Ukraine: once more, a revolution betrayed

The Ukrainian revolution is in an alarming situation. European and Russian Stalinism have landed in the Donbass where an armed true dual-power was established by the miners and privates from Kiev who had risen up. The former went there to impose Minsk Pacts policy to be strictly complied as signed by Merkel, Hollande, Putin, Poroshenko and the “pro-Russian” Ukrainian bourgeoisie, with US imperialism behind the scenes. These agreements were signed when the revolution had gained enormous political and military success: miners in the Donbass had begun to conquer the unity with the workers of Kiev, when the latter refused to enter the counterrevolutionary army or went with their weapons to fight alongside Don exploited to the middle of 2014. The pact would reverse this situation and -with the help of the pro-Putin Russian bourgeoisie- convert the military victory into defeat.

Minsk pacts are pacts for the partition of Ukraine: Crimea for Putin, “Novorossiya” (Donbass) to the pro-Russian bourgeoisie and the west and Kiev under the command of Poroshenko, the current president, a puppet of imperialism. Thus they sought to divide the Ukrainian working class and submit it to each one of the bourgeois sectors. Because this counter-revolutionary pact had a clear objective: that the revolution having stood up in the Donbass, with militias of miners and privates, not come to Kiev and the head of Poroshenko rolled down. Thus, with this agreement, they laid the foundation to bury the Ukrainian revolution, a key link in the European revolution, so that it is not combined with uprisings of

workers in the central countries.

On behalf of putting in place an “anti-fascist front”, European, Russian and Ukrainian Stalinism marched to Donbass. There it submitted the working class to nothing more and nothing less than the oligarchs of Donbass and the anti-worker rogue murderer Putin who imposed together with Obama the siege against the uprising by the masses in Donbass.

With the excuse of the “anti-fascist front”, i.e. with this policy of class collaboration, everything Stalinism did was to save fascism.

The fact is the army of Kiev could not recruit soldiers and workers *en masse* to fight the insurgent masses of Donbass. That disrupted their offensive. Kiev Fascist brigades were defeated militarily and when it was raised the unity of the workers of the Donbass and the masses of the rest of Ukraine to defeat the government Poroshenko and its fascist

brigades, quickly Obama and Putin imposed a “ceasefire” with the Minsk pact.

Kiev troops were already defeated, and fascist brigades were exposed to a heavy defeat; it was time to crush them and unite the entire Ukrainian working class against Poroshenko to defeat the IMF and end hunger and misery.

Under the orders of Stalinism all militias were topped which refused to accept this shameful pact. Suspiciously, some leaders of theirs as Mozgovoy were killed in the very rearguard, in the Donbass.

Stalinists called to make a new fictional nation in the Donbass, “Novorossiya”. They saved Kiev’s fascists and Donbass oligarchy. They disbanded the militias and transformed them into new Republic of Novorossiya’s regular army under the direct command of the bourgeois factions of Donbass. Thus they were in charge of destroying the combat organizations of the masses for the struggle.

Ukraine was split. Putin had already plundered a part of it when grabbing Crimea. The working class was divided. The cry of “MAY THE USSR RETURN!” was thus drowned. Today the masses of Donbass are suffering a military siege and an economic embargo.

Obama, Putin and IMF stomped Ukraine and distributed it among themselves. Stalinism made for them the “dirty work” in the Donbass, where the labor movement and the miners went so far as to proclaim their goal and their struggle to recover the USSR and Soviet Ukraine.

These counterrevolutionary agreements, like Obama-Castro pact or the Geneva pacts have been prepared against the revolution and the world working class.

We already witnessed it with Obama’s visit to Cuba, where the surrender of the Cuban revolution, its conquests and all the Latin American revolution was sealed.

In Geneva it was agreed to hold the dog Bashar, so that he in turn supported by the Russian aviation, crush the Syrian revolution into a bloodbath. Meanwhile, the Europe of Maastricht has trapped thousands of refugees in camps that have nothing to envy to the Warsaw Ghetto and Auschwitz established by Hitler.

In Minsk Ukraine was split and all its fractions were subjected to the infamous pact where the butcher of the Russian steppes, Putin, is presented by all Communist Parties of the world as an ally of the workers, when in fact he is their biggest executioner.

Putin is continuity of Kolchak, old white counter-revolutionary troops attacking the USSR. He is not an ally of socialism, but its greatest enemy and liquidator, and the European and world Stalinism is his most faithful servant.

The Ukrainian revolution had a clear program to trigger revolution like wildfire throughout Europe of Maastricht and Russia, “MAY THE USSR RETURN!” This cry that terrorized imperialism, is which they do not want to hear again, and to bury it they are wearing their best proven agent, Stalinism, which has experience in surrendering revolutions as the

USSR in ‘89, and today Cuba.

A huge betrayal hangs over the heroic revolution of Ukrainian workers, but still the last word has not been said.

The last word remains with the working class of Ukraine, Russia and Europe. The last blow of the last battle has not yet been delivered.

The defeat of the Syrian revolution, its strangulation and the siege laid to it have strengthened butcher Putin at a time when the global economic crisis has generated a wave of hunger and unemployment against the Russian workers, who in defensive strikes are revolting against the butcher of Moscow.

Putin closes ranks with Obama and Merkel to choke and strangle the Ukrainian revolution. The Greek CP and unions support the anti-worker government of Syriza, as also the “new left” as well as PODEMOS in the Spanish State and old recycled Stalinists save at every step the battered Maastricht political regimes.

But the last battle of the Ukrainian working class has not been waged. The French general strike and the struggle to defend the 35-hour workweek re-open new conditions for new mass offensives throughout Europe.

To do this, the working class must break the fences, the counterrevolutionary pacts and the sinister policy of submission to the bourgeoisie that the treacherous leaderships have imposed.

Despite the siege to and the parti-

tion of Ukraine, the claim of the working class in that oppressed nation has not been silenced: “Out with the IMF! We want bread, dignity and jobs!”

Before new defeats of the masses settle down, the whip of capital will gather the exploited together in their claims so they go out and fight.

The ruling classes of Europe have not yet succeeded in uniting the links in their chain of domination that have been dislocated.

Its agents in the labor movement act in that sense, but the incredible suffering of the masses prevent them from re-weld these links, because that suffering reopens at every step new attempts to struggle by the exploited. Paris youth and the French working class have sent a gust of fresh air to dispel such betrayal to and sellout of the masses.

So the last battle has not been fought.

It is a task of life and death that the masses get rid of the Stalinist monster strangling Ukrainian and European revolution, the same as yesterday surrendered the worker states of Eastern Europe and the USSR.

The renegades of Trotskyism hold up that monster and support it worldwide, in unions of Greece, the Spanish State, in Italy, bowing to its feet in the French CGT, painting red counterrevolutionary butcher Putin, and holding up the dog Bashar in Syria...

Amid these heavy fighting and bitter

partial defeats of the European working class the conditions will emerge to refound the Fourth International of 1938, because the cry still continues being heard among the Ukrainian, eastern European and Russian masses: "May the USSR return!" The only party that is fighting for that is the Fourth International.

WITH THE MINSK PACT THEY SEEK TO DISARM, ENCIRCLE AND CRUSH THE REVOLUTIONARY MASSES OF DONBASS AND THEREBY DEFEAT THE UKRAINIAN REVOLUTION AND PREVENT ITS SPREAD TO EUROPE

Minsk Pacts, signed in September 2014 and February 2015 by Merkel, Hollande, Putin, Poroshenko and the "pro-Russian" bourgeoisie, with US imperialism behind the scenes, **were the counterrevolutionary response to the onslaught of the masses, to prevent them from unifying into a single fight, to disarm their militias and crush the revolution that threatened to come to Kiev**, and thus isolate this revolution in the making from the Greek and European revolution.

This covenant was no "peace agreement"; it only granted Kiev the time it needed to rebuild its army, which had been foiled by the masses, as an army of occupation trained, financed and equipped by NATO. Peace of imperialism and the jailer Putin is the peace of the cemeteries for a torn and divided Ukraine, one full of misery and

despair. (See box "Under the boot of imperialism ...")

Ukraine was divided. But this partition did not start with Minsk agreements, but with murderous Putin snatching for himself the Crimean Peninsula, a territory that imperialism gave him in return for the services fulfilled and those this hitman should still honor. **After the counterrevolutionary agreements of Minsk partition of Ukraine deepens through demilitarized zones, creating a fictional republic in the regions of Donetsk and Lugansk**, one besieged by hunger, with no electricity or gas and under siege by the bombings of Kievan troops. With this partition of the Ukrainian nation, they sought to subdue and bow down the working class to each of the bourgeois factions, either to the white Russians in Crimea, to the pro-Russian bourgeoisie in the Donbass or to that in Kiev, to prevent the working class from gathering together in one and the same fight (as it was doing) to cap it all by taking Kiev.

Borders throughout Ukraine are again under control of Poroshenko's counter-revolutionary army, while hitman Putin covers it the rear from Crimea and Russia, guaranteeing the total siege of the masses of the Donbass.

There, with the policy of submission to the Russophile bourgeoisie with the popular front, deceiving and lulling the masses with the scam of a fictitious independence, **the plan progresses to disarm the militias and**

achieve their integration into a regular army, which will be- as agreed in Minsk-in the future merged with the "white" fascist army of Kiev. And the more they subject the miners' vanguard to the bourgeoisie in the East, and everyone is settled who refuses to abide by the counterrevolutionary pacts -with Stalinism acting as a fifth column-, the more **fascism heads up with its gangs terrorizing the workers going to fight in the West, and prepares to crush blood and fire this heroic revolution.**

Crimea belongs in Ukraine! Obama and NATO handed it over to Putin, as a favor and reward for acting as gendarme of the revolutionary uprising of the masses in Ukraine and all the oppressed peoples of the East.

Out with the Great Russian military base in Crimea! Out with the counterrevolutionary White troops of Putin, the hitman of NATO and partner of Citibank! He is prepared to disarm and crush the Ukrainian revolution as soon as he concludes his business with imperialism, as he did yesterday in Georgia, Chechnya and throughout the Caucasus and the Balkans.

