June 24, 2025

After the attack of Zionism and imperialism, Iran signed a "peace" agreement:

It disarmed southern Lebanon, supported the PLO, a servant of Zionism, in the West Bank, and made Yemen and Iraq to retreat

Now...

The fascist war of extermination against the Palestinian people in Gaza and the counterrevolutionary offensive across the Middle East are deepening.

The masses of Gaza, surrounded by hunger, trying to find food

Wall Street butcher Trump announced a "ceasefire" after his and his Zionist henchmen's attacks on Iran... Meanwhile, the troops of the occupying State of Israel are once again attacking the tormented Palestinian masses of Gaza and rampaging southern Lebanon.

USA claim that "they hit hard and then comes peace"…

It's a lie! No justice, No peace!

For the oppressed masses of the entire world to live, **imperialism must die!**

Hundreds of thousands of workers and exploited are taking to the streets in USA and Europe to stop and defeat the war waged by USA and their Zionist henchmen on Iran.

In dozens of US cities, like Los Angeles, Chicago, Portland, New York, Illinois, St. Louis, Boston, Milwaukee, Washington, and the San Francisco Bay Area, a national day of protests took place, chanting: "No war on Iran! Stop the genocide in Palestine! Trump is a war criminal!"

Once again, in the heart of the imperialist beast, the growing hatred for the war launched yesterday by Biden and continued today by Trump with their Zionist gendarme in Palestine has been manifested.

From the streets of USA, the masses exclaimed that the US attack on Iran is like "the 2003 invasion of Iraq," claiming that "Trump is just like Bush!"

Also in the streets of Toronto, Canada, filling the streets of European capitals such as Rome, Athens, Paris, Brussels, The Hague, Dublin, London, and in Asia such as Japan, Pakistan, India, and South Korea, they denounce Trump as a war criminal and oppose this brutal attack, demonstrating with chants of "No to war! Stop bombing Iran! Free Palestine!"

June 26, 2025

The Iranian Ayatollahs: "Brave" in Massacring the Masses, but Cowardly in Confronting the US Imperialists and Their Zionist Gendarme

A ceasefire agreement has been signed between the US and Zionism, and Iran. After the US and their gendarmerie devastatingly bombed Tehran and various Iranian cities, and after some missile responses from Iran, the ayatollahs surrendered. When the masses took to the streets in the US, and when the prospect of opening fronts and unleashing total war on Zionism was at stake, **the ayatollahs signed a "peace agreement" and surrendered the national struggle** of Iran, Palestine, and the entire Middle East.

Thus, **this pact reinforces the siege laid to Gaza**, which the ayatollahs had already been imposing, given that in more than a year and eight months of genocidal Zionist attacks, they intervened with nothing more than a couple of missiles. Together with their Hezbollah partners, they closed in and disarmed the masses on the Lebanese front. In Iraq, they were responsible for stopping all attacks on US installations. The Hamas president was assassinated in Tehran, and no explanation was ever given.

Following this pact, the imperialist offensive in the region and the imposition of "Greater Israel" were strengthened, with Zionism bombing Lebanon, occupying Syria, massacring Gaza, and also surrendering the Iranian nation. After Gaza, the West Bank, Lebanon... Zionism will return for Iran.

The Iranian theocracy demonstrates the cowardice and limitations of the national bourgeoisie in the struggle against imperialism. They are a burden on the shoulders of the working class to liberate the nation. Their businesses and properties are intertwined with imperialism. They know that if the working class intervenes independently and with their working siblings in the imperialist countries, imperialism will fall, along with them and their businesses.

This is why the ayatollahs surrendered the national struggle. A proletarian leadership is necessary to confront imperialism and Zionism!

The Iranian working class can forward the struggle **to break the Ayatollahs' surrender pacts.** We must take to the streets! For committees of rank-and-file soldiers who disregard the surrender and elect their leaders to fight against Zionism and imperialism! **All weapons must pass into the firm hands of workers' and soldiers' committees,** like the Shoras of the 1979 revolution. Iranian National Assembly!

Let's open all fronts to defeat Zionism! Let's break the siege of Gaza!

One single struggle throughout the Maghreb and the Middle East!

The path to victory: We must stop the massacres in Gaza now!

Enough of "peace" and surrender pacts!

The position of the Trotskyists who fight under the banners of the Fourth International:

In Lebanon, we call for breaking the Zionist border in the south and recovering the arms to fight Zionism.

We call on the masses of the West Bank to rise up against the collaborationist bourgeoisie of the PLO, which shoots in the back the rebellious youth and the Palestinian partisans of Nablus and Jenin .

In Syria, we call for a fight to defeat al-Jolani, a lackey of Zionism and a follower of al-Assad's policy of subservience to imperialism, as administrator of the occupied Syrian protectorate!

From the rebel brigades we fight to recover Quneitra and march to the Golan Heights to crush the Zionist occupiers.

We fight to open the fronts in Iraq and Egypt to enter the fight against the murderer al Sisi, Netanyahu's servant, in Cairo Square!

USA bases out of the entire Middle East!

We call for the most powerful missile the working class of the Middle East has to be fired:

Out with the imperialist oil companies! We must expropriate them and all the imperialist banks!

The greatest allies of the working class and the oppressed peoples of the Middle East are in the USA and imperialist Europe, where thousands of workers and youth are mobilizing.

We must conquer the streets of the entire world! Gringos Go Home!

Only the world working class can stop the imperialist attack and the Zionist massacres with the International General Strike and the heroic struggles of the masses of the Middle East.

Demonstration in New York: "No to the US-Israeli war against Iran"

The "pax" that imperialism wants is the "peace of the cemeteries."

One single and same Intifada in the entire Middle East!

International General Strike!

German Chancellor Merz boasted that Zionism is doing their "dirty work" in the Middle East, while Trump boasted that "we must hit the enemy hard, and then peace will come."

We, the militants of the Fourth International, affirm that there will only be peace in the Middle East and the entire world with the victory of the international socialist revolution that crushes imperialism and this rotten, putrid capitalist system.

The Zionist-fascist state of Israel must be crushed!

Free Palestine from the Jordan River to the Sea!

The battle for Gaza is the battle of the entire the working class and all oppressed peoples of the world!

FLTI Statement on the beginning of Zionism's attack on Iran

Regarding the US imperialist and zionist counterrevolutionary offensive to directly control the "oil routes"

The local bourgeoisies besiege Gaza and surrender the fighting and the national struggle

Only the working class and the exploited can defeat imperialism and its gendarme!

Through their Zionist gendarme state, the US is seeking a direct and definitive military control of the oil routes, which they had lost due to the workers and exploited people of the Middle East and to the workers from the interior of the imperialist beast it had been defeated in its invasions of Iraq and Afghanistan.

A massive revolutionary upsurge of mass protests has challenged the plundering by the imperialist oil companies throughout the Maghreb and the Middle East since 2009-2011, in that region where workers and the oppressed live with "black gold" beneath their feet, while millions barely survive in hunger and subjugation under pro-imperialist regimes of terror.

Having diverted and defeated the revolutionary processes of the previous decade, which had swept through Tunisia, Libya, Algeria, Sudan, Yemen, Iraq, Syria, Bahrain, Egypt, etc. and threatened to reach Jerusalem, imperialism, first with Biden and now with Trump, sought to return firepower to Zionism, which is recovering it —no matter how much its lackeys and servants at the international level keep quiet about this— by invading neighboring countries such as Lebanon and Syria.

The genocide that has begun in Gaza will only continue and reach thus far unless the masses get to crush the imperialist beast and its fascist agent, the Zionist state of Israel.

US imperialists are seeking to regain direct control of all businesses in the region, which supplies the energy that powers 80% of global production. During their crisis and absence, the rest of the European imperialist powers have challenged the US for the control and ownership of the oil business itself.

Today, US imperialism is seeking to regain the spheres of influence where it had been weakened by the massive crisis and economic collapse that rocked Wall Street in 2008.

Its immediate clash is with imperialist Europe, which closed its market from Portugal to the Russian steppes and began to dispute the control of the world economy.

Using Putin's occupation of Ukraine, the US divided Europe and dislocated this market conquered by the Franco-German axis. With its trade war, it curbs the aggressive policies of its competitors and seeks to force China to surrender.

Zionist bombing on Iran

Workers must know that the current Zionist offensive against Iran is another link in a generalized war by imperialism to regain 100% control of the world's largest oil and gas production region.

The cowardly Arab and Middle Eastern bourgeoisies have lent Gaza isolated...

They believed that this way they would have a business future in the region.

Iran clerics were never willing to go all the way in the fight against the State of Israel, much less break off their negotiations with imperialism, with which they have been doing business for years —and which the Ayatollahs seek to maintain at all costs.

In Syria, Lebanon, and Iraq, the Iranian bourgeoisie acted as the controller of the revolutionary masses as the defeated US troops fled the region and the fire of revolution was burning.

By the time the Zionist offensive on Gaza began in October 2023, the Shiite bourgeoisie had already played its full part. After using them, imperialism went after them directly. For Wall Street, it was the time of Zionism, of its counterrevolutionary agent directly crushing the masses to impose its control over the region.

Iranian troops were bombed in Lebanon alongside their Hezbollah partners, and also in Syria, where they played a key role in crushing and containing the revolution.

Shiite bourgeoisie allowed a massive Zionist bombardment of their country last October and "washed its hands" of the assassination in Tehran of the president of Hamas' political bureau, that is, it washed its hands of occupied Gaza.

Thus, months after the Zionist occupation of Gaza had began, and while the Palestinian resistance just was responding with harsh defensive blows to Zionism, the Ayatollahs announced that the "*mother of all battles*" was coming... It all ended with the Iranian bourgeoisie sitting down with Trump to negotiate a "*peace plan*" and stability in the region...

This is the role of the scoundrels of the national bourgeoisie, always ready to bargain away a share of the rents and business deals from imperialism, just as the clerics of Iran do. They disarmed Hezbollah in Lebanon, took the masses out of arms, handed power in that country to the Maronite bourgeoisie of Beirut —an agent of Zionism—, and allowed the Zionists to occupy its borders.

They surrendered!

In Syria, before fleeing from the hatred of the masses, Assad handed over the plans and coordinates of the Syrian weapons and war equipment to Zionists. The State of Israel destroyed it to prevent the revolting Syrian workers and exploited from taking it over…lest the pro-imperialist scoundrel al-Jolani would be too late to take control of Damascus, and the armed masses could do so before, demonstrating to the world how a fascist regime was to be defeated and its prisoners freed.

As a tribute to those massacred and murdered by the horror of the fascist beast in Gaza; as a tribute to the martyrs of the Jenin and Nablus camps in the West Bank, crushed by the Zionist beast and their servants the traitors of the Palestinian Authority who serve it; as a tribute to the Palestinian youth of southern Lebanon seeking to recover their weapons to enter the fight, we revolutionaries must speak the truth.

Imperialism used its "mortal enemy," Iran, and its offshoots, as long as they were useful to contain and crush the masses and their revolutions. When they are no longer needed, after being used as "squeezed lemons," the US imperialism gets rid of them.

Wall Street no longer distributes business, nor does it plan to have junior partners. It only distributes bullets, sells weapons, and seeks to regain the spheres of influence it lost around the world due to the decay of the US.

Bloodthirsty Putin has a military base in Tartus, just a few miles from martyred Gaza, in occupied Syria, where he tirelessly dropped barrel bombs, working alongside al-Assad to massacre thousands of rebels and crush the first Syrian revolution.

Russia did not send a single round of ammunition or a missile to collaborate with the Palestinian masses.

There, in Tartus, Syria, the curtain has risen: the butcher Putin is another genocidal maniac who openly supports the fascist state of Israel and holds hands with the fascist Netanyahu, always ready to intervene and crush the masses. Today, the jackal of Moscow maintains the continuity of Stalin's counterrevolutionary policy, which, upon the end of World War II, gave the UN the green light for founding the fascist State of Israel.

Trump and Netanyahu

And on top of all this, the world proletariat has to endure Stalinist and reformist currents passing this shameless murderer of Putin as an "ally" in their struggles.

Gaza has been left isolated and martyred... The cowardly and miserable Arab bourgeoisies did it. And now imperialism is after everything, including them.

Millions of women and children, lie in mass graves in Gaza. Millions of starving Palestinians, not even allowed a handful of rice to survive, are crowded into a few square kilometres.

Today, **Al-Jolani, Turkey's lackey, is selling the Syrian Golan Heights** and the south of that country out to Zionism... and is granting the reconstruction business to the US imperialists. In southern Syria, from the province of Daraa and especially in occupied Quneitra, the militias of the Syrian revolution are already entering the fray against Zionist troops. They are being shot in the back by Damascus's new lackey.

The **PLO** in the West Bank wanted to ingratiate themselves with the jackal Netanyahu and dedicated itself to pursuing and killing the resistance in **Jenin and Nablus that sought to enter the fight in Gaza**.

The **King of Jordan**, a servant of the US, has transformed that region in a base of operations for Zionism, just like the cowardly Shiite, Kurdish and Sunni bourgeoisie of Iraq.

Hezbollah in Lebanon withdrew from the government and disarmed the more than 3,000,000 Palestinians living in the south of the country, where they had been openly fighting Zionism. Moreover, they had defeated it in the latter's 2006 invasion, when the Zionists troops fled like rats, defeated by the civil war.

Today, the genocide of massacres and famine is taking hold in Gaza... Attempts by Palestinians in Lebanon to stop such massacres were brutally repressed by the pro-USA government in Beirut weeks ago.

The Yemeni masses, abandoned to their fate by the cowardly Shiite bourgeoisie, were left attacking on their own the imperialist ships passing through the Red Sea. Yemen was also isolated and bombed by the US imperialists, amid the ignominious silence of the movements that proclaim themselves "left" and "anti-imperialist," who are nothing more than imperialism's lackeys, always ready to deceive the workers to protect the business of transnational corporations and finance capital. That's what they live off.

This was the moment that imperialism and Zionism were expecting. **They could not allow another handover of hostages with the Palestinian resistance organized and standing, having withstood Zionism's mortal blows** thanks to the heroism of the masses who defended every piece of Palestinian land, house by house.

A new hostage exchange of this magnitude would have enthuse all the exploited Palestinians in Lebanon and the West Bank to upsurge… So, imperialism has decided to go all out.

