovereign, and it can only emerge on the basis of expelling the invading powers and giving the land to the poor peasants. This can only be guaranteed by a revolutionary provisional government of workers, peasants and militiamen, based on the dual power organizations of the armed masses.●

For committees of workers, soldiers and  
the poor people!  
The fight is now for Damascus.

Statement of December 6, 2024

# The occupation regime collapses and the fascist government of al-Assad is in open crisis...

## The second Syrian revolution must rise: Long live the revolution!

Homs, Daraa, Hama, Swayda have fallen...

The fascist dictatorship of Assad is collapsing, and with it the entire regime of the protectorate of a divided and occupied Syria is threatening to collapse, after the crushing of a huge revolution that shook the Middle East in 2011-2016-2020.

Al-Assad's army of soldiers forcibly recruited in recent years are turning to the rebellion. Many of them are sent home in peace by the militiamen. The cowardly officers ran away.

ISRAEL SEALS THE BORDERS OF THE GOLAN HEIGHTS WHICH AL-ASSAD AND PUTIN WERE GUARDING WHILE IT WAS MASSACRING IN GAZA.

The US, which controls the north of divided and looted Syria, puts its private guards and the YPG of the Kurdish bourgeoisie on alert to guard its oil wells. This bourgeoisie thus betrays the heroic Kurdish people of Syria by leading them into a pact with al-Assad and the US imperialists, just as Kurdish Stalinism does in Turkey by signing dozens of surrender pacts with Erdogan, while its prisoners rot in jail.

Turkey, in an agreement with Russia, monitors HTS and the FSA so that they guarantee to reach Damascus first and take over all the cities before they rise up and the armed masses enter the second revolution.

The "brave" Putin has escaped... he declares that he will intervene only in case it can form a "transitional government" in the protectorate of occupied Syria.

The Sunni bourgeoisie is in a race to control the masses, which are on their feet.

*Masses take to the streets of Hama*

The children of those killed in the 2011 revolution are at the forefront of the fight, freeing all political prisoners. It will no longer be easy to regain control of those who today fight for bread and for a free Syria.

HTS, whose staff moved to Aleppo, claims that it wants to form a "government of national salvation."

In whose name?

Hundreds of thousands of hungry people are already taking to the streets. They are taking the fight into their own hands and surrounding the children of the people in every city taken.

Those at the top are in crisis. In their disputes they are opening breaches. They are fighting for a teetering power and those at the bottom are returning to the streets.

HUNGER... MILLIONS OF DESTITUTES, MILLIONS IN EXILE IN JORDAN, TURKEY, LEBANON want to regain their land, homes and jobs...

Meanwhile, a neo-Stalinist left, servant of the cowardly Arab bourgeoisies and Zionism, wants to hide the tragedy of millions of exploited Syrians. A new generation of workers is watching these events. The traitors to the Syrian revolution of yesterday are again throwing sand in the eyes of the masses of the world so that they cannot distinguish between their allies and their enemies.

On the other hand, the clerics of Iran, while supporting the fascist al-Assad for years, announced the "mother of all battles" against Israel... but nothing happened. Just a couple of missiles to then negotiate with the US imperialists the surrender of Lebanon and go on besieging Gaza... That is the truth.

A trashy left wants to pass off Iran and Russia as "anti-imperialist". But only lackeys of US imperialism dare to go so low as to do its dirty work

The Yemeni nation in arms attacking supplies to the Zionist army, but the scoundrel Putin and the Russian oligarchy that the Stalinist groveling left supports so

much, silencing that their leader is one of the partners of Zionism that supplies it with oil. Why do they keep quiet? Come on, stop lying, you miserable people.

From Assad and Putin's Syria, the Palestinian resistance is not organized... It is only forced to surrender or sign spurious "peace" pacts.

The second Syrian revolution is trying to get back on its feet.

Once again, the time has come when those who call themselves its leaders and allies want to hand it over from within to save the rotten colonial regime that starves the people and plunders the nation, by building a national unity government.

Homs falls... the capital of the revolution. Now, to Damascus!

In every village, city and province, the more than 100,000 political prisoners accused of being "terrorists" by imperialism and its bigot Islamophobic leftist parrots, must be released...

In every village, city and province, committees of rank-and-file soldiers, militiamen, peasants and workers must be set up who will not delegate their struggle and their freedom to anyone.

We must find the bread... it is in Assad's banks that launder the theft of oil from the imperialist oil companies in Syria and throughout the Middle East. It is in the profits of the warlords and merchants, in the businessmen who have made their fortunes in all, precisely in all the regions into which Syria has been divided, while everyone at the borders, in Lebanon, in Turkey, in Jordan, used Syrian refugee workers as slave labor. The bread will be

*Aleppo Castle with flags of Palestine and the Syrian revolution*

obtained with the immediate expropriation and nationalization without compensation of all the assets, companies, banks, lands and oil companies of all those who currently occupy Syria.

There is the bread, the land and the homes that have been stolen from the people.

The Syrian socialists claim that those who do not start by recognizing the inalienable right of the masses to rise up against all the occupying forces and their colonial regime and fascist government are not fighting for the victory of the Syrian revolution. Those who do not recognize this basic, revolutionary democratic, and anti-imperialist right of the masses are vile traitors. And they are the same ones who

yesterday offered condolences to Zionism when the Palestinian resistance was defending itself against the attacks of the fascist settlers. Syrian socialists say that only a revolutionary worker and peasant Syria will save its people and be a bastion of the heroic Palestinian resistance, now surrendered and besieged in Gaza by the cowardly and cynical Arab bourgeoisies at the peace of the graveyards in conferences of China today in Cairo.

Only a Syrian worker and peasant republic, uniting the working class of the nation, will be able to give the Kurdish people the right to self-determination, since its first task will be to expel the US imperialists and all their military bases that are in northern Syria controlling the Kurdish region.

The time has come to clear away so many slanders, lies and infamies against the martyred Syrian masses... It is time...

It is time to return to Damascus... There is Yarmouk, the Palestinian camp that was massacred by al-Assad in 2013. There the operations command must be set up to support, arm and fight alongside the Palestinian resistance.

The Syrian socialists gave their lives and their freedom in these years in a heroic revolution. Neither in yesterday's offensives nor in the heroic resistance of these years did they stop fighting. They fight for an independent proletarian strategy in the civil war. Some of them, like Abu Al Baraa, fell on the front line of the fight against

*Hama. Masses celebrate in the streets the capture of the city*

al-Assad and others are still in HTS prisons. The left that proclaims itself socialist internationally has kept a cynical silence on these battles of the consistent internationalist left of Syria. This silence puts a dirty stain on their foreheads for which the history of class struggle will sooner rather than later do justice.

The anti-Marxist imbeciles of the so-called "New Left", declared revisionists, ensconced in parliamentary seats and in bourgeois regimes, like to talk and write about war, but they are always far away... very far away from civil war and class war.

They talk about socialism or communism "of the future"... but in the meantime, as we see in Syria, they support al-Assad and Putin massacring and martyring Syrian workers, and they also support the Kurdish PKK, disciplined under the orders of the US imperialists in northern Syria. This is the "anti-imperialist struggle" that the Stalinists and renegades of Trotskyism preach internationally.

They want to wage, as in this case in Syria, a "fight against imperialism" with the masses subjected to their executioners, with hundreds of thousands in prisons and millions in chronic hunger. Let them do this and suffer!

2021. Trotskyist martyrs Abu Al Baraa and Mustafa Abu Juma'a, founders of Syrian Trotskyism, honored in Idlib

In these hours the masses are already taking to the streets in large sectors of Syria. In the civil war that has begun, the revolution must raise its head.

Long live the working class of Syria, the oppressed and poor peasants of this martyred nation!

No support or submission of the exploited to the cowardly and murderous Arab bourgeoisies! They only administer and are junior partners of imperialism in the plundering of oil and the wealth of the entire region.

From Gaza to Damascus and throughout the Middle East, one same INTIFADA, one same revolution...

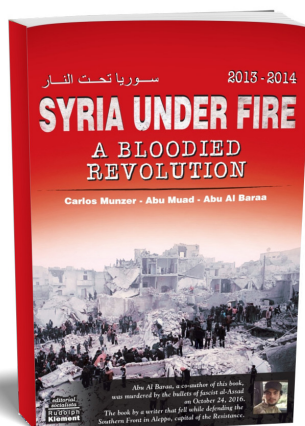

For a Federation of workers' and peasants' Republics throughout the Maghreb and the Middle East.

Statement of December 7, 2024

The rebel masses are already fighting at the gates of Damascus

## Down with the protectorate regime of all foreign powers occupying Syria!

*Neither “salvation” nor “transitional”...*

**For a revolutionary government  
of the councils of workers,  
soldiers and poor peasants!**

**For bread, land and  
national independence!**

**Trial and punishment for all the murderers  
and thieves of the people!**

As reported late into the night from Syria today by correspondents of the newspaper *The Truth of the Oppressed*, the socialist organ from Syria of the International Workers' Organizer, from Wednesday, November 27, when the offensive towards Aleppo began until now, the advances have been key and decisive. Each of the cities from whose womb the 2011 revolution was born to overthrow the pro-imperialist dictatorship of al-Assad are being recovered.

Yesterday, Hama, Suwayda and Daraa were taken and advances were made to the gates of Homs, while fighting continues in almost-taken towns such as Palmyra and Deir ez Zor. On the basis of mass uprisings, districts in the suburbs of Aleppo such as Douma, Arbin and Kanaker are already being taken. In the latter place, Assad's rank and file soldiers turned around and openly went to fight alongside the rebel troops. The people are beginning to breathe freedom and are taking to the streets. Al-Assad's troops are barely visible in Damascus.

Iran and Hezbollah announced the withdrawal of their soldiers by air from Latakia and Damascus. This has been a decisive blow for the collapse that has be-

gun of the cursed counter-revolutionary regime of Bashar.

The millionaire clerics of Iran and the bourgeoisie in Lebanon perceived very well that their troops were not going to fight against the rebellious masses of Syria. They could not confront the exploited Arabs of that nation when Zionism was massacring them in Gaza, throughout occupied Palestine and in Lebanon itself.