STALINISM AS A SHOCK FORCE SUSTAINED BY THE ENTIRE EUROPEAN SOCIAL-IMPERIALIST LEFT, FORMED A REAL FIFTH COLUMN AGAINST THE DONBASS INSURGENT MASSES TO DEFEAT THE UKRAINIAN REVOLUTION FROM WITHIN

Enormous counterrevolutionary forces have concentrated to encircle the masses revolting in Ukraine, because **the Ukrainian revolution is a hinge revolution, which puts on the agenda the unity of the European working class against imperialist Maastricht and the struggle for the restoration of dictatorship of the proletariat under revolutionary ways in the former USSR and Eastern Europe.**

European and Russian Communist Parties have sent their "internationalist" brigade members to the

Biriukov y Markov, CP members and new leaders of Ghost Brigade that entered to dissolve it

Donbass, who entered the most combative sectors of the workers' militias to ensure compliance with the counterrevolutionary plans of Minsk, involving the disarmament of the masses and safeguard the private property and business of the whole bourgeoisie and imperialism. So they concentrated their forces to dislocate and break the miners' Prizrak (Ghost) brigade which had called for unity with the workers of Kiev and to ignore the counterrevolutionary pacts that the pro-Russian bourgeoisie of the Donbass signed in eastern Ukraine. Therefore, from the battalion 404 (stronghold of Stalinism) and Interunit (the unit of "internationalists" of the Communist Parties) ensured the integration of Prizrak militia into the regular army of the pro-Russian bourgeoisie, as stipulated by Minsk agreements.

Brigade Prizrak (Ghost) which houses mostly miners and workers in the region, has been literally taken over by Stalinism, which announces and imposes the disarmament of the militia and their integration into the regular army, and acceptance of the provisions in Minsk ... unilaterally, since Poroshenko, supported by imperialism didn't at all stop the fire and nothing good has come for the people of the region following the agreements. The peace they want to impose on Don Region rebellious masses is a peace of the graveyard!

They fired Prizrak Brigade independent base units, leaving the top of Stalinist generals integrated into the officer caste of 14th Battalion of Territorial Defense and the "Republic of Lugansk" 4th Brigade. An open confession of guilt: they have co-opted whoever they could to the regular army (offering a wage and social security, a "luxury" in devastated Donbass), delivered weapons and thus run Minsk counter-revolutionary plan strictly. Therefore they disarmed anyone who did not want to get into this plan. They themselves are saying that "in any restructuring, there is always somebody to suffer". In "Stalinist Novorossiia", blacklists and the disappearance of those who do not undergo this plan

October 2014: rank and file soldiers of Kiev refusing to fight against their brothers of Donbass

have become commonplace.

Disarmament of the militias and their integration into the regular army of the pro-Russian bourgeoisie aim at reconstructing the bourgeois state that had been totally disrupted by the masses in their revolutionary breakthrough, when all the bloody government of Kiev could enlist were the fascist gangs, since the children of the workers and peasants in the region had refused to fight against their brothers and sisters in the Donbass. This sinister plan would culminate with the high officers of the "Republics" of Donetsk and Lugansk merging with the murderous caste of Kiev in one and the same army that guarantees business and properties of the entire Ukrainian bourgeoisie and imperialism.

With the same old treacherous policy of "anti-fascist front" used back in the '30s, Stalinism, supported by the renegades of Trotskyism -the SWP and NPA did it openly- made a common front with Putin and the pro-Russian bourgeoisie in Donbass, telling the masses that the latter are their "allies" and their enemy is "fascist Kiev". So Stalinism has put Donbass exploited falling to their knees before the "democratic allies" who meanwhile agree with the "fascist foes" in disarming the masses, at a time when attacks against the region have not stopped and the siege on East Ukraine -like that imposed on Madaya, Aleppo, Homs, Zabadani, etc., in which Putin bombed Syrian masses to support fascist Al As-

sad- seeks to breaking through hunger and massacres the will of the masses who continue to resist in the last ditch.

Every month Stalinism gathered Communist Parties across Europe together to support the Covenant of Minsk, murderous Al Assad, assassin Putin ...whom they wanted to cover as "anti-imperialist"... (those agents that kill without fear of reprisal on account imperialism!); now it has enlisted and sent its "brigadistas" traveling from all European countries to take the militias and submit them to the bourgeois governments of the East and the counter-revolutionary Minsk agreements.

Imperialism needs disorganize and encircle the masses, to disarm and end up defeating the revolution. And it uses its best proven agent: those who yesterday delivered the October Revolution today planted the American flag in Havana and fulfill the role of gravediggers of the Ukrainian revolution. **Get out the hands of Stalinism of the Ukrainian revolution! For courts of the miners' movement and trade unions to investigate, prosecute and punish the murders and disappearances of the vanguard and the left wing of Donbass militia!**

The imperialists, at the same time they take hold of their Stalinist agent to enforce the subjugation of the masses to the pro-Russian bourgeoisie, prepare Poroshenko's fascist army forces and their paramilitary gangs-and if necessary, also the white troops of Kolchak-Putin, to drown this revolution in a bloodbath.

While the Ukrainian masses cry “We want the USSR back!” because they know that only in this way they can eat and have a job; the Stalinist wastes -as the most fervent guarantors of the subjugation of the masses to Minsk agreements-, oppose to that the fictional republic of “Novorossiya” (confined to a strip of land in Donetsk and Lugansk regions). The “Novorossiya” of Stalinism cannot be no other thing that a triply exploited 4th hand colony, without any right and with all repayment obligations, such as to the IMF. It’s the same isolation, siege, starvation, misery, imperialist looting and gunfire today other exploited already have in the region.

Stalinism and the pro-Russian bourgeoisie usurp the just national and anti-imperialist sentiment of the masses in Donbass, because in the region every worker knows that if the plan of Kiev progresses, the mines will be closed (while their jobs and lives are intimately linked to them). From there, a Marxist can recognize the defense of “Novorossiya” by the exploited does not have the same meaning for the bloody pro-Russian bourgeoisie. So he alerts the proletariat over the bourgeoisie and Stalinism having invented the “Republic of Novorossiya” to break the revolutionary unity of Ukrainian exploited; thus they could be who run business with the major imperialist banks and also with the bourgeoisie which Poroshenko controls in Kiev- through the companies and banks they control.

We must tell the truth to workers, as bitter it may be. The most you can get from Putin’s and Russian/Ukrainian

oligarchies’ “Novorossiya” is poverty they are now suffering, and worse attacks ahead, since this anti-worker pro-Russian bourgeoisie applies and will apply the same IMF plans hated Poroshenko is applying. For no sooner they finish their businesses, they will start the closure and conversion of the mines that are still standing. **The only way to defend the mines, wages and work in the Donbass is breaking with the bourgeoisie of the East -which ties the interests of the working class to its business- and winning the unity of the workers’ ranks from all over Ukraine to finally finish standing up and succeeding revolution in Kiev, sweeping the government Poroshenko and breaking with imperialism!**

**WITH THE SIEGE ON AND BETRAYAL
OF THE UKRAINIAN REVOLUTION THEY
WANT TO PREVENT ITS WAR CRY AND
REVOLUTIONARY STRUGGLE FROM
FINISHING SPREADING ALL OVER
WESTERN EUROPE AND RUSSIA AS A
STRING OF A SINGLE REVOLUTION**

European labor aristocracies and bureaucracies and social-imperialist parties were careful and take good care of keeping the Ukrainian revolution isolated from the struggles of the Greek, Spanish, French, German proletariat. They have been the guarantors of the submission of the European working class to imperialist Maastricht.

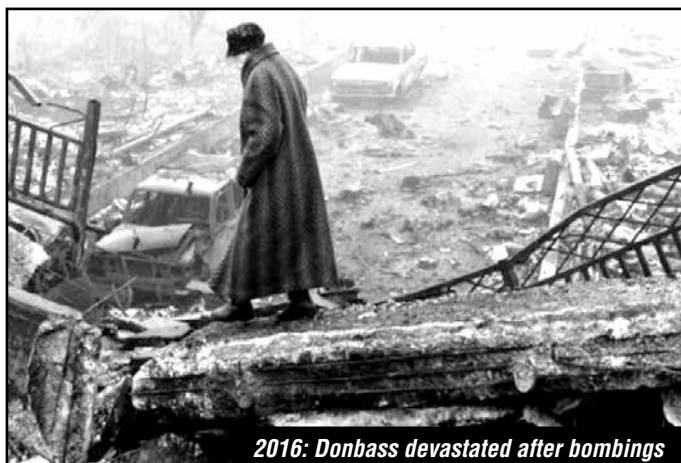

Greece told the masses that we must support Syriza and today Tsipras downloads worse attacks than his predecessor Samaras while maintaining the vanguard youth behind bars and thousands of Syrian refugees crammed into real concentration camps. In Spain they saved the lives of the monarchy and buried the demand of the Republic of outraged

“Our dreams do not fit in their ballot boxes”. Moreover they set up new traps and electoral turnouts like PODEMOS party (the Spanish Syriza) -which is careful not to question one iota of the existence of the monarchy- and the referendum of the Catalan bourgeoisie. In France they put the French working class on its knees at the foot of “Charlie Hebdo” to convince the proletariat that their enemy is not the imperialist bourgeoisie but the ISISnow returns to fight in the streets paralyzing the country with massive general strikes against labor flexibility, (in spite of that the French workers now return to fight in the streets paralyzing the country with massive general strikes against labor flexibility). In Western countries, the treacherous leaderships hide the fact that the enemy is at home; they seek to pass the worst enemies of the workers as their allies, and their class brothers in the colonies and semi-colonies as their main enemies.

The role of Stalinism and the “New Left” was to subject the masses to the bourgeoisie one to one in each country and thus dislocating all the links in a single, European, revolution, at one and the same counterrevolutionary chain. They did so in Maastricht’s Europe and in the Ukrainian revolution. The renegades of Trotskyism extended them the red carpet, and applauded and supported these counterrevolutionary actions.