But what about the Palestinian masses?

With **Gaza betrayed,** isolated, occupied and massacred…

With the **Arab bourgeoisies playing fast and loose** to beg for a role in the Middle East oil revenue business…

With the **European and North American working class with their hands tied by the traitors of the union bureaucracies**, were prevented from stopping the war machine, the ships and the supply of weapons and supplies to Zionism from the ports of Europe and around the world, as the workers of all ports tried a thousand times…

Now, imperialism and its Zionist agent in the Middle East are going all out.

Zionism is bombing Iran today, and the US Navy is preparing to come to its aid in the Mediterranean Sea.

But in Iran, the masses are not in the streets. The Ayatollahs have been very careful to imprison, repress and execute the protagonists of every workers' struggle that has shaken that country for years with the cry: "The clerics live like kings and the people like beggars!"

The firm hands to confront imperialism are those of the working class and its allies, the impoverished masses of the countryside and the cities. But the weapons are held by the bourgeoisie and the clerics, always ready to negotiate with imperialism.

Therein lies the answer: a rain of missiles is falling on Tehran, and the masses are suffering and will continue to suffer this. If the imperialist beast is not stopped, Zionism will continue to strengthen, and all the oppressed peoples of the Middle East and the entire world will suffer this.

Demonstration in Yemen in support of the Palestinian masses

The masses of the middle east and the workers of the world have the strength to crush zionism and stop the imperialist war machine

After two years of Palestinian heroic resistance with its forces already exhausted, even now Zionism, the fifth most powerful army on the planet is still unable to fully occupy Gaza, despite the fact that it has been devastated and its population massacred…

THE ZIONIST STATE OF ISRAEL CAN BE DEFEATED BY FIGHTING LIKE THE MASSES OF GAZA, THROUGH THE METHOD OF CIVIL WAR, AND BREAKING THE SIEGE OF THE COWARDLY ARAB BOURGEOISIES.

Let the heroic and courageous Palestinian youth in Lebanon recover the weapons their cowardly bourgeoisie seized from them and enter the fray!

Let the revolutionary masses of Syria defy and overthrow the infamous government of al-Jolani, march with their militias to fight in Quneitra and together with Daraa to crush the Zionist invasion of the Golan Heights!

Full support to the heroic masses and revolutionary youth of Jenin and Nablus! To fight for their brothers and sisters in Gaza, they must clash every day with the scoundrels, traitors, and fifth-column members of the Palestinian Authority, who sell out their own people for a few Mossad coins.

The Iranian nation, with its response today, like Yemen in the Red Sea, is demonstrating that it is possible to attack and hit the ships of imperialism and the territory of Zionism.

Iran clerics refused to respond to a Zionist missile wave like the current one a year ago, which disciplined it and forced it to sit at the table with Zionism and imperialism to negotiate its nuclear plan, breaking all solidarity with the people of Gaza. It had threatened to respond with the "mother of all battles" and ended up conferring with Trump. These are the consequences.

Every missile that falls on Tel Aviv is celebrated by the masses. But the truth must be told: for a year, when the Gaza resistance was on the offensive, holding off the Zionist troops, fighting house by house, those missiles stopped falling on Tel Aviv. This has caused unprecedented suffering to the Palestinian masses and will continue to cause the same to the Iranian masses.

Zionism can be defeated. It was defeated by the masses of southern Lebanon in 2006.

Imperialism can be defeated. This is the moment! The USA have not yet recovered from their monumental defeats in Iraq and Afghanistan. Imperialism fears the allies of the people it oppresses: the North American workers and youth who by the thousands never stopped fighting in support of the masses of Gaza and the Palestinian people. That´s why they were the first targets of Trump's persecution that today he extends to more than 30,000,000 Hispanic workers.

Zionism and the USA can be defeated because the battle of Los Angeles against the murderer Trump and the entire infamous regime of imperialist butchers has begun.

Los Angeles protests have spread to St. Louis, California and Chicago. In New York, the Black movement took to the streets, telling migrant workers: “New York is your home, not your prison.”

The USA can be defeated. It is the workers and peasants of the Middle East and the metropolises who must take this battle into their own hands.

In recent months, the UN and the cynical Norwegian bourgeoisie, which masquerades as “pacifists” to cover up the worst crimes and genocides against workers, have organized “peace caravans” to bring “solidarity to Gaza”. But this is an outrage. They are miserable.

The Palestinian masses need weapons! International brigades to fight in Jenin and Nablus! Let them enter South Lebanon to seek out their anti-imperialist siblings! From Idlib and Homs, let them march to Daraa to crush Zionism in Quneitra and the Golan Heights!

Miserable fraudsters! They went to take a photo to give themselves a “medal” of solidarity when more than 7% of Gaza has been murdered.

The caravan of the pro-imperialist and cynically pacifist reformist left arrived in Egypt to “support Gaza,” when Egypt is the most subservient to Zionism Arab state!

From there, they tried to enter Gaza... Scoundrels! Egypt is home to the al-Sisi government, a fierce dictatorship that crushed the revolutionary Cairo Square. And at the border, the members of the caravan complain that they weren’t allowed in... These pacifists ended up deported by Egypt’s “Videla” dictatorship, without clothes or passports...

All those who have denigrated the heroic resistance of the Palestinian people, accusing it, as Zionism does, of being “terrorists,” went “to wash their dirty laundry”. This is what the infamous PTS faction in Argentina did, after having passed pro-Zionist bills in parliament, offered their “condolences” to the fascist settlers, and condemned the Palestinian people’s right to self-defense on October 7, 2023, for which they were even repudiated by pro-Palestinian factions like al-Judur.

For they from the NGOs and reformist movements have gone to Egypt only “to wash their clothes” because it has become clear that without victory and military crushing of the State of Israel, the Palestinian people will perish.

The propagators of the “two states” or “binational states” policy, that deny the Palestinians the right to expel the occupier, have gone to wash their bloody laundry.

The pacifist movements that arrived two hours before their passage is blocked have gone to Egypt to do their laundry and remain silent, as they do from the FIT-U of Argentina, about the fact that Milei government was in Tel Aviv yesterday in the committee of military and war operations, supporting Netanyahu and Trump to crush Iran and the Palestinian people.

For the first time, from Buenos Aires they called for a march... to the French embassy, just as the US and their Zionist agent sought to crush Iran.

The reformists were caught between Zionism’s bombshells over Iran and the truncheons of the al-Sisi dictatorship, which kicked them out for having so much put their trust on the enemies of the masses.

Gaza: Hundreds of thousands of starving Palestinians

War, revolution, and counterrevolution put things in their proper place: who are the revolutionaries and who are the traitors; who are the allies of the workers and who are their enemies. This is the task of the militants of the Fourth International.

And they did know they wouldn’t be able to enter through Egypt. The masses are dying in Gaza, and the traitors are washing their hands in Egypt under the dictatorship of al-Sisi, Netanyahu’s biggest supporter. Bastards!

Enough of massacres in Gaza, Lebanon, Iran, Syria and the entire Middle East!

We must take to the streets! From all the world’s worker and peasant organizations, let’s besiege and encircle the US embassies, expel the Zionist ambassadors, recognize the Gaza resistance and anyone who fights directly against the Zionist state, as Yemen and Iran are doing today, as a belligerent army!

We must establish an International Committee of workers’ organizations from around the world, from the battles in Los Angeles, from the labour unions of Europe, from the brave workers of Latin America and Africa, from all continents.

Imperialism and its counterrevolutionary agents must be stopped before it is too late.

FOR AN INTERNATIONAL GENERAL STRIKE TO STOP THE GENOCIDE OF THE PALESTINIAN PEOPLE AND SUPPORT ALL MILITARY OFFENSIVES TO CRUSH ZIONISM

No ship must be loaded with supplies and weapons for Israel and the imperialist armies.

Arms to the Palestinian resistance! Arms to all those fighting imperialism!

Zionism can be defeated. The working class of the Middle East holds the key. The people of the East produce the riches of the greatest energy sources on the planet. They have an extremely powerful missile in their hands. Zionism holds the siege and the hunger. But the masses of the Middle East are the ones who make the wells of “black gold” produce, through which imperialist oil companies steal the wealth of their people.

All imperialist companies that plunder hydrocarbons from the Middle East must be besieged, seized, expropriated and nationalized without compensation, as war reparations.

We must attack and expropriate Shell, BP, Exxon, Chevron, the Italian ENI, etc., and all their imperialist partners and bankers.

Only on this path peace will be achieved and hunger, wars of oppression and martyrdom will be ended.

Iran's weapons must be placed under the control and in the firm hands of councils of workers, poor peasants and rank-and-file soldiers

Down with the pacts and negotiations of the Iranian bourgeoisie and government with imperialism and the UN, where the heroic Palestinian and Middle Eastern revolution is surrendered at every turn!

Against Zionism, total war!

Iranian workers have the strength to stir up the entire masses of the Middle East. They must enter the fray directly.

Removing rubble from the streets of northern Tehran

In the 1980s, the Iranian working class led one of the greatest revolutions in the entire region: the Workers' and Soldiers' Council Revolution, which overthrew the monarchy of Shah Reza Palevi, a direct agent of imperialism in the plundering of that nation. It was the Shora Revolution, later usurped and strangled by the clerics and mullahs.

Iran's weapons must pass into solid hands, not to serve the Iranian bourgeoisie's infamous negotiations with imperialism, but rather to serve the revolution and the Palestinian masses who need them.

To this end, while we fight unconditionally for the victory of the Iranian nation to crush Zionism and defeat the imperialist offensive, we fight for Iran's weapons to pass into the hands of those who have nothing to negotiate with imperialism and no reason to oppress and crush other brotherly peoples who are revolting: the heroic Iranian working class.

For committees of workers, peasants, and rank-and-file soldiers who will take military control of national defense and offensive action to crush Zionism and imperialism, supported by the struggles of the masses of the Middle East and the world working class!

Zionism will be defeated through the victory of the revolution in the Middle East, supported by the international working class.

A free, unique, indivisible Palestine, from the Jordan River to the Sea, secular, democratic, and non-racist.

For a revolutionary workers' and peasants' government and its armed militias, drawn from the depths of the people.

For the United Socialist States of the Maghreb and the Middle East.

Carlos Munzer, Milenka López, and Juan Sánchez,
for the Editorial Committee of "The International Workers' Organizer"

Opinion Article

PALESTINE

June 15, 2025

The fallacy of the "Caravan of Steadfastness" that never reached Gaza:
Neither food nor weapons for the Palestinian masses to crush Zionism

While the Zionist occupier uses "humanitarian aid" to lure thousands of Palestinians in Gaza and to gas and shoot at them, self-proclaimed pro-Palestinian charlatans organized a UN "Caravan of Steadfastness" "against hunger" from Egypt.

These people believed that the Videlist dictatorship of al-Sisi, the "Pharaoh" of Egypt, would welcome them and let them pass to get to Rafah... but not only did they not make it to Gaza, but most of them were deported. Truly miserable.

Some, like the PTS delegation from Argentina or Fabio Bosco, leader of the LIT-CI (IWL-FI) and the International Commission of the CSP-Conlutas trade union of Brazil (which is part of the International Labour Network made up of over 80 trade union organizations from around the world), arrived in Cairo later, when they already knew they would not be able to get past the first police checkpoint.

Clearly, they only went to wash their dirty laundry from the pro-Zionist laws they voted for in legislatures like those in the city of Buenos Aires… They went to wash their dirty laundry from the "condolences" that, like Bregman, they gave to the fascist settlers in October 2023, who celebrated burning Palestinian families in Gaza alive…

Democrats dress up as democrats, and fascism annihilates the masses…

Why didn't they enter through Nablus and Jenin to fight alongside the West Bank resistance that seek to enter to defend Gaza and is being shot by the Palestinian Authority itself?

Global March to Gaza travels across Northern Africa

And why didn't they march through Hama and southern Syria, where rebel militias, breaking with al-Jolani's miserable servant of Zionism, are already confronting the Zionist troops who occupied the Golan Heights?

And why didn't they go to Lebanon to bring support from unions and student organizations to the rebellious youth in the south of that country, which have been disarmed by Hezbollah so they won't fight alongside Gaza?

They went as pacifists and liars, painting themselves as pro-Palestinians for the sake of saving themselves from the restless bases that don't believe anything they say... They are scammers.

They went on a "democratic" holiday and discovered that the real world was filled with fierce dictatorships, wars, betrayed revolutions... and a couple of police officers who kicked them back home...

They went to a "humanitarian brigade" and found themselves facing missiles falling on their heads.

This is the sad role of charlatans.

The international reformist left and some of its Argentine minions have a lot of explaining to do.

Milei is complicit in Trump and Netanyahu's genocide... Everyone is bombing Iran... and candidate Bregman in Buenos Aires embraced to the Peronist party, an ally and respectful of the fascist state of Israel... the same one that called for the annihilation of the resistance in Gaza! Or have they forgotten that together they offered "condolences" to the fascists in the 2023 electoral debate in Argentina?

They wanted to go to Gaza to campaign with their made-up "star figures."

They were given bad advice... Didn't they tell them that crossing the Nile River means exposing themselves to being eaten by crocodiles?

Iván León

June 26, 2025

For almost two years they did not have a policy of unity of military action to support the heroic Palestinian resistance as a belligerent army

Now the PTS from Argentina is dressing up as "pro-Palestinian" at the last minute

Those friends of the Zionist Christina Kirchner already showed their true colours

In this year and eight months of ferocious genocide in Gaza, hundreds of thousands of Palestinians have been murdered by the Zionist occupation forces, most of them women and children who are missing under the rubble.

While Zionist bombing continues unabated and famine is already widespread throughout Gaza, the Argentine PTS has suddenly decided to dress up as "pro-Palestinian."

Thus, two of its leaders have traveled to Egypt to participate in the "peace caravan," thinking that "Videlista-like" dictatorship of al-Sisi would allow them reach Gaza to "deliver humanitarian aid"...

Besides, at the Congress they have just held, the PTS voted that its "internationalist profile" should be "articulated" around the fight against the genocide in Gaza.

What's more, overnight, **now they vindicate the legitimate self-defense action of the Palestinian resistance on October 7, 2023**, saying that it was a *"**deeply anti-colonialist action of the Palestinian organizations** ... although we do not share either the methods or the strategy of their leaderships"* ("International Resolution approved by the 20th Congress of the PTS" - 06/22/25).