What a paradox! The heroic mass resistance, subjected to a brutal genocide in Gaza, is ultimately what tied the hands of the Shiite bourgeoisie preventing it from shedding the revolting people's blood together with Putin and al-Assad.

The Syrian people already know... Gaza is their ally.

Putin, the man in charge of reducing entire Syrian cities to rubble with his air force, leading a true genocide, together with al-Assad and his barrel bombs, has retreated to his base in Tartus. From there he calls on the UN to reconvene the Geneva conference to contain this mass offensive and save the protectorate regime together with Turkey, USA, the Shiite

bourgeoisies and the Sunni bourgeoisie, while today the latter, from Idlib through HTS and from Azaz through the FSA, put themselves at the front of this revolutionary mass struggle to contain it. Their role is to prevent the process from getting out of control and leading the entire protectorate regime to a total collapse.

**Al-Assad falls like  
a rotten apple**

Assad has no social base, not even in his own army, which has been dispersed. He has one foot in a plane, always ready to flee like a coward. He and his genocidal generals know what awaits them, and what the masses want: a court to judge and punish them for all their massacres, tortures and disappearances, and for the theft of the wealth of the Syrian nation by their bourgeois gangs, associated with imperialism.

No section of the Syrian people can support this infamous government and regime. Life itself is proving this. Without its praetorian guards, the bourgeois scum that did the dirty work for all the imperialist powers to crush the Syrian revolution,

in a real proxy war against the people, has already begun its retreat.

90% of the population in Syria lives in poverty and half of them are destitute...

7 million internally displaced people are sleeping in tents in the desert...

There are 5 million refugees abroad...

600 thousand were murdered in 7 years...

100,000 political prisoners... who, according to the infamous left, would be "terrorists"... when, on the other hand, they have never explained what being a "terrorist" means to them, since that is how capitalist states have always treated revolutionaries. Notwithstanding this, these people are not ashamed to proclaim themselves as "socialist".

Syria has been divided, guarded by Putin, and with the US imperialists and their Kurdish YPG mercenary guards in a pact with al-Assad stealing all the oil wealth, with all the imperialist oil companies installed in northern Syria. Let no one be fooled. With the fall of al-Assad, USA and their military bases in northern Syria have strengthened their YPG praetorian guards led by the traitorous Stalinists of the Kurdish Communist Party, servants and handmaids of Chevron, Exxon, BP and Total, who plunder the black gold of Syria.

The Kurdish people must defy their vile generals who are mercenaries under the orders of USA, refuse to confront the rebel masses, and use their weapons to recover each and every oil well from the hands of the imperialist bandits who are plundering Syria. This will be the only way to achieve self-determination for the Kurdish people, once again sealing a blood pact with their brothers and sisters, the workers and peasants of the rest of Syria... A pact like the one they had at the beginning of the 2011 revolution when they were fighting together against al-Assad.

No one can support Assad anymore. Turkey expects a fratricidal clash between the impoverished masses of Syria who are in revolt against Assad and the Kurdish people. This cannot be allowed.

**Every militiaman and partisan of the resistance must not obey any general who is under the command of any country that is occupying, oppressing and plundering Syria.**

*Celebrations in Aleppo city for the fall of al-Assad*

### **The incurable social-imperialist left and its declared war against the supposed "terrorists"**

Of course, when this social-imperialist left speaks of "terrorists", it is not referring to Netanyahu, the "democrat" Biden who arms him to the teeth, or the murderer Putin, the jackal of Eurasia... "Terrorists" is what they call the masses and their vanguard of rebellious youth, the children of those massacred in the 2011 revolution, who are returning in their footsteps for justice. We have already insisted that anyone who does not recognize the right of the masses to revolt is a traitor. And traitors are called traitors.

Stalinists, social-traitors, in the name of supposedly "confronting Zionism and imperialism" or "not playing into their hands", have been proclaiming for years that the Syrian masses must endure their nation being occupied and plundered, and that they must defend the capitalist government, exploitation and misery, and in the name of "anti-imperialism" stop fighting for the freedom of the more than 100,000 political prisoners.

The world working class must know that the communist parties, the former-Trotskyists, who meet with the traitors of the Cuban revolution in Havana in lush congresses and meetings, are the ones who tell the masses to allow themselves to be exploited and massacred in order to "confront imperialism"... It is like telling a slave to allow himself to be whipped so that the master does not take away his plate of rice.

These people must be told the truth. Why don't they stop denigrating the Syrian masses? Why don't Solano of the PO in Argentina, or Del Caño and Ms. Bregman of the PTS, or Callinicos of the SWP in England, or Mitina, Putin's foreign relations manager, the reformist currents in Italy and throughout Europe stop denigrating the revolutionaries and go and live in tents in refugee camps, in a bombed-out house in Aleppo or in a prison for Syrian political prisoners? Why don't they shut up? They are already stained with so much ignominy.

They freely claim that Putin, al-Assad's protector, "fights from Syria against Zionism"... Can one be so cynical and liar as to claim this when it is Putin who sells oil and supplies to murderous Zionism, while on the contrary the Yemeni nation rises up in arms to attack all ships carrying ammunition and supplies to the genocidal State of Israel? When did al-Assad call to take to the streets to go fight alongside the Palestinian masses and liberate Jerusalem?

Just as al-Assad's head falls, the lies of the reformist left are falling apart one by one.

### **...And the oppressed people of Syria took to the streets again**

Al-Assad's "anti-imperialist" army is disbanding. The rank-and-file soldiers, sons of the people, are joining the rebels.

How will the "opposition" bourgeoisies of the FSA and HTS, who are forced to lead this uprising, be able to contain the hungry people and prevent them from go-

ing after bread, housing and land after defeating al-Assad?

### A new moment is opening in the class struggle and civil war.

The generals of the FSA and HTS, who pose as “democratic” and “peaceful” and “well-mannered” (when in their prisons they also have political prisoners from the 2011 revolution), are preparing to prevent a power vacuum through which the masses can burst.

They are gradually advancing. Being them the opponents of Assad allows them to contain and stay on top of the wave of the mass uprising. In each captured city, they are trying to reconstitute the state. This is not an easy task. In the liberated cities, Assad's police stations and barracks are targets. Weapons are being carried out from city to city, from street to street.

HTS and FSA call for a “national salvation government”

**Russia, USA, Turkey, the Arab League and Iran, the sponsors of the protectorate regime, have called for a meeting in Astana to monitor the orderly transition.**

They want the same dog to continue, but with a different collar.

They want, under US command, Syria to remain splitted and occupied, but this time, with a coalition government of all the fractions of the Syrian bourgeoisie, including the Kurdish bourgeoisie (as in Iraq, where they have the presidency of that protectorate) that guarantees that the property of Assad, USA, Turkey and the Sunni bourgeoisie is not touched.

*Gaza devastated*

### Out with all invading troops! Out with the Geneva-Astana conference of the nations that have occupied and splitted the Syrian nation!

The revolutionary uprising has already reached the gates of Damascus. An emergency conference of the forces occupying the Syrian nation is being held. They all seek to establish a transitional government that would prevent the masses, by taking up arms in a generalized way, from establishing their power bodies and overthrowing the protectorate regime, by expelling all the troops of the foreign powers occupying the Syrian nation. The latter all fear that the coordination committees of workers and soldiers, which are the ones that the masses built in the 2011 revolution, could rise up.

Since the Geneva and Astana confer-

ences, they want to prevent the masses, with a transitional government, from conquering the bread, the housing that were stolen from them and destroyed, and the land that was expropriated from them, in the way that they conquer, **by expropriating the imperialist oil companies that steal Syria's black gold, the banks of al-Assad and his family, the bourgeoisies of the different provinces** that have become true millionaire merchants at the expense of the people's hunger and by super-exploiting a slave labor force whose wage is not even enough to eat three days a month.

**The masses are already demanding the fall of the regime... also of the protectorate of Astana and the powers that occupy Syria. The people want bread, freedom, land and the triumph of the revolution.**

**The masses do not delegate!**

**Out with the Geneva-Astana conference of the nations that have occupied and splitted the Syrian nation! Out with all invading troops!**

*The genocidaires Putin and al-Assad*

Only a **revolutionary government of workers, peasants and partisan soldiers** will be able to achieve a free and democratic **Syrian National Assembly**, without occupation troops, giving land to those who work it and bread to the people, expropriating the merchants of death. This government is the only one that will be able to make **rebellious Syria a bastion of the struggle of martyred Palestine**. It is the only one that will be able to give the **Kurdish people the right to self-determination**.

**Everything remains to be seen... The masses have not yet said the last word. They are beginning to have weapons and are taking to the streets**

A Hitlerian government of terror is falling. That is why the first thing the people do is freeing the political prisoners.

People is advancing towards Damascus, from Daraa, Hama, Homs...

Let the workers and peasants of Damascus rise up!

The cracks and crises of those at the top no longer allow them to govern as before. The push from those at the bottom, who no longer want to live as they have done up to now, is what is expressed in this civil war.

**An independent mass action, with the provision of arms to the entire people, would put on the agenda the establishment of dual power organizations, councils of workers, soldiers and peasants, city by city and throughout Syria.**

Only this revolutionary movement of the oppressed could be able not only to sweep away Assad, but also to expel all the invading troops and to recover one and free Syria, which will be self-determined and a bastion of the liberation of martyred Gaza. Let it be a point of return to the chain of revolutions that began in 2011 throughout the Maghreb and the Middle East, which will end the plundering of oil, gas and all their wealth by imperialism.

The Assadist left is already shooting from Putin's tanks and travelling on Assad's plane out of Syria.

The socialists stay so that the civil war does not stop and is the midwife of the revolution.

In Syria two policies confront each other:

One, the servility of Stalinism and its social-imperialist partners; and the other the one of Trotskyism, of those of us who fight for the Fourth International and the banners of the socialist revolution.