They should explain why they have submitted the militia that refused to accept the covenants of Minsk and countered local governments, the regular army, making support of the “Republic of Novorossiya”. And they must also explain what happened to Mozgovoy who was found murdered in an unsolved case-; he was the commander denouncing the Minsk agreements as a trap and the pro-Russian bourgeoisie as part of the oligarchy that had nothing to do with the people’s struggle. They should explain what happened to anyone who was opposed to this plan because he refused to die starved and bombed in “Novorossiya” ghetto.

The Ukrainian revolution raises

2016: Donbass devastated after bombings

what the program and the way is to achieve the European revolution stand. The demand for wage and decent jobs unifies the workers' ranks across Ukraine, Spain, Greece, Germany ... and Russia. Because in Eastern Europe and Western Europe the enemy is the same: imperialist Maastricht and US imperialism.

Meanwhile, more than one million refugees crowd the borders of Western Europe looking for a piece of bread and a future for their families, fleeing the slaughter and miserable lives to which they are subjected throughout the Middle East. They were welcomed by the Greek, Spanish, etc., working class, though abandoned by all European organizations that keep a complicit silence towards the atrocities that refugees suffer in the same way that they leave aside the thousands of Ukrainian immigrants in the Europe of Maastricht that are enslaved and made to do the worst jobs. Bureaucracies and labor aristocracies fell off from the fate of the proletariat of core countries, of the most exploited sectors; in this case, from the immigrants, who are the slave labor reserve in Europe -and thus prepare a black future for the proletariat of the imperialist countries. The imperialist pirates give the same treatment to native workers and refugees, tearing up their last conquests. **One class, one struggle!**

At the same time, the global crisis is severely hitting the Russian proletariat.

The fact is, when the price of oil began to return to 2002 levels, Russia's economy with its GDP made up 50% from oil income, crunched. Murderous Putin did not hesitate to throw the crisis over the masses, through layoffs, wage cuts, or directly unpaid salaries. That is why the Russian working class demonstrated its discomfort turning to the streets in protest days. Such important ones that even the US imperialist bourgeoisie newspaper itself, the New York Times, in its issue of January 23, 2016, stated in dread: *"there sound in the industrial cities poems and legends of those revolutionary times warning the new Russian bourgeoisie: Eat pineapples, chew partridge; your days are numbered, bourgeois!"*.

Putin, Hollande, Poroshenko and Merkel

These movements of the Russian working class are a breath of fresh air for the exploited in Ukraine and all former Soviet republics of Eastern Europe. **And they show that the invention and the subsequent imposition of "Novorossiia" are an attempt to expropriate the Ukrainian revolution and the demands of the exploited: "May the USSR return!" which is already beginning to be heard in Moscow's Red Square. No more lies! With "Novorossiia" who again comes is hated Yanukovych -Putin's friend-, repaying the IMF a fraudulent debt!**

The Russian proletariat must finish revolting! It has to assume its internationalist responsibilities, starting by joining the exploited in Syria, Ukraine and former Soviet republics of Eastern Europe and Eurasia! It must defeat the butcher Putin, who has massacred the Syrian masses on account and by order of imperialism, in the same way as yesterday he massacred in Chechnya and Ossetia, among other nations oppressed by the "great" Russia! This is the fight that has already begun! **If Putin is victorious in the counterrevolutionary attack in Syria, as it seems to be doing, he will be strengthened enough to deepen the attack he is just discharging against the Russian and Ukrainian exploited and the nationalities oppressed by Russia.**

Ukraine and Greece are the two weakest links in the chain of imperialist domination. The struggle of the working class in the Spanish state was controlled by the social-imperialist left of

PODEMOS that as Syriza in Greece or Hollande (attempted to do) in France, threaten to be the ones to do the "dirty work" of defeating the masses for the imperialist bankers. But that is still far from happening, as evidenced by the general strike and mass political struggle that has begun throughout France.

Through the enormous revolutionary battles of the proletariat of these countries, the revolution threatened to enter fully into Europe, as a string of revolutions, one and the same revolution from Portugal to the Russian steppes. This is the only real breakthrough for Ukrainian and Greek revolutions completely stand up. The future that awaits the French, German, English, working class, if that perspective does not succeed, is none other than the Greek and Spanish hungry masses, as we are beginning to see with the French law of labor flexibility. They will lose their labor gains one after the other. The global crisis does not give peace and capitalist pirates have decided that the masses are who pay for the cost.

The slaughter of the Syrian masses and 47 euros monthly salary of Ukrainian proletariat are neither more nor less than a warning and blackmail for the world proletariat. "Either you accept increased working hours and the conditions I impose upon you, or that (Syrian and Ukrainian's) is the future that awaits you" We cannot allow it! One class, one struggle from Portugal to the Russian steppes!

OUT POROSHENKO AND IMF! DOWN WITH THE MINSK PACT OF OBAMA, PUTIN, AND STALINISM!

STOP SUBMITTING THE WORKING CLASS TO THE EXECUTIONERS!

OPEN THE ROAD TO THE WORKERS AND SOLDIERS FROM DONBASS TO KIEV!

**THE RENEGADES OF TROTSKYISM
ONCE AGAIN AT THE FOOT OF
STALINISM TO SUBDUCE THE MASSES
TO THE BOURGEOISIE, ENCIRCLING THE
EUROPEAN REVOLUTION AND SILENCING
THE GENOCIDE IN SYRIA**

The renegades of Trotskyism have shown the cold shoulder to the heroic Ukrainian revolution, so enabling Stalinism to direct and disarm from within the revolution. Currents of the European left as the English SWP, French NPA, Antarsya or EEK (sister party of PO Argentina) in Greece, have rendered homage to Stalinism, sending delegations or letters of support to the conference their parties performed by Ukraine, these same conferences where voting support agreements Minsk, as one performed in Lugansk 8 and May 9 last year or those occurred in Greece, England and other European countries.

Since the outbreak of the global economic crisis, when the exploited began to battle against the attack of the imperialists, the liquidators of the Fourth International called to fight for a “more social Maastricht” poisoning the minds of the workers into believing

that *easing off the “adjustment”* was possible. As we said, they held a policy of class collaboration with which subjected the masses to the bourgeoisie, thus dividing the workers’ ranks country by country, laying siege to the revolutionary processes. They endeavored to present the butcher Putin, hitman on behalf of imperialism, as *anti-imperialist and friend* of the masses of Donbass, while he fled Ukraine as a rat and unceremoniously was massacring the martyred Syrian masses. **They are posing the greatest enemies of the masses as their friends and concentrated all their strength to hide that there is a heroic revolution for bread that has been bloodied in Syria and the masses brutally massacred, starved and isolated by the treacherous leaderships of the world left.**

The “new left” composed of Stalinist waste and former Trotskyists was laid by imperialism to isolate and strangle the revolutionary offensive of the exploited in Ukraine and Greece, in turn isolating them from the entire Europe, and to hide the heroic Syrian revolution as well as the brutal genocide led by imperialism to drown her -from the world prole-

tariat. Thus the imperialist bandits recruited all their agents to prevent the revolution from standing up in any of the core countries and become the spark that ignite the dry grass in the region, as in the great revolution of the Maghreb and the Middle East.

The role of the liquidators of the Fourth International has been essentially legitimizing the nauseating corpse of Stalinism, which yesterday gave China, the USSR, Vietnam and East Europe to imperialism in ‘89, so today comes again to surrender Cuba and crush the most advanced centers of the world revolution.

All liquidators of Trotskyism were part of that “holy alliance” that told the world masses that “the enemy was the ISIS” in the Middle East and Europe. That legitimized imperialism to support murderous Bashar who massacred the Syrian revolution ... and legitimized governments of imperialist Europe to crush, cast and imprison thousands of refugees ... It strengthened Hollande -who run a self-serving bombing in Paris- by putting the blame on ISIS, so then he could attack the conquest of the 35 hours’ working week of French workers.

They are the renegades of Trotskyist who supported the Stalinist fifth column that went on to defeat from within the revolutionary masses of Donbass in Ukraine, and are also those who support and sustain the treacherous counter-revolutionary policy of the Kurdish Stalinism, the PKK, that by the Bashar dog slaughters the Syrian masses.

They silenced and support the pact between Obama and Putin in Minsk; conceal the Geneva Conference that ensures Al-Assad’s perpetuation in power until slaughtering even the last of the rebels in Syria or until they are surrendered by the FSA bourgeois generals.

They openly support or silence and

2015: miners of Kiev protesting

cover up the Castro-Obama pact surrendering Cuba and the entire Latin American revolution to US imperialism.

Between revolution and counter-revolution there is a river of blood, as there is between Trotskyism and Stalinism.

The liquidators of the Fourth International and Stalinism have one party that is none other than the World Social Forum and its current representative: social-imperialist “new left” of Syriza and PODEMOS, advocates to imperialist multinationals and bankers’ business dealings.

Militia men of Donbass

**TO THE COUNTERREVOLUTIONARY
PACT OF IMPERIALISM AND THE
BOURGEOISIES WE MUST OPPOSE
A TRUE PACT OF THE WORKING CLASS
-ONLY TRULY “NATIONAL” CLASS-
AND THE EXPLOITED, FROM THE
DONBASS TO KIEV**

It has become clear that there will be no peace for Ukraine exploited if the counterrevolutionary army of Kiev and its fascist gangs, massacring every step the workers’ struggle is not defeat. The only way to end the war that imperialism and its lackeys have declared to the Ukrainian working class, massacring more than nine thousand men, women and children, and which has left Ukraine and especially the regions of Donetsk and Lugansk utterly destroyed, is ... BY WINNING IT.

