## Zionism deepens its genocide in Gaza and all of Palestine

It's been 3 months since a brutal massacre and Zionist extermination offensive started on the Palestinian people, commanded by Biden and US imperialism. It's been up to now 29,438 dead and missing under the rubble, mostly women and children. Gaza is devastated. Hospitals, mosques, schools, houses, ambulances have been targets of bombings and raids by the Zionist army. A new Nakba, a new ethnic cleansing that seeks to erase Palestine from the map. **Biden and Netanyahu are war criminals! We must stop the Palestinian holocaust!**

A defeat of the Palestinian masses would mean a defeat and a new dark night for the working class throughout the Middle East and worldwide. On the other hand, a triumph of the Palestinian resistance would mean the destruction of the Zionist-fascist State of Israel and a strategic defeat for imperialism. **A large part of the future of the world working class is at stake in Palestine!**

Internationally, millions have taken to the streets in support of the Palestinian masses and to stop the genocide. Ships, ports, airports and factories arming Israel have been stopped. But to stop the massacre and win the war against Zionism, it is necessary to climb another step and attack the heart of imperialism that finances and supplies it.

*Palestinians taken hostage by Israel's fascist Zionist army*

***Let the Palestinian resistance be recognized as a belligerent army and weapons sent to it!***

In this ongoing war in Palestine, it is essential to supply the resistance with weapons and isolate the Zionist occupier. For this reason, we must fight to impose the **expulsion of all Zionist ambassadors** and to **recognize Hamas and the Palestinian resistance organizations as a belligerent army to send them weapons**, as established by the UN Geneva Conventions. We are facing a war of national liberation of the Palestinian nation, fighting against the Zionist-fascist occupier.

***For an international general strike to stop the genocide in Palestine!***

The unions and labor organizations of the world have in their hands the possibility of defeating US imperialism (which is concentrating its attack together with its executioner, Zionism, in Palestine and the entire Middle East) hitting where it hurts: in their profits, in their pockets. **For an international general strike for the success of the Palestinian resistance! Stop the ports, airports, oil wells of the oil companies that plunder the Middle East, and all the production and trading of the imperialist companies and their banks that finance and support Zionism!** We must take Wall Street, the site of the parasites that plunder the whole world! Let the Million March Against War get back on its feet! Black lives matter, and Palestinian lives matter too! We must break with the Histadrut, the workers-management center of the Zionist settlers, the bastion of the occupation!

For this reason, from the International Workers Organizer we endorse and promote the **program of the Palestinian unions and the call of the Italian union S.I. Cobas for an international general strike**, which are a starting point for this strike that the workers and people of martyred Gaza need.

*December 2023, march in Yemen in support of Palestine*

The Palestinian masses have imposed the general strike on December 11 and January 3 where they paralyzed the West Bank, Jordan and Lebanon, unifying the entire Palestinian people. This unity is key so that Gaza is not isolated and to set up a single Revolutionary Fighting Command of the entire Palestinian people to crush Zionism, and for this we must put an end to the collaborationist bourgeoisie of the PLO that surrounds and isolates Gaza. In this sense, we vindicate the joint declaration of the Palestinian resistance organizations of Beirut of December 28, which goes in this direction and calls for the destruction of Israel and for free and democratic elections throughout the Palestinian nation.

**The struggle of the Palestinian people is the same as of all the exploited in the Middle East, to free ourselves from**

the yoke and plunder of imperialism and its lackey regimes. The Arab bourgeoisies have put a siege to the Palestinian masses and guard the borders of Zionism. This is what the king of Jordan does, and also Al Sisi in Egypt and al-Assad with the Golan Heights in Syria, who together with Putin

are meanwhile directing their bombs not against Zionism, but against the exploited of Idlib who continue to take to the streets for Palestine. More than 12 years of massacre by al-Assad and Putin in Syria with 600,000 murdered, devastated cities and

## Huge General Strike for Gaza in Lebanon, Jordan and the West Bank

The cities of Jenin (West Bank) and Amman (Jordan), completely paralyzed

Strike call flyer

On December 11, a general strike against the genocide carried out by Zionism in Gaza was declared; the strike was effective in Jordan, where many cities, including its capital Amman, were completely paralyzed, in Lebanon and also in the West Bank, in cities such as Jenin, Nablus and Ramallah.