The uprising of the Syrian masses against the fascist government of al-Assad and the protectorate regime is advancing

#### • Report 1

The masses of Moadamiyet al-Sham have risen up

The city of Qatana has been captured by the rebels

Homs was completely liberated

The people are already in the streets against the hated al-Assad regime

The rebellion has already begun in the suburbs of Damascus.

The masses have already taken to the streets of Douma. In the town of Kanaker, the rank and file soldiers of the Assadist army have gone over to the rebel forces with their weapons.

Homs

#### • Report 3

Imprisonment and torture were the Assads' punishment for anyone fighting for bread and freedom. When Hama's prisons were opened, fighters who had been detained after the 1982 massacre in that city were released.

There Hafez al-Assad (Bashar's father) massacred more than 30,000 Syrians, leaving scorched earth in his wake, demolishing buildings, houses, mosques, schools and attacking with bombs, bullets and chemical weapons.

About 20,000 were imprisoned at that time. Many of those prisoners just got out of prison today, unaware that the murderer Hafez had already died and it was his son Bashar who had succeeded him. They come out from decades and decades of imprisonment. A life taken away by that sinister murderous Alawite bourgeoisie, who lived on their knees before Zionism and massacring their own people.

Abandoned tank on the road  
between Aleppo and Damascus

#### • Report 2

The masses in Syria, in their thousands, in every city, broke the bars and doors of prisons and freed political prisoners, as last week in Aleppo, on Thursday in Hama and on Friday in Suwayda. Today, prisoners have been also released from Deir ez-Zor and Homs.

Anti-fascist forces are about to open the gates of the cursed prison of the Assadist Gestapo in Saydnaya prison in Damascus. 30,000 political prisoners have passed through there. They were tortured and killed. “Terrorists” was how the fascist scum, imperialism, and its paid agents of the traitorous left called them.

There will be neither forgetting nor forgiving for so many massacres, torture, or so many traitors!

Suwayda: the masses capture  
a tank from al-Assad's army

Statement of December 8, 2024

**The masses took to the streets of Damascus... Al-Assad is down!****The people do not delegate! Up with those below!****For a provisional revolutionary workers' and peasants' government!**

**A**l-Jolani, leader of the HTS, is asking the people not to shoot in Damascus or touch any public building.

Al-Assad has fled. His Prime minister has stayed in place and is getting ready to hand in power to the opposition. The bourgeois factions seek to avoid a power vacuum since it could be filled by the masses that are already armed on the streets, liberating prisoners, taking back their homes and sensing their victory.

In Qatar, USA, Russia, Turkey and the Arab League are gathered together and organizing treason behind the backs of the rebelled people so that nothing changes.

The infamous Arab League, that has covered the worst massacres and occupation of Syria by al-Assad and the Palestinian genocide in Gaza, is intending to mediate for 'Peace'. They are partners to Zionism and Imperialism. That is what the Arab bourgeoisies are.

Meanwhile, from the Golan Heights, Zionism has invaded over 30km more of Syrian land to position itself for an attack to keep things in order... it has just bombed Damascus.

Zionism seeks to assert the State of Israel will be the guarantee for rebelled Syria's submission to Imperialism while deepening the genocide in Gaza.

Imperialism, the powers occupying Syria, the retrieving official bourgeois factions and those in the opposition are all aiming at closing every crisis that may render a power vacuum. The masses are up in arms on the streets and see this triumph as their own.

The HTS and ESL bourgeois say: "Up to here; it's enough .... We have already got freedom".

But for the exploited freedom is to conquer bread and national independence.

*Celebrations for the escape of al-Assad at Umayyad Square, in Damascus, Syria's capital*

USA keeps 10 military bases in the north of Syria from where they command the cowardly and traitorous Kurdish bourgeoisie who subjects its own people to the US imperialism and, up to yesterday, to fascist al-Assad.

But the "peace of the graveyards" is not here yet and it is far from being imposed.

While the people celebrate on the streets, the bourgeois gangs and imperialism are plotting against them and Zionism gets its claws out. From their military bases, the US keeps the north of Syria militarized...

**The masses want bread and freedom and that can only happen by expropriating the people's expropriators with the US out of the north, Putin out of Tartus and Zionism out of Golan.**

Gaza is where the Syrian masses and all the Middle East will get their victory.

**Only a provisional government of councils of rank and file soldiers, partisans, workers and poor peasants can**

**take Syria out of prostration and expulse all the invading troops**, with the support of the masses in the Middle East and the heroic resistance of the Palestinian masses.

The last chapters of this story are not written. It will be done through the combats of the exploited in Syria and the world working class.

Pro al-Assad left murmurs and laments in the corners. Together with imperialism, they have been part of the 'anti terror front' with which they have covered a brutal genocide of Syrian workers and common people in front of the eyes of the world workers. Stalinist and ex Trotskyites have their hand stained by blood and treason.

Others, faking innocence, announce 'the fall of the tyrant' that they have never called to overthrow. That is the case of the Izquierda Diario, the paper of Argentinian PTS and its little satellites in the world.

Other leftists and pseudo leftists have stationed with the Kurdish bourgeoisie and Stalinist PKK in the over 10 US military bases in the north of Syria... They

are incurably islamophobic and pro US imperialism.

In Damascus, Syria, there are great celebrations honoring the fall of the murderous al-Assad regime...

As yesterday Bashar and Putin, today Zionism is bombing Syria... and the people celebrations in Damascus.

The fight is not over...

The revolution must and deserves to succeed.

## Statement of the Palestinian resistance in support to the Syrian revolutionary masses

The Palestinian resistance congratulates our brotherly Syrian people on their success in achieving their aspirations for freedom and justice, and calls on all components of the Syrian people to unite ranks, further national cohesion, and rise above the pains of the past

We and our Palestinian people stand firmly with the great Syrian people, and we affirm the unity of Syria and the integrity of its territories, and respect of the Syrian people, their will, independence, and political choices.

The brotherly Syrian people, with all their spectrums, national unity, and the spirit of brotherhood and tolerance, are capable, God willing, of overcoming all challenges and passing through this delicate stage, in a way that achieves goodness, development, security, stability, and prosperity for Syria and its dear people, so that Syria can continue its historical and pivotal role in supporting the Palestinian people and their resistance to achieve the goals of their just cause, and consolidating Syria's leadership role at the level of the Arab and Islamic nation, and at the regional and international levels.

We condemn in the strongest terms the repeated brutal aggression of the Zionist occupation against Syrian lands, and we categorically reject any Zionist ambitions or plans targeting Syria, its land and people.

May God protect Syria, Palestine and the entire nation from all harm. •

*Syrian masses celebrate the fall of al-Assad*

Statement of December 12, 2024

# The Kurdish PKK, under orders from the US bases in Rojava, is repressing and murdering the rebelling Syrian people in cold blood

*Before it's too late...*

**The massacre must stop! US imperialists, out of Syria!  
Disarm the YPG Praetorian Guards defending their oil wells!**

Since 2012, the US lackeys and partners of Zionism, the PKK and its YPG, have maintained a pact of co-existence and non-aggression with the fascist al-Assad and the butcher Putin. Their territory, "Rojava", has been placed under the command of more than 10 US military bases, which they answer to.

In dozens of cities, like they have done in Deir ez Zor, Raqqqa and now in Hasaka, Qandil and Qamishli, the masses are taking to the streets celebrating the fall of the dog Bashar... not only Syrian Arabs, but also Syrian Kurds who are celebrating the revolution. **The PKK and its YPG, under the orders of US imperialism, shot indiscriminately at the millions who were marching on the streets in northern Syria. It is a real repression like that of al-Assad. There are thousands of gunshot wounded, hospitals are overflowing and dozens are dead.** It was a criminal massacre.

This is a miserable and enormous betrayal by these Stalinist partners of Zionism, who, along with the cruel Kurdish bourgeoisie, are true servile troops. They make millions out of guarding imperialist oil companies' wells that plunder Syria.

It is them who, together with Zionism and al-Assad, organize all the smuggling, including narcotics, throughout the region.

The Kurdish bourgeois scoundrels, together with the PKK and its YPG, are the first to attack Syria together with Zionism. The latter has done so by bombing heavy weapons and artillery arsenals so that the masses would not take them. The former have done so by shooting directly at the masses in the streets, proving that they are not only lackey troops of US imperialism, but also Assadists. They are partners of the US and al-Assads' generals.

*YPG troops under US command in northern Syria*

This Kurdish bourgeoisie is creating a blood river between the Syrian masses and the Kurdish grassroots by eeping the Kurdish people as a protective shield for the American oil companies in northern Syria and placing the YPG as ground troops under the command of the US generals from more than ten military bases in Rojava.

Looking after the business of the USA, which is one of the foreign powers occupying Syria, is criminal. Having made a pact of coexistence with al-Assad is doubly criminal. Shooting at unarmed masses celebrating the fall of a ferocious fascist dictator is triple criminal. All this shows that they have always been allies of the fascist dictatorship of Putin and al-Assad.

This policy of the Kurdish bourgeoisie and Kurdish Stalinism only serves to push away the struggle for the right to self-determination of the Kurdish people from the revolutionary uprising of the masses.

At any time, in the event of a sudden change in the situation, and when the YPG and the PKK troops are no longer of use to the US imperialists, they will hand their

servants over without hesitation to Erdogan to be massacred, as happened to the Kurds in Turkey under his rule.

Someone should warn the international partners of the PKK, the Islamophobic Freemasons of the social-imperialist left, so that they contact them and tell them to stop the massacre of men, women and children.

In Argentina, they could call the MAS, the PO and the PTS parties, who are the PKK unconditional defenders. They have to call the Kurdish bourgeoisie and their Stalinist partners in the PKK to withdraw the protocol of repression which, to put it bluntly, is the use of pure live bullets on children, something that neither Bullrich (Argentina's Minister of Security) nor Milei have dared to do in Argentina.

They want to justify this repression by saying that what is happening in Syria is a multi-parties-armies war. Cynics!

THERE IS A HUGE MASS INSURRECTION, which has overwhelmed them, stunned them, and they have remained

telling every kind of nonsense, buried in a swamp of mud and blood.

Come on, call your partners. Why don't the FIT-U MPs go there to immediately stop the massacre that we denounce and that their allies are carrying out?