In “Lessons from Spain” (1936) the founder of the Red Army, Comrade Leon Trotsky, argued that “(...) *the workers and peasants are not able to secure victory but when fighting for their own emancipation. Under these conditions, subjecting them to the leadership of the bourgeoisie is to ensure in advance their defeat in the civil war.*” **Victory will only be possible if workers, who have no ties with imperialism-and starting with Donbass miners militias- take in their hands the direction of the war and re-weld the unity of the exploited from all over Ukraine, against Stalinism and**

its popular-front politics of class collaboration with the Russophile bourgeoisie and Putin.

To the counterrevolutionary alliance between imperialism and the native bourgeoisie, **we must oppose a true alliance between the working class (the only truly “national” class) and the exploited, from the Donbass to Kiev**, expropriating the expropriators and putting all mines, factories and steel mills to produce under workers’ control. To this we must sweep away the government Poroshenko and his IMF plans, breaking with the IMF, expropriating the Ukrainian bourgeoisie and oligarchy, recovering for the rural poor black soil agricultural lands of Ukraine that yesterday Yanukovich and today Poroshenko have given in exchange for crumbs to the imperialist grain corporations like Cargill and Monsanto.

Ukrainian exploited, from east to west, have everything in common. In their struggle they face the same enemy, imperialism and its plans of hunger and misery; and they have the same demand: bread, jobs and decent wages to end the misery of 47 euros a month. **The revolution that began in Ukraine is a revolution of the workers who refuse to accept poverty wages and to survive in a maquila (sweatshop) pillaged by imperialism!** The last word has not been said, because under those same demands that motorized the revolutionary struggle of the Ukrainian

masses, coal miners and steelworkers in Pavlograd, Lviv, Volyn and all those regions of Ukraine under control of Kiev government now return to combat . **It is necessary and urgent that the masses in Kiev again disrupt the fascist army, preventing the levies and calling for the demobilization of the privates, and break out the siege around Donbass! By self-defense committees of workers against the attack of the fascist gangs!**

**NATIONAL CONGRESS OF
WORKERS’ ORGANIZATIONS
IN STRUGGLE AND
INDEPENDENT UNIONS
WITH DELEGATES FROM
ALL OVER UKRAINE!**

Let’s put up the power of the councils of workers and soldiers from all over Ukraine to make socialist Ukraine come back to crush the fascists, expel imperialism and expropriate the capitalists!

We must break with the bourgeoisie!

To unify the ranks of the Ukrainian working class and fight for bread, jobs and wages, the unions of the self-proclaimed republics of Donetsk and Lugansk must break right now their subordination to the bourgeoisie and call and send delegates to this congress.

It is necessary to take the political leadership of the war in our hands:

**Out with Obama, Putin, IMF, EU,
UN and NATO from Ukraine!**

**Out with the Russian military base

Why were killed the commanders of the brigades of the Donbass that faced Minsk Agreement of Putin and Obama?

“36’s Internationalists” Brigade that went to the Donbass; Kurdish PKK; Greek KKE and all the Communist-Stalinist parties in Europe must explain what happened

Currents as the SWP and the NPA supported the meeting in the Donbass all those Stalinist parties had to secure the Minsk agreements.

They have an obligation to demand the Communist parties to be accountable and explain what happened with the resistance of the Donbass which was slaughtered from the back.

Plotnitsky and Zajarchenko (presidents of Lugansk and Donetsk)

The workers of the world want to know this May 1st why in Lugansk all the commanders of the brigades that fought the betrayal of their struggle in Minsk were killed. There Putin and Obama agreed to a “ceasefire” in Ukraine and in such way they saved the fascists of Kiev from a defeat at the hands of the worker masses of the Donbass.

We saw the Stalinist parties acting as a FIFTH COLUMN and assassinating POUM and anarchist CNT fighters during the Spanish civil war.

THE “36’s INTERNATIONALISTS” BRIGADE TOGETHER WITH PLOTNITSKY, LUGANSK PRESIDENT MUST EXPLAIN AND BE ACCOUNTABLE FOR THE MURDER OF ALL THOSE THAT DENOUNCED THE SIGNATURE OF THE SELLOUT MINSK AGREEMENT AS A BETRAYAL TO THE REVOLUTIONARY STRUGGLE OF THE DONBASS MINERS.

WHO MURDERED TREACHEROUSLY IN THE REARGUARD THE

FOLLOWING FIGHTERS:

- ALEXANDER BEDNOV, COMMANDER OF THE “BATMAN” BRIGADE AND MEMBER OF LUGANSK 4TH BATTALION

- PAVEL DREMOV, COMMANDER OF THE “COSSAK” BRIGADE, AND HIS CLOSEST AIDE, EVGENY ISCHENKO

- ALEXEI MOZGOVOY, COMMANDER OF THE “GHOST” BRIGADE

THEY WERE ACCUSING PLOTNITSKY AND ZAKHARCHENKO (Donetsk’s President) FOR TREASON AGAINST THE DONBASS MINERS AS THEY HAD SIGNED THE MINSK AGREEMENTS.

IN UKRAINE THERE IS AN HEROIC REVOLUTION AGAINST BOTH IMPERIALISM AND THE PRO-RUSSIAN OLIGARCHS, WHICH IS DROWN IN BLOOD BY FASCISM AND STALINISM

THEY HAVE TO EXPLAIN... THEY HAVE THE OBLIGATION TO EXPLAIN!

Murders, disappearances, imprisonment and torture in Donbass of the Minsk agreement

In the Donbass a tragic situation is experienced today. The population endeavor a terrible cost of life and the constant siege by the Poroshenko puppet government Kievan army. There are attempts to crush and sell out the revolution in which the heroic miners of the Don region raised to their feet, in defense of their work and their families, against the plans of the IMF and the EU. To achieve this, imperialism has concocted the agreements of Minsk

signed by Germany, France, Russia, Poroshenko for Kiev, and Plotnitsky and Zakharchenko for the republics of Lugansk and Donetsk respectively, in September 2014 and February 2015, with US imperialism behind the scenes. This counter-revolutionary pact aims to divide the Ukrainian working class using demilitarized zones, so that revolution in the Donbass that won over their siblings from Kiev (who refused to go to a fratricidal war, ran to fight on the side

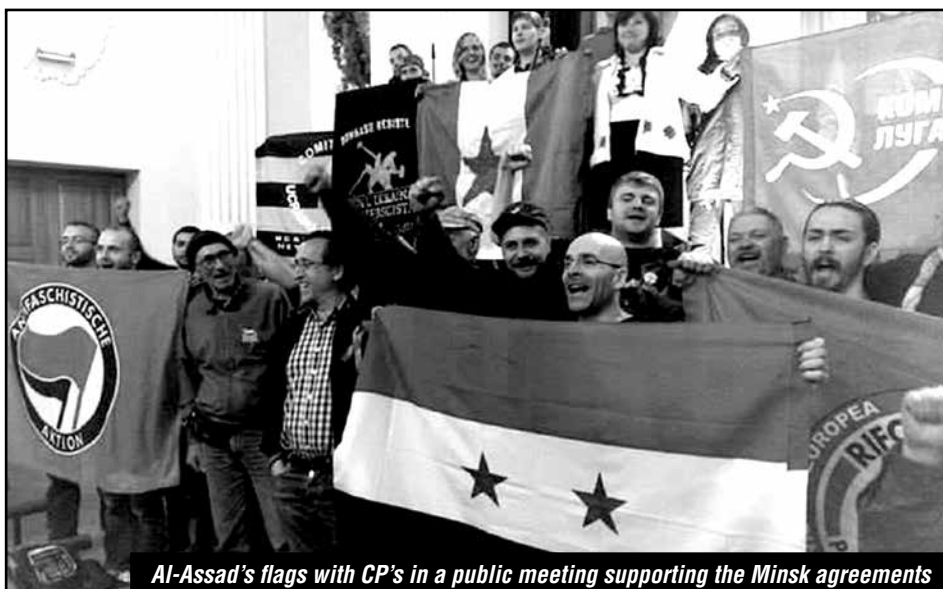

of the Don and confronted IMF plans) did not reach the capital city and take the head of hated Poroshenko

Massive counter-revolutionary forces were concentrated since then to enforce the Covenants of Minsk laying as a central point disarming all ‘illegal’ militias and their entry into the regular army.

The Communist parties traveled from Russia, Spain and throughout Europe

for conferences on behalf of “anti-fascism” and the fulfillment of the Minsk agreements, conference that were also attended by Renegades of Trotskyism as Antarsya or to which they sent their greetings as the EEK, both Greek parties; but not only that. Members of the European Communist parties inserted into and took a clean sweep of the militias of the miners in the Donbass, as is the case with the battle-hardened Ghost militia, which today have joined Lugansk regular army.

To carry out this task, however it was necessary to do away with any hint of opposition to the bourgeoisie and pro-Russian oligarchy and the Minsk agreements. Blacklists, imprisonments, detentions, torture and disappearances, killings have become commonplace in the Don region. Let’s take a look at some of the most widespread cases of this true purge against opponents that it is experiencing.

Al-Assad's flags with CP's in a public meeting supporting the Minsk agreements

Four leaders who publicly denounced Plotnitsky (considered “the man of the Kremlin” in the region) and Zakharchenko as “traitors” after signing the compacts

of Minsk appeared brutally murdered along with their companions in “friendly territory”.

Aleksandr Bednov was the Commander of the Batman Brigade of Lugansk and member of the 4th Battalion of Lugansk. Brigade name was due to it carrying out intelligence work; its members moved as nocturnal bats. Thus, they investigated and knew how Plotnitsky was trafficking “humanitarian aid” from Russia and even how he was selling coal from the Don region to Kiev. In December 2014 the Plotnitsky Government had issued an arrest warrant for Bednov and some members of his militia.

January 1st, 2015 Bednov was killed along with six of his men near the village of Georgievka, in the South of Lugansk. Two cars were carrying Bednov and his militiamen when they were attacked in an ambush by grenade launchers, according to some survivors to the attack.

The Batman Brigade was dissolved after the killing of its commander.

Aleksandr Bednov

Days later, on January 22nd 2015, **Evgeny Ischenko**, Mayor of Pervomaik and right hand of Pavel Dremov, also was killed.