The entire Palestinian people were unified in the same centralized action to confront the Zionist occupier.

**THAT IS THE WAY!**

**All unions and labor organizations of the world must call for a general strike for the Palestinian people!**

**Let's stop the massacre! Let's paralyze the war machine of the US and Zionism!**

Let's multiply this campaign by striking to stop Zionism's war of genocidal extermination and the ethnic cleansing of Palestine!

The Italian union S.I. Cobas has issued a call for an international general strike. From the Editorial Committee of the newspaper *The Truth of the Oppressed* we make this call our own and call for it to be taken into their hands by all the unions, first of all, those of USA, France, England and all the rest of the imperialist powers, so that they paralyze the imperialist beast that arms, finances and commands Zionism.

millions and millions of refugees and displaced people, and the result: Zionism is strengthening and massacring the Palestinian masses.

**We must follow the example of Yemen**, which attacks imperialist property by kidnapping and sinking its ships that trade through the Red Sea (a key global trade route) and sending weapons and brigades to fight alongside Palestine. We must fight like it was done yesterday in Syria, Tunisia, Egypt, Iraq, etc. and let a new 2011 return, this time a victorious one!

**For an international committee of worker and anti-imperialist organizations for the triumph of the Palestinian resistance!**

To fight for this perspective, we must set up an **International Strike Committee of support for Palestine, from the unions and worker organizations**, to carry out a fundraising campaign of **one day's work pay per worker**, and from there to take a **convoy with these funds and medications, supplies, weapons and volunteers to break the siege to Gaza and fight alongside the resistance** for the defeat of the Zionist-fascist state of Israel and the

Massacre in Gaza by Zionism

end of the occupation throughout the Palestinian territory.

Demonstrations for Palestine are taking place in different countries around the world these days. An international day is being prepared for January 13. Unions such as the struggling automakers of the UAW of USA (which also call to break with the Histadrut), the CGT of Catalonia, the NUM (miners' union) of South Africa and Belgian unions have already spoken out for the Palestinian people, and even called to the international general strike like S.I. Cobas.

There is nothing that prevents us from setting up an **international plenary ses-**

**sion of support for the Palestinian nation to stop the genocide of Zionism**, and from calling the big trade unions led by the left that claim to support Palestine such as Conlutas (from Brazil) and Solidaires (of France) to join the fight. A call from NUMSA (metalworking union) of South Africa for these purposes would be enough for international coordination for Palestine to become a reality. Either we, the international working class, take a step forward, or a new genocide will be imposed, as in Syria yesterday, and a defeat will weigh on the shoulders of the workers of the world.

**For the destruction of the Zionist-fascist State of Israel!**

**For a free Palestine from the river to the sea, with its capital in Jerusalem!**

**Weapons for Palestine! For the triumph of the Palestinian resistance!**

**For an International Committee of Worker Organizations to carry out an international general strike and a fundraising campaign to send aid, medicine, supplies and volunteers to go fight alongside the Palestinian masses!**

## For an international general strike in support of the Palestinian people!

Dear comrades of the International Labour Network of Solidarity and Struggle,

Following the online meeting on Sunday 10 December, I want to inform you about the initiatives taken by SI Cobas in support of the Palestinian people's struggle, and clarify our proposal for an international strike.