This is how they try to "clean up" their image after spending all this time **denigrating the heroic Palestinian resistance, condemning their right to self-defense, and beautifying the fascist Zionist settlers who occupy the Palestinian nation, pretending them to be "civilian population.**"

Faced with the martyrdom of the Palestinian masses and the enormous solidarity actions of millions of workers and youth around the world, mainly in the US and the capitals of imperialist Europe, today the PTS from Argentina has been forced to reposition itself and pose as "pro-Palestinian," seeking **to sweep under the rug the openly pro-Zionist policies they have been pursuing since October 7.**

"Loose lips sink ships": the PTS was a fervent defender of the Zionist "victims" against the Palestinian nation's right to defend itself against the occupier

There are dozens of statements and interventions by the PTS that demonstrate what we're saying here. Let's see:

On October 14, 2023, the PTS stated about October 7: *"**This method of attacking the Israeli civilian population is totally reactionary and counterproductive to the Palestinian cause: shooting civilians at a party is not only a crime we denounce, but it does nothing to stop Israeli oppression.**"* (Statement: *"Does Supporting the Palestinian Resistance Mean Supporting Hamas's Strategy and Methods?")*

Myriam Bregman at the 2023 presidential debate in Argentina, when she offered her "condolences" to the Zionist settlers

They accused the Palestinian resistance of using "reactionary" methods and of "harming the Palestinian cause"... They denounced 7/10 as a "crime"... and all because it allegedly attacked "Israeli civilian population"...

For starters, they refused to recognize the Palestinian people's right to exercise their legitimate self-defense in any way, shape or form they'd choose. They opposed to calling for the arming and strengthening of the military organs of the Palestinian resistance against Zionism, and from that trench, in a united front of military action, fighting for the working class to take political and military leadership of the war against the occupation.

But not only that, they also openly treated the fascist counterrevolutionary settlers of the State of Israel, armed to the teeth with billions of US dollars to occupy Palestinian land, confining the Palestinian people to open-air ghettos, as "defenseless civilians." Enough lies! There isn't a single "civilian" Zionist in Israel!

Although they now want to hide it, the first reaction of the PTS in Argentina to the action of 10/7 was to send, —almost broadcasted by national network, its "condolences" to the fascist Zionist settlers: on 10/8, Myriam Bregman, the presidential candidate for the PTS/FIT-U, in the middle of the presidential debate stated that ***they "regretted the Israeli civilian victims"*** ...

A few days later, the PTS leadership cried foul because sections of the bourgeois press, as reported by *La Izquierda Diario*, had *"spread the **fake news that Myriam Bregman had refused to hold a minute of silence for the civilian victims of Israel**, when at no time was this even discussed"...*

The PTS then submitted a document to the National Electoral Chamber *"requesting that the electoral court immediately issue a public clarification to clarify that, within the framework of the organization of the Presidential Debate, a minute of silence in tribute*

to the civilian victims of Israel was never proposed to candidate Myriam Bregman or anyone on her team."

They even went to the bourgeois electoral court to prove that it was a lie that they were contrary to holding a minute of silence in tribute to the fascist Zionist settlers against the legitimate self-defense action of the Palestinian resistance!

And now the PTS claims that the 10/7 protests were a "deeply anti-colonialist action"? However, in that moment they would have even been willing to pay tribute to the settlers against whom the Palestinian masses were defending themselves! The PTS leadership has to explain this.

"Zionist civilian population" and "Israeli working class": the PTS's "workhorses" to justify its recognition of the fascist occupation state

The pro-Zionist policy of the PTS leadership does not end here. In a statement dated 10/17/2023, they wrote: *"We reject their* [Hamas', N. Ed.] *attacks on the civilian population. This is an impossible path* ***to achieve the necessary unity between the Palestinian Arab population and the Israeli Arab population, as well as with the Jewish workers in the State of Israel who wish to confront*** *and break with Zionism and the apartheid it imposes on the Palestinian people."* ("Open Assembly on October 19th for a Committee of Solidarity with the Palestinian People," Spanish State)

In its attempt to further embellish Zionism, the PTS, like Stalinism—the co-founder of the State of Israel—not only proclaims the existence of a Zionist "civilian population," but also of a supposed "Israeli or Jewish working class" that should unite with Palestinian workers… Yet another lie.

The so-called "Israeli working class" they talk so much about is nothing more than a rancid and arrogant Zionist labor aristocracy with wages in the thousands of dollars, organized in a fascist worker-management union, the Histadrut, which has always attacked the Palestinian working class and masses with methods of civil war in order to usurp and occupy the lands of historic Palestine.

How can they expect Palestinian workers to "unite" with the occupiers who stole their homes, their fields, their nation, and confined them to concentration camps? In any case, every Jewish worker who wants to unite with the Palestinian people must break with Zionism and the Histadrut, join the Palestinian unions, and hand over their rifles to the resistance to join the fight for the destruction of the State of Israel.

But the PTS is for the unity of the Palestinian people with the "civilian population" and the "Israeli workers"… That is, with the occupier and its fascist settlers. This is tantamount to recognizing the existence of the State of Israel! Even though they now wear all the colors of the Palestinian flag, the PTS is not in favor of the destruction of that aircraft carrier the US has imposed on Palestinian territory, so that it can serve as their gendarme in the Middle East, and guard with iron and fire the plundering of imperialist companies along the "oil routes."

The PTS's true position is the disastrous "two-state" policy of the counterrevolutionary Oslo Accords, signed under the umbrella of the UN, which means the continuation of the Zionist occupation and the extermination of the Palestinian nation. What a shame.

The supposed Zionist "civilian population" that the PTS wants to sell out: armed fascist settlers in broad daylight in Tel Aviv

The reactionary utopia of the parliamentary left: stopping a fascist war of extermination with "humanitarian aid" and "peaceful actions" to push "for peace."

Today, the PTS, almost two years late, is trying to reposition itself and pose as "the great fighters of the Palestinian resistance," but in any case, they will always be welcome.

The problem is that **for the PTS, the fight against the genocide in Gaza is limited to pacifist and symbolic actions like the "peace caravan,"** when what the Palestinian masses need is to defeat Zionism, and for that, they need weapons and recognition of the resistance as a belligerent army.

One is not able to fight Zionist genocide without confronting the siege of the Iranian Ayatollahs and the Arab bourgeoisie, which have isolated Gaza, made pacts between Iran and the US, withdrawn Yemen from the fight, handed over the struggle in southern Lebanon, and also repressed and attacked Palestinian fighters in the West Bank as the PLO, etc.

There cannot be any fight against the Zionist massacre without calling on the masses of the Middle East to open their fronts and enter the fray against the State of Israel and imperialism, arguing that their most powerful weapon is the expropriation of the imperialist oil companies that plunder the wealth of the oppressed peoples of the region.

The way forward is for the working class of the imperialist countries to paralyze the war machine of imperialism and Zionism and conquest the International General Strike, as the Palestinian unions have been calling for for almost two years (which the PTS has already turned its back on).

What does the PTS propose as a way to truly stop the genocide? It only calls for silence and raises the white flag of "peace," while posting selfies of its leaders returning from Cairo (and forging a political front with the Zionist bourgeois Cristina Kirchner and the PJ)…

It is truly regrettable, even more so when in Argentina the struggle is also to confront Milei, who is complicit in Netanyahu and Trump's Holocaust in Gaza.

The truth is that there will never be "peace" in Gaza or along the entire region without destroying the State of Israel and expelling imperialism... Today's "pro-Palestinian" PTS keeps on setting the pace in the same place: i.e., refusing to fight for the historic claim to a Palestinian nation, free from the Jordan River to the sea, with its capital in Jerusalem. They will have to explain this too.

James Sakala

SYRIA

Statement of the paper "The Truth of the Oppressed" from Syria and throughout the Middle East

June 12, 2025

Out with al-Jolani, a handmaid of Netanyahu and USA!

Zionist troops and all occupying forces, get out of Syria!

Zionism is pitilessly attacking southern Syria, by occupying and bombing. Meanwhile al-Jolani, the expropriator of the revolution, let it be. Only the Syrian revolutionary masses are confronting the occupants. In military combats, in Quneitra province, they are opening the south front. Zionism answers with bombs but the Syrian people do not step back.

Yesterday al-Assad gave Zionism the coordinates of Syrian heavy armament so that they bomb it. Al-Jolani took power with the Serían heavy armament destroyed and allowing Zionist occupation and bombing; he represents the millionaire Sunny bourgeoisie who made its wealth through commerce and mediation between Syria and Turkey. His role is to prevent the Syrian revolutionary masses from reaching Jerusalem

Quneitra against the Zionist occupation of Syria

al-Jolani is getting ready to sign an agreement to acknowledge Israel as a state after agreeing with Israel and the US that they stay occupying and looting Syria. But the Syrian masses are obstructing them, because they stick alongside the Palestinian masses.

al-Jolani has promised a better future for the Syrian masses. But actually he has not given a cent to recover food or build obliterated houses. He has given nothing to the people. How despicable!

The Syrian State budget allocates its resources on one single purpose: financing a government that pays succulent wages to build up a centralized army to dissolve the militias and push masses away from the weapons. Those who dear not accept it will be imprisoned in the very same underground prisons used by the tyrant al-Assad.

al-Jolani government is a big trap for the masses. His speeches aim at deceiving them so they put their neck into the yoke, they are smokescreens. Actually, the people have no food, no job or housing.

Stop it! In every Factory, state institution, in every bank, oil well, etc., we need to set up **union committees of Syrian workers to lead a struggle for food, decent jobs and housing.** The working class needs to measure its strength there. Workers make bloodied Syria work. Hundreds of rural workers harvest the crops that the oligarchy appropriates to fill its

al-Jolani: The New Guardian of the Russian Genocidal Army's Tartus Base

The Russian Ministry of Defense acknowledged that more than 68,000 soldiers from its murderous army were militarily tested in the genocide they carried out in Syria alongside al-Assad.

Russia also used more than 300 types of new weapons and military equipment, including the Su-57 fifth-generation fighter jet, the Pantsir-S2 air defense systems, the Terminator-2 armored vehicle, the Uran-9 armored combat robot, and other devices, with which it buried 600,000 martyrs of the Syrian revolution.

For Putin, the massacres in Syria were a training ground for his genocidal armed forces. Together with al-Assad, Iran, and the US, they stifled a revolution in blood and fire. And now, as a reward, the scoundrel al-Jolani rewards him by maintaining the Tartus military base in Syria and maintaining diplomatic and trade relations with those who committed genocide there. Neither the Russian base in Tartus nor the al-Jolani government in Damascus are keen to confront the Zionist occupying troops who have seized the Golan Heights. Thus, al-Jolani is negotiating to complete the surrender of those lands, which Hafez al-Assad (Bashar's father) had already begun to surrender decades ago.

The Syrian revolution that sought to rise to its feet by defeating the dog al-Assad cannot allow the same dog, but with a different collar that is al-Jolani, to continue.

pockets. Oil workers extract black gold only to be looted by imperialist oil companies. Construction workers could rebuild Syria. That is the truth.

We need to set up the exploited dual power! We, the working class and the poor people need to regroup our forces! For worker, rural worker and militia councils! No one gives away their weapons!

al-Jolani's **mercenaries and army officers must be disobeyed!** He is a handmaid of Erdogan, Trump and murderous Netanyahu!

Millions of Syrian refugee workers are currently working in slave conditions in Lebanon, Turkey, Jordan… They must organize committees to come back home, to recover our houses, to rebuild Syria. We need a worker emergency plan including a plan of public works to rebuild houses, while giving decent jobs for everyone with a salary to afford living costs on the base of expropriating banks and oil wells to get funding.

al-Jolani with Trump

al-Jolani wants to sign an agreement recognizing Zionism. al-Jolani defends Russian military bases in Tartus, from where planes flew with bombs to massacre the Syrian people. al-Jolani leaves the oil wells under control of imperialist oil companies. **al-Jolani must fall!** Only workers will save Syria from the thieves who have drowned the country in blood, and destroyed, occupied and looted It, i.e., Imperialism and the bourgeoisie.

All invading troops: out of Syria! Zionism is occupying the south. Turkey is occupying the north and has its man, al-Jolani, in Damascus. Erdogan has already received PKK support to control the oil and oil pumps from the north under orders of the US imperialism that already has its mercenaries in Syrian land.

Businessmen that yesterday posed as combatant forces today wear suits and ties to ensure the looting on Syria continues and a bunch of bourgeois keep enriching at the expense of the people who have no place to live and no food to eat. **Protectorate regime must fall!**

The workers and the poor people must take power before it is too late. If Zionism smashes Gaza, then they will go for the West Bank and from there they will occupy and destroy the whole Syria. There is no time to lose!

The battle of Quneitra is a front of Gaza and determines the future of Syria. Zionism out of Syria and the whole Middle East!

For the destruction of the Zionist-fascist State of Israel! Syria, Palestine, the entire Maghreb and the Middle East: the same fight against the same enemy!

al-Jolani meets Zionists to agree the recognition of the State of Israel

In recent days, it has come to light that meetings have been held between the al-Jolani government and Zionists, sponsored by Trump, with the aim of reaching an agreement on the recognition of the State of Israel. This is what they call the "Abraham Plan" to establish the "Greater Israel" by expanding its occupation borders, exterminating the Palestinian nation and taking its territory, with the military capacity to bomb and attack anywhere in the Middle East, and with a "shield" provided by the region's bourgeoisies.

Thus, al-Jolani hands over part of the Syrian territory to Zionism, the Syrian oil to the US imperialism and reinforces the siege on Gaza leaving the Palestinian masses to be massacred. Not only he turns a blind eye and does not respond the Zionist bombing and occupation of Syria. Now this agreement is done over the counter and explicit. It is a new pact, like the "Camp David" pact signed by Anwar Al-Sadat, president of Egypt and the Arab League, in 1978, recognizing the State of Israel.

If this pact has not yet been fully imposed it is because of the Syrian masses who continue to confront Zionism and still don't let al-Jolani, that servant of Trump and Netanyahu, to go all the way.