Ischenko, such as Dremov had filmed videos, from the bombed-out areas of Pervomaik in which he denounced the representatives of the republics of Lugansk and Donetsk as traitors for their signing of the agreements of Minsk, exclaiming loudly that those agreements were a disgrace, for being a lie and pacts with the murderers of the Donbass people. Showing the atrocities of the bombing, the shattered bodies, he called to confront the Governments of Donetsk and Lugansk for having signed the fake “ceasefire”. These videos circulating on the web are from December 2014, days before his assassination.

Evgeny Ischenko

Pavel Dremov was a bricklayer worker before the conflict unleashed in Ukraine. He then became the Commander of the Cossack Brigade and was seen as the “Savior” of Stakhanov, a town in Lugansk close to Alchvesk, where he was based. He was killed on Saturday, December 12, 2015 on the road linking Pervomaisk and Stakhanov, when a bomb exploded in his car. While he died instantly, the driver of the vehicle died way to the hospital. In December 2014 he had recorded a video titled “Plotnitsky, resign!” where he denounced the theft and sale of coal by Plotnitsky and his Entourage to Kiev, and fraud in the votes - that those who did not vote, did not receive their pensions. He also said that only one of 10 trucks of humanitarian aid had reached those who needed it, while the rest had been sold.

He called the presidents of Donetsk and Lugansk as “shady businessmen”, dealing with money, power and the cease-fire together with the Board in Kiev.

The same as the above mentioned murdered fighters he denounced the Minsk Covenants and Plotnitsky for surrendering to Kiev.

Pavel Dremov

Alexey Mozgovoy was the Commander of the Ghost Brigade which bore that name since it was always considered as having disappeared, though it always returned to combat. Commander Mozgovoy was a fervent opponent to the Minsk agreements who also denounced them as a betrayal to the insurgent people. He denounced these agreements had only granted the battered army of Kiev that was losing the war the time needed for it to rearm. In addition, he was a great opponent to pro-Russian Governments of the republics of Donetsk and Lugansk and Ukrainian and Russian oligarchy. Mozgovoy fought for the union of the Ukrainian people and for the revolution to succeed in Kiev. All his positions are reflected in fervent public speeches during which he even denounced those “who are in Government (but) located very far from the battlefield”. Alexey Mozgovoy was killed in an ambush between the town of Mikhaylovka and Alchevsk, Lugansk-Alch road. His car exploded because of a bomb and was then machine-gunned on May 23, 2015.

Alexey Mozgovoy

Days earlier, the “Anti-fascism, internationalism, solidarity” Forum had met in his city, Alchevsk, which included Communists from all over the world, and even forsaken of Trotskyism as (Greek) Antarsya participated with their delegations and EEK (sister party of Argentina PO) sent its warm and brotherly greeting. There, the main decision taken was the requirement of compliance with the agreements of Minsk that Mozgovoy opposed.

Prizrak (Phantom) Brigade was composed in its majority by mine worker militiamen and was notable for being one of the more hardened in the fight against the fascist army of Kiev. For example it played a central role in the battle of Debaltseve where they had surrounded some 10000 soldiers of Kiev in January 2015. It was Putin who gave the order that a humanitarian corridor be opened at that time “so the soldiers return to their homes with their families”

and Zakharchenko, the leader of the Republic of Donetsk was who did take this order out, when the militias of the Don had a true military victory and advancing territorially. A month later the second counter-revolutionary Minsk Pact would be signed to curb the advance of the rebels increasingly winning the support of their siblings from Kiev.

The Ghost Brigade had one 404 Battalion composed by Communists, but also by the Interunit, ‘internationalist volunteers’ unit. After the murder of Mozgovoy, members of these units took a literally clean sweep of the Ghost Brigade and began to call to the fulfillment of the Covenants of Minsk, with the Russian commander Markov in its head. Base units were also dissolved and they integrated the Ghost Brigade into the regular army; from official releases they stated that “in all restructuring there are losses”.

RUSSIA

April, 2016

Putin and “Great Russian” bourgeoisie fled like rats, leaving Ukraine isolated; they fenced the heroic miners of Donbass who were fighting alongside the workers of Kiev, against looting IMF and NATO boots that crush Ukraine

Shouting ...

***“Putin, bourgeois, your days are numbered!”
Russian working class begins to face them.***

***Bring back the USSR
without Stalinist bureaucrats that sold it out***

Putin is being tested once again, as a hit man in the region. Putin was humiliated by imperialism completely, stripped him his control in Ukraine, leaving only the control of the Crimea as a favor and part payment for services he did and continues doing and he must comply; while today, after months of doing the dirty work of massacring the masses in Syria on behalf of imperialism, Obama once again extended the term of the seized accounts of the Russian bourgeoisie abroad.

The white Russia who drowned in a bloodbath the hungry and fenced Syrian masses, is a cowardly bourgeoisie who fled like rats when Kerry stepped into Ukraine, a lap kitty of the imperialism that keeps all their accounts abroad frozen for more than a year ago and does the “dirty work” of massacring the Syrian masses, to subordinate together with. the pro-Russian bourgeoisie of the east, the insurgent masses of Donbass to the Pacts Minsk and if this is not enough, it crushes with his counter-revolutionary army as He did yesterday in Georgia and Chechnya. If the white army of Putin gets out victorious and unscathed from his slaughter to the tormented Syrian masses, the status quo is strengthened and Putin will emerge stronger as gurka gendarme in the region.

Obama and Putin

Since mid-2014, when the fighting in eastern Ukraine were red hot, Putin withdrew all Russian troops from the Ukrainian border, leaving isolated and encircled the heroic miners of Donbass fighting alongside the workers of Kiev, against IMF looting and NATO boots, **because the base soldiers were passed to fight alongside their brothers in the Donbass, jeopardizing the business of the Ukrainian and Russian bourgeoisie.** This vile coward Putin fears the revolution that questioned his power more than the borders siege of imperialism

Between September 2014 and February 2015, when advancing mining militias from the east and with the support of their brothers in Kiev who refused to join the army inflicting him a tough defeat, Putin and the pro-Russian bourgeoisie of East Ukraine signed, with US imperialism- behind the scenes - Minsk counterrevolutionary pacts by which, as we said, Kiev regained control of borders deepening the siege against the masses, and breaking and disarm masses. They together with Stalinism were the guarantors to break the masses unity and disarm them.

Imperialism and their dogs Al Assad, Putin and the murderous Hezbollah troops, redoubled the siege by starvation and shelling to slaughter until the last people of the Syrian resistance and crush this great revolution. In all Syrian cities and villages besieged without food, electricity, water or gas, Assad's genocidal forces commanded by imperialism discharged a real slaughter operation against the masses, bombing up to rubble. This is the perspective that they prepare for Ukraine, where the masses of the regions of the Don are already suffering those same hardships.

If Putin could play this role was because until now the Russian proletariat was crushed and dominated under his boot with a regime of terror. Against what they say the Stalinists and renegades of Trotskyism, there is no hint of democracy, much less anti-imperialism. White Russia of Putin who massacred the Syrian masses on behalf of imperialism, is also the gendarme of the imperialist transnationals in Eurasia. Putin and the parasitic Russian oligarchy, who have come up from the Stalinist clique that stole the riches of the peoples of the former USSR and handed them over to Reagan Citibank!, remain crushed the Russian working class, while with massacres against the peoples of the Caucasus countries (Chechnya, Ossetia, Georgia) as perpetrated today in Syria, guarantee business to its imperialist master in the Muslim former Soviet republics (the stanes) as Uzbekistan, Turkmenistan, Tajikistan, Kyrgyzstan, Kazakhstan and Azerbaijan. **Russian workers must rise up to stop the massacre against Syrian people! If Putin emerges victorious from this carnage against the Syrian people, it will be strengthened as gendarme in the region, both in Ukraine in Eastern Europe and also against its own people which begins facing him.**

Now Russia is being shaken by harsh strikes and "illegal" demonstrations - because in Russia are prohibited by the constitution. Pensioners, truckers, teachers and industrial workers go out to the streets to fight in defense of their wages and against cuts. The crisis hits Russia and the fall in oil prices to US\$ 25 halved the Russian budget. The murderer Putin did not hesitate to throw crisis to the masses, layoffs, wage cuts, or di-

rectly with salaries not paid. That is why the Russian working class demonstrated its discomfort in the streets with protest demonstrations. Such that the Yankee imperialist bourgeoisie itself, in the New York Times, in its issue of January 23, 2016, with dread stated that *"poems and legends of those revolutionary times sound in the industrial cities warning the new Russian bourgeoisie: Eat pineapples, chew partridge; your days are numbered, bourgeois!"*. **The unity of the workers' ranks on either side of the border is on the agenda and is a necessity to conquer the demands of the Russian and Ukrainian masses.** Putin knows this and therefore for the first time openly, criticized Lenin and the policy of the revolutionary USSR, the right to self-determination of oppressed nationalities by Great Russia in a public speech, because it undermines the pillars of the Russian state.

Today is at the order of the day state again that the Ukrainian revolution must get into the "Great Russia", where workers have wages as miserable as the Ukrainian workers. These movements of the Russian working class, are a breath of fresh air for the exploited of Ukraine and all former Soviet republics of Eastern Europe. And show that the fictional "Republic of Novorossia" is an invention of Stalinism to subordinate the unruly masses to Putin and the pro-Russian bourgeoisie of East Ukraine and ex-

propriate the Ukrainian revolution with their war cry "Bring back the USSR", which is already beginning to be felt in the Red Square in Moscow. No more lies! With "Novorossia" who returns is the hated Yanukovich - Putin's friend - to pay the fraudulent debt to the IMF, while isolation, siege, starvation, misery, imperialist looting and gunfire that have already exploited today, deepen in the region.

The Russian proletariat must rise up until the end! It has to assume its internationalist responsibilities joining Syrian exploited masses, the people of former Soviet republics of Ukraine and Eastern Europe and Eurasia! If they finish crushing the heroic Syrian resistance, it will be a tough defeat for the world working class and Russia in particular! The Russians workers must defeat Putin butcher who slaughtered the Syrian masses, in the same way as yesterday massacred in Chechnya and Ossetia among other nations oppressed by "The Great" Russia! This is the fight that has already begun!