In response to the "Urgent Call" of thirty Palestinian trade unions on October 16 to boycott weapon deliveries to Israel, and pressure governments against supporting Israel's murderous offensive on Gaza, SI Cobas has:

- activated its warehouse committees to be vigilant against any suspected shipping of weapons (some international shipping companies are notorious for their handling of military materiel),
- participated in protests called by Palestinian organisations in several cities of Italy, stressing our opposition to the Italian government's political, military and economic support to Israel,
- taken part to the blockade of two terminals at the port of Genoa on November 10, when a ship of the Israeli Zim company was docking at the port, and
- called a strike on November 17 in support of the Palestinian liberation struggle and stop the Israeli bombing and land aggression on Gaza. The date coincided with the call for students' mobilisation by the Young Palestinians in Italy.

The strike was called for 4 hours, extendable to 8 hours, and was followed in hundreds of warehouses; in many cases workers decided to strike during their whole shift. Assemblies to prepare the strike and pickets gave the opportunity to discuss with workers the issue of Palestine and internationalism, contrasting the influence of mainstream media. During the strike, SI Cobas

*S.I. Cobas Assembly approving the declaration*

*March in Italy on December 30, 2023*

in Modena organised a picket at the Tekapp company, which produces security devices in collaboration with Israeli companies; SI Cobas port workers, supported by striking workers also blocked the access to the Port of Salerno (south of Naples), where a Zim ship was docked on the same day.

**On November 18 a national demonstration was held in Bologna**, called by SI Cobas, the Young Palestinians and other Italian and Palestinian associations. Several thousand people attended, in a lively demonstration and final rally that crowded the Piazza Maggiore.

As the offensive on Gaza and the West Bank continues unrelentingly with the death toll increasing by the day, while the humanitarian situation is worsening with the threat of starvation and epidemics on 2.3 million people, we think that militant trade unions should call an international day of strike and mobilisation in support of the Palestinian people and its struggle for liberation, and protest against governments supporting Israel, besides boycotting Zionist interests.

We should also try our best in our respective countries to involve other unions outside our Network.

Our proposal is to call ASAP an online meeting, where to discuss the issue and if agreed decide a date and draft a call for an international strike and mobilisation.

In solidarity,

The International Solidarity  
Committee of S.I. Cobas - Italy

## Let's defeat the murderer Biden, head of the UN, who bombs Yemen and commands the Zionist genocide in Palestine!

For the third consecutive night, a coalition of USA, England, Australia and Canada mercilessly bombed Yemen. We are facing an extension of the genocide that Zionism has been carrying out on the Palestinian people for more than three months with more than 23 thousand dead (mostly women and children), 7 thousand missing under the rubble, 350 thousand buildings destroyed, devastated infrastructure and thousands and thousands of new prisoners stripped of their clothes and tortured.

From the beginning the US put two fleets at the disposal of Zionism and has been providing it with weapons and supplies for such a massacre. Now, from those fleets, death flights are taking off to **bombard those in Yemen who stood up to fight alongside their Palestinian brothers and sisters.** They are trying to stop the Yemeni masses that since November have prevented all circulation of imperialist trade in the Red Sea (an important trade route), causing multi-million dollar losses and thus firing a powerful missile against imperialism and Zionism, so fighting to win the war for Palestine. Yemen is a front in the fight to end the Palestinian holocaust carried on by the Zionist occupation.

*Protesters in Yemen burn US and Israeli flags to protest attacks on Houthi rebels*

**The US is the chief of the war of extermination that Zionism is carrying out. The bombings in Yemen show that Biden is the fascist one, who has his hands stained with the blood of tens of thousands of Palestinians and Yemenis.**

South Africa's ANC government has brought a case to the UN International Court of Justice to try Israel for genocidal war criminals. It is a good complaint, but are they taking it to **the UN, whose leaders are the imperialists who today bomb Yemen and support Zionism?** Do

you think that by presenting him with a complaint, the leader of all the fascists on the planet who is carrying out a massacre in Palestine and the Middle East is going to stop?

**Fascism is not to be debated, it is to be destroyed!** Hitler was not stopped with a court order. Those who claim to be for the triumph of the Palestinian people, such as the ANC of South Africa, Hezbollah, the bourgeoisie of Iran, cannot be at the feet of the UN, but rather they must **recognize Hamas and the Palestinian resistance organizations as belligerent armies and send them weapons.** It is a just war of national liberation of an occupied nation against a fascist occupier, and to win the war you need weapons, ammunition, supplies... The same with Yemen, that is part of the same front in the war against Zionism.