For years they have been selling the story and the lie of a free Rojava, "self-organized" in "liberated communes"... They are liars! Neither a commune, nor self-organized or democratic... not even with the right to strike nor to form any political party or independent working class movement.

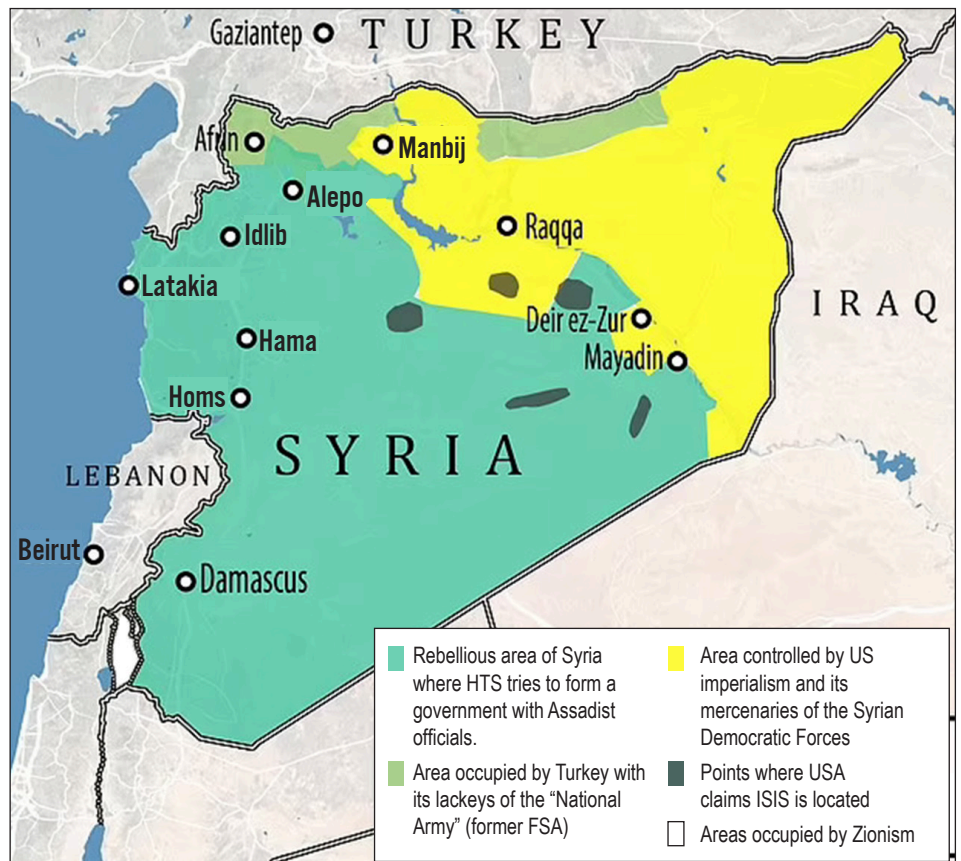

They have been on their knees in a Rojava under the command of US CEOs and generals, keeping, by force of blood and fire, control of a part of northern Syria... as Turkey controls another region, or as al-Assad and Putin did in the center and south of the country.

Come on, there is not a more anti-Arab and pro-Zionist bourgeoisie than the Kurdish one! With Zionism occupying the Golan Heights, bombing the large arsenals so that the masses cannot take them, and with the YPG imposing a war border to guard imperialist oil, they seek to ensure that the occupied and divided Syrian protectorate continues, and that it is not the insurrectionary and armed masses who, attacking the citadel of power, leave no stone on stone of the regime of the plunderers and murderers of the people.

Meanwhile, in Damascus, the "Islamic" bourgeoisie, the "jihadists", have taken off their turbans, abandoned their prayers and formed a common government with the former ministers and officials of al-Assad. In the imperialist capitals they are already being removed from the list of "terrorists". Let us hope that the FIT parties will follow the orders of their religious patriarchs from Wall Street and the City of London.

Meanwhile, the masses are arming themselves. Every day they take a city into their hands. They hang all the fascists, just as the partisans hanged Mussolini... It is clear why the PKK and the YPG must kill people who come out to celebrate the fall of al-Assad. Otherwise, many of their officers would be recognized as murderers, torturers of the people, partners of the downthrown dictator.

Stalinism and its traitorous leaderships have been betraying the revolutions by subjecting the masses to what they called

Map of Syria as of December 9, 2024

"progressive camps," whether "democratic" ones against "fascism," "anti-imperialist" ones against imperialism... The bourgeoisie of these camps was in charge of disorganizing the revolutionary offensives of the masses with mermaid songs so that fascism would later crush them.

This happened, for example, in the Spanish Civil War, or in thousands of betrayed revolutions in the second half of the 20th century.

But this 21st century has been characterized by the Stalinist currents, with the renegades of Trotskyism embracing them, directly handing over the workers states to imperialism, such as the USSR, China, Cuba... They have become direct agents of imperialism. This is the depth of the crisis of leadership of the proletariat. Reformism, in the 21st century, is already directly in the camp of counterrevolution... That is, not in the camp of the Republic supporting the bourgeoisie and its property, impeding the advance of the socialist revolution, but directly in Franco's camp, crushing the revolution.

They are with al-Assad and US directly. They are with Putin, the guardian of imperialism in Eurasia.

As it has become clear, they supported Hezbollah and Iran as if they were anti-im-

perialist clerics, when in reality they are the Muslim gendarmes of the counter-revolution in the Middle East. The Iranian theocracy and the leadership of Hezbollah apply the same policy towards the revolutionary masses in the region as towards the Iranian working class: imprisoning and massacring any serious struggle put up by the exploited.

It is them who surrendered Lebanon to the Maronite bourgeoisie and its Beirut army (the same one that massacred Palestinians in the 1980s in Sabra and Shatila refugee camps) and saved Zionism from the defeat it was suffering at the hands of the masses in the south of that country.

They support the Palestinian Authority, which imprisons and shoots every young Palestinian from the West Bank who wants to go and fight with their siblings in Gaza and confront the Zionist occupier.

For years, a section of the reformist left, in order not to get their hands too dirty, wanted to pose as neutral in Syria. To do so, they dressed up as "democratic communards of Rojava". Which is an infamy. This is like dressing up Freddy Krueger as a good-natured circus clown. Now, the clown has taken off his nose and makeup and his true face is revealed.

It was these same people who have been selling tickets for the public to enter the bloodbath circus. Hey, you, take responsibility and explain!

They told the world's working class that it had to support the "democratic" communes, when these were military barracks armed to the teeth by the USA...

They have to explain... but, really, we insist, while they do so, are they going to send a couple of MPs to Rojava to stop this massacre? They have the floor.

The Syrian masses have the right to unify their nation and expel all invading troops... the Russian bases in Latakia and Tartus, the Turkish military bases and outposts, and USA's in Rojava. **This is what the unity of the working class of the whole Syria is all about, the defeat of all the occupiers and oppressors of their nation.**

Apart from this, there is no and will never be possibility for the Kurdish people to conquer the right to self-determination.

The workers and the poor people of Syria, as long as they are in a state of armed mobilization and insurrection, will openly clash with this sinister and repressive bourgeoisie of HTS, which is a simple "change of collar" so that "the same dog" of an occupied Syria continues.

There is the illegitimate transitional government that they have prepared with the Assadist politicians and officials. They will not take long to start repressing the masses in order to disarm them. Stalinism and the YPG seek to gain merit by getting ahead with their savage repression.

The struggle to expel all occupying troops from Syria, raised as a banner by the Kurdish people, would mean that they will find a great ally to defeat Erdogan's policy of iron and fire oppression against their people in Turkey and to end the infamous policy of the PKK of being mercenaries of USA.

Seriously... Call Albamonte, Boby Sáenz or Solano to organize the delegation now.

Leave Franco's military camp... It's high time.

## Al-Assad's real bosses, and partners of criminal Putin: Zionism and the US imperialism

Russian state news agency TASS reported that the criminal Bashar al-Assad marked the coordinates of military targets, locations of weapons depots, missile systems and warplanes to Israel as a guarantee for his life, so that Israel would not attack him before he fled Syria.

**Al-Assad marked the coordinates of all the arms caches to Zionism for it to destroy them, so they do not fall into the hands of the masses!**

**Wretches and traitors are all those who made the greatest enemies of the Palestinian and Middle East masses pass as their allies!**

Stop messing around with your lies of cheap geopolitics, copied from the imperialist press!

Iran, its followers in Lebanon and al-Assad -under imperialism orders- sold Gaza out, which today is resisting alone and isolated against Zionism and its genocide. Those agents also sold Syria out, where the rising masses threaten to combat against the State of Israel.

*Zionist troops invading Syria patrol the town of Jubata al-Khashab*

The wretches of the Palestinian Authority shoot at the youth of Jenin and the West Bank when they want to go and fight in Gaza.

And the Stalinist left and renegades of Marxism at the feet of al-Assad and Putin, marking coordinates of Syria to Zionism.

That's what they did in Iran when those miserable clerics sold the president of Hamas out, who was in Tehran... alone and isolated in a house.

## Zionism, the gendarme of imperialism, is intervening in Syria to prevent any overflow of the revolutionary masses

Netanyahu has ordered the destruction of military sites in Syria.

The Israeli Occupation Defense Forces (IDF) attacked a chemical weapons plant formerly operated by the criminal al-Assad regime, as well as the Mezze military base used by Syrian troops.

The main objective of these attacks was to prevent the revolutionaries from capturing these sites, The Jerusalem Post reports.

The fate of the Syrian revolution will be decided by the triumph of the heroic resistance of Gaza and all of Palestine.

## Thousands of prisoners are released from the Saydnaya "human slaughterhouse"

The hell of Saydnaya prison in Damascus is over! This real human slaughterhouse is known worldwide for being one of the worst torture centers of fascist al-Assad. More than 30,000 political prisoners are estimated to have been inside there, although the exact number is unknown because clandestine detention and torture centers also operated in its basements where they locked up the disappeared up to the moment they were killed and left lying around until nothing was left but their bones.