Yesterday, Al-Assad guarded the borders of Zionism, drowning the Syrian revolution in blood so that the Syrian people would not fight alongside the Palestinian people. At the moment of his fall, he passed the coordinates of the arsenals to Zionism so that it could bomb them and prevent the heavy weapons from falling into the hands of the revolutionary masses. Today, it is al-Jolani who, by expropriating the second Syrian revolution, prevents the Syrian masses from confronting Zionism and uniting with their Palestinian brothers and sisters, and seeks to close the pact with Netanyahu. al-Jolani is the new agent of Zionism in Damascus. The same dog as Al-Assad, but with a different collar.

Out with al-Jolani, expropriator of the Syrian revolution and servant of Zionism and imperialism!

UNITED STATES

June 2025

With mass deportations of Hispanic workers, repression, and militarization with murderous Marines...

Trump declared war on the American working class

Let the uprising of the Hispanic workers of Los Angeles spread to the whole inside of the imperialist beast!

Biden began the attack on Hispanic workers, now Trump is going for the "final solution": To crush a key sector of the American working class as he did yesterday with Black people

One single working class!

Let's set up factory and union assemblies! Let's unite all workers and anti-imperialist fighters with their Hispanic brothers from both sides, north and south, of the Rio Bravo!

There are the enormous forces to defeat the imperialist beast and its murderous Trump administration, which is preparing for the US the plan of extermination they are carrying out with Zionism against the Palestinian people. From Gaza to Los Angeles: one single class, one single struggle, one single enemy!

Rally in Los Angeles

June 8, 2025

In the face of Trump's offensive with arrests, crackdown, and expulsion of immigrant workers and exploited people in the United States:

Let´s take to the streets throughout Latin America! We are all migrants!

We must fill the streets of Latin America alongside the Mexican working class and march to the U.S. embassies to stop the massacres of immigrant workers and their families in the U.S. Open thea road to the anti-imperialist struggle in Latin America!

We must expel all the CEOs, banks, the IMF, transnational corporations, and US imperialism's military bases from the continent. We must treat them as the exploited Latinos are treated in the US.

We must expropriate their assets, their banks, and all the properties of US transnational corporations.

A single struggle against the US-slave governments and regimes in Latin America that, in complicity with the union bureaucracies, guarantee the plundering of our natural resources. Gringos (US imperialism, NT) go home! Open the road to the worker-peasant alliamce from Los Angeles to Alaska and Tierra del Fuego! For the workers and exploited of the world to live… Imperialism must die!

"Stop the ethnic cleansing in Los Angeles and Palestine"

Opinion Article

June 10th, 2025

Biden started it, Trumps continues it:

Immigrant workers massive expulsion as a state policy

Since January 2025, Trump has deported between 80,000 and 140,000 workers and students (numbers vary according to official sources) and sent them to detention and torture centers. This fascist policy has turned into one of the main banners and through it, white native workers are told the effects of the economic crisis will be solved, such as salary depreciation and living cost rise.

However, deportation and expulsion have not been a policy exclusively carried out by Trump, on the contrary, **under Biden-Harris administration, US state deported and expelled 4.4 million workers between January 2021 and January 2025**, establishing historic record way above Trump first administration which had already deported 271,000 immigrants.

According to data from 2024 fiscal year (end of 2024 to beginning of 2025) the ten countries with most people deported have been:

- México: it is, with great difference, the country with the largest number of yearly deported workers. In 2024, 87.298 deported were reported.
- Guatemala: a high number, with 66,435 deported in 2024.
- Honduras: also a very high number, 45,923 deported.
- El Salvador: 15,284 deported.
- Colombia: 14,268
- Ecuador: 12,921
- Nicaragua: 3,872
- Venezuela: 3,256
- Brasil: 1,859
- Chile: 342
- Costa Rica: 332
- Bolivia: 302
- Belice: 139
- Panama: 112
- Argentina: 63
- Paraguay: 33
- Uruguay: 25

Demonstration in Los Angeles "Stop the ethnic cleansing in Los Angeles and Palestine"

Although most of them are from Latin America, there are deportations of workers and students from other regions such as India and the Middle East, and it is known that the US deports workers from Africa and Asia.

Most immigrants are located in California, Texas, Florida and New York. This is why Los Angeles (CA) has been the epicenter of the combats against the State repressive forces, which brutally kidnap immigrants from their homes, schools or work places to sow terror in the community that dears to rise to fight for their rights and a decent life.

Combats starting last Thursday 5th have received solidarity from workers, students and social organizations that, since January, have been calling for massive demonstrations for the immigrants' rights and the restitution of the deported. In many cases, families have been separated from the main breadwinner.

However, these were not the only actions taken. Demonstrations against deportations and in defense of immigrant rights were organized in more than 40 cities. These enormous forces secured the release of union leader David Huerta yesterday, after he had been kidnapped by ICE (Immigration and Customs Enforcement).

We cannot allow social-imperialists to take over our fight, as they pretend, calling meetings where they set a totally impotent course of action to divide and demoralize the vanguard confronting US imperialism from its guts (as they have done with the Afro-American movement in 2020-2021 kneeling them to Biden).

To stop Trump's offensive in the continent…

To stop Palestine genocide financed by the US and carried out by Zionism…

We need to coordinate the vanguard with the working class fighting in the US. They are our best allies.

Latin American future is determined today in the US. If imperialism comes for all, let's go for them!

For self organization! For an Anti-imperialist fight continental coordinator!

From Alaska to Tierra del Fuego, one class, one struggle!

To defend ourselves from State and fascist bands attacks, let's set up self-defense committees!

To conquer bread, freedom and a decent life: With the working class methods, let's do away with the CEOs, the IMF and all imperialist worms

Anti-Trump Mobilizations in the US

Over 2,000 protests across the country

Today, the **50501 Movement** (50 protests, 50 states, 1 movement) called for nationwide protests against Trump under the central slogan: "No kings," in response to his police regime. Thus, approximately 2,000 protests were held across the country **against deportations, in solidarity with the people, and in defense of democratic freedoms.**

Masses face crak-down in the streets of Los Angeles

In cities like Charlotte, the Bronx, and New York, **the Black movement flooded the streets side by side with their Latino siblings**, and hundreds of thousands took to the streets in Houston, Miami, New York, Chicago, Washington, and Los Angeles. In the latter, clashes and battles with the police have continued for eight days.

These protests coincide with the 250th anniversary of the creation of the US imperialist army and Trump's birthday, for which a military exhibition and parade were organized in Washington, DC, at the request of genocidal Trump, who commands the extermination of Gaza. At this point, it's also worth mentioning that as part of yesterday's day of struggle across the US, these protests were held in Texas by the anti-war committee composed of war veterans who oppose being used as part of President Trump's "political agenda" to crack down their people.

With executive orders, he continues the work begun by the administration of Democrat Biden and his co-religionist Obama, who snatched away enormous gains from the American working class.

The American working class has just fallen victim to the betrayal imposed by the reformist left, which called for a vote for Sanders and then Biden "against Trump." It was these butchers of the Democratic Party who snatched away its gains and began the genocide in Palestine. Do they want to repeat history today? Let the traitors not steal our struggle again!

Trump now intends to carry that attack up to the end. We cannot allow it! The fate of the working class of the entire continent is at stake there...

Taking to the streets like in Los Angeles is the first step:

We must rebuild the fighting committees, the ones of the assemblies, the factory committees of the militant unions, the rebellious youth, the Black and Latino people!

We must call on the anti-war veterans' movement committee to join every fighting committee to defend the people with their weapons and crush the white supremacists!

Imperialism plunders Africa, leaving a sea of blood and misery

Kenya: the masses once again flood the streets to oust the IMF and its puppet governments

Down with Ruto and his pro-imperialist budget cuts! Disband the regime murderous police!

One year after the mass uprising in Kenya, which took over the parliament to prevent the IMF-ordered tax hikes and price increases from implementation, workers and the poor people once again took to the streets of the capital, Nairobi, and other cities, demanding the fall of the government and its entire imperialist-dictated economic plan.

Kenyan workers and youth revolt against the government and the IMF

Last year, the tax hike was halted, but the Ruto government was not overthrown. He continued to rule the country, imposing imperialist plans of plunder, hunger, and misery, as well as repaying the foreign debt, with growing unemployment among the oppressed masses.

The regime armour-cladded and redoubled its attack. The masses responded by taking to the streets again, led by the youth who see no future under this pro-imperialist government and regime.

In barricade battles, they clashed against the murderous police, who opened fire with live ammo, killing 16 exploited ones and leaving more than 400 injured— 80 of them seriously, along with dozens of kidnapped-disappeared.

Fierce repression in the streets of Kenya

This enormous struggle, which has already left martyrs, has as its slogan: Ruto must go! Thus, to stop the onslaught of imperialism, its governments and the subservient regimes that enforce it must be overthrown.

Disband the murderous police!

For self-defense committees of workers' organizations, and organizers of protests of unemployed workers and youth to confront this struggle!

Out with Ruto and the IMF!

Imperialism out from Kenya and all of Africa!

June 11, 2025

Under the orders of US imperialism, the cowardly MAS government of Arce is deepening the brutal economic blow to the exploited with inflation, layoffs, hunger, and despair among the masses…

We must defeat the attack of imperialism and its colonization plan!

Enough of the Arce starvation government!

Emergency National Congress of rank-and-file delegates from the COR, COD, miners, factory workers, and all workers and poor peasants! General Strike!

For a working-class and revolutionary solution to the crisis! Down with the IMF and the transnational corporations! Down with the gringos!

The working class must break with Arce's MAS, the cowardly Morales, and the fascist Media Luna parties, all lackeys of imperialism and the IMF. We cannot give our lives for any of our executioners!

Forward to the worker-peasant alliance! Out with Huarachi ! For a revolutionary independent leadership of the COB, as in 1952 with its armed militias and rank-and-file soldiers' committees!

Demonstrations against the high cost of living

US imperialism has launched a brutal economic coup against the country, administered and implemented by the Arce government, supported by the Banzerista military officer caste. This government guarantees the repayment of the fraudulent foreign debt to the imperialist banks; it is the transnational mining companies and the agrarian bourgeoisie who are taking abroad the country's dollars. Imperialism wants to sink Bolivia and impose its colonization plan as part of its attack to colonize all of Latin America in order to seize all its raw materials. Imperialism is coming for everything and will do so with iron and fire, using its military bases, because it needs the lithium, land, and other natural resources of Bolivia and the whole Latin America.

And this is the plan of imperialism and the transnational corporations with this economic coup, in the midst of an economic and political crisis that, after 14 years of plundering hydrocarbons, minerals, and other natural resources and emptying of state coffers signing a fraudulent foreign debt to imperialist banks, guaranteed by the MAS, is now using the cowardly Arce government as a "squeezed lemon" to ferociously attack workers, putting the entire burden of the crisis on them, with inflation, indiscriminately skyrocketing food prices, without dollars, without fuel. And so Arce completes his role, while the conditions are created for mass sectors to turn to the right. Desperate for food, they hate the MAS and take to the streets every day demanding Arce's resignation. The parties of the fascist Media Luna oligarchy seek to capitalize on this discontent, creating the conditions for a new direct agent of imperialism who will implement its colonization plan all the way without flirting with the masses.

On the other hand, Evo Morales, that bourgeois who cowardly fled in the fascist coup of 2019, once again now lies in hiding, attempting to channel and contain the just hatred of the masses towards the government and manipulate a sector of the poor peasantry, deepening the rupture of the worker-peasant alliance using the just demands of the struggle against the high cost of living. In this way, he has been blocking roads for days, mainly in Cochabamba, leading to clashes between the exploited, for which the government has responded with repression, prisoners, and the militarization of the blockaded

areas. This is how the military emerge, who will not hesitate to murder as they did in Senkata , Sacaba, and Huayllani .

Faced with this situation, fascist sectors such as the Cochala Youth Resistance (RJC), encouraged by the bosses' parties of the Media Luna oligarchy, have once again announced their reorganization against the blockades of those close to Morales. They are trying to gain a social base among sectors seeking a desperate way out of the crisis that Morales's MAS, now with Arce, and all the bourgeois gangs have led them to in recent years.

The "pro-gringo" bureaucracy entrenched in the COB is the fundamental support of Arce's MAS government, ensuring that the capitalist and US attacks will pass... *We must dynamite the traitorous bureaucracy out! Out with the COB!*

Those who guarantee that imperialism will attack the nation with an economic and plundering coup, that there will be an attack on democratic freedoms and that tomorrow the blood of workers and peasants will be shed as in Senkata and Sacaba, **are the traitorous bureaucrats of the COB, like Huarachi who supports the anti-worker and starvation government of the MAS**. Thus they recently voted the COB Congress to be in 120 days, to continue supporting Arce while he goes on deepening the attack on the masses and they prepare the fraud of the electoral scam. Enough!

The tragedy for the workers' movement is that the bureaucracy has brought the COB to its knees before Morales, then before the fascist Añez and now before Arce, because this has meant the division of the workers' ranks, putting them in the hands of this or that bourgeois faction, liquidating class independence and leading to confrontations among workers. Enough! **We, the workers and poor peasants, should not be mobilized, much less give our lives for any sector of the bourgeoisie. The traitorous bureaucracy that prevents the proletariat from intervening independently must be removed from our organizations!**

The struggle cannot be workers against workers and peasants against peasants. To unify the ranks:

We must break all subordination to the cowardly Morales, who escaped like a rat during the fascist coup of 2019! We must break with starvation Arce and all the bourgeois gangs of the fascist Media Luna who want to lead us into the electoral trap!

A massive imperialist attack is being prepared, with the privatization of all the "nationalized" mines and the worsening of the country's debt, as announced at the meeting between US imperialism at Harvard and the IMF and several Bolivian politicians and businessmen. The catastrophe is already here, and imperialism is coming for everything. The rank-and-file miners cannot wait another minute while the COB remains in the hands of the Huarachi bureaucracy .

Before it's too late:

For a National Congress of rank-and-file delegates with a mandate from the COR, the COD, the Mining Federation, factory workers, teachers, the Fejuves , and together with the poor peasants and all the workers of Bolivia!

Arce meets with ministers, police officials, and the Military High Command after the clashes in Llallagua

Let's move on to a revolutionary general strike!

Out with Huarachi ! For a revolutionary leadership of the COB with its worker and peasant militias and the rank-and-file soldiers' committees! To crush fascism and the officer caste of the Armed Forces,

We must impose a orking-class and peasant revolutionary way out of the crisis launched on us by the capitalists and thevimperialist plunder! Let the cry of 2003-2005 return: *Out with the gringos*!