Imperialism knows and trembles at the possibility that the Russian proletariat rises up and unifies behind the exploited masses throughout Eastern Europe. Why? Putin is being tested once again as a hit man in the region. At the conference in Minsk the role of disarming the masses of Donbass was assigned to Putin, his

agents shoot to death the leaders of the combative militias in order to liquidate the left wing of the resistance, and slaughtered the last trench of Syrian resistance. And Putin offered to be the one who covers Yankees' withdrawal of Afghanistan. **The uncrowned tsar Putin wants to earn the right to be the gendarme on behalf of imperialism throughout Eurasia.**

US imperialism has remained treading all the Russian border and is leading the way for his re-colonization, an issue that should define historically, if the proletariat does not prevent it with a successful socialist revolution. As we stated in the book *Syria under fire*: *"Ultimately, the fight for" new markets "conquered by capitalism in 1989 and its re colonization will cause huge confrontations, trade wars, political and in the future (if the proletariat does not prevent it) military wars between the various imperialist powers. The victorious imperialist powers (of the trade war, NdR) need get rid of intermediaries in the plundering of the riches of Russia, of its gas and oil, and exploitation of Chinese labor. The Atlantic Pact and Pacific Pact, are agreements of the imperialist powers to encircle those countries and transform them in colonies or semi colonies."* (P. 87) The Citibank is the largest bank in Russia, and controlling their finances. Germany is the largest foreign investor, especially

in the control over Russian gas supplies to Germany and Europe. The great inter dispute opened between the US, France and Germany is to see who, besides gas pipelines supplying Russian oil to Europe, keeps control of Russian military industry business. **Ukraine is a key element of imperialism on the way to the recolonization of Russia because they are the coal mines and steel of the Don Basin which supply the Russian military industrial complex and if the US keeps their control, they also would control the supply of that industry. Against the counter-revolutionary pact of imperialism and the native bourgeoisies we must oppose a true alliance of the working class and the exploited!**

For the working class lives, imperialism must die! Let the base soldiers, Russian workers and peasants rise up alongside the oppressed Muslim peoples and the Caucasus, against white oppression of tsarist Russia of Putin, who starves his own people to death!

Let them rise up all together with Syrian resistance to make roll the head of genocidal butchers Bashar and Putin, like the masses did in Libya with the head of the murderer Khadafy!

Let the revolutionary Red Army back, expurgated of white officers executioners of Syrian masses, Chechen masses, Ossetian masses, and grave-

digger of the Ukrainian revolution! Out the hands of Kolchak-Putin of Ukraine! Out with the Russian military base in Crimea which is preparing to massacre the exploited masses who refused to subordinate themselves to the Minsk pacts! Putin and his lackeys are nothing more than the gravediggers of Ukrainian revolution and the murderers of Syrian resistance, on behalf of imperialism!

By the restoration of the dictatorship of the proletariat under revolutionary ways in the former Soviet republics! Let the USSR councils of workers, peasants and soldiers back again without Stalinism traitors, betrayers of the October Revolution of 1917 and the international socialist revolution!

Both in Eastern and Western Europe, the same enemy: reactionary Maastricht's UE.

In the imperialist powers: The enemy is at home!

As Oakland dickers did yesterday, we must paralyze the imperialist war machine!

For European socialist revolution! For the Socialist United States of Europe, from Portugal to the Russian steppes!

May Day in RUSSIA

A meeting of the butcher Putin and the Russian Communist Party:

**They sold out the workers state in 1989,
the gravers of the Ukrainian revolution and
executioner of the Syrian masses**

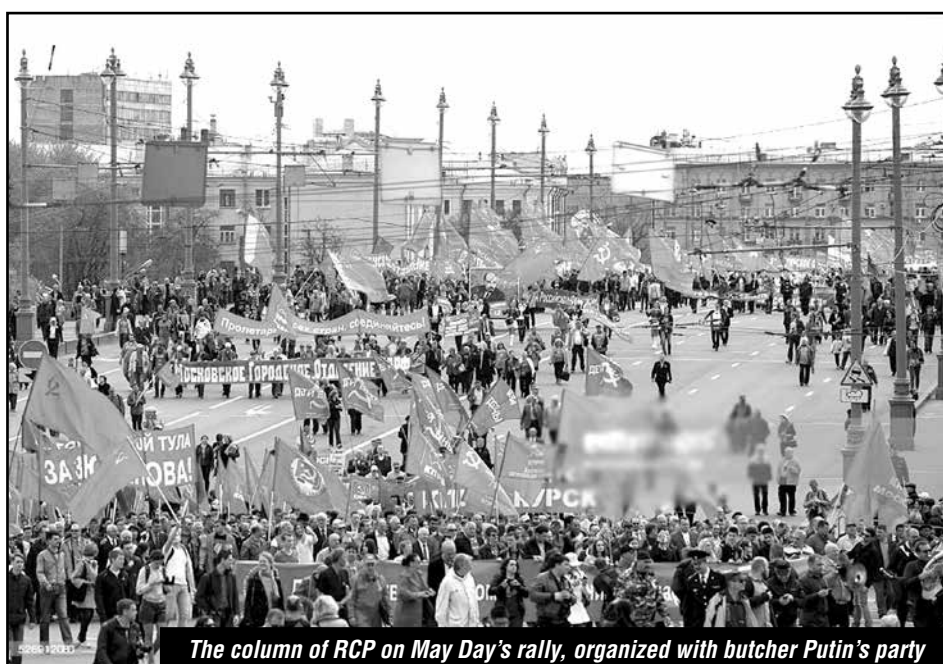

This May Day, the Russian CP was one of the organizers of the main event along with Putin's United Russia party. In that demonstration, it dominated the tricolor flag of the Russian Federation (the same of the Russian Empire and that is part of the banner of Putin party).

The CP called in this meeting to support and celebrate Putin's foreign policy in Syria and Ukraine. That is, support the butcher on behalf of imperialism that does the dirty work of slaughtering the masses in Syria and burst from the inside at the forefront of Donbass miners.

It is not surprising since the same CP in Ukraine plays the role of enforcing strictly the agreements of Minsk establishing disarmament and making the regular army with all militias facing plans of submission with IMF and EU.

These are the Communist Parties who yesterday gave the USSR and all the workers states to imperialism in '89 and now hold the Minsk agreements because they have to drown the cry of the masses of Donbass proclaiming "Let's make USSR to come again!" as the only solution in order to eat and live dignity. These Communist Parties have traveled from Russia, Spain, and throughout Europe to enforce these plans, and since then, the insurrectionist Donbass is full with blacklists, disappearances, imprisonment, torture and murder in the back in the territories that Kiev does not controls; while the murderer Poroshenko continues to plague the region of Don.

For example the Russian Martov organized the battalion of the Communist Ghost Brigade. The Mozgovoi commander, who opposed to Minsk pacts and fight for the unity of the Ukrainian working class, was killed in circum-

The column of RCP on May Day's rally, organized with butcher Putin's party

stances never clarified in friendly territory. Thereafter the CP commanders command the Ghost Brigade and guarantee their integration into the regular army in Lugansk.

The Stalinists pose of "anti-fascists" to divide the Ukrainian working class, and perform dozens of conferences around the world, supported by the renegades of Trotskyism, **and are the biggest advocates and supporters of the biggest fascists: the dog Bashar, the butcher Putin that slaughter nearly 500 thousand workers and peasants in Syria and confined 10 million people to real concentration camps (doing the dirty work of imperialism); and even the fascist Poroshenko with which they did not hesitate to sign the Minsk Agreement.**

This May Day in Russia was the meeting of the butcher Putin, to support at a time when Russia, after years of recession, the economy returns to creak deeply by the

overwhelming drop in oil prices that has impacted terribly the pockets of workers and early 2016 there were demonstrations by doctors, teachers, so on.

Since 2004 throughout the Russian Federation, the constitution states that any demonstration involving more than one person must be authorized by establishing fines amounting up to 2 years' salary, or 15 days imprisonment or community work for those who demonstrate without permission from the authorities. In 2012 and 2014, reaching sentences of up to five years in prison for repeat offenders increased. Even those who perform one-person protest (called pickets one, in a public place with a sign) they have imposed fines and prison terms of up to three years. And people who publicly call to anything that might "violate the integrity territorial of the Russian Federation" can receive up to four years in prison (and up to 5 if appeals are made through media such as Internet). Today human rights groups recognize at least one hundred political prisoners in Russia.

Now Putin announced the formation of a new national guard would respond directly to Kremlin (and not the Ministry of Interior), led by a former bodyguard of Putin. This "praetorian guard" (as they called some Russian news agencies) **aims to repress social protests and thus can shoot with live ammunition against demonstrators and used stun grenades** to disorient the crowd. In addition to the drills that made (coincidentally to quell a protest against rising prices) used a procedure called "kettling" consisting **cordon off protesters with barbed wire**. The document of procedure says that "the most ac-

CP flags together with flags and shields of the Russian Federation, symbols of Putin's party -United Russia- and the Russian Empire

tive protesters are arrested and taken to the police station for further proceedings."

Of course, officially, the goal is to fight terrorism, arms trafficking and organized crime, when in fact the hitman Putin, at a time when he should throw the burden of the whole crisis to the workers and oppressed masses of Russia, does nothing but get ready to smash bloody any struggle or revolutionary uprising of the working class and the exploited Russians. Putin prepares to treat their own working class in the way he treats the tormented Syrian masses! That's the truth!

This is the Russian "democracy": a true terror regime of the hitman Putin.

This is the "anti-imperialist" Putin that Stalinism and the renegades of Trotskyism want to present as allies of the masses: the slaughterer of the Syrian masses,

the gravedigger of the Ukrainian revolution, which crushes with his boot the Russian working class and is the gendarme of the region; the murderer of the masses of Georgia, Ossetia and Chechnya.