The so-called "Red Building," a wing of this prison, is the most infamous of all, a veritable human slaughterhouse of torture that would make the Nazi Gestapo turn pale.

But now, with the masses entering Damascus and opening the prisons, al-Assad is fleeing like a rat and thousands upon thousands of prisoners are regaining their freedom. Full of scars, traumas and wounds that may not heal completely because the torture was so brutal. However, they show such a joy in their celebrations no one could take away from them. They return to their homes, to their families, to feel open air, to see daylight.

Among the thousands of prisoners released, there are some who have already been imprisoned for more than 40 years by Hafez Assad, Bashar's father. Such is the case of Ragheed Ahmed Tatri, a warplane pilot who refused to follow the criminal regime's orders to bomb Hama in 1982 to crush that uprising. He was 27 years old when he was imprisoned, now he is almost 70.

The reformist left worldwide has remained deathly silent on all this. They have allowed all the arrests, detentions, torture, disappearances and murders of the al-Assad and Putin against the Syrian people to take place without a word. They are the ones who covered the backs of these

*The masses free thousands of detainees from Saydnaya prison*

butchers so that they could impose a genocide to drown the 2011 revolution in blood.

They have a stain on their forehead for this betrayal, not only to the Syrian exploited, but also to the world working class, in particular to the Palestinian people. This reformist left has been passing off these genocidaires as allies, when in fact they never lifted a finger to liberate Palestine but dedicated themselves to murdering, imprisoning and torturing the masses who really do, as can be seen in the marches in Idlib, Aleppo and Damascus where the Palestinian flags are raised.

There will be no forgetting nor forgiving!•

## The secret entrance to more than 7 basements of Damascus tomb-prison have been discovered

There, Nazi-Fascist al-Assad and his partner Putin massacred thousands of young people and workers who rose up for bread and freedom

*Saydnaya prison, known as the "human slaughterhouse"*

Words come short of this reality...

Let the Assadist, "neutral" or "other-way-looker" left-wing trash shut up for a couple of days and close their big mouths... Hey, you... Stop your pens from which only stupidities come out because you have been discovered as servants of the imperialist oil companies of the Middle East... Hush!

Even the heroic resistance of Gaza today salutes the Syrian people who have risen up by the millions in the streets.

The shrill cries of the Assadist left will not hide their betrayal to the Syrian exploited.

You never, ever called for the freedom of the prisoners of the revolution... You kept quiet and hid it. You are dirty...

Hush. Your lies have been exposed.

You never called for the overthrow of the al-Assad dictatorship against which the hungry and massacred masses rose up thousands of times... Hush! Shut up!

The most daring went to Kurdistan. They said they had gone to support the Kurdish people... **pure lies. You went with the PKK and the YPG, the Assadist sellouts of the Kurdish people and their right to self-determination, who separat-**

ed them from the resistance against the dog Bashar and subordinated them to USA.

Shut up for a couple of days, you are in Rojava under orders of the USA centurions of the 10 CIA military bases who, with their servile rats of the YPG and Kurdish Stalinism, guarantee US imperialists' stealing the oil of the plundered Syrian nation.

Have some modesty. You have been stuck with your fingers in the door...

The Syrian masses that you denigrate so much hate you for being pro-USA and pro-Zionist, and for being servants of all the Arab bourgeoisies that have left Gaza isolated, massacred in a genocide by the State of Israel.

Hush... We are finding the prisoners. There are more than 12,000 of them buried alive in a tomb-prison. Miserable!

You and the hateful bastard Kurdish bourgeoisie (lackeys of the imperialist oil companies in both Syria and Iraq) must give back to the rebellious Syrian masses the north of their nation... Such is the way to achieve your self-determination and deserve the solidarity of all the oppressed Arab people with their brethren in Kurdistan.

## Freedom for political prisoners... means freedom for ALL political prisoners

Prisons across Syria are being opened, freeing fascist Assad's political prisoners.

Along with this, the families of the detainees demonstrate in front of al-Jolani's prison, demanding the release of their children.

Yes! HTS has in Idlib political prisoners. They who fought for years to open fronts and break al-Jolani's pacts of co-existence with Assad. Let no one hide it!

Enough is enough!

Let no one try to continue repressing the rebellious people!

Free the political prisoners now!

***Saydnaya military prison has been opened...***

**The true hell for Syrian workers and oppressed is revealed**

Standing with the syrian political prisoners being freed is the way to free all political prisoners in the world!

Stand up with the families of each of the martyred, who are doing justice against the torturers and murderers of these 40 years of assadist dictatorship

Stand up alongside the heroic syrian exploited!

**Long live the revolutionary struggle for bread and freedom against the fascist al-Assad, Putin and all the occupation troops!**

**T**he images that travel the world about Syria are moving all the exploited people throughout the planet. In each liberated province, the cells are opened to free each prisoner that the government took hostage.

In Saydnaya military prison, known as "the human slaughterhouse," tens of thousands were detained and today are being freed. The prisoners continue to being sought underground, in concrete vaults where men, women and children were tortured to death.

Stalinism and all those who painted the fascist al-Assad and the butcher Putin as "anti-imperialist" and "friends of the people" have blood on their hands.

Al-Assad did not hesitate to act the same as the fascist Zionist State of Israel with the martyred occupied Palestinian people.

We stand unconditionally with the Syrian workers and exploited who brought down al-Assad and seek to expel Putin and all the occupation troops. with USA bases from Syria!

**We call on all workers' and anti-imperialist organizations in the world to fight alongside the oppressed in Syria,**

***Syrian prisoners tortured to death by the Assad government***

**the families of the martyrs, the prisoners and the millions of displaced people.**

**Here are the forces to advance towards Jerusalem and expel the Zionist occupier from the Palestinian nation, freeing the thousands of hostages, men, women and children who are being held and tortured by Zionism, whose borders have been well guarded by al-Assad and Putin.**

Freedom for the thousands of Palestinian political prisoners in the filthy Zionist prisons! For the destruction of the Zionist-fascist State of Israel!

The marches on Assad's prisons show how to win freedom, not only for Palestinian political prisoners, but for each of our comrades imprisoned for fighting around the world, such as the rebellious youth in Greece where the imperialist regime of the Troika imprisons and savagely persecutes them.

Or as Georges Abdallah imprisoned in France for 40 years for fighting for the Palestinian cause.

Just as in Latin America the path is being marked to free from prison the hundreds

of Cuban workers who rose up for bread on July 11, 2021, detained by those traitors and new rich of the Communist Party of Cuba who surrender the island to imperialism. Also to conquer the release from prison of the young people of the First Line of Chile and Colombia.

This is the way to end the attack on fighters in Argentina who are currently being persecuted and savagely repressed by Milei, such as unemployed organizations like the Polo Obrero, teachers in Jujuy and Misiones, and also to win the acquittal of the oil workers from Las Heras (Santa Cruz) who were sentenced to life imprisonment in 2013 by the oil companies' justice system for fighting against the wage tax and job insecurity.

Fighting as in Syria, we will win freedom for thousands of Iranian political prisoners, dozens of whom are sentenced to death every day by the government that has shown itself to be brave in repressing and massacring its own people and the Syrian exploited, and cowardly in confronting Zionism and imperialism.

**Justice is already beginning to be done on the streets against the Assadists who massacred thousands in the Saydnaya prisons and throughout the country! This is the way!**

It is a great example to conquer justice for all our martyrs, such as the 34 miners of Marikana (South Africa) murdered in 2012, against the Mexican State and its army that disappeared the 43 teaching school students from Ayotzinapa (Mexico), or against those who massacred in Juliaca, Ayacucho and other rebellious regions in Peru in 2022-2023. This is how justice must be conquered against the coup plotters in Bolivia in 2019 who massacred in Senkata and Sacaba.

**From Syria to Gaza and throughout the world there is one single struggle against imperialism and the starve-causing and repressive governments!**

# Jenin Under Siege

While Zionism under US command continues its genocide in Gaza...

## The Palestinian Authority represses and kills the Palestinian resistance which fights against Zionism

**Down with the PLO collaborationist bourgeoisie,  
lackey of Zionism and USA!**

For almost two weeks now, the security forces of the Palestinian Authority, led by the PLO and the Abbas government, have been carrying out an offensive against the Palestinian people in Jenin, in the north of the West Bank, persecuting, repressing wildly and killing the inhabitants of that city and the resistance fighters in their refugee camp.

This sinister role of these PLO sellouts in the West Bank is nothing new: far from directing their forces against the Zionist gendarme, the collaborationist bourgeoisie of the Palestinian Authority has been in charge of brutally repressing and imprisoning the fighters of the Palestinian people who strive to enter the combat against the Zionist gendarme and open the fronts to break the siege of Gaza, which has been isolated by the PLO and the Arab bourgeoisies of the region.

In these 14 months of brutal fascist offensive by the State of Israel on Gaza, every time the Palestinian masses have risen up in Jenin, Nablus, Ramallah, Tubas or Tulkarm, to confront the State of Israel and repel its attacks on the West Bank itself as well as the

*Repression in Jenin by the Palestinian Authority*

expansion of settler settlements on their lands, they were always attacked from behind by the PLO.

Now, with their current attack on Jenin, cynically called "Operation Protect the Homeland" by the Abbas government, the PA security forces have concentrated on the refugee camp of that city.

This camp is one of the bastions of Palestinian resistance in the West Bank, which has been facing every Zionist offensive there, such as last September, when the State of Israel attacked Jenin with hundreds of soldiers, jeeps, bulldozers and drones, killing dozens of Palestinians.

In early December, it was **Palestinian Authority forces that surrounded and besieged the Jenin refugee camp**, leaving all its inhabitants without water or electricity.

**On Saturday, December 14, they entered the camp with armored vehicles and snipers who fired indiscriminately, wounding women and children, and killing Yazid Jaaysa, commander of the Jenin Battalion of the heroic Palestinian resistance in the West Bank.**

*Yazid Jaaysa, killed by the Palestinian Authority  
and PLO forces on December 14*

The damned PLO security forces also besieged the Jenin Governmental Hospital and set up camp there to arrest the wounded.