Imperialism has declared a total war. One of the top leaders of Hamas, Salah Arouri, was murdered in Beirut, an act that we condemn and call for revenge. How come Hezbollah has not yet opened the Lebanese front with all its arsenal? How can Iran still remain on the sidelines, when the US are already directly bombing Yemen? How can the PLO be arguing with Blinken when the latter is bombing Yemen? Either they declare war and enter

*Region map*

the fight against imperialism and Zionism, or they will prove to have betrayed and handed over the Palestinian and Yemeni masses! **Let's do like Yemen and open the fronts!**

We must strengthen the marches in the world for Palestine, **stepping up a new level!** Labor organizations, unions internationally, solidarity struggle organizations with Palestine, the Middle East, etc. They should not sit idly by. As in Yemen, we must attack imperialism where it hurts, in its profits! **Let's expropriate**

**the imperialist oil companies that plunder the Middle East and every company that does business with Zionism!**

**International general strike to stop both the Anglo-American bombing of Yemen, and the Zionist massacre of Palestine, as the Italian union S.I. Cobas is calling for!**

**The imperialist war machine must be paralyzed!**

Let us set up an **international committee of labor and struggle organizations** to carry out, coordinate and esca-

late actions for Palestine, and to gather weapons, medicine, supplies, to break the siege of Gaza and fight alongside the resistance!

**For the triumph of the Palestinian resistance! For the destruction of the Zionist-fascist State of Israel! Let's stop the Anglo-American bombings on Yemen! The US deserves another Vietnam!**

## One year after the massacre of the workers and poor peasants of Juliaca - Puno perpetrated by the Boluarte government and its murderous police, under US orders

There will be no forgetting, no forgiving, no reconciliation!  
**Trial and punishment to all the murderers of our martyrs!**

**Out with Boluarte, the coup Congress and the entire Fujimorista regime, servants of the US imperialists!  
Out with imperialism, its bases and military troops from Peru and all of Latin America!**

On January 9 of last year, rebellious Peru was once again drenched in worker and peasant blood, when 18 comrades were crudely murdered in cold blood at the hands of the coup government of Boluarte and its police henchmen, commanded by the US imperialist military bases: Brayan Apaza Jumpiri (15 years old), Elmer Zolano Leonardo Huanca (16), Jhamileth Nataly Aroquipa (17), Heliot Christian Arizaca (18), Reynaldo Illaquita Cruz (19), Paul Franklin Mamani Apaza (20), Ghiovanny Gustavo Illanes Ramos (21), Christian Mamani Hanco (22), Edgar Jorge Huaranca Choquehuanca (22), Nelson Huber Pilco (22), Roger Rolando Cayo Sacaca (25), Marco Antonio Samillán Sanga (31), Gabriel Omar López Amanqui (35), Heder Jesús Mamani Luque (37) and Héctor Quilla Mamani (38).

In addition, dozens and dozens of exploited were injured and to this day many of them must live with pellets and bullets lodged in their bodies.

**This bloody massacre was the response of imperialism and the bourgeoisie to the revolutionary insurgency carried out by the working and peasant masses of Peru** who were the only ones who won the streets to defeat the ferocious coup perpetrated by the Fujimorist regime and the genocidal generals of the Armed Forces, while Castillo's bourgeoisie cowardly surrendered and gave up themselves (after administering the Fujimorist regime of the US bases applying the worst anti-worker plans).

That January 9, residents of all the cities and districts of the department of Puno, marched in Juliaca. US bases and the caste of Armed Forces officers gave the order to massacre: just as the military had done in Ayacucho on December 15, the police fired wildly with war weapons against the demonstration in Juliaca.