Nationalization without compensation and under workers' control of hydrocarbons, lithium and all mining! To conquer bread: We must nationalize without compensation and under workers' control the lands of the fascist Media Luna oligarchy! Against speculation **: Price Control Committee!**

For Supply Committees controlled by Neighborhood Councils and Housewives Committees! Enough with middlemen! Against slave-owning bosses: Any factory or mine that closes, furloughs or lays off workers! Let it be placed under workers' control without compensation! Enough with repaying the usurious debt of the world banks! Down with the IMF, the IDB and all imperialist banks!

Enough repression and imprisonment! Disband the repressive forces!

Trial and punishment for all the generals of the Banzerista army, coup plotters, and murderers of Senkata and Sacaba! Rifles, shrapnel, Bolivia will not shut up! Provisional revolutionary government of workers and peasants!

Out with the gringos!

The Arce government, a servant of USA imperialism that is starving Bolivian people, militarizes roads against the blockades of poor peasants who suffer alongside the working class from hunger and the unsustainable high cost of living...

Let's drive both the Police and the Banzerista army off the streets

Enough of repression! Disband the police, the Banzerista officer caste, and all repressive forces of the state! Free all political prisoners !

The starvation government of Arce, supported by a caste of Armed Forces officers, as servants of USA imperialism, delivers an economic blow to the people that creates desperation in working-class and peasant families. Faced with this situation, there have already been 13 days of blockades in different regions of the country by poor peasants, who initially were mobilized used by Evo Morales against his proscription for the electoral fraud in August, however, in the face of brutal repression and hunger, it escaped from his hands, because beyond what the pro-bourgeois media stir up , the driving force behind the mobilization of a large sector of poor peasants is hunger and the unbearable situation to which they have been dragged, as the Qaqachacas peasants of Abaroa (Oruro) affirm: *"Mr. Minister Aguilera, they are accusing us of evismo , here it is not evismo , here it is the millennial people who are coming out due to hunger (...)"* . Thus, Morales, as another bourgeois faction of the MAS, is demagogically attempting to manipulate the justifiable hatred toward Arce's starving government to serve his own interests. On the contrary, we affirm that: **The most basic democratic freedoms, including guaranteeing free and truly democratic elections Will be conquered by using the methods of class struggle and proletarian revolution, not by subjecting them to servile policies serving bourgeois factions!**

As a response, Arce has brought out the police and the army, with the approval of the Media Luna, to unblock the roads, raising fierce clashes, mainly in Potosí (Llallagua) and Cochabamba, which have already left six deceased: a poor farmer, a 5th grade student, as well as four police officers and hundreds of wounded and prisoners in these days of confrontation.

Workers and poor peasants must know that the armed forces (educated at West Point) and the police are there to protect and guard the businesses and property of the capitalists. Today, they, disguised as "friends of the people," patrol the streets of Llallagua, Catavi, and Siglo XX. They will crush the poor peasants and then go after the miners when they deem it necessary, as demonstrated by the history of the class struggle in Bolivia, which bathed the mining camps of the municipality of Llallagua in blood, such as in Catavi (San Juan massacre) and Siglo XX, the massacres in Uncía, and so on . They are the same ones who assassinated Che Guevara and massacred more than 100 exploited during the 2003-2005 revolution. They are the same people who, during Morales' government in those 14 years, have murdered more than 100 workers, including miners, poor peasants, and a university student from UPEA; they repressed the disabled, factory workers, and others. It is the same institution that murdered our brothers from Senkata, Sacaba, and Huayllani in the fascist coup of Añez, Camacho, and Mesa in November 2019. While the cowardly Morales was escaping, it was the workers and poor peasants who stood up to the bullets of the Camacho military and police. Nor do we forget that it was they who, a year ago, filled Murillo Square with tanks during the coup attempt in June. **The police and the army's officer caste are repressors and murderers of the working class and poor peasants!** That is why we, the workers and exploited, must bear in mind that in the face of the bourgeoisie armed to the teeth, we must conquer: **Self-defense committees linked to the common soldiers' committees! Let the children of the workers and poor peasants disobey the orders of the military leadership and take their weapons to the people! Dissolution of the army officer caste, the police, and all repressive forces of the State!**

That Arce is passing on this economic blow from USA imperialism to the poor people, with the support of the Armed Forces, is the responsibility of the "pro-gringo" COB bureaucracy, which acts as a "minister without portfolio," speaking the same language as the starvation MAS government. The tragedy for workers is that today, with the COB at Arce's feet and sectors of the peasantry subservient to Morales, the worker-peasant alliance has been broken, opening the door to the fascism of the landowning oligarchy of the Media Luna region, as already seen in the reorganization of the Cochala Youth Resistance (RCJ). **Enough! Fascism is not to be discussed, it is to be fought! We workers and peasants cannot give our lives for any of our executioners. TO SOLDER THE WORKER-PEASANT ALLIANCE: Down with the traitorous COB bureaucracy, which has knelt before Arce, previously with the cowardly Morales and also with the fascist Añez!** Before it's too late, we must dynamite out the Huarachi bureaucracy. **Let's take back the COB! Huarachi out!**

For workers' and popular courts to punish the murderers of the people! Justice for the wounded and fallen peasants in Llallagua! End the persecution! Freedom for all political prisoners held for fighting!

Justice for those murdered in Senkata and Sacaba in 2019!

Without justice there will be no peace for the government, or for the murderous state.

The Petro government and his scam plebiscite on his “reform” project: a trap against workers and the poor people

Only a workers and peasants’ government, supported on the self-organized and armed masses, can conquer even the demands of food, land and freedom.

This rotting capitalist system is undergoing a world crisis, with masses of exploited being beaten by imperialism and its puppet governments, as Israel is attacking and massacring Palestine people in Gaza. In south America Bolivian workers are pitilessly being attacked. Meanwhile in the USA, especially in Los Angeles, migrants and Latino residents’ protests against massive deportations and racial and labor discrimination are brutally repressed, plunging the city into chaos and disorder where, on a daily bases, people are arrested or fall victims of police or military bullets under Trump’s orders.

Petro and the former commander-in-chief of US imperialism's Southern Command, Laura Richardson, meeting in Bogotá

In Colombia, bourgeois Petro, supported by his capitalist partners, sends Colombian soldiers and his officials to military exercises under US orders. The Lula bourgeois government sends men under USA Southern Command discipline together with Peru and his pro USA partner from Bogota.

Last June 11, summoned by reformist and Stalinist Central Workers Unions (CGT, CUT, UTC) an event in Colombia, to which FECODE teachers also assisted, was convened to support Petro proposals on “reform” and a “popular inquire” to gain space in Congress which has been the place where the opposition has had an effective instrument to block and reject said proposals every time they were introduced.

Petro bourgeois government insistent call for popular inquire is a trap to tie masses of exploited Colombians to their enemies, the bosses. Petro aims to lead workers to class collaboration to keep them under imperialism control.

Stalinism, its parties and groups in Colombia, together with PST-LIT pseudo Trotskyites help betray the masses by tying their luck to Petro’s proposals. In turn, he has shown to be supported by US Chiquita Brands and BlackRock, as he is their servant.

Petro is a bourgeois official posing as leftist and friend of the workers to manipulate them. His government is supported by the unions and reformist worker parties

Contrary to claims of the reformist left, we revolutionary Trotskyites affirm that only workers and peasants in victorious revolutionary action, without bureaucrats and leftist servants of capitalists, will reach the democratic demands held in their struggles as in 2020-2021.

The working class does not hold a plebiscite for its rights, neither together nor in equality of conditions with the bourgeoisie and the bosses.

This is why we claim: NO TO POPULAR ENQUIRE!

While Petro keeps with his demagogy, the bourgeoisie and imperialism are preparing fascism to fill Colombian streets with blood in the countryside and the cities, like yesterday they did with the paramilitaries and the genocide Armed Forces under US military orders, present in the country military bases.

The Petro administration is a US and Chiquita Brands' servant bourgeois government.

The bourgeoisie and the Petro government continue not touching the Oligarchy, or the US military bases, or the murderous police. We denounce this government for it is incapable of guaranteeing the democratic demands the people need. His "reforms" aim at removing the masses off the streets and paralyzing their fights, leading them to struggle within the current Parliament which is the guarantor for the repayment of the fraudulent debt to IMF while Chiquita Brands collects its agricultural rent, supported in the

Revolutionary uprising in Colombia in 2021

US military bases, controlling the Esmad (riot police, N. Ed.) and the murderous military forces.

Combative workers organizations must break every submission and support to the Petro pro US government and all bosses' parties!

We workers must vote our own demands: minimum living wage according to the cost of living, more jobs in factories and companies, reduction of working hours without wage reduction, job stability, hospitals and medical services in cities and rural areas, an end to the business of the EPS (Health Promoting Companies).

Removal of all the judges of the bosses judicial system, freedom for political and union prisoners.

A plan to expropriate bankers, business owners and great landowners, break from imperialism and no repayment of the foreign debt, no to IMF.

"Real democracy" can only exist and be conquered by destroying the bourgeois state and imposing the proletarian dictatorship, that is to say, a government of the majority of the nation, that is, of the workers and the peasants.

We revolutionary socialists combat for the revolution of those at the bottom**, for a Socialist workers and peasants' Colombia fighting for a Federation of Latin American Socialist republics!**

¡Colombia will be socialist or it will continue to be a Wall Street Colony!

CP administers Pinochet´s constitution. They have implemented imperialism plans and handed in the nation to the US imperialism

In these four years of pro imperialism government in the hands of Boric and the CP, the exploited and workers have had to endure a lot: imperialist looting, super exploitation, division in the workers flies facing fair claims, crackdown, life needs shortage, etc.

All this suffering was led by Boric together with the Communist Party, under the leadership of US imperialism.

Stalinism has proven to be a counterrevolutionary agent in the last decades, diverting and betraying the main revolutionary processes such as the revolution of the Industrial Cordons in 1973, the struggle against Pinochet dictatorship which was confronted by the great worker uprising, the revolutionary struggles in 2006 and 2011 for free quality education, the revolutionary combat for dignity in 2019 against Piñera government.

Boric with Camila Vallejo (CP), Secretary General of the Government, and former Minister of the Interior Carolina Tohá

In the last one they distilled, once again, their class collaboration policy. First, they established dialogue with the murderous government through the Social Unity Table which grouped the CUT (Workers central Union, led by CP member Barbara Figueroa), the Teachers Association, the ¨No more AFP¨ movement and over 250 worker and union organizations

In addition to this, they led the exploited masses to the anti-democratic constituent process fixed by murderer Piñera, so the Social Unity Table took the worker movement out of the picture and, slowly they started to empty the streets and shut the way to the general revolutionary strike that would end the regime of the 80s Constitution and the hated government of the murderer Piñera.

Thus, they helped that hated government survive, they let it finish its term and guaranteed the constitutional process that meant the regime born from the dictatorship to live, Piñera stayed until the end of his term, the looting of copper continued, land was not given to the poor Mapuche farmers.

Stalinist gained that way the trust of the US imperialism to administer the bourgeois estate together with Boric, the Frente Amplio and the former Concertación parties (those parties that had compromised after the dictatorship).

The Communist Party has three ministries: the general secretary of government, Work, and Science, Technology, Knowledge and Innovation. In addition to those, they have sub secretaries: Defense, Economy and Justice and Transportation.

This way they have guaranteed the bourgeoisies' interests, which meant looting copper by the imperialism and its partners, Pinochet generals, who have taken a slice of the business.

Boric, together with the CP, administers the regime of the 80s constitution, which means looting our natural resources, submitting the nation to imperialism leaving only sufferings for workers. This regime means:

-**Imperialist looting of copper by the multi-nationals**: 70% of Chilean copper is in the hands of multi nationals and the main mine ¨La Escondida¨ belongs to the Anglo-US company BHP- Billiton, from which 5% of the world copper is extracted. This company alone made a profit of US$ 2.6 billion dollars in 2024! Pinochet generals keep 10% of the profit in spite of the new financial law for the armed forces. They will stop receiving a part of the profit in 2030 but their gains are guaranteed and they will also come from the looting of copper. Only in 2024, CODELCO made US$1.5 billion dollars, that is to say Pinochet generals got US$ 153 million dollars without doing anything!

-A country without national industry: in the country of imperialist looting, all national companies have been going under such as electricity, drinkable water, communications, transport, etc. They were all delivered to imperialist trans-national companies. The only company "saved" was CODELCO that, as we mentioned above, guaranteed Pinochet generals their payments and the dollars needed to pay imported goods.

-Privatized basic rights: in order to access basic services such as health, education, housing, in many cases people have to pay millions to get a proper service. That cuts down workers' poor salaries even more**.**

- **Pinochet labor code**: this is one of the main guarantees for the bosses. This code allows strikes to be ruled with a negotiating period with the bosses and, should they not reach an agreement, workers voting to go on strike have to anticipate the boss days before the strikes. They also have to notify the government Ministry of Labor. This code rules how unions should be formed, which can be made up of 8 workers. This means that there are 11,520 unions in the country which weakens workers' strength even more. This code rules that workers working with different conditions cannot unite in one union which allows "first" and "second" class workers.

Image of the latest military exercise "Estrella Austral 2025" between the US army and the Chilean Pinochet army

- Free Trade Agreements with imperialism and the new military submission to the US: since 2000, the country has been submitted to several FTA made mainly with the US imperialism which meant the US installing their trans-national companies with little to no taxes and their products getting into the country almost for free. These FTA still exist and they are reinforced with the successive military exercises carried out by the Southern command together with Pinochet army, installing new US military bases since they have received state-of-the-art weaponry. This was not done by the right-wing parties; this was the Communist Party and Boric from the bourgeois state.

We need to tell the truth. Stalinism in Chile has administered the regime imposed violently by Pinochet. They even perfected it with "reforms". That is just the model Milei seeks for Argentina!

This is the same Communist Party that, in Colombia, supports Petro government which have surrendered to the 8 US military bases. The same Petro that is about to modernize the whole army investing money for the generals under the orders of the US bases. The same Communist Party that, together with the Bolivarians, let Bolivian workers and country workers to their fate confronting the fascist strike in 2019. The same Communist Party that handed in Cuba to imperialism and let the island full of starving people while the Cuban new bourgeoisie, born from the CP guts, done fabulous business with the US imperialism.