Earlier, on December 9, Palestinian Authority forces killed Ribhi Muhammad al-Shalabi, a 19-year-old man riding a motorcycle in Jenin, and injured his cousin, who is only 15 years old, by a shot in the head

**The Palestinian masses in Jenin have responded with a massive uprising against the Palestinian Authority**, whose sole aim is to hunt down and kill, in the service of the Zionist occupier, resistance fighters in the West Bank.

Furthermore, **the PLO has coordinated this offensive in Jenin with Zionism and USA...** Michael Fenzel, the US Security Coordinator of the Israel-Palestinian Authority, is the one supervising this PLO offensive in the West Bank and has asked Zionism to approve the supply of weapons to the security forces of the Palestinian Authority to repress and massacre its own people.

**For a few coins, the Judases of the PLO collaborationist bourgeoisie are true repressors, murderers, jailers and traitors to the Palestinian people! They have become true occupation troops of the West Bank on behalf of Netanyahu and the USA!**

All Palestinian masses in the West Bank now recognize that the Palestinian Authority is an agent of Zionism and the US. Clashes against Abbas government forces continue throughout Jenin.

While women in the resistance are rising up to the cry of "We are all the Jenin Battalion!", residents of the city have been on a four-day general strike against the PLO attack.

From Gaza, Palestinian resistance organizations have called for mass mobilizations across the West Bank to repel the Palestinian Authority's offensive, denouncing that it "only serves the occupation army and its futile dreams of ending resistance in the West Bank."

*Abbas: When there's a confession, you need no proof...*

## BETRAYAL TO PALESTINE

According to Zionist TV Channel 14, Israel's Zionist entity allegedly sent a warning to Mahmoud Abbas, head of the collaborationist "Palestinian Authority", telling him that the deadline for the operation to suppress the Palestinian resistance in the Jenin camp by his "security forces" was approaching.

*Netanyahu with Abbas of the Palestinian Authority*

*March in Jenin protesting for the murder of a resistance fighter*

**Out with the sellouts of the Palestinian Authority and PLO from the West Bank!**

**Open the road for the Palestinian resistance!**

**As in 2000, we must take over the police stations and disarm the collaborationist PLO in order to arm the people and stop the massacre of Zionism, together with our brothers in Gaza!**

***The best allies of the Palestinian people are the revolutionary masses of Syria who have overthrown the fascist government of al-Assad and are already clashing with Zionism that has also occupied their nation***

***There are the forces to fight alongside the Palestinian resistance in the West Bank, break the siege of Gaza and defeat Zionism!***

The Syrian workers and exploited have revolted and defeated the fascist government of al-Assad, who together with Putin of Russia guarded the Golan Heights borders to Zionism, and today they raise the Palestinian flag in each of the recovered cities and are already facing the Zionist troops that are invading part of their nation.

The bourgeois PLO's sellouts have stepped up their attack on Palestinian resistance fighters in the West Bank at a time when the second Syrian revolution was on its feet and a new front against the state of Israel could be opened. Days before, Hezbollah and the Iranian theocracy had imposed the surrender of Lebanon, which had risen against Zionism.

**All these servants want to keep Gaza isolated and separate the Palestinian resistance from the workers and exploited in revolutionary Syria!**

The ultimate expression of this was their ally **al-Assad** who, before fleeing due to the revolutionary uprising of the exploited Syrians, gave the war criminal Netanyahu all the coordinates of the military targets, weapons depots, missile systems and warplanes in Syria for Zionism to bomb, as revealed by the official Russian news agency TASS. In this way, they made sure that these weapons would not be taken by the insurgent Syrian masses to expel the occupation troops out of the Golan and open that front to liberate Gaza and all of Palestine. This was the last service rendered by the fascist al-Assad before his fall, who was always a lackey and servant of Zionism and imperialism!

The State of Israel, USA's gendarme has not only destroyed the

objectives marked by the dog Bashar, but in addition to the Golan, it has already occupied more than 500 square kilometers of Syrian territory, in the rural areas of Damascus, Daraa and Quneitra, seeking to keep the revolutionary masses at bay.

Filled with hatred, the exploited Syrians took to the streets of Daraa after Zionist forces had taken over the villages of Jamla and Maaraba, shouting "Out with Israel!" **In a fraternal struggle with that of the Palestinian people, the masses of Syria are also clashing with Zionism and are planning to expel it from their nation and from Palestine!**

Israeli troops responded in Daraa just as they do in occupied Palestine: they opened fire at the protesters indiscriminately, leaving several people wounded by bullets. Enough!

**For the destruction of the Zionist-fascist state of Israel!  
Down with Zionism and all invading troops from Syria!**

**Free Palestine from the Jordan River to the Sea, with its capital in Jerusalem!**

The huge international movement that has stood up in solidarity with Palestine against the genocide of Netanyahu and USA, whose vanguard is fighting in the streets of United States against the Biden government, has it in its hands to stand up in support of the masses of Jenin and the entire West Bank against the collaborators of the Palestinian Authority. Following the example of the

*Protests in Syria against the Zionist occupation of the Yarmouk River basin*

Palestinian resistance in Gaza itself, which has saluted the revolutionary struggle of the exploited Syrians that defeated al-Assad, they should raise high the banners of the second Syrian revolution to expel Zionism and imperialism from the entire region.

## Huge uprising in West Bank against the Palestinian Authority

The Palestinian Authority, the PLO and their partners paid by Zionism, are attacking and murdering every Palestinian fighter who wants to fight the Zionist occupation troops.

While the Palestinian Authority, sold out to Zionism for coins, massacres fighters in the West Bank that want to fight the occupier, a huge uprising takes place in Jenin to confront them.

The women of Jenin and their families respond to the PLO's attack on their sons, who join the fight against Zionism. They express their support for the resistance.

Palestinian militant youth block the entrance to the Al-Fara'a camp in Tubas, in protest against the war launched by the collaborationist "Palestinian Authority" against the resistance fighting to break the siege of the masses of Gaza. They stand in solidarity with the fighters of the Jenin camp in the face of the assassination of

The second Syrian revolution has risen up. It is the great ally of the heroic resistance of Gaza, which is increasingly besieged and betrayed.

Open the road for the Syria of the oppressed which have risen up! Victory lies in expelling all the troops that occupy it with

Turkey, the US, their lackeys of the Kurdish YPG and now Zionism that torments the Palestinian nation.

The traitors want to divide the combats of Gaza from the Syria that refuses to be disarmed, the Syria that defeated the jackal al-Assad, the Syria that does not recognize the puppet government of HTS and the Assadists.

They cannot separate them... They are killing fighters in Palestine and they supported al-Assad for years. Prior to his escape from Damascus, al-Assad handed over Zionism the coordinates of Syria's heavy weaponry. Zionism devastated it in order to stop the revolutionary masses from obtaining these heavy weapons.

The flags of Palestine and free Syria cannot be separated. Whoever does so is a traitor. And whoever silences it by covering up the murderers of children and anti-Zionist fighters is a double traitor.\*

### Jenin under siege

## The Resistance challenges Zionist occupation and the Palestinian Authority

In recent days, the heart of the Palestinian resistance in Jenin has been subjected to brutal repression by the Palestinian National Authority (PA), a political apparatus that, far from representing the interests of the Palestinian people, acts as executor of the plans of the Zionist occupier and as its additional armed wing in the West Bank with the sole objective of repressing popular resistance.

On 5 December, Palestinian Authority forces, armed and supported by USA and "Israel", launched a vast operation against resistance fighters in the Jenin countryside, culminating in the killing of Yazid Ja'ayseh, commander of the Jenin Brigade, and the very young Rebhi al-Shalabi (aged 19) and Mohammad al-Amer (aged 13). The operation also sparked a massive wave of protests by the local population. Thousands of people from all over Jenin flocked to the camp to demonstrate against the PA aggression, while solidarity demonstrations were held in the towns of Tulkarm, Qabatiya and Tubas.

*Clashes of the Jenin resistance against the attack by the Palestinian Authority Security Forces*

During the operation, the PA imposed a total siege on the Jenin refugee camp, blocking all access and exit routes. The siege resulted in power and water outages, leaving residents in an extremely difficult situation. Ambulances were hampered, preventing both the rescue of the

wounded and their evacuation, thus aggravating the already serious humanitarian crisis. In addition, PA forces forcibly occupied several houses, turning them into military posts and forcing residents to abandon their homes.

And while the Jenin resistance vows not to surrender, the Zionist occupation continues to escalate its campaign of violence against Palestinians in the West Bank. Recent drone attacks in the town of Tulkarm resulted in the death of four Palestinians, while in the Balata refugee camp in Nablus, an "Israeli" strike killed two people, including an 80-year-old woman.

Zionist armored vehicles also stormed the town Bir al-Basha, south of Jenin. Starting from October 7, 2023, the total number of martyrs of Zionist repression in the West Bank exceeds 820 Palestinians.

The connivance between the Palestinian Authority and "Israel" has always been evident. The United States, through the so-called "Fenzel Plan", helped the Palestinian Authority regain military control of areas such as Jenin and Nablus, pro-

### Urgent Appeal from the paper "The Truth of the Oppressed" from Syria and the Middle East

As the youth who took to the streets in Italy, supporting the Palestinian masses said:

"Jenin is under siege"

The resistance is defying the Zionist occupation and the Palestinian Authority.

As they have spoken out, we stand with the Palestinian resistance until victory, against Zionism and the betrayers of their struggle, the Palestinian Authority.

The young Palestinians of Italy condemn all organisations in that country that continue to interact with this Palestinian Authority regime, who are committed to presenting it as a legitimate interlocutor.

We make this declaration our own and call on all workers', left-wing and anti-imperialist organisations in the world to reject and break all relations with the collaborationist bourgeoisie of the Palestinian Authority, the armed wing of Zionism in the West Bank.

viding logistical, financial and military assistance.

Despite protests from some officials, President Mahmoud Abbas has ordered any internal resistance to be crushed, threatening to fire those who do not obey. It is clear that this operation serves exclusively the interests of the Zionist occupier, whose aim is to disarm and destroy any form of organized resistance.