**The government of the murderous Boluarte and her coup henchmen wanted to punish with iron and fire the heroic mass uprising that faced the plans of imperialism.** It was the US imperialist pirates, through the head of the Pentagon's South-Com, Laura Richardson, who commanded the bloody coup to directly take over the lithium riches and renew the mining law contracts to redouble the plundering of Peru over the basis of hunger, slavery and the blood of the working class and the poor.

*Massacre in Juliaca*

**The Biden government of the US imperialist butchers is the one that directed the massacre of 80 brothers throughout Peru, just as they do today in Palestine,** with the state of Israel perpetrating a true genocide against the Palestinian masses, reducing Gaza to rubble, with more than 25,000 murdered and more than 15,000 imprisoned in the jails of the Zionist occupier.

**Today, one year later, our fallen in Juliaca, Ayacucho and all of Peru continue to cry out for justice**

The companions of the "Asociación de mártires y víctimas del 9 de enero de Juliaca (*Association of Martyrs and Victims of January 9 of Juliaca*)", made up of the relatives of those murdered and the companions injured during the massacre, continue to fight tirelessly to achieve justice and to imprison all the murderers, starting with Dina Boluarte.

To this day, none of those responsible for the massacre are in prison. **The prosecutors and judges of this Fujimorista justice system,** which are at the service of the powerful who commanded the coup, have taken care that this is so. They **guarantee the impunity of all the murderers of our martyrs,** even freeing the dictator and genocidal Fujimori, who today is free while Vladimir Molina, the comrades of the Ayacucho Defense Front and the young

people of Cusco rot in prisons for fighting against this infamous dictatorship and dozens of fighters are prosecuted.

**Through the judges and prosecutors of the dictatorship, true justice will never be achieved for our brothers.** That corrupt Judiciary supported from day one the US-promoted coup and gave its full support to Boluarte while she massacred the people.

**For this reason, the exemplary fight that the victims of the massacre have been carrying out must be surrounded by effective solidarity from every worker, peasant and student organizations, so that the working class and the poor take the fight for the trial and punishment for all the murderers and the freedom of all the imprisoned fighters into their hands.**

The only thing that prevents this path is the role of the CGTP union bureaucracy, in the hands of the CP and Patria Roja (*Red Fatherland*), which divided the enormous revolutionary mass attack and prevented the revolutionary general strike with the objective of saving Boluarte and the murderous regime of the people, surrenders of Peru's wealth and starves the workers, with the collaboration of representatives of Castillo's cowardly bourgeoisie and parties like Verónica Mendoza's Nuevo Perú, which signed statements in support of Boluarte and is plagued by pro-coup congressmen.

The traitorous union leaders have surrendered the blood shed by our martyrs, dedicating themselves to negotiate with the murderous Dina and supporting this bloody dictatorship. So much so, that two weeks ago, the CGTP bureaucracy called for a mobilization in Lima "against insecurity" and for a "Peru without violence", together with CONFIEP and other business chambers that exploit the working class... They marched "against violence" alongside the bosses who carried out a bloody coup and murdered our companions in cold blood! Traitors! Out with the union bureaucracy!

### **The bloodshed will never be forgotten!**

**As the families of our fallen siblings affirm:  
"No justice, no peace!"**

Let's set up a National Struggle Committee of workers, combative students, poor and exploited peasants in the fight for the trial and punishment to the executioners of the companions of Juliaca and all of Peru and all our demands, to resume the fight to overthrow Dina and all the coup plotters!

The comrades of the "Asociación de Mártires y Víctimas del 9 de enero" (Association of Martyrs and Victims of January 9) of Juliaca and the relatives of all those murdered, have all the authority to call for the creation of this National Struggle Committee so that we can fight as a single fist until we end this dictatorship, reopening the path of the revolutionary general strike.

Out with Dina the murderer and the fujimorist regime of the genocidal generals of the Armed Forces and the US imperialism!

Out with the US bases and marines from Peru and all of Latin America!

Justice will come from the hand of the same fight alongside our class brothers.

There will be no forgetting, no forgiveness, no reconciliation with the murderers of the workers and peasants of Juliaca!