The Communist Party, his faithful ally in the greatest outrages against the working class.

Flags of United Russia in the Red Square at May Day

For a May Day internationalist and to struggle for the socialist revolution!

Workers International League (WIL-ZIM) welcomes all workers, unemployed workers, the oppressed poor, students and all various groups who fight for workers justice to the May Day Commemorations.

As we gather today in May Day Commemorations, the workers in Zimbabwe, South Africa suffer the same scarcity and outrages of the workers of the entire Africa and working class at worldwide level.

Today Zimbabwe's loss-making state-owned enterprises owe workers hundreds of millions of dollars in unpaid salaries. The workers in various sectors have gone for more than 12 months without salaries!

IT IS TIME to stand up to fight for our job, our bread and life of our families.

We want Jobs for all and a living wage! Equal work for equal pay of equal value!

For that, IT IS TIME to confront determinedly the imperialism that plunders our nations and with their governments kill, repress, and stave workers in the entire tormented Africa and world.

To be able to eat, it is necessary to fight like the Marikana workers. Their demands are the ones of all the worker movement in the region and the World working class: salary, decent job, and against the treason of all the leaders that speaking in the name of the unions and worker organizations only sell out workers to their executioners.

We need to fight like in Marikana, setting up fighting organizations with direct democracy of the exploited and conquering a salary according to the family basket with decent job for all. We need to unify in order to fight against the slaver bosses, imperialism and its lackey government that represents them.

To be able to eat and have decent work we need to conquer a public works plan, based on a progressive tax

on the big fortunes and super profits of the imperialist companies and their bankers. A public works plan to build decent houses, schools and hospitals for the workers and the poor.

To be able to eat and have decent work we need to expropriate the expropriators of the people. We need to finish with the trade secret and open the accounting books of all the transnational mining companies, the big landowners and the slaver bosses. This way we'll see the super profits that they get with the starvation and plunder of the workers and the poor in Zimbabwe.

This is the road that leads us to unify the working class to prepare and organize what we really need: a general strike to hit as a single fist against the exploiters, their governments and political parties.

It is time to set up a **true National Congress of employed, unemployed workers, militant youth and poor peasants** to fight together unite our forces against the democracy for the rich, we need the democracy of those below to win! Let's unite, regroup and have a powerful working movement to

defeat the government of Mugabe and his minions, the transnational companies and the slaver bosses! **This is the true power we must set up.**

IT IS TIME for the working class in Zimbabwe, united with the workers across Africa, to impose a workers plan of way out to the catastrophe to which the exploiters and plunderers of our nation took us.

We must expropriate without compensation and under workers' control the Anglo American and other transnational banks that loot Africa! Expropriation without compensation and under workers control of productive land and all the properties of the native bourgeoisie!

Out with the English crown, US, French and German imperialism from Africa!

Out with all military bases in the tormented Africa!

Out with Zuma and the ANC of South Africa! Out with Mugabe's government of Zimbabwe! Out with all government agents of imperialism in the continent!

For a revolutionary government of workers and poor peasants!

In this fight we cannot continue fighting divided country by country. Capitalists are organized internationally in their attacks and offensives against the oppressed ones. We need the international unity of the working class throughout South Africa and worldwide.

In this May Day: Let's break down the borders! Enough of collaborationist leaders who subject us to the bourgeoisie country per country!

The union bureaucracy and the reformist parties who speak on behalf of the workers have sold out every struggle of the working class, as for example with the leaders of COSATU in South Africa or in Cuba, where the Castro brothers sold out the conquests of the revolution to imperialism.

These leaders prevent us from fighting with our class brothers in the rest of the world. They surround our struggles and revolutionary offensive, as they did in Europe. They divided the workers of Greece, Spain, France, etc. so it will not stand up the European revolution. We prevented us from fighting with the workers and exploited of Middle East and the Maghreb (north of our continent), now in Syria the masses suffer brutal slaughter due to upraise for bread, dignity and the same demands for which we fight in Zimbabwe.

This May Day, standing up with the Syrian masses who continue to resist against the slaughter of Al-Assad and Putin commanded by imperialism! We are with the workers and youth of Egypt who took the streets against the ferocious military dictatorship of Al-Sisi! We are with the oil workers of Kuwait who carried out a massive strike!

Our best allies are the working class and youth of the great imperialist metropolises, as American workers who continue fighting for a wage of \$15 an hour and workers and rebels youth in France who carried out a general strike and took streets fighting the Hollande's government, the 5th French Republic and its plan to attack the 35-hour work week and all the workers' conquests.

From the rebel France, the youth movement *Nuit Debout* occupied the

Place of the République in Paris and throughout France has appealed the world working class to make an international meeting on 7 and 8 May and 15 May to conquer an international fighting action against the 1% of imperialist parasites.

This May Day, let take as ours and vote for that call to the international solidarity from all workers' and student organizations of Zimbabwe, South Africa and throughout Africa. And above all, together, let's organize a great international solidarity action the weekend of May 15!

The workers in South Africa are the heart of the European working class: colored immigrant workers working in the imperialist Europe are doing the worst jobs, while those same imperialist countries plunder all the wealth of our nations.

In the squares of Paris, a voice was heard, the one of the Senegalese workers who spoke in defense of refugees running away from the slaughter and counterrevolutionary wars, stating that if they reach Europe, they are going to be the illegal immigrants of the future, as they now are the workers of the southern Africa.

We are all immigrants and refugees! In Greece there are thousands and thousands of refugees. The "left" government of Syriza has confined them to concentration camps which are true prisons, while keeping imprisoned more than 50 young fighters who stood and fought for their rights.

If the imperialist powers of Europe manage to defeat the refugees who face repression, deportation and confinement in concentration camps, the European working class will be treated the same or worse than them.

No deportations! No to the refugee camps; decent housing for all! Open borders! Papers and citizenship rights, labor and union rights to refugees and immigrants! Jobs for all!

This May Day and beyond this day,

Teachers strike in Zimbabwe

we shall continue fighting for justice. We demand justice on Itai Dzamara disappearance and to get to the truth of the matter! We demand justice for our miner brothers killed in Marikana! Trail and Punishment to the murderers of Masaar Ba, one of our brothers from Senegal in Argentina! "Stop the war on black America!" Trial and punish against the killers of Michael Brown, Freddie Grey and the African American youth in USA!!!

We demand freedom to the Angolan activists who were sentenced between 2-8 years in prison! Freedom to the Greek rebellious youth prisoners! Freedom to the more than 7,000 Palestinian prisoners! Acquittal to the oil workers Las Heras (Argentina)! Freedom for all political prisoners in the world!

This May Day, we must say, as every day, our demands for bread, wages, decent work, health and education are not possible to be achieved within the framework of this rotten imperialist capitalist system. To be able to eat and have a decent life, it is necessary to fight for the victory of the socialist revolution, the working class taking power and expropriating the expropriators of peoples! For the oppressed to live, imperialism must die!

Zimbabwe and all Africa will be socialist or remain as a colony enslaved by the City of London and Wall Street!

For the United Socialist States of the Black Republics in central and southern Africa!

WORKERS INTERNATIONAL LEAGUE-ZIM

The place of the Chilean working class isn't in the march and ceremony organized by the pro-imperialist bourgeois Government of Bachelet, her pro-bosses Ministers and the strikebreaking union bureaucracy of the CUT

THE PLACE OF THE CHILEAN WORKING CLASS IS NEXT TO THE STRUGGLE OF THE WORLD PROLETARIAT, not to the feet of their executioners

Let's stand up next to the working class, poor peasants and martyred common people of Syria, submitted to the fierce genocidal counter-revolutionary coup of Assad and Putin on account of Obama!

400 thousand dead, 10 million displaced people and refugees, 1 million 200 thousand in Europe, 100 thousand exploited languishing on the border between Greece and Macedonia... **They are today's "Chicago martyrs"!**

Let's stand up next to all the workers and oppressed peoples of Maghreb and Middle East against the murderous dictatorship of Al-Sisi in Egypt, against US imperialism's invasion of Afghanistan and attacks on Libya, against the Geneva Conference that organizes the worst massacres against the oppressed masses from NATO and the United Nations!

For the destruction of the Zionist - fascist State of Israel!
Long live the Palestinian Intifada!

Let's stand up next to the working class and the hungry masses of Venezuela getting to the streets to face the "Bolivarian" Government of Maduro that applies the worst plans against workers on account of imperialism! Open the way to a new "Caracazo"! Down with the farce of the "Bolivarian revolution"!

Let's stand up against the capitalist restoration in Cuba
by the Castro brothers!

Let's stand up next to the French working class and youth which take the

Students marching in Santiago (Chile)

Place de la Republique in Paris against this 1% of parasites who are looting, starving and massacring the exploited in the world! For a Paris Worker Commune which will only be victorious when succeeding all over France, expropriating the capitalists and demolishing imperialist Maastricht and its States and regimes, that plunder the oppressed peoples in Eastern Europe and worldwide! Open the way to the Ukrainian miners proclaiming "May the USSR return"!

Let's stand up next to the miners in Peru, Bolivia, Argentina and Colombia and organize a single struggle to stop the attack of imperialist mining companies and their servant-governments of the region, along with South African miners and the miners in Donbass, Ukraine!

Let's stand up next to the working class of the Pacific Rim to coordinate a

common fight against the Trans-Pacific Treaty redoubling the imperialist oppression on our Nations! Let's stand up next to the US working class and youth struggling for \$15/hour minimum wage!

Let's stand up for the freedom of all political prisoners in Chile and the world! Freedom for imprisoned Greek rebellious youth in the prisons of Syriza! Freedom for the more than 7,000 Palestinian prisoners in the dungeons of the State of Israel and the Palestinian National Authority prisons! Acquittal for Las Heras (Argentina) oil workers! Let's strengthen the International Network that stood up to fight for the freedom of all political prisoners in the world!

A single class, the same struggle, a same foe: the MNCs, imperialism and their murderous governments and regimes!