On the political level, the PA has failed to offer a real perspective of liberation. For thirty years it has implemented a sterile political agenda, lacking tangible results, while "Israeli" colonization has intensified and the project of annexation of the West Bank advances inexorably. The actions of the PA in Jenin only demonstrate its desperation to maintain the favour of its international legitimizers, even at the cost of betraying its own people.

The Palestinian resistance, embodied by groups such as the Jenin Brigade, continues to fight for self-determination, opposing both the Zionist occupation and the puppet regime of the Palestinian Authority. The determination of these fighters and the Palestinian people is a cry for justice that cannot be stifled.

We strongly condemn not only the Palestinian Authority, but also its international legitimizers, including those governments and organizations in Italy that continue to interact with this compromised regime, presenting it as a legitimate interlocutor. Any political, economic or diplomatic support for the PA represents a betrayal of the aspirations of the Palestinian people and an act of complicity with the "Israeli" occupation. The Palestinian people need the active and concrete solidarity of the international community, not of those who seek to maintain the status quo. The resistance will live, fight and inspire until the day Palestine is free, from the river to the sea.

WITH RESISTANCE  
UNTIL VICTORY

Palestinian Youth of Italy.

## Press release of the pro-Palestine youth in the USA against the Palestinian Authority

December 22, 2024

### *Statement of WOL (Within Our Lifetime) Movement*

## The struggle for Palestine lives in every corner, from Jenin to Gaza, carried by people who refuse to surrender their land, their dignity o their future

For over two weeks, the traitorous "Palestinian" Authority forces continue their siege on Jenin Camp, the cradle of resistance. Jenin is not just the cradle of resistance but it is also the cradle of loyalty to the people of Palestine. Since October 7, Jenin has been targeted for its actions in solidarity with Gaza. However, the suppression of resistance in Jenin Camp predates October 7, as the camp has long been a target of the occupation forces and now it is a target of the PA forces, who justify their treacherous actions by labeling the resistance as "outlaws", the same term used by the occupation forces when pursuing fighters in the West Bank. In reality, it is the PA forces who are the outlaws as they have repeatedly betrayed the Palestinian cause and abandoned Gaza.

Rather than confronting the foreign occupation forces, they focus on suppressing resistance from Jenin Camp to the Gaza Strip, while the so-called "outlaws" of Jenin Camp remain steadfast in their commitment to the liberation of Palestine.

The ongoing siege of Jenin Camp is being carried out under the "Fenzel Plan", a security strategy developed by Michael Fenzel, the U.S. Security Coordinator between "israel" and the "Palestinian" Authority. Fenzel's plan seeks to suppress resistance in the region to pave the way for peace deals, normalization, and coordination with

the occupation. However, this plan is bound to fail, much like the Oslo Accords, as the people of Palestine have consistently rejected plans of normalization while supporting resistance. This is the reality not only in Jenin Camp but across the entire West Bank, where the idea of capitulation has been rejected, and the principled idea of resistance continues to be embraced by the masses.

Local sources have reported that Fenzel met with the PA security forces before the operation in Jenin. It is also no surprise that this campaign is being carried out after the IOF has repeatedly failed to defeat the resistance in Jenin Camp. As a result of the PA's ongoing siege, Rebhi Shalabi, Yazid Ja'ayseh, and the child Mohammed Al-Amer ascended to martyrdom. As the siege continues, families are deprived of water and electricity. Children are being denied access to education, and journalists are being silenced to prevent them from reporting on the situation.

The people of Jenin Camp remain steadfast, confident in the resistance that will pave the path to victory. Despite being pursued by PA forces and the IOF, they are supported by the mothers of martyrs and the children of Jenin Camp, who envision a future where their homeland is fully liberated from all forms of occupation, including the traitorous "Palestinian" Authority.

*Before the protest in Argentina, led by the PLO, against the massacre to the Palestinian people...*

## Letter to the currents that claim to vindicate the Syrian revolution and separate it from the heroic resistance of Gaza

### Unity with the PLO and the currents that support it means surrendering in advance in the fight for the triumph of the Palestinian resistance and the revolution that has begun in Syria

To Comrade Laura Marrone,  
To the leadership of Izquierda Socialista,

Regarding your persistent call for us not to bring the flag of the free and revolutionary Syria to the protest for Palestine in Buenos Aires:

We believe that this is a mistake, since the heroic resistance of Gaza has welcomed the uprising of the Syrian masses against al-Assad and his infamous occupation regime.

We are participating in this protest with a delegation repudiating Zionism and for its military defeat at the hands of the heroic resistance of Gaza and the Palestinian people, supported by the revolutionary processes that have not surrendered the Palestinian resistance, such as the Syrian revolutionary masses and the exploited of Egypt who are once again rising up against the counter-revolutionary dictatorship of Al Sisi. There are the forces to stop Zionism: in the restart of the revolutionary processes in the Maghreb and the Middle East!

These revolutionary processes will settle accounts against the cowardly Iranian bourgeoisie, which threatened with "the mother of all battles," and ended up surrendering to the US. The same was done by Hezbollah in Lebanon, which signed a ceasefire when the Palestinian masses in the south of that country were inflicting defeats on the invading troops of Zionism. Thus, they left Gaza isolated.

Any protest or action that confuses who are really the allies of the martyred masses of Gaza and who are their enemies, will not have our support or endorsement. Let alone will we remain silent.

We did not sign the declaration of that protest, since it is openly pro-Assad, whose fascist government of Syria, together with Russia, guarded the borders of the Golan for Zionism along years. Moreover before falling, al-Assad gave Zionism the coordinates of the army's heavy weapons arsenals so that it could bomb them, preventing them from falling into the hands of the insurrectionary masses.

This is a shameful statement, which those who endorse it must take responsibility on, since it states that "Zionism is bombing Syria taking advantage of the fall of al-Assad," as if the Assad government had been a dam to contain Zionism... That is a lie! Like all Arab bourgeoisies, al-Assad encircled and isolated Gaza.

Zionism is attacking Syria because it is coming to disarm the masses of that nation, in case al-Jolani and his coalition government with Assadism failed to do so.

*Syrian masses raise the Palestinian flag alongside those of the revolution*

This is a document that covers up the PLO, which is currently massacring resistance fighters in Jenin and Nablus who are seeking to open fronts to support Gaza. No one can deny this.

The Gaza resistance has issued a press release openly denouncing the PLO for this massacre against the heroic resistance in the West Bank. Abbas himself has declared that Zionism had given him four days to exterminate the resistance there.

On the other hand, wanting to stop the fascist massacre of Zionism by means of "boycott, divestment and sanctions" is a bourgeois policy that we are not willing to sign or endorse.

Dear comrades of Izquierda Socialista,

Now we understand very well your concern that we do not carry the Syrian flags alongside the Palestinian flags. Indeed, the march that you are calling for is led by the PLO, the church, Stalinism and is openly an enemy of the Syrian revolution, which is the only ally that the resistance of Gaza and the martyred Palestinian masses have.

We are only present with a delegation to denounce the massacre of the Palestinian nation.

All the denunciations that we make about the PLO massacre of the Palestinian resistance are explained on our website.

### Appeal by the revolutionaries of Syria

*Comes from back cover*

and bring under their command all those who took up arms against the criminal war regime. Thus they are trying to deal with the armament of the people.

On the other hand, they are also cheating now when they are discussing to form a transitional government and share the power. They are not the ones to form such a government! The exploited people are the ones who fought, the ones who took out al-Assad, we need a government of the workers and oppressed! We cannot accept a new negotiation like the Astana and Sochi conferences!

Now, all of a sudden, all the govern-

ments of the world claim to be friends of the Syrian revolution. Even Russia, which was massacring us for 14 years and gave political asylum to Bashar al-Assad and his family, now claims to recognize the revolution and put our flag on the Syrian embassy in Russia. Netanyahu, the biggest pig in the world, leader of the occupation that carries out genocide against our Palestinian brothers and sisters and steals their land, also claims to be on our side, but at the same time sends his planes to bomb newly liberated Damascus and his army to expand the occupied area of Quneitra, our Golan.

The presidents of imperialist countries say they support us.. They are all hypocrites!

We were subjected by all of them to years of massacre. We know well who they all are. We know that they only plunder, murder and bomb the people, our families, women and children.

Therefore, brothers and sisters, we still have a lot of work to do here. This is not over. We want to take back our entire Syria, includ-

ing the area occupied by the YPG and the US Americans, the area where our oil is. The oil is for the Syrians, so that there will be funds to rebuild the houses and conquer the bread!

We want to regain the Golan Heights and march to Jerusalem.

The fight against the occupation is not over. We only won a battle of Damascus. But the war against the Zionist occupation is still on. We will liberate Gaza and all Palestine from the river to the sea!

But above all, our work that remains to be done is to get the coordinating committees of workers and the oppressed people back on their feet. We need a government of the coordinating committees.

We cannot let the government fall into other hands. Al-Jolani says he negotiates... but for now he cannot impose himself and the masses are forcing the trials and punishments of the war criminals and murderers of the people; they force not to allow any more foreign bases or foreign troops in our territory, be they Russian, American or Turkish. Out with the invading troops!

Before the al-Jolani and the Syrian bourgeois generals of the transitional government end up forming their government and their army, we must impose the power of those from below, for a provisional revolutionary workers' and peasants' revolutionary government based on the armed coordination committees of workers and the exploited!

## Greetings from Aleppo

The fascist government of al-Assad has fallen! The genocidal regime that has murdered our families has fallen! We have succeeded, after 14 years of fighting!

The prisons are opened and the political prisoners are released, among them those of the 1982 Hama uprising who have not seen the light of day for more than 40 years and were not aware of the events of the revolution or the counterrevolution!

This triumph is for the martyrs, the hundreds of thousands who gave up their lives

for the fall of the regime, our relatives.... Congratulations to the martyrs of the Syrian revolution, to my father Mustafa Abu Jumaa and my brother Abu Al Baraa, because this is also their triumph! This is what they fought so hard for!