*General Richardson and Jorge Chávez, defense minister of Boluarte, in Lima*

**For workers and popular courts, headed by the relatives and wounded, to judge and punish all those materially and intellectually responsible for the massacre and all the repressors of the people! Jail the dictator and genocidal Fujimori!**

Freedom to all prisoners for fighting! Deprocessing of all pursued fighters!

Dissolution of the army lackey officer caste! Dissolution of the repressive forces!

The people have the right to defend themselves so that worker and peasant Peru will never be bloodied again: For self-defense committees!

### **The martyrs of Juliaca are martyrs of the entire world working class!**

The Boluarte dictatorship murdered on behalf and under the orders of US imperialism, which today has concentrated all its forces in the Middle East, massacring in Gaza.

Facing this genocide, Palestinian unions have made an international call to paralyze the US and Zionist war machine. At the beginning of December, a huge general strike was carried out by the Palestinian masses in Gaza, the West Bank, Jordan and Lebanon against the state of Israel, while the S.I. Cobas union of Italy calls for a global general strike in support of the martyred Palestinian people, which is beginning to be taken into their hands by different organizations from various countries. That's the way! There are the forces to confront the leaders of murderous Dina as a single fist, obtain justice and free all the imprisoned fighters in Peru and all of Latin America!

Let's deepen the international struggle across borders!

**From Juliaca to Gaza, from Peru to the entire occupied Palestine: the same class, the same fight against the same murderers!**

**Correspondent from Juliaca one year after the massacre of the workers and peasants...**

*Continued from backpage*

Together with the relatives of the Association, who carried the pictures of the fallen, there were very emotional cries for "justice", against the Boluarte dictatorial government and also against the public prosecutor's office, which so far is only delaying the investigative cases of the murders in order to guarantee the impunity of all the coup perpetrators. **The relatives and the wounded, together with the people of Puno, forcefully demonstrated that they are not willing to reconcile, nor to negotiate or forgive the executioners of their martyrs,** as many institutions and leaderships want to impose on them in order to make them give up their struggle for justice.

This was also expressed by comrade Raúl Samillán, president of the Juliaca Association, who spoke after a ceremony: *"Dina Boluarte: this is the people who are*

*Massive mobilization in Juliaca one year after the massacre*

*... crying out for justice, this is the people who will one day see you behind bars because you will not be able to silence so many voices, so many lives (...) We continue in this search for justice. Here are the people behind us, the people are with us... It is a message to the murderous state that the blood of the people has to be respected (...) The time will come when all the peoples of Peru will rise up against this small group that has power, something that will not last long. Because at some point, all united in one fist, we are going to demand justice and we are going to do it. We are going to continue this struggle and we are going to get our goal."*

**In this same Óvalo, where the masses had painted "Murderous Dina, Juliaca repudiates you" on the day of the massa-**

**cre, the relatives and exploited of Puno, a year later, once again vowed to continue fighting against the coup government.**

Afterwards, the mobilization began, which was really massive: thousands and thousands of workers and villagers, together with members of associations, unions, peasant organizations, etc., marched for more than two hours to the Plaza de Armas (Main Square) of Juliaca, accompanied also by hundreds of motorbike-taxi drivers.

The march was led by the relatives of the murdered and also the survivors of the massacre, who were brutally wounded and still remain with bullets lodged in their bodies, and notwithstanding This they made the effort to participate in this day of struggle and protest.

The mothers and fathers who lost their children told us in tears of their pain for *"being a year without justice"*. But they also told us that *"without justice for all those who have been murdered, there will be no peace"*, that they will continue to fight and that they feel embraced by the whole population of Juliaca and Puno who today won the streets for their fallen, who are children of all the people of Peru and are martyrs of the whole Latin American and world working class.

Together with them there were also **the wounded and relatives of those killed in Ayacucho and Andahuaylas,** who were present to fight in unity *"against the murderous state"*, because it is one and the same struggle to end this dictatorship in order to achieve justice for all our martyrs.