Meanwhile, Trotskyist renegades such as MIT-LIT and MST-UIT called to vote Boric, becoming part of the reformist left that, through the votes, "confronted the right-wing." MIT-LIT was part of and supported the constitutional convention thus making workers believe that anti-democratic convention would conquer our rights with bills. Today, these currents such as MIT-LIT, MST-UIT and PTR-PTS claim that the CP "held dialogues and agreements with the right," when reality shows it was the CP which led the attack against workers for imperialism.

Boric with Yamandú Orsi, president-elect of Uruguay, Petro of Colombia, and Lula of Brazil

We, POI-CI revolutionary Trotskyites in the FLTI, affirm the working class and the Chilean and Latin-American workers have to get rid of and fight against the Stalinist scourge that today administers the business and interests of imperialism and the bourgeoisie.

In the next revolutionary processes, we will be able to settle scores with this bourgeois agent. To do that, we need to set up a revolutionary party to fight under the banners of the 4th international and that will be possible refunding it with its 1938 revolutionary program. Without a victorious revolution against bourgeoisies and imperialism, we cannot conquer any of our fair demands.

Chile will be socialist or a Wall Street colony.

June 23rd. 2025

Latin America: between the US imperialist offensive and the popular front…

CP and Boric pro imperialist government, the ideal government for the US to administer the infamous regime against the exploited masses

Boric and the CP, with this anti-workers and pro-imperialism government administering the regime of the 80s constitution, **are applying true price rises against workers** as in transport or electricity. They have perpetuated the theft of the AFP to the workers' salaries; housing, education and health were kept in private hands. And of course, imperialist looting of copper and 10% CODELCO gains for the Pinochet general. Besides, they promulgated repressive laws such as one with which fighters taking over premises –such as Mapuche poor people taking over their land, students taking over universities or homeless workers- can be prosecuted, laws that allow murderous police use their guns without any consequence, and an anti-terrorist law that broadens the faculties of the intelligence apparatus. Every fight has been cracked down violently, homeless workers have been taken away from their lands and immigrant workers have been deported. This year, more than 400 workers were deported. Boric has nothing to envy his lord Trump.

This is the government that "*was coming to confront Pinochet right*," as the reformist left at an international level claimed. If Boric and Stalinism were able to apply this plan was because the constitution of the dictatorship was in their "left" hand, while on their right hand they had the offensive dictated by US imperialism. **Boric and CP is the best "left" agent for the US imperialism! Chile with its 80s constitution and administered by Stalinism is what the US imperialism wants for the rest of the continent!**

The US offensive in the continent, which began with Biden and now Trump continues, has imposed Latin American governments to deviate the revolutionary processes from 2019 to 2021, as Boric, Petro (Colombia) or Arce (Bolivia), or fierce counter revolutionary offensives as Dina Boluarte dictatorship (Peru). Or Milei government, partner of Zionism, that got to power after years of Kirchnerism attacking the worker movement.

Boric congratulates his imperialist master Trump on his victory in the US elections

The Boric government with the CUT bureaucracy

US imperialism has 2 acting agents: the "left" and "right" governments, both of which answer to its interest. As an example, US military advances in Chile with successive military exercises; in Peru, where they have installed marines; or "modernized" the Colombian army in Petro' s hands submitted to 8 US military bases existing in the country. In addition to this, Arce and Milei governments are attacking the working class economically on behalf of imperialism. Plus, the Cuban CP handing in the country to imperialism.

In the middle of the imposition of governments that said to be friends of the people, which have applied the US imperialism plans, just as much as Milei in Argentina, currents of renegade Trotskyites as LIT applied the class collaboration policy calling to vote for Boric in Chile or Petro in Colombia. They led Colombian and Chilean workers to the feet of the "popular referendum" or "constitutional conventions." Today, in Chile, the MIT wants to pose as critical of Boric government. They say: "The Communist Party has been fundamental for neo-liberal capitalism in Chile, assuming a main role in saving the AFPs and passing bills agreed with the right and the bosses" (May 1st, all solidarity with the Palestine and Ukrainian resistance! Down with Boric-Marce pact and the right!). **They have a lot to explain to the Latin American masses on the way they act**, since they have made the masses pay for Boric and the CP's attack in Chile. For the working class to live, imperialism must die!

Out the US from Latin America! Gringos go home!

ARGENTINA

While Peronism disguises itself as opposition and Milei deepens the war against the working class…

The FIT-U makes public its class collaborationist front with the PJ

After Cristina Kirchner's conviction

June 10, 2025

The debacle of the parliamentary left embracing Peronism…

The other bourgeois party, subservient to the IMF, which supports Milei with the union bureaucracy

Polemics against the FIT-U. By Carlos Munzer

The PTS has again crossed the Rubicon. This time they are publicly revealing the political ties they have had with Kirchnerism for years in Congress.

A workers' unity with the bourgeois Peronist party that has defended the businesses to imperialism since 2001???

The millionaire bourgeois lady receives the FIT parliamentarians at her home...

Calm down…

Cristina will give them perfect instructions after dressing up as a "leftist" at the moment when capital no longer needs her to repress and starve workers and be a serial payer of the fraudulent foreign debt.

She will tell them: "Go see Daer, Moyano, Furlán, Pignanelli and other traitorous bureaucrats, servants and supporters of Milei so they can give you instructions."

Surely these FIT-U leaders, who went to the lap of the pro-imperialist opposition bourgeoisie like cuddly kittens, were kissed goodbye after listening to a directive whispered by Cristina to their ears:

"Guys, now you must go home and from home to work and from work to home."

To defend democratic freedoms in a political front with the Peronist party that fled in 1955 while workers demanded arms and were crushed in the Plaza de Mayo by the Libertadora anti-worker coup? Alongside the Kirchner party that murdered Kosteki, Santillán, Víctor Choque, the four fallen in the Indoamericano Park, Mariano Ferreyra, and withdrew from the "winning decade"

FIT-U leaders in front of the PJ headquarters express their solidarity with Cristina Kirchner

leaving more than 5,000 workers on trial? **A political front with the Kirchner party who were the heads of the prosecutors and judges who sentenced the Las Heras oil workers to life imprisonment in 2013?**

Why are the FIT-U leaders silent about this? Why are they keeping quiet about the fact that Cristina had all the delegates of the Garrahan Internal Commission prosecuted and now wants to present herself as an ally of their heroic struggle?

Why this coverage and oblivion?

To defeat the caste of puppet judges and their bosses of AEA and the IMF with a class-collaborationist front?

They have crossed the Rubicon. This means that it is now clear they have a political front with the Korchnerites and PJ in the Congress.

The FIT-U voted 123 laws to the Fernándezes... And then they complain that they're just losing votes.

Their policy is: "First Cristina as a candidate"… then, "in the future", in the 23rd century, socialism…

It is such a right-wing "left" that it does not even raise a consistently democratic program when this infamous Bonapartist and police regime governs by decree, under a state of siege, eliminating all the gains and freedoms of the working class, including the right to strike and to receive a decent pension.

We already know that they broke away with the struggle for the socialist revolution a while ago. But at least they should present a consequent democratic program, as they used to say from time to time, "to achieve a generous democracy." Come on. Why don't you dare to do so? Do you remember you did? Or are you keeping quiet because you know Cristina will say no to the "democratic front" you are proposing?

Fight consequently for democracy:

For the dissolution of the repressive forces!

For the dissolution of the officer caste of the Armed Forces, which everyone hides and tries to make appear "neutral," when the AEA (Industrial bosses' Association) itself, together with vice ptresident Villarroel, is already training them to massacre the people under orders of USA!

Come on, be consistent democrats... The parliament has "abdicated": with votes from the Peronist party (opposition), the Congress "abdicated" giving Milei absolute monarchical powers.

Don't be afraid, be democrats all the way. Don't be servants of this anti-worker Constitution of 1853... We must overthrow this Constitution and all its oligarchic and Bonapartist institutions of power: its absolutist presidential power, the Congress where they defend everyone's business by scaming the people, and that Videlista justice system.

Go back to your program that you once recited when the proletariat had power in their hands so that they wouldn't take it:

SOVEREIGN CONSTITUENT ASSEMBLY THAT ASSUMES EXECUTIVE, LEGISLATIVE AND JUDICIAL POWER!

A Constituent Assembly taking Argentina as a single district, with one representative for every 50,000 inhabitants, recallable by their voters and earning the salary of a retiree.

A Constituent Assembly that takes two immediate steps: breaking with the IMF and expropriating imperialism, and recovering the land so the people can eat.

For the acquittal of the Las Heras oil workers: mobilization on March 24, 2014.

"That is not possible," these democrats will tell us when we suggest them to be consistent…

These minimal and basic democratic measures

can only be carried out by the working class fighting by using the method of socialist revolution, preparing for a revolutionary general strike, establishing self-defense committees, workers' and people's tribunals, and returning to the path of 2001.

FIT-U is going the wrong way: they put the steering wheel on the right side of the car... but they're in Buenos Aires, not in London.

Cristina as a candidate?

Yes! So that this executioner of the people doesn't become a victim, and so that the masses break with this infamous bourgeoisie, as the only way to crush the government and the police regime of Milei and USA.

Yes! So they don't keep her and bring her in as a "savior" to protect the businesses of the bourgeoisie and imperialism if necessary, as they already did with Lula in Brazil, as she herself says... For if necessary, they'll come looking for her to save the businesses of her current captors. Nothing different from 2001...

They need each other… The ruling elites need all their managers: Milei, Cristina, Macri… One doesn't work without the other.

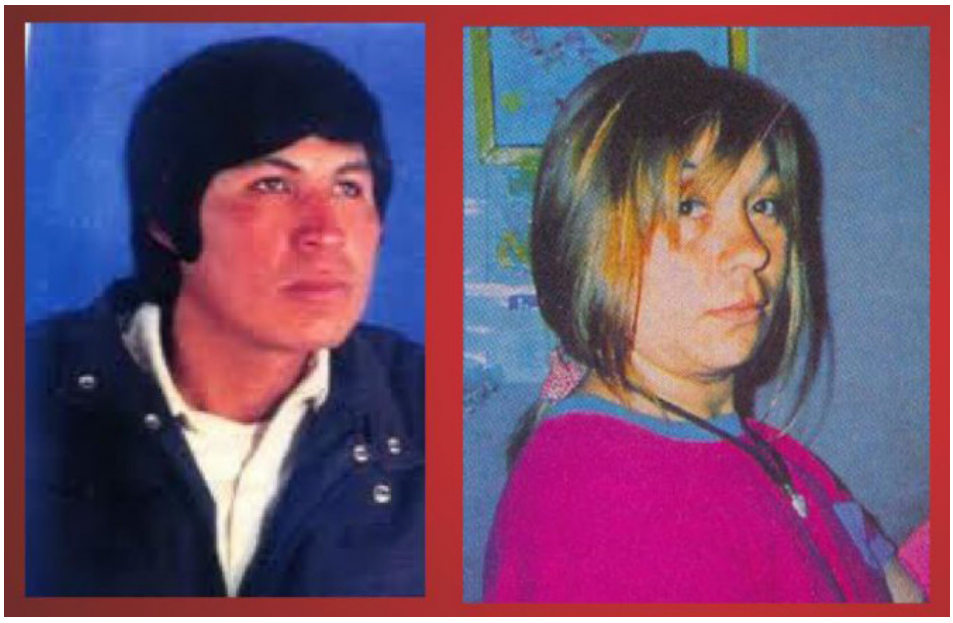

Cristina has already surrendered. She said it publicly... "I prefer to be imprisoned with dignity," she said. Because to defeat those who "have no dignity," like the AEA parasites, would mean calling the working class to a revolutionary struggle that, without a doubt, would attack the businesses and interests of the entire capitalist class, including the native bourgeoisie, minions of imperialism.

Even more, **if Cristina were to fight against her ban, she could quickly call for a boycott to the elections right now, without delay! Why isn't she doing this?**

The three puppets appearing as judges of the court, plus Milei, Macri, etc., would be left hanging from a brush like a painter that was painting the ceiling and suddenly the ladder was removed... For 50% of the disgusted masses already hate these parties of this rotten capitalist system. To do so, the PJ should remove that traitor Daer,

(head of the CGT, N. Ed.) that works as Milei's minister without ministry to disorganize the workers' struggle and surrender all the demands of the labor movement.

Bregman, be bold... Propose to Máximo Kirchner (Cristina's son and headof Buenos Aires PJ) your political friend, a National Committee to boycott the ban...

Víctor Choque and Teresa Rodríguez, murdered by repression under the PJ governments

But the Kirchnerites are more afraid of the struggling masses than of the thousands of puppets with whom they do business every day.

The FIT-U is poisoning the consciousness of the working class... They are making the enemies of the people look like their allies... They are a disgrace.

Is there any miserable person who believes that the plan to colonize the nation can be ended without expelling the traitorous union bureaucracy from the unions, whereas they are Milei's greatest supporters?

Will they tell the laid-off state workers, those fighting at Garrahan Hospital, or in Tierra del Fuego household appliances factories, or the thousands of workers laid off from the auto industry that they can win by making a front with Cristina and her gang of millionaire rats from the traitorous union bureaucracies? Will they tell them that the general strike is what the workers need to launch a revolutionary counteroffensive?