Now... To liberate Palestine. For the destruction of the Zionist entity and to expel the occupation! For a free Palestine from the river to the sea!

### FROM UKRAINE

## Letter from the Social Movement that gathers Ukrainian unions and workers organizations in the front against Putin

Revolutionary greetings, comrades!

We are following the events in Syria with great interest, as we see them as a natural outcome of the resistance to the dictatorship of Bashar al-Assad. For us as Ukrainians, the overthrow of the openly pro-Putin regime brings closer the isolation of imperialist Russia, so we can only welcome the victory of the rebels. At the same time, we believe that the future of Syria depends both on the determination of the freedom-loving Syrian people and on the readiness of international imperialists to intervene in the situation. Thank you for your analysis, which allows us to better navigate the situation and understand the dynamics of anti-imperialist resistance around the world.

We also confirm that we have received your previous letter with questions about the situation in Ukraine. We need more time to familiarize ourselves with the statements. However, we note that the

*Iron miners from Kryvyi Rih, Ukraine on strike in 2020*

situation here is very volatile, so it is difficult to draw unambiguous conclusions. We outlined the most significant absurdities in Ukrainian society in the resolution of the SR conference in October 2024 (<https://rev.org.ua/resolution-the-path-to-victory-and-the-tasks-of-the-ukrainian->

[left/](#)). As for the role of the working class, it is still too weak to claim leadership of the national liberation struggle. But the undeniable fact is that the labor movement is becoming stronger, as more and more workers become soldiers and go to the front. In our opinion, we should expect a change in political dynamics and an intensification of class conflicts after the end of the hot phase of hostilities. As for businesses that want to benefit from the exploitation of Ukraine and its natural resources, this phenomenon is also not yet sufficiently pronounced: no rational capitalist will invest in a war-torn state.

Finally, we would like to express our gratitude to you for following all the significant trends in the international left movement, as well as for taking a position in support of Ukraine. This helps to cleanse the world left movement of pseudo-left pro-Putin elements, makes the fate of the Ukrainian people easier, and gives us confidence in the future.

Best regards,

Social Movement

## James Sakala, leader of the International Workers League (WIL)

The fall of al-Assad is a sweet victory for the workers and the poor people and must be defended, and all foreign forces must be driven out of Syria. All political prisoners must be released without charge, as is already being done when they are released by destroying the prisons.

Syria shows how to get justice, directly from the masses, against the murderers of the people.

We must get justice for the martyrs of Marikana as the Syrians are doing.

We must unite all the workers of the Middle East and liberate Gaza too, because the enemy is the same.

The US and Putin are the enemy to be defeated too, so we must unite with the working class of the US who must have the battle cry "The enemy is at home". Our goal is to defeat the rotten capitalist system.

## FROM JAPAN

## Greetings from the revolutionary Marxists of the Revolutionary Communist League - Revolutionary Marxist Fraction (JRCL-RMF)

To all comrades who are participating in the December 14th International Event, we are sending our greetings to express our resolve to fight in solidarity with you.

Comrades.

Besieged by the mounting anger of Syrian people, authoritarian ruler Bashar al-Assad finally fled away to Russia under the rule of his backer, Putin. After conducting a war against the people by even using chemical weapons, and imposing more than six hundred thousand deaths on them, the blood-stained regime fell down. The despotic rule of the al-Assad family, Hafez and Bashar, who had repressed anyone rebellious against them, has been terminated, and tens of thousands of political prisoners have now been liberated from jails. Together with Syrians and together with you, who have been fighting against the al-Assad regime backed by 'today's Stalin' Putin, we rejoice at these developments.

Comrades.

The road to the true liberation of Syrian people is still full of hardships. Russia will not abandon the military bases it has secured in this country. Be it Biden's or Trump's administration, US imperialism won't simply look on Muslim radicals of the HTS becoming central in a 'provisional government' whose formation they are initiating right now. And Netanyahu of Israel is already mounting air strikes on Damascus and even advancing its troops into Syrian territories, declaring that it's preventing weapons stored by al-Assad from falling into the hands of Muslim radicals and that it's for self-defence.

Warfare and confusion won't be ceasing but intensifying, not only in the Middle East but also all over the world. With the aim of exterminating Palestinians, Israel's homicidal mania Netanyahu is raining

*Anti-Japanese government rally in Tokyo*

missiles deliberately upon children and women. The Russian evil murderer Putin is doing the same thing against Ukrainian people.

For the toiling masses in Palestine and the Middle East, and for those all over the world, the road to their self-liberation is still bleak. Conflicts raging in the Middle East have their backgrounds in the global confrontation between US imperialism, which is in decline, and the neo-Stalinist state of China, which is frantic to seize world hegemony from the former (and Russia in collusion with the latter). Imperialist America, which used to boast of being the world's sole superpower after the self-destruction of the Stalinist Soviet Union, was exposed to Muslim people's concentrated fire of indignation by conducting successive invasions of Afghanistan and Iraq, thus having dug its own grave. Taking advantage of America's decline, its rivals, Xi-led China and Putin-led Russia, have embarked on their challenge. Today's world has now plunged into a new Cold War between the US and China (with Russia).

Amid this turbulent world situation, there appear fascistic 'dictators', who are abusing strong power of the state. While oppressing the toiling masses, these 'Hitlers of today' are amassing vast fortunes and have enriched themselves. Toiling people, on the other hand, are even unable to live on. Across the world, vast numbers of people are wandering about the world as refugees. Trampled and thrust into wars, poverty and oppressive rule everywhere in the world, toiling people are seething with rage. It's time for the downtrodden people to arise in unity. Let us fight hand in hand to carve out our future, a truly peaceful world without oppressive rule.

We will never tolerate those self-styled 'leftists' who shamelessly defend al-Assad and Putin the aggressor of Ukraine. Against them, let us fight arm in arm to create and develop powerful struggles of working people all over the world.

Andrey Sedov, "The International Workers Organizer" correspondent

***"The publicly hung executioners in the Syrian revolution suggest to the leading classes of the world that the oppressed blood cannot be shed nor can they be tortured in jail with impunity"***

Comrades, I salute you. Congratulations on the victory of the Syrian revolution.

A lot of comrades in Syria and the world are celebrating and taking it as a happy dream. After enormous tests and sacrifices, the Syrian people have got rid of the vile tyranny that was only sustained on the occupant's violence, fear, torture, propaganda and bayonets. Syria is again in the hand of its people and the three stars flag is up in Aleppo and Damascus, as we had expected.

I've been in contact with some of my sources within Syria, even within the military factions of rebels and mujahidin. Huge trophies have been captured: weapons, military equipment but now they are under constant threat of air attacks by the Zionist occupant who fear the victory of the Syrian revolution and have already intervened by occupying parts of the south of Syria, included the strategic Hermon Mount (Jebel al-Sheikh).

I have received the alarming news that the al-Jolani government is negotiating with the Russian occupants to keep their military bases in the coast of Syria. Only last few days ago the occupation and tyranny regime was falling apart before our eyes and the occupant's military columns withdrew towards Latakia and Tartus from the south and north of Syria.

The Sunni bourgeoisie in exile is already trying to occupy the place of Assad's dismissed Alawi bourgeoisie and get their portion of power and properties.

In Syria, I have just seen images of revolutionary comrade Abu Jumaa's family house destroyed by the shabiha

Of course, nothing has been definitely established yet. The Syrian masses will not tolerate the occupants' military presence on their land. As they watch the enemy military columns retreat they say: "Putin's dogs are running away." As long as the al-Jolani government does not control the masses and the revolution has every opportunity to de-

velop, Syria will rise from the ruins.

Up to 300,000 prisoners have been released from the regime jails, according to Syrian Civil Defense. Many of them have been detained for over 40 years. Those prisons reminded of the worst horror movies. The fall of Assad regime sets a crucial precedent at an international level: the publicly hung executioners suggest to the leading classes of the world that the oppressed's blood cannot be shed nor can they be tortured in jail with impunity.

The fall of tyranny spreads confusion among the fascist and world guardians' files and new hopes among the oppressed. It creates a new reality in the Middle East and beyond.

## APPEAL BY THE REVOLUTIONARIES OF SYRIA

Sisters and brothers workers and oppressed of the world

Here we are in a free Syria. After 14 years we came to liberate Damascus and overthrow the genocidal regime of Bashar al-Assad. This was done by the people. It was the people who rose up in mobilizations, who took up arms again. The Operations Room of the HTS and Free Syrian Army leaderships could no longer control all the thousands who wanted to liberate their nation. So much so that most of the brigades, after taking Aleppo and marching to Hama, started to stock up on supplies, weapons and others that were obtained from the al-Assad, Hezbollah and Iranian barracks that were taken during the advancing.

Many refugees are returning to their cities, to their homes. Some find them destroyed, but they are happy to return to their land. They are happy to free their prisoners from the human slaughterhouses that are al-Assad's fascist prisons and torture centers. And above all, many want to go and get justice for their martyrs, their murdered relatives, their kidnapped children, their

raped women. Assadist generals and Government officials as well as al-Assad family members involved are tried and punished for their war crimes.

They are also moving on to dislodge and destroy the Russian bases in Tartus and Latakia, even though the HTS leadership said they were going to keep them intact. The people want their entire nation, their glorious Syria and all its wealth back, and that is why they are going after the area occupied by the Kurdish brigades under US command. The HTS leadership negotiates. But the people are already marching in the streets of Deir ez Zor demanding that the YPG and the US lay down their arms, open the prisons and surrender to free Syria... something the YPG did not accept and opened fire on the demonstration mercilessly killing a dozen women and children.

Mohamed al-Jolani, leader of HTS, has announced that he was going to negotiate with Russia, Turkey and the US a transitional government, which would first disarm all forces other than those who liberated Syria and form a single army. Of course,

**Rebel brigades and the masses in Homs  
after the defeat of the Assadists**

this army would include the high commanders of the YPG, the Assadist generals, the shadow government that had been operating from abroad, etc. They promise elections for after all this takes place. But it is nothing but a trap. They are going to rebuild a command center of officers and generals from all bourgeois sectors in Syria