When the march passed by the Juliaca police station, a strong contingent of police came out to guard this institution, while the relatives and the people demonstrated their hatred against these repressive forces that massacred their comrades in cold blood, shouting *"Murderers, murderers!"*

## The voices of the brave relatives of the martyrs of Juliaca that continue to cry out for justice

On arriving at the Plaza de Armas, a moving tribute was paid to all the fallen, to the shouts of "Justice!" and "The blood shed will never be forgotten!" and a doll of Dina Boluarte was burnt, which was applauded by all those attending.

Today the people of Puno stood up again, while the Stalinist bureaucrats of the CGTP, who betrayed the revolutionary insurgency of the masses and dedicated themselves to negotiate with the murderous Dina, were conspicuous for their absence.

In spite of and against all the treacherous leaders, the masses of Juliaca and all of Puno won the streets because they do not forget their martyrs.

Therefore, today they returned to the struggle surrounding their own with solidarity, the brave comrades of the "Association of Martyrs and Victims of January 9" who have been leading the fight for justice for each of the 80 comrades murdered in all of Peru for revolting against this coup govern-

ment, the entire Fujimorista regime and its bosses the US imperialists.

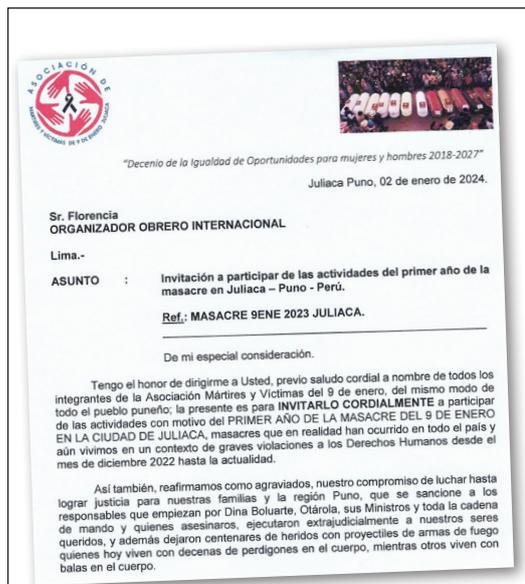

Today we have been able to participate and be part of this huge day of strike and mobilization of the masses of Puno, where the flame of the struggle against the dictatorship is still burning. **In Puno the forces have once again stood up to fight to resume the revolutionary insurgency in all of Peru and to march to Lima again and defeat the government of Boluarte and the coup regime of the US military bases, settling accounts with all the traitorous leaders who gave up the blood shed by our martyrs.**

We very much thank the honour of having been able to accompany the worker and peasant families of the Juliaca Association, who have opened the doors of their homes to us, and all the indomitable people of

Puno. Our commitment is to continue fighting together alongside them and to continue the struggle to unify the working class and the exploited of Peru with the workers and peasants of all Latin America, the US and the world, to confront as one fist the bosses of murderous Dina, the US imperialist butchers, who today are deepening their offensive in the whole Latin America and are redoubling the massacre of the state of Israel against the Palestinian masses.

**Trial and punishment for the murderers and repressors of the people! Freedom for and dropping of all charges to all those imprisoned and persecuted for fighting!**

by the bloody coup of Dina Boluarte, the Fujimorista Congress and the generals of the Armed Forces, commanded by the US military bases

*With a huge regional strike all over Puno...*

Thousands of workers and villagers mobilized in Juliaca fighting for justice against the Boluarte dictatorship:

***“Murderous Dina, the people repudiate you!”***

***“The blood shed, will never be forgotten!”***

*Massive concentration in Juliaca in tribute to the martyrs*

## *Correspondent from Juliaca*

On the first anniversary of the massacre by the government of Dina Boluarte and the US, a huge 24-hour regional strike shook the whole of Puno in commemoration of the 18 martyrs of 9 January. Ilave, Puno and other cities dawned covered with mourning flags in homage to the murdered ones and the survivors.