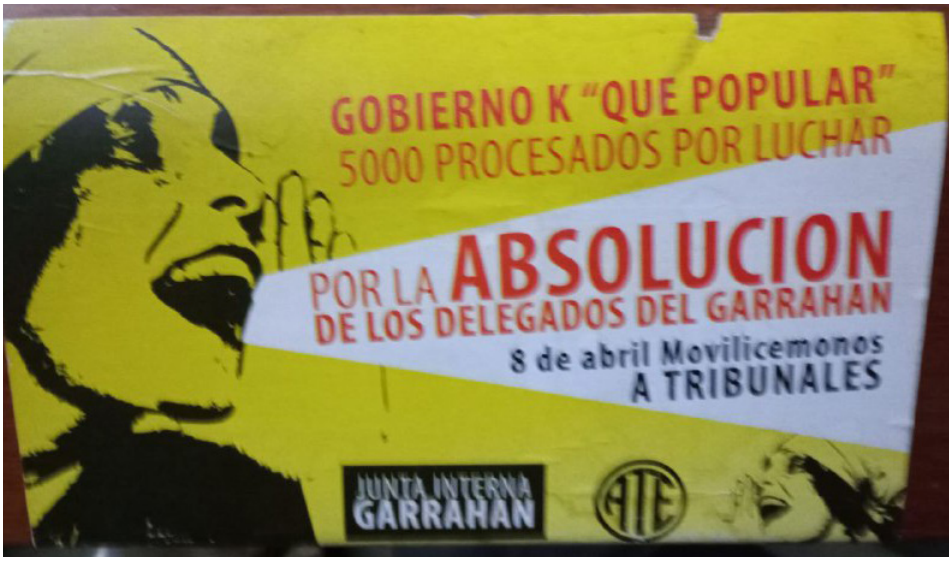

Why do they cover up the ignominy and lies of the Kirchnerites when their government never tired of sending workers in struggle to the bourgeois justice and condemning them?

Perón already did then same in the 1970s against those who wanted to take on the role of the "left" of the movement... and now they want Cristina to make the FIT-U comply.

Perón used the left of the movement, calling it the "marvelous youth," to contain the masses of the Cordobazo, and on the other hand, he sent the Triple A fascists to crush the working-class vanguard.

You, Bregman can no longer be treated as a "wonderful youth"… Your hair's already going gray… You can't pledge ignorance.

Revolutionary Marxism has the obligation to expose a thousand times more the bourgeoisie, which, by dressing up as "rrrrreds", only seeks to deceive the people, when it was Peronism K that best defended and protected the business of the powerful. They saved them from the nascent revolution of 2001.

2013: Poster calling for the acquittal of the Garrahan Hospital shop stewards, prosecuted during Cristina Kirchner's administration.

Many years have passed. The CEOs and managers of the PJ who saved the IMF and the big banks and corporations from the revolutionary masses of 2001 were left with extra commissions from the distribution of the nation's plunder. They believe they've got the change and argue with their managers. Wall Street no longer needs junior partners... The PTS and the FIT are going to console them and tell the masses that they can stop USA... Really? Do the Lulas, the Borics, the Petros, the Arce, the Maduros, the Díaz -Canels stop USA? Or are they the ones who stop and divert the anti-imperialist struggles of the workers and peasants of Latin America?

In Argentina, whether you vote for PRO, UCR, or PJ, Milei is always the winner.

With only a third of the seats, he secured a parliamentary majority to have absolute power. Peronism, by sending him "fractious" senators and MPs, granted the miracle...

The FIT-U has fallen into a precipice… How low you have sunk…

If there is a socialist left there, he/she should turn off the lights, leave it and come to fight with the Trotskyists.

And if there is even one consistent democrat left, he/she will surely be convinced by life itself that without fighting for the socialist revolution every day, all the workers' achievements are lost, even the most minimal democratic demands.

Carlos Munzer

PS: We remind the forgetful "democrats"… Watch the presidential debate from over a year and a half ago and you'll see that everyone, Massa and the PJ, Milei and Bullrich, supported the start of the Zionist genocide in Palestine (if I remember correctly, Bregman offered his "condolences" to the fascist settlers).

Milei is a puppet, a partner and necessary participant in a Holocaust of tens of thousands of murdered Palestinians.

And Cristina?

A political front "in defense of democracy" with the PJ, the party allied to Zionist fascism?

Why are you keeping quiet about it? Why don't you say that Cristina applauded Biden and Netanyahu, the mass murderers of Palestinian women, children, and the exploited?

You have a stain on your forehead. There is no going back from that.

Furlán of the UOM and CGT bureaucrats along with Cordero, Secretary of Labor (former CEO of Techint).

june 19th, 2025

The parliamentarian left marched with the Peronist bourgeoisie and the tarde union bureaucracy in support of Cristina Kirchner

THE FIT-U IN A POLITICAL FRONT WITH THE PJ…
the other agent of the big businesses and imperialism

Cristina Kirchner proposed Peronist unity "to return"… And now?

The Peronist union bureaucracy betrays, sells out, and divides the struggles.

Milei is going to intensify the repressive and anti-worker attack on the people a thousandfold. His offensive now has Cristina and the PJ recharged, ready to save everyone again if this attack fails at the hands of the masses.

The regime as a whole is growing stronger. Milei will intensify his war against the workers and the surrender of the nation a thousandfold.

The parasites of the AEA (Argentine Big Bosses' Association) big bosses applaud. Today they are pushing aside (without a balcony) the bourgeois opposition gangs and preparing them as lifebuoy for tomorrow, as long as they need them if they fail in their attack and plunder of the nation.

Meanwhile, it is already known that all the capitalist gangs in Congress voted for all the laws that named Milei "monarch"...

This is what the perfidious Stalinist policy of class collaboration of reformism is all about.

March of the PJ (Peronism) and the union bureaucracy in support of Cristina Kirchner in Plaza de Mayo on June 18.

For Marxism, Milei (what they call "the right") does not work without Cristina... That is the bourgeois trap.

The FIT-U is a necessary participant in the deceit.

At the bourgeois rally in Plaza de Mayo, they sent everyone from "home to work and from work to home"… "We will return and everything will change" said Cris…

AEA, the IMF and allá the capitalistas gangs are celebrating

The PJ has been destroyed by supporting Milei in Congress and through the CGT. Peronist governors have been strictly implementing Milei's plan from their governorships… The PJ was hated by millions of exploited people that were forced to work as slave labor and unregistered in the Argentine maquiladora industry during the last administration of the two Fernandezes... Who paid, with inflation and the hunger of the masses, every last cent to the IMF.

The people's hatred for everyone was expressed in their rejection of elections and in their hatred of the union bureaucracy in every struggle and every betrayal.

The current imperialist offensive needs a clear path. The Peronist bourgeoisie gave it and Cristina complied with the judge's ruling... She's consistent. She does what her class, the capitalists, needs. And she reserves herself as a spare tire in case the plan fails.

June 17, 2025

On June 18, we won´t march with the PJ party in support of Cristina Kirchner

To defend democratic freedoms, to put an end to the reactionary Constitution of 1853 and all its arch-reactionary institutions, to win fair wages, jobs, and all our demands:

We must fight imperialism, defeat all capitalist gangs, and break with all the bosses' parties!

See on www.democraciaobrera.org

The FIT-U breaks records in its submission to the bourgeoisie

Aníbal Fernández, former Kirchner official, one of the murderers of Darío Santillán and Maximiliano Kosteki.

They went to a bourgeois political rally... "to fight for the general strike."

Really? Why don't they propose an assembly with the UIA (Argentine Manufacturing Association) to vote on it?

They said that with the help of the now bourgeois opposition party of the PJ it could conquest the general strike!... And defeat the IMF! Scoundrels!

To create illusions that the IMF can be defeated by the "serial payers" of Argentina's foreign debt is an outrage by currents that are completely and happily subdued to the regime.

Why don't they call for people to go to Mass on Sunday so the "progressive" priests can call a general strike?

What they did was even more incredible: they went to tell the anti- worker Peronist bosses, who were starving the workers, to fight for democracy by "calling a general strike."

Far from calling on workers to break with the bourgeoisie, they called to support a "progressive" and "democratic" sector of their executioners...

But this Kirchner gang prosecuted 7,000 workers during the so- called "won decade".

With their judges, they sentenced oil workers to life imprisonment; prosecuted the entire Internal Commission of the Garrahan Hospital; with their police they murdered cold blood Kostequi and Santillán, and later the four forgotten workers who were occupying land for housing in the Indoamericano Park, plus Fuentealba, Mariano Ferreyra …

The FIT-U has switched sides.

"But Cristina is banned," they squeal and squeal... So? The bourgeois gangs are fighting each other. They fight over business and how best to crush the working class. That divides them.

We socialists defend the democratic freedoms conquered by the working class, using the method of revolution and not through subservience to the bosses.

Milei's attack can only be stopped by the working class coordinating its struggles, breaking with Peronism, and defeating its rotten union bureaucracy. His offensive can only be stopped by the masses by calling for an active boycott of the elections to pave the way for the destruction of all institutions of the bourgeois state rule.

The FIT was the comparsa used by the bourgeoisie to portray that PJ party of repressive anti-worker and servants of the IMF as "friends of the people."

The "leftist" gave Cristina a red cloak so she could disguise as "montonera Evita"…

Milei's attack will only be stopped by the working class by coordinating its struggles, breaking with Peronism, and defeating its rotten union bureaucracy.

They have switched sides.

These desperate parliamentary cretins are going after the votes of their imprisoned partner. But, really, the FIT will only continue to lose votes... With Cristina and the recharged PJ they will lose votes...

They have given some of their feathers to hatch lions. That's the rotten role of reformism.

They have crossed the Rubicon… They are far from the Cordobazo, from 2001, from the fight for the revolution and very close to its enemies.

The FIT? To the precipice!

And what about the working class? And the Wednesday pensioners? And the collective bargains? And the fight against layoffs?

Peronism, recharged in its new role, will say: "Don't worry, we'll be back."

"This is like yogurt… It has an expiration date," said Cristina, that thousand times miserable boss.

She and her capitalist class can wait... But the retirees, the unemployed, the workers with miserable wages, the laid-off workers? What should they do? Should they wait for the "expiration date"?

The workers have nothing, absolutely nothing, to do waiting for the "yogurt to rot"…

The way forward is to unite the demands and move toward a National Struggle Committee.

Raising our demands.

Preparing the General Strike.

What's going to "rot"? Let those at the top wait!

The FIT put themselves in a bourgeois acting that only served to strengthen those at the top so they could better control and defeat those at the bottom...

There it was the "Lefty Lady"… Which one? Cristina?

Columns of the PTS and the PO at the Plaza de Mayo PJ rally.

Having turned into an appendix of Peronism; PTS bankruptcy

June 27th, 2025

About its 20th Congress…

Mingling with the class enemy

In its Congress, the leadership of this party claimed that *"the fight for Cristina Fernandez Kirchner is a crucial point in the defense of democratic freedom"* to justify an anti-Milei political front with the PJ, the other agent of the great bosses and the US.

One of the resolutions claims *"…taking Cristina Kirchner out of the current and future electoral race with these proscriptive methods… **it is an attempt of groups of the ruling class to reshape the political regime more towards the right** through the displacement of **a figure who, though distorted, expresses a fraction of working class aspirations..."***

This way of stating the issue is deceitful. Let's see why.

On the one hand, **it is not about proscribing Cristina Kirchner to "reshape the regime" more towards the right** but to re-build the PJ behind her figure in order for the regime to gain a proven contention, in case the masses make Milei and Imperialism plan fail on the streets.

While Kirchner offers herself to the great capital and imperialism as their savior, PTS and FIT-U cover her from the left in an open class collaboration policy.

As Trotsky said in March 1936 in "Whither France?", "From the standpoint of the bourgeois regime as a whole, the People's Front represents an episode in the competition between Radicalism and Fascism for the attention and good graces of big capital. ***By their theatrical fraternization with Socialists and Communists, the Radicals want to prove to the master that the situation of the regime is not as bad as the rights assert; (...) that through the medium of the domesticated "revolutionists" it is possible to discipline the working masses,*** and, consequently, to save the parliamentary system from shipwreck."

Supported by Stalinist pseudo-theory of irreconcilable "bourgeoisie camps," PTS lead the working class to renounce to its interests by tail ending the "democratic" side (PJ) against the ultra-reactionary side (Milei). Both are different agents of AEA, IMF and imperialist great bosses!

Since its interest clash frontally, any political front with the bourgeoisie will only liquidate the claiming force of the working class as Trotsky stated in 1937 in "The Lessons of Spain lesson: The Last Warning". "The parallelogram law of forces is also verified in politics. The resultant force, as known, gets smaller the more divergent the forces are. **When political allies pull in opposite directions, the resultant force is zero".**

June 13. Meeting convened by the bosses' party, the PJ, in which PTS leaders participated

On the other hand, when they claim Cristina Kirchner expresses, "in a distorted way", aspirations "of fractions of the working class", they revise lessons of revolutionary Marxism liquidating all independent class policy.

For example, after February 1917 Russian revolution with the imposition of a provisional coalition government of Mensheviks and SR with the bourgeois Kadet party, a class collaboration government… **what would PTS say?** Could they affirm Kadets or government bourgeois ministers expressed in a distorted way, workers aspirations? They can't.

Bolsheviks left no room for confusion. In June 1917, they raised the claim "all power to the soviets", ***"Down with the ten capitalist ministers!". It was the simplest way of expressing the need to break the coalition with the bourgeoisie"*** (History of the Russian revolution, Trotsky, 1929) This way they unmasked Mensheviks and SR who reconciled with Kadets, enemies of workers and the revolution.

They are falsifiers! **The bourgeoisie manipulates disorganizes and smashes workers.**

During the Spanish Revolution, when the Republican side was at war with Franco's fascist side, against Stalinism class collaboration policy, Trotsky defined ***"without the proletarian***

revolution, democracy military victory is only a detour towards the way to fascism". ("Is victory possible?", April 1937)

In conclusion, 4th International combat against any class collaboration (the so called Popular front) suits PTS perfectly.

In the thesis of the permanent revolution, Trotsky says that "in colonial and semi-colonial countries," as Argentina, *"the whole effective resolution of the democratic ends and its emancipation can only be conceived through the proletarian dictatorship, holding the power as the leader of the oppressed nation".* What is more, without the alliance of the proletariat and the peasants (ruined middle classes) the ends of the democratic revolution cannot be realized since ***"the alliance of these two classes is not feasible but fighting irreconcilably against the national liberal bourgeoisie".***

PTS policy is the opposite. It has been a while since they broke away with Trotskyism. Although they dress themselves as "Cordobazo from the 21st Century" and "Socialism from the future," they have embraced Peronism. They rejected the struggle for the socialist revolution in the face of the fierce imperialist offensive in Argentina and in the whole continent.

June 18. PTS column at the mobilization in support of Cristina Kirchner

Nicolás Crámer and Walter Torres

June 27, 2025

The PTS's 'resignation' speech when the masses fight back despite the traitors

At the 20th PTS Congress, Professor Maiello stated: "Part of our task is to fight against resignation, to show that it is possible, and to identify the enemies of the working people…" Like in Bregman's book "Zurda," the PTS leadership put forward a series of discursive slogans "against the resignation, meekness and conformism" that they blame on the masses.