While in Europe social-imperialist left demands from imperialism “Real democracy” to curb the scourge of capital... In Chile the bureaucracy of the CUT, directed by the Chilean Communist Party and New Majority demand “more democracy, reforms now, new Constitution”, showing that they are part of the same international policy seeking to expropriate our combat.

This May 1st we do not march with the bureaucracy of the CUT or the bourgeois Government of Bachelet, the CCP and pro-coup DC, enemy of the workers.

In Chile: Everybody to CIUS' May Day meeting!

We call to participate in the event organized by the CIUS (Initiative for Trade Union Unity Committee) and dozens of combative labor and student organizations that call for an act under the slogan “For a militant working class May Day” against the Government and the bureaucracy of the CUT “for the unity of the labor movement”, as expressed in their call.

We Trotskyists of POI-CI will participate with our banners and our program next to the Chilean and world working class. We will participate under the following banners: for organizing a Revolutionary General Strike, for fighting to forge the worker-student unity, for resuming our revolutionary struggle because we will not allow our “free education for the child of the worker first” and “Chilean copper for the Chileans” demands are sold out or negotiated.

To fight for defeating all the bureaucracy of the CUT and the student bureau-

cracy and flout all collaborators leaderships that gave out our struggle and now submit us to the “dialogue tables” in the corrupt Parliament.

To defeat the scam of the Government and the Pinochetista right wing Parties about “labor reform”, because we workers must organize as we want and re-found the labor movement below upward with the factory committees coordinated by city, region and at the national level, that is, with the Cordones Industriales as in the '70s.

Let's face Bachelet's labor reform dictated by the imperialist transnationals and agreed with Pinochetista right wing, as youth and working class do in France, which are facing “Socialist” Hollande's labor reform on the streets!

To fight against the employers' offensive that is worsening and has raised 9.4% unemployment in Santiago, in addition to more than 55,000 layoffs in the mining industry, and which holds political prisoners in jails, we must return to 2011-2013 fighting and defeat Bachelet's Government, a General Pinochet's “Socialist”, her false “reform” and the civilian-military regime of the right, the Concertacion and the CCP.

Because the path is that of the Cordones Industriales, because already it has become clear that in Chile oppressed and plundered by imperialism, the only solution for the working class and the exploited is the way of socialist revolution, to finally take it to victory and conquer all of our demands with the renationalization of copper without compensation and under workers control.

To do this, from all the worker and student fighting organizations that will meet in

the event convened by the CIUS this May 1, we should realize the cry of “unity of workers” and “worker-student unity” that cannot be so only on one day of the year. It is necessary to conquer that unity immediately. We must move from words to deeds, calling to put up a **National Congress of Delegates from the base** of all workers, militant students, poor peasants, rank and file soldiers and exploited throughout Chile. This is the way to conquer the true **REVOLUTIONARY GENERAL STRIKE** and deal with the Government, the military regime, imperialism and their anti-labor “reforms”. For base assemblies of all fighting organizations for voting delegates and ensure this path of effective unity of the working class and the student movement!

This is the program we will participate with in the combative Act on May 1, while the bureaucracy of the CUT - and its small appendices as the PTR - submit the working class at the foot of their executioners.

Trenches are clear. On one side, those who support Stalinism in the CUT so that never again the Cordones Industriales and revolution return; those who march with the CCP silencing that the Castro brothers have handed out Cuba to imperialism, Obama and transnationals as the AT & T (former ITT), which organized the genocidal military coup of Pinochet; the supporters of bourgeois Governments as of Dilma in Brazil, talking about alleged “coups” while they conceal the real counter-revolutionary blows of imperialism as that by Assad in Syria.

On the other side, those as us that strive to prepare a new onslaught of the Chilean working class to put the Chile of the Cordones Industriales, of socialist revolution, as a bastion of the Latin American and World Revolution.

Under the banners of the 1938 Fourth International! Open the way to the Socialist Revolution!

Chile will be either Socialist or a Wall Street colony!

Chilean working class fighting against imperialist plunder

CHILE - This May Day...

PTR has called to march in defense of PT bourgeois Government in Brazil and to participate in the class collaboration Act with Bachelet's Government, her pro-bosses Ministers and the strikebreakers of the CUT bureaucracy

This may 1 the PTR - as well as its "mother-party", Argentinean PTS, supporting the Government of Dilma and the PT, a pro imperialist bourgeois Government who wants to prove to its imperialist master it can - and is willing to take to the final - a top attack to the labor movement and the exploited masses in Brazil. PTR is calling to participate under the motto of "Against the institutional putsch in Brazil", in the class collaboration march of the Bachelet Government, organized by the bureaucrats of the CUT.

However, the reality is that in Brazil the bourgeois clique that wants to remove Dilma moves within the strict frame of the semi-Bonapartista Constitution with which the country is governed since 1988. This Constitution which will allow opposition bands to apply mechanisms that allow down throwing Dilma from Presidency today is the same one that was used by PT, PSDB and PMDB in the '90s to get rid of then president Collor de Melo by means of an Impeachment.

What happens in Brazil, as in Venezuela, is that imperialism -after having used native bourgeoisies, i.e. the "Bolivarian", as the PT and its governments or the Ks' in Argentina to strangle the revolutionary processes, now comes to bring order to its "backyard". It now encourages the 'right' to perform actions in the streets so that it can press the "progressives" to be which apply the heart of the attack on the conquests of the working class, squeezing them until the last drop of juice, as the "squeezed lemons" of imperialism they actually are. This is what Cristina Kirchner did, what Maduro and also Dilma are doing.

Now, if there were effectively a coup in the works as PTR says, how does it think that coup would be defeated? For the PTR, the right way is through a constituent Assembly! Well, really? Does a vote stop a coup? No call to crush the coup? No call to a Revolutionary General Strike? Do you think a coup can be defeated without a call to expropriate the private property to large transnationals which would be funding the coup? Without calling the rank-and-file sol-

diers to break away from their officers in the armed forces? Without sacking the pro-coup judges and without imposing labor and popular courts?

A putsch is stopped by calling the working class to stop production and to crush the putsch. Coups are stopped and democracy defended with the method of the proletarian revolution.

And PTR can't say there are no conditions for this... PTR is in a common front with the CUT, the landless movement, the homeless workers movement, etc., which perfectly could call a great Congress of workers and peasants to organize the General Strike which can crush the "coup".

Here the concrete point is that where there is a brutal counter-revolutionary coup with 400,000 workers and peasants killed in Syria, the PTR shuts up and silences it. The Syrian masses are still fenced while lackey Dilma is tenderly surrounded and supported by the so-called "Socialists" in the words that are mere opportunists in the facts.

And meanwhile, this may 1, as it does every day of the year, the PTR maintains its "tradition" of involving in an "International Workers' Day " mobilization by the bourgeois Government of Bachelet, the CCP and the coup-ist DC(Christian Democrats), their anti-labor Ministers and the bureaucracy of the CUT. PTR returns to march on a May 1 with a Government that has jailed dozens of political prisoners, redoubles once more its attack on the working class and the exploited masses, and concocts all its "reforms" against workers together with Pinochetista Chilean right; a government that deepens the sellout of the nation to imperialism signing the Trans-Pacific Treaty. Nothing new under the Sun: PTR has long become an appendage of the Chilean CP.

The place of the working class is not in that Act of class collaboration, organized by the "Red Pacos (policemen)" of the CCP, the same ones that handed out Cuba to imperialism together with the Castro brothers!

CHILE

May 5th, 2016

The exploited masses burst with their struggle methods to cope with the disaster who threw the imperialist transnational companies of the salmon industry, which on the misery and suffering of the exploited get huge profits

LONG LIVE THE STRUGGLE OF THE EXPLOITED OF THE CHILOE!

We must generalize the uprising Chiloe revolted to the whole country against Bachelet government, civic-military regime and the imperialist transnational companies

From May 2 artisanal fishermen, workers in the salmon industry and the exploited of the island of Chiloe erupted with protests, barricades fighting, roadblocks and demonstrations to confront the catastrophe that threw the transnational industry. These imperialist companies are throwing thousands of tons of industrial waste, ravaging and devastating all the navy resources in the area, the main resource of the workers' families on the island, who now have no way to survive for the greed of these transnational companies who made huge super-profits based on the unemployment and misery of the poor people of Chiloe.

In this situation, the government of Bachelet, servant of these imperialist transnational companies, had offered a measly bonus "repair" of \$ 100,000 (\$140) which is a mockery. Days later, they changed to \$ 300,000 just for a month and \$150,000 for three more months. Through this the government is negotiating with most unions seeking lower mobilization and roadblocks.

The struggle of the working class and poor people in Chiloe is shaking the whole country. Artisanal fishermen of Valparaiso at the same time held a day of action in support of the poor people of Chiloe, making barricades in Caleta Portales. Meanwhile, the students continue the struggle for free education and is still the struggle of the public officials in Atacama after more than two months on strike.

Chiloe

It is necessary to conquer a fighting coordinator which bringing together all sectors that confronting the civic-military regime and its government, fighting for their demands, while the scab CUT bureaucracy continues to support the anti-worker government of Bachelet. Not a single minute the fight of Chiloe alone! **Everyone to Chiloe to set up a fighting worker-student Coordinator for all our demands!**

**We must generalize the uprising
Chiloe to the whole Chile to conquer
the General Strike!**

Re-nationalization without compensation and under workers' control of all natural resources plundered by imperialism!

Expropriation without compensation and under workers' control of all salmon companies,

**the transnational companies
of copper and the banks!**

Down with the Fisheries Act (law for fishing T N)! Down with the law on the reserved copper for the Pinochetist murderous Armed Forces!

The uprising Chiloe should become the spark to set on fires the revolutionary struggle of the exploited masses to start again the fight of 2011 and 2013.

Enough with the Bachelet government, DC and CP! Down with their "reforms" and "negotiation talks"!

Enough with the Pinochet civic-military regime!
Down with NAFTA and Trans Pacific Trade!