But what are they talking about? The metalworkers of Tierra del Fuego, the teachers of Catamarca, the workers of Garrahan, the Río Santiago Shipyard, among others, are all in a war footing and continue to wage battles.

The problem isn't the "resignation" or "passivity" of the masses, but the opportunism and betrayal imposed on them by the leadership of their political and union organizations, a matter the PTS remains silent about.

Trotsky, confronting the Stalinist rabble, posed in "Whither France?": "'It is astonishing that the proletariat passively endures such privations and violence after a class struggle that has lasted more than a century.' This contemptuous phrase can be heard at any time from the mouth of a socialist or a communist, in private… The responsibility is placed on the shoulders of the working masses."

"The Communist Party dumps its tasks and responsibilities on the masses. It demands that millions of people it has left without revolutionary leadership engage in scattered battles for partial demands and thus demonstrate to skeptical bureaucrats that they are willing to face the struggle… Instead of leading the masses… they test them, give them a failing grade, and thus justify their opportunism and cowardice."

Metalworkers in struggle in Tierra del Fuego. May 2025

The truth must be told. The Argentinean, Latin American, and Palestinian masses who are fighting and resisting, like the migrant and pro-Palestinian working class in the US fighting against Trump, demonstrate that "conformity" and "meekness" are, in any case, the preserve of the former Trotskyists of the PTS.

Nicolás Crámer

MILEI AND THE IMF REDOUBLE THEIR WAR

against the working class and hand the nation over to the US Imperialism

Continued from the back cover

the governors with the employers to pass the labor reform.

On the other hand, Furlán, head of the UOM (metal workers Unión), Schmid of the Argentine Confederation of Transport Workers (CATT), "Cachorro" Godoy of the CTA (teachers, services and State workers confederation), Banegas of the ARS (Rio Santiago shipyard workers union), Aguiar of ATE (State workers), among other union leaders and social organizations such as Grabois's UTEP(Unemployed and self-employed workers)… established the "Struggle Front" under the leadership of the PJ and CFK with the disguise of "opposition" to Milei.

This "new" union grouping of bureaucrats who have been selling out workers, guaranteed thousands of layoffs, starvation wages, and super-exploitative conditions… has now organized to control huge sectors of the workers who are facing the anti-worker war being waged by the government. This "Struggle Front," which brings together more than 70 unions, says: "we must take action." So let them do it! Let them kick out the CGT triumvirate... Set a date for the national strike now!

While the government redoubles its offensive, the FIT-U is putting a cover and embellishing Kirchner's role from the left. After voting for 123 laws for the Fernandezes administration; calling for a march on Congress to "pressure" representatives from the PJ, UCR, and PRO parties to vote against Milei; and forging a political bloc with Kirchnerism to join the investigative commission for Milei's "crypto-scam"... They have taken a leap forward in their policy of class collaboration. They are giving their political support to the leader of Peronism.

Leaders of the FIT-U demonstrated in solidarity at the PJ headquarters, met with Cristina Kirchner, and the PO and PTS attended the march in her support. Even more, the PTS, in its Congress, stated "that it is urgent to call for new mass mobilizations throughout the country" and that the CGT called for "assemblies, an active national strike, and a plan of struggle" to defend CFK. They have left us speechless!

With this, the PTS has liquidated any policy of class independence. They cover up Kirchnerism, which today dresses in "red," by talking about its "decade of victory," when what they actually did was expropriating the Argentine and Latin American revolution with Fidel Castro and the "Bolivarians" at the beginning of the 21st century, letting imperialism to return and control the nation that had been left in crisis by the actions of the masses.

Healthcare workers confront the attack on the Garrahan Hospital

The anti-worker war of Milei and imperialism must be countered by the decisive war of the working class

To confront the government and its police regime, we must break with the PJ and oust the treacherous bureaucracy.

This is the path taken by the metalworkers of Tierra del Fuego, who defended their jobs and confronted the colonizing offensive of the US imperialism by means of pickets, assemblies, and the general strike, as it seeks to impose a Southern Command base in Ushuaia. It is also the path taken by the struggle of the self-organized teachers of Catamarca against the attack by the Jalil (PJ) government.

It is the same struggle of the Río Santiago Shipyard workers who, shouting "*All of them must go, let not a single one remain*," are today fighting for decent wages and jobs, confronting province of Buenos Aires Governor Kicillof (PJ) and his ATE bureaucracy. It is the same struggle of the Garrahan Pediátrico Hospital workers who are striking and confronting inspectors, and of the Buenos Aires Port Terminal 5 port workers who are fighting against Schmid's betrayal and the FEMPINRA (Federation of Port and Navegation Industry workers unions) bureaucracy, who are even selling out their hourly wage guarantees.

This path of class independence began to open up on March 12, when the working-class base, together with retirees, by breaking the control of the union bureaucracy and self-organizing, confronted Milei's police regime and the repression of Home Security minister Bullrich's police and gendarmerie in the streets.

Only the working class, fighting through the picket line and the general strike, can win wages, jobs, and decent pensions, healthcare and education… We must expel the IMF, expropriate the expropriators of the people, and end with this infamous colonial regime.

Enough of fighting divided! We must unite those who are fighting: Garrahan workers, the striking university students, the UBA Medical School Hospital workers, dockworkers, teachers, the unem-

ployed, and the unemployed workers movement demanding justice for (killed cold blood by the JP police in 2002) Maxi Kostequi and Dario Santillan…

A committee of those laid off, elected by factory and establishment, coordinated with the unions in each branch, to fight to return to our jobs. This is the path that the dockworkers laid off at Terminal 5 and the tire workers are beginning to take. There's money! Open the accounting books!

As if it were the battle cry of 2001 Today, faced with the dire situation faced by thousands of workers thrown into the streets like stray dogs and in defense of the former Zanon factory and the Neuquén ceramists who are being attacked: Nationalization without pay and under workers' control for every factory that closes, furloughs, or fires!

Open the road to assemblies and the self-organization of the rank and file! We must sweep away the Peronist bureaucracy that divides and sells us out! National Committee of Struggle now! Single list of demands: minimum living monthly wage of AR$1,900,000, for the sharing of working hours without pay cuts, all under collective bargaining agreement…

We must prepare and organize a revolutionary general strike!

BOYCOTT THE ELECTORAL FRAUD of all the bosses' parties, servants of the AEA and the IMF!

June, 26th 2025

The union bureaucracy divides tasks: while the CGT leadership enters the "May Council"…
70 unions found an "opositor" Struggle Front

So different … but equally traitors

The CGT triumvirate has entered the "May Council" of Milei and the governors', while the CTA, ATE, CATT among other unions and Grabois's UTEP (Unemployed and self-employed employed workers) set up a "Struggle Front". But they're all from the PJ (Peronist) the party that gave Milei the necessary deputies to become king. They (the Peronist union bureaucrats) are millionaires paid by capitalists and their state.

They let the entire attack on the working class go. They divided their forces... and together they isolated retirees, state employees, teachers, and healthcare workers. They surrendered the collective bargaining, their unions are riddled with layoffs, unrigestered and contracted workers... They have all workers below the minimum living wage.

All the union bureaucrats visit the US embassy regularly. They all strictly respect repaying the foreign debt to the IMF, they all supported the anti-worker Fernández government, and they turn a blind eye to political prisoners like Jones Huala and the prosecuted members of the picketeer movement (unemployed associations).

What is different about these two sectors of the bureaucracy?

Some are the ones signing the betrayal of the labor reform, while others, from the "opposition" are doing nothing to defeat it, except holding symbolic acts where those who are absent are the ones fighting... Why didn't the Garrahan Pediatric Hospital workers go to the Buenos Aires Provincial House to force lift the employers' lockout alongside the ARS (Río Santiago Shipyard) workers?

Opposition union bureaucracy's roundtable

And what about Furlán of the UOM, who poses as a militant and has steelworkers negotiating separately for each factory?

So different... but equally traitorous! They divide roles, but they all belong to Techint CEO Paolo Rocca, to Pérez Companc, to Eurnekian ... They're all servants of the capitalists, the IMF, and the US Embassy.

They're so equal one another that the union bureaucracy, which dresses as opposition, doesn't call for the eviction of the CGT traitors. They're their partners... So equal, they take orders at the embassy...

A new trap... The rank and file can't stand them anymore... **The fake opposicionist union bureaucrats unite at the top to make it look like they're fighting, but this only serves to further divide those fighting...**

Out! Let them all go! We don't recognize any hunger- validating collective bargains!

We hold them responsible for the layoffs, for the attacks on retirees, for supporting the university anti-worker gangs so they can make a pact with the Milei government.

It's unbelievable, they pose as combative and isolate the Garrahan workers... Traitors! They're dirty, and there's nothing that can clean them!

Fighting the traitors of the union bureaucracy requires preparing for a general strike…

We must overthrow Milei and his police regime!

We must disband the repressive forces, the Videla justice system, and the caste of genocidal officers of the Armed Forces. Against the Bullrich protocol... Unified self-defense committees of workers' organizations! We must fight as in the Cordobazo and 2001!

We will not defeat the US imperialism colonization offensive and its lackey Milei with Peronism, but with our best allies: the workers and the militant youth fighting today in Los Angeles and throughout the United States, and alongside the tormented Gaza Strip. Let's expel the CEOs and all US capitalists from Argentina and Latin America, as they do with our Hispano siblings, who are beaten, detained, and deported from the United States!

The last word has not been said. For a revolutionary leadership of the working class!

The workers are fighting and seeking a way to defeat the attack from those above. It is their leaderships that, by forming political confrontations with their executioners, betray their struggle and are an obstacle to uniting the workers and exploited in a single struggle, so that they can take the solution to their problems into their own hands.

The working class has entered decisive battles and needs a new revolutionary leadership, a new party that defines who its allies and enemies are, that does not fraternize with the thieving bureaucracy, nor subject the working class to the bosses or the rotten bourgeois regime.

The Trotskyists of the LOI-CI fight to refound the party of Mateo Fossa and Leon Trotsky, under the banners of the Fourth International of 1938, to give the working class the leadership it needs and deserves.

We call on you to organize with us so that we can wage this fight together!

Metalworkers - Villa Constitucion

Politica Obrera must explain…

The servility of Miguez of Acindar's Internal Commission to the UOM bureaucracy is his party's policy?

You should publicly state if the secretary of Acindar's Internal Commission, who is on all your ballots, is a member of your party. **If he is, tell him to implement your policy and not that of the traitor Piparra of the UOM...** Hundreds of outsourced employees were laid off. They led divided struggles sector by sector, refusing to participate in the General Assembly.

The entire internal commission of Acindar and the UOM of Villa Constitucion act "monolithically" defending the profits of capitalists and openly claim to defend "national industries"...

You must explain if this is your party's labor policy. Stop playing hide-and-seek... Everyone knows that Branch 21 of the UOM doesn't even have a collective bargaining with the national bureaucracy, and that Branch 17 was sent to hell on poverty wages.

Everyone knows that 30,000 metalworkers have already been laid off. **Everyone knows that Furlán sold out and surrendered the struggle in Tierra del Fuego. Everyone knows that the former Centenera factory** in Monte Chingolo (Buenos Aires) is closing.and leaving 100 workers on the streets... **that's how traitorous the Kirchnerist union bureaucracy is.**

Politica Obrera harshly criticized the PTS for its servility to the bourgeoisie... Good. And what about the servility to the union bureaucracy of your leader in ACINDAR, with whom he has signed every agreement with his employers, refusing to hold assembly and surrendering the demands from all sectors?

What does Política Obrera say? You can't continue playing hide-and-seek, or take responsibility for your leaders' servility to the most rancid, lying, and politically crooks members of the UOM's traitorous union bureaucracy.

Is Miguez a member of Politica Obrera, yes or no?

Iván León

MILEI AND THE IMF ARE REDOUBLING THEIR WAR

against the working class as they are handing the nation over to the US imperialism

We must break with Peronism and all the bosses' parties
Make way to workers' self-organization! Down with the union bureaucracy!

GENERAL STRIKE UNTIL THE GOVERNMENT FALLS

The PJ, with Cristina Kirchner abiding by the court's ruling and promoting a bosses rally with the union bureaucracy on June 18 in her support, presents itself as the "opposition" and regroups her men to "return."

Peronism, hated by the masses, had its ranks divided by its support for Milei. In Congress, they lent him deputies who, along with the UCR and PRO, voted him superpowers to make him a king; in the provinces they govern, they are applying the same plan as the national government and the IMF; and from the unions they lead, they are selling out thousands of workers by agreeing to layoffs and giving out all our achievements.

But now the big bosses of AEA and imperialism have a proven replacement to jointly safeguard the interests of the capitalists if Milei fails in his decisive war against the workers, in case the workers take to the streets in a revolutionary manner as in 2001.

The infamous regime has already redoubled its war plan. The IMF arrived on June 24 to monitor the colonial pact signed this year for $20 billion and ordered Milei to prepare a new blow against the workers, including a new short-term currency devaluation. That's why it is moving forward with budget cuts, primarily in health and education, withdrawing economic aid to a devastated by the storm Bahía Blanca, attacking the right to strike, empowering the federal police to persecute and imprison workers, decreeing a $313,000 minimum monthly wage (U$D252.58), allowing only 1% salary increases in collective agreements, and paying starvation pensions, while advancing a anti-workers labor reform and the liquidation of state-owned companies.

Milei and his minister Caputo with the head of the IMF

It has already given out Vaca Muerta shale gas field to the US imperialism and the Italian National Institute of Natural Resources (ENI), while moving forward with giving out lithium, minerals, and agribusiness.

Milei, a Zionist partner in the genocide in Gaza and the military attack on Iran, leads a police regime that relies on 600,000 uniformed personnel (police, gendarmes, etc.) and the officer caste of the Armed Forces to ramp up its war plan. Kirchner and the union bureaucracy will guarantee a replacement if a mass uprising topples Milei. One doesn't work without the other. Meanwhile, Vice President Villarruel seeks to enhance the fallen reputation of the genocidal officer caste, empowering and leveraging it to crush the working class if necessary.

A fierce offensive against the masses, supported by the Peronist union bureaucracy

On the one hand, the CGT Triumvirate joined Milei's "May Council" and
